Full-color, 72-page catalog features everything you need to build, maintain, customize, and accurize an AR-15 to suit your specific needs, plus parts and extras for larger-caliber AR-type variants. The folks here just can't resist the AR platform's unlimited possibilities, so we've included photos of "dream builds" by Brownells staff showing you how much you can do with the products we offer. Whether you use your AR for tactical shooting, precision target shooting, or just keeping down the varmint population on the Back 40, this catalog is for you. #077-100-008CE

Dedicated to the Colt 1911 Auto, clones and other variations - no rifle, shotgun, or "other pistol" stuff. Over 2,900 products you need for building, maintaining, and shooting the most popular pistol in history. Custom builds by well-known pros like Ed Brown, Wilson and Cylinder & Slide, plus our own staff of 1911 experts provide great ideas for your next project gun. #077-100-004CE

Old John Still Has The Right Idea

"It's unwise to pay too much . . . but it's worse to pay too little. When you pay too much, you lose a little money . . . that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do.

The common law of business balance prohibits paying a little and getting a lot. It can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better." - JOHN RUSKIN

AMERICANSNIPERS.ORG COINS

Support Snipers Fighting Terrorism On Our Behalf

Show your support for military snipers serving our country by purchasing these beautiful brass-finished coins issued by AmericanSnipers.org, a non-profit, all-volunteer organization of police and military snipers. Proceeds from sales of the **Challenge** coin will purchase optics, scope mounts, and other tactical gear not available to snipers serving overseas through regular supply channels. Funds from sales of the **Commemorative** Coin aid families of snipers lost in action. Front of coin bears a representation of the Purple Heart, America's oldest military decoration.

SPECS: Die-struck from brass/copper alloys Four-color enameling. 1 3/4" (4.4cm) diameter.

NEW **BUSHMASTER AR-15/M16 V-MATCH UPPER RECEIVER**

Extra-Strong Alloy For Durability; Fully Machined For Precise Fit

Stripped, A3-style flattop upper receiver is carefully machined to mil-spec or better dimensions to serve as the foundation for a top-quality AR rifle customized to your exact requirements. Just add the bolt/carrier, charging handle, ejection port cover, and forward assist of your choice to complete the upper. Precision machined from a forging of 7075 T6 aluminum that is almost 40% stronger than the alloy used in standard AR-15 receivers, so it stands up to the unrelenting tempo of competition or tactical operations. After machining, a dark gray, non-reflective, hard-anodized finish is applied for strength and corrosion resistance, with a baked-on dry-lube coating inside to reduce wear and ensure exceptionally smooth carrier operation. Integral 5½" long Picatinny rail maximizes the versatility of your rifle by letting you take advantage of the wide variety of optics, red dot sights, and other accessories for the AR platform. 

SPECS: 7075 T6 aluminum, hardcoat anodized, dry-lube finish, matte dark gray. .250" (6.3mm) diameter pivot pin holes.
#100-003-667CE V-Match Upper Rec. 9B162H08 . . . \$ 181.28

NEW **COLT AR-15/M16 UPPER RECEIVER**

Stripped Uppers In A2 & Flattop Styles; Genuine Factory Parts

Build your next custom AR-15 with an original Colt factory upper fully finished and ready for installation. Made from a high-quality aluminum alloy forging machined to precise tolerances for correct fit on Colt lowers and clones. Hardcoat anodized for added surface strength, abrasion resistance, and corrosion protection, with a uniform, matte black finish that matches other factory components and easily accepts alternate finishes. These are "stripped" receivers (except as noted below), so you can select the bolt assembly, carrier, gas key, and other components to suit your specific needs. All models designed to accept spring-loaded ejection port covers. **Carry Handle** models are the classic carry handle configuration of the U.S. military M16A2 rifle. Models for .223/5.56 and 7.62 x 39 chamberings come with forward assist housing and shell deflector behind the ejection port, and are pre-cut for an A2-style adjustable rear sight assembly (not included). 9mm upper does not have shell deflector or provisions for forward assist; accepts original A1-type rear sight. **Flattop** for .223/5.56 rifles and carbines has topside Picatinny accessory rail for mounting optics and red dot sights. White alphanumeric position markers on rail slots aid in removal and reinstallation of sights without loss of zero. Includes factory-installed forward assist and ejection port cover. 

SPECS: Aluminum, hard anodized, matte black. Fits standard Colt AR-15 lowers and clones with .250" pivot pins.

NEW DPMS AR-STYLE .308
LR-308 FLATTOP UPPER RECEIVER

Complete Top End Includes Barrel,
Free-Float Handguard, Bolt & Carrier

Ready to install .308/7.62 NATO upper receiver comes fully assembled with bolt/carrier, charging handle, free-float handguard, gas block, and barrel. Lets you change your LR-308 from a sporter to a match rifle or long-range varmint in just minutes—or build a completely new gun customized to your exact needs. Beefy, thick-walled receiver of extruded 6066 T6 aluminum is hardcoat anodized to military standards for extra surface strength, with a hard, black Teflon coating to resist scuffs and scratches. Free-floated forend of smooth, rigid machined aluminum gives plenty of air space to protect your hand from a hot barrel during sustained shooting. Includes swivel stud and QD sling swivel. All barrels have 1-10" twist for proper bullet stabilization. **Bull Barrel** models have a heavy .920" O.D. barrel with recessed 90° target crown. Snag-free, smooth-side receiver without ejection port cover, shell-deflector, or forward assist; an elevated Picatinny rail allows easy scope mounting without adding a riser mount. Lightweight, aluminum gas block has plenty of metal to withstand the hot gasses from thousands of firing cycles; topside Picatinny rail lets you mount the front sight of your choice, including flip-up models. Available with 18" barrel of 4140 chrome-moly (CM) carbon steel alloy and 7¼" carbine-length forend, or 24" bull barrel of 416 stainless steel (SS) with 12" rifle-length forend. **AP4 Carbine** has A3-style Lo-Rider receiver with forward assist and ejection port cover. 16" USGI-style, light contour barrel of 4140 chrome-moly, with M203 mount cutout, 7¼" forend, and A2-type gas block/front sight tower with bayonet lug and sling swivel. Includes Panther flash suppressor with gas-dispersing helical ports and aggressive, serrated CQB tip.

SPECS: Receiver/Handguard/Gas Block/Charging Handle – 6066 T6 aluminum, anodized and teflon coated, black. Bolt/Carrier – 4140 steel, parkerized, matte black. Barrel – 4140 chrome-moly steel, parkerized, matte black, or 416 stainless steel, natural finish.

NEW SABRE DEFENCE AR-15/M16
TACTICAL CARBINE
UPPER RECEIVER ASSEMBLY

Full-Featured, Reliable, Ready To Run;
High-Strength 7075 Alloy Forging

Complete, M4-style flattop upper receiver comes fully assembled and ready to serve as the top half of a rugged, finely tuned tactical carbine that'll handle the most rigorous operational requirements. Receiver is forged from 7075 T6 aluminum for maximum strength and rigidity—nearly twice the tensile strength of standard 6061 alloy—and includes bolt, carrier, forward assist, shell deflector, charging handle, ejection port cover, and MIL-STD 1913 Picatinny rail. Four-rail, free-float handguard has plenty of ventilation holes to help keep the barrel cool and a continuous upper rail that aligns with receiver rail to provide 13" of uninterrupted rail space for maximum flexibility in mounting a scope or red dot sight. Removable bottom panel allows installation of M203 grenade launcher, shotgun, or tear gas launcher. Rail slots have white, laser-etched alpha-numeric position markers to enable temporary removal and reinstallation of sights without loss of zero. Yankee Hill flip-up front and rear sights are designed to co-witness through many non-magnifying optics. Windage-adjustable rear sight has A2-style long- and short-range apertures; front sight on the low-profile gas block has A2 post, bayonet lug, and sling swivel. M4-contour, 16" barrel of long-wearing chrome-moly-vanadium steel alloy is chrome lined for maximum bore life and chambered in 5.56mm NATO. "Shark gill" flash hider/muzzle brake virtually eliminates muzzle rise for fast follow-up shots; recessed target crown protects the rifling.

SPECS: Receiver – 7075 T6 aluminum alloy, hardcoat anodized, matte black finish. Fits mil-spec AR-15/M16 lower receiver with .250" pivot pins. Barrel – Chrome-moly-vanadium steel alloy, matte black finish. Chrome lined. 16" (40.6cm) long. 1-7" twist. Chambered for 5.56mm NATO. Handguard – 6061 T6 aluminum, hardcoat anodized, matte black. Sights – Steel, Parkerized, matte black.

NEW TKS ENGINEERING AR-15
MACHINED UPPER & LOWER
RECEIVERS

Machined From Billet
For Maximum Strength &
Accuracy

Stripped receiver halves CNC machined from solid 6061 T6 aluminum billet to produce an AR-15 upper and lower of outstanding strength and stability. Extra metal adds rigidity, making these components the perfect platform for a hard-running tactical rifle or a heavy duty, match-grade gun. All holes, inletting, and pin locations have been machined to final dimensions. Add the bolt, carrier, fire-control system, and internal components of your choice to build the perfect custom rifle for your application. Flattop **Upper** includes case deflector and opening for forward assist, plus MIL-STD 1913 Picatinny accessory rail. **Lower** has integral triggerguard milled from the billet with the rest of the receiver to provide extra support between the pistol grip area and the magwell. "Safe" and "Fire" markings at selector switch hole.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black finish. Small-pin, .154" (3.9mm) hammer/trigger pin holes. .250" (6.3mm) pivot/takedown holes.

NEW BUSHMASTER AR-15
LOWER RECEIVERS

Rugged, High-Quality
Machined Forging
For Building
A Custom Rifle

Semi-auto, small pin lower receivers are premium-quality forgings machined to precise dimensions and ready to serve as the foundation of a fully customized tactical, competition, or hunting rifle. Exceptionally strong, rigid 7075 T6 aluminum forging has extra metal in the right places for added strength without unnecessary bulk. Features a beefy, M16A2-pattern reinforced area around the front pivot pin, a strengthening ridge over the receiver extension threads, and a ridge around the mag release button to guard against accidental magazine drop by preventing unintentional button activation. Bead blasted after machining to ensure a uniform, non-reflective surface before application of lusterless black military hardcoat A8625, Type III, Class 2 anodized finish that adds surface strength and resists abrasion. A final, nickel acetate seal coat provides extra protection against corrosion. Available as a complete, fully assembled lower, with fire control system, pistol grip, receiver extension, buffer, spring, and buttstock installed and ready for the upper receiver of your choice. Choose adjustable, six-position M4-style buttstock of high-impact, molded polymer, or fixed, A2 buttstock with "trapdoor" storage compartment just like original USGI rifles. Both stocks include sling loop at the toe. **Stripped Lower** is the perfect companion for Bushmaster Lower Receiver Parts Kit, available separately, and the receiver extension/buttstock system of your choice.

SPECS: Receiver – 7075 T6 aluminum, hardcoat anodized, matte black. Buttstock – Reinforced molded polymer. .154" hammer/trigger pin holes. .250" pivot pin holes. **FFL required for purchase.**

NEW **D.S. ARMS AR-15**
ZM4 STRIPPED LOWER RECEIVER

Precision Forging
From High-Strength
Alloy For Custom
Builds

Stripped, small-pin semi-auto lower receiver is precision machined from an aluminum alloy forging to the same dimensions as USGI receivers to ensure proper fit of components and accessories designed for mil-spec receivers. An affordable platform for any type of custom gun you want to build—from a fast-handling tactical carbine to a match-grade competition rifle. Simply add the upper, fire control components, buttstock assembly, and pistol grip of your choice. Extra hard 7075 T6 alloy gives superior strength and stands up to the battering of thousands of firing cycles; hardcoat anodized surface resists wear and actually adds strength, while providing excellent corrosion resistance. Matte black finish matches most factory upper and barrel finishes. Holes, inletting, and pin locations have already been cut to final dimensions. .154" hammer and trigger pin holes accept the most readily available fire control components, with standard .250" pivot and takedown pin holes.

SPECS: 7075 T6 aluminum, hardcoat anodized matte black. 9 oz. (255g) weight. .154" hammer/trigger pin holes. .250" takedown/pivot pin holes. **FFL required for purchase.**

Drop-In Kit Converts A Stock Lower Receiver To Accept A Sub-Caliber Upper

One-stop, drop-in solution with the parts you need to convert a mil-spec small pin (.154" dia.), .223 lower receiver with collapsible stock to accept a 9mm upper receiver assembly. Kit includes a replacement hammer, recoil spring, and buffer optimized to handle the reduced recoil force of the 9mm Luger round, as well as a Magwell Conversion Block that installs in your rifle's magazine well to allow it to accept Rock River's 25-round 9mm magazines, available separately. To use the Kit on a full-size rifle with fixed A1/A2-style buttstock, install the separately available Delrin® **Spacer** in buffer tube behind recoil spring.

SPECS: **Hammer & Buffer** - Steel, matte black oxide finish. **Action Spring** - High tensile strength spring steel. **Magwell Conversion Block** - Steel with matte black oxide finish and aluminum with matte black, hardcoat anodized finish. Fits CAR-15/M4 collapsible stock models with .154" diameter receiver pin holes. **Spacer** - Machined Delrin. 2 1/8" (5.4cm) long. Fits buffer tube for standard, fixed A1/A2-style AR-15/M16 buttstock. Not included in kit; must be purchased separately.

HAHN PRECISION AR-15
9mm CONVERSION BLOCK

Reliable Feeding With A Host Of Ammo Types; Models For Every Shooting Application

One-piece, machined aluminum block converts AR-15 lower receiver to 9mm. Compatible with all Colt-type, 9mm upper receivers, the feed ramp is cut for reliable feeding with all types of ammo, including hollow point and frangible ball. Roller retention device holds block securely in receiver, prevents accidental release. Hardened steel ejector, feed ramp and bolt hold open give long service life; last-round-hold open feature on bottom-loading model works when used with Colt magazines. Also works with modified UZI magazines but last-round-hold-open will not function. No receiver modification required. **Top-Loading** Block installs from the top of the lower receiver (no hold open feature) and **Bottom-Loading** Block installs from the bottom of the lower receiver.

SPECS: Aluminum, black, matte finish.

BOLT & CARRIER

Machined To Mil-Spec
Or Better Tolerances
For Precise Fit &
Smooth Cycling

Bolt and carrier assemblies provide smooth, efficient cycling and improved reliability in any AR-15 application. Precision machined from the highest quality ordnance-grade steels to current military—or higher—tolerances, then hardened and magnetic particle inspected to ensure there are no microscopic cracks or flaws that could lead to premature failure. **Bolt** made from high-strength Carpenter 158 steel alloy is heat-treated for exceptional surface hardness to handle the battering of thousands of cycles. Includes extractor, gas rings, ejector, pins, and springs. **Carrier** of 8620 steel is chrome lined to ensure smooth bolt function and superb wear resistance for years of reliable service. Comes with chrome-lined carrier key installed.

SPECS: Steel, parkerized, dark gray, matte finish.
#100-003-605CE Complete Bolt Assembly, 9B56H00 \$ 64.00
#100-003-604CE Complete Bolt Carrier, 9B92H50 99.95

SMITH ENTERPRISE AR-15/M16
MATCH BOLT CARRIER

Hard-Chromed For Less Friction, Easier Cycling

True, match-spec bolt carriers increase cycling efficiency for greater dependability and less chance of malfunction. Machined to military specs, heat treated and hardened to Rc 58, then hard-chrome plated for a much lower friction coefficient between the upper receiver and carrier. Inside surfaces of bolt recess are polished and also hard-chromed for a better gas seal and less carbon build-up. Includes hard-chromed gas key and stainless steel screws.

SPECS: 8620 steel, hard-chrome plated, silver color.
#851-110-015CE AR-15 Match Bolt Carrier, 1E125D97 \$ 150.00
#851-110-016CE M16 Match Bolt Carrier, 1E125D00 151.00

DEDICATED 9mm CONVERSION BLOCK - Designed, manufactured, and field-tested specifically for law enforcement personnel who require an AR-15/M16 dedicated to 9mm ammo using Colt and modified Uzi-type magazines. Integral "leg" hooks over the top of the lower receiver to prevent accidental fall-out. Aluminum body features extra tight mating surfaces to minimize the collection of carbon and brass buildup; scalloped hold-actuator allows unburned powder and other debris to pass through for uninterrupted cycling. Hold actuator is wire EDM-machined from high grade, O1 tool steel and functions with the standard 5.6mm bolt hold-open, which is strong, reliable and more readily available than the 9mm version. (Last round hold-open feature functions with Colt magazines only.) Ejector is of standard, Colt configuration for easy replacement. Funneled magazine well ensures smooth entry and limits rotational movement caused by variances in magazine taper. Spring-loaded roller maintains constant tension against the lower receiver well to prevent free play. Steel, feed ramp is heat-treated for extra strength and superior wear-resistance. Armorer installation recommended.

SPECS: **Body** - 6061-T6 billet aluminum, Mil-Spec black anodized finish. **Components** - Steel, parkerized finish. Fits all Mil-Spec AR-15/M16 receivers. Armorer installation recommended.

NEW **A.R.M.S. AR-15/M16**
#41-B SILHOUETTE FOLDING FRONT SIGHT

Strength & Appearance Of Standard Sight;
Folds Down When Not Needed

Integral gas block and folding front sight replicates the strength and appearance of the classic factory AR-15/M16 front sight tower, yet folds neatly out of the way when it's not needed. Patent-pending, weight-saving, all-in-one design; no need to purchase a railled gas block and a separate rail-mount folding sight. Deploys and locks securely open with the flick of a finger—as fast as any flip-up combat sight. To fold, press straight down on the top of the diagonal rear support to release the lock while pulling back on the sight tower. Standard, A2-type sight post is the same height as factory post, so it works with any factory height rear sight. Easy to install; dual clamping rings fit standard .750" diameter barrels, and hex-head bolts (hex wrench included) provide plenty of clamping force to make sure the sight doesn't shift and change point of aim. Base/gas block of rugged, precision machined steel provides exceptional strength and resistance to erosion by hot gases. Includes bayonet lug, and rear clamping ring drilled to accept sling swivel pin. Aluminum sight post minimizes weight while still providing plenty of strength. Uniform, black finish matches most factory gun finishes.

SPECS: Steel and aluminum, matte black finish. Fits barrels that are .750" O.D. at the gas port.
#100-003-742CE #41-B Silhouette Folding Front Sight, 3A134X95 \$ 154.95

BROWNELLS AR-15/M16
MODULAR GAS BLOCK

Unique, Modular Design For Ultimate Customization

Easy-to-install gas block features an integral fixed rail and a modular design that allows fast installation and removal of up to three, additional Picatinny rails for mounting lasers, lights, night vision optics, back-up sights, and a variety of other tactical accessories.

Side and bottom rails attach easily with two screws, so you can configure the unit for each mission's requirements. Precision-machined from rugged, 6061 billet aluminum for superior strength without weighing down your weapon. Mounts securely to barrel with three, hardened steel setscrews.

SPECS: Aluminum, matte black, hardcoat anodized finish. Fits standard .750" (19mm) dia. barrels. **Gas Block** - 1 7/8" (4.8cm) long, 1" (2.5cm) wide, 1 1/2" (3.8cm) high. **Gas Block Kit** - Includes modular gas block with three add-on rails. 1 1/8" long, 2 3/4" (5.3cm) wide, 2" (5.0cm) tall.

BAYONET LUG - Bolts directly to Modular Gas Block to allow installation of a mil-spec bayonet or lug-mounted bipod on your AR-15. Installs and removes easily with an Allen wrench so you can configure your rifle's accessory package at any time to fit mission requirements. Precision machined from 4140 steel for optimal strength and rigidity. Includes mounting screws. Modular Gas Block not included.

SPECS: Steel, matte black Parkerized finish. 2 3/16" (5.9cm) long, 1/2" (1.3cm) wide, 2 1/4" (6.3mm) tall. Allen wrench not included.
#080-000-439CE Modular Gas Block Lug, 8K09H99 \$ 14.47

MIDWEST INDUSTRIES AR-15/M16 GAS BLOCK WITH FRONT SIGHT

Flip-Up Tower Provides Instant Sight Backup

Low-profile, steel gas block with integral flip-up front sight adds minimal weight and bulk to your AR-15/M16. Easy bolt-on design for simple installation; three hardened steel hex-head bolts clamp gas block to barrel. Dual ball-and-detent system locks sight tower securely in folded and deployed positions. Deployed height is the same as F-marked USGI front sights; regulated for rifle or carbine with 16" barrel. Standard A2 front sight post adjusts for elevation. Gas block/base with bayonet lug is precision machined from 4140 steel, with manganese phosphate parkerized finish for added strength and wear resistance. Sight tower is machined from 6061 T6 aluminum and hardcoat anodized a matching dark gray.

SPECS: Base - 4140 steel, parkerized, dark gray finish. Sight Tower - 6061 T6 aluminum, hardcoat anodized, matte black. 2 3/16" (5.6cm) overall length, 1/8" (2.2cm) wide, 3 9/16" (9.2cm) high with sight tower extended, 2 1/16" (6.2cm) high with tower folded. 5.3 oz. (151g) weight.

YANKEE HILL MACHINE AR-15/M16 CLAMP-ON FRONT SIGHT GAS BLOCK

Immediate Response Sighting For Tactical Emergencies

YHM-9394 YHM-9395 YHM-9835A

Multi-purpose front sight works as a fully functional gas block, plus delivers lifesaving backup when primary optics fail or become hindered by low light or poor weather conditions. Machined, steel body features a spring-loaded pushbutton that locks sight in the deployed position. When not in use, simply depress the button and fold down for an unobstructed view through your optics. Protective ears guard the sight post from blows incurred during duty. Split, barrel clamp design allows easy mounting to standard contour barrels without removal of flash hiders or muzzle brakes. Hex cap screws pull clamping halves tight to barrel for complete sight immobilization when properly tightened. Durable, mil-spec, phosphate finish resists rust and corrosion. **YHM-9394** includes bayonet lug and pivoting sling swivel that accepts tactical slings up to 1 1/4" wide. Rubber coating prevents swivel from rattling and giving away your position while on patrol. **YHM-9395** has sling swivel, no bayonet lug. **YHM-9835A** has Picatinny-style under-rail that accepts lights, lasers, and other forward-mounted accessories. No sling swivel.

SPECS: Steel, phosphate-coated finish, dark gray. 1 7/8" (4.8cm) long, 1 3/16" (3cm) wide. Sight Post - 2 1/4" (5.7cm) high when raised. Fits standard, .750" diameter barrels. **YHM-9394** - 6 oz. (170g) weight. **YHM-9395** - 5.5 oz. (156g) weight. **YHM-9835A** - 7.7 oz. (219g) weight.

YANKEE HILL MACHINE AR-15/M16 GAS BLOCK

4-Rail Low Profile 2-Rail Single-Rail

Picatinny Or Low Profile Options To Fit Your Application

Four, fully functional, steel gas block designs provide much needed rail space or help you add long handguards to short-barreled rifles. Machined from bar stock for extra strength and rigidity, then Mil-Spec parkerized for exceptional wear- and corrosion-resistance. One-piece, **4-Rail** model features top/bottom and side rails that accept Weaver or Picatinny mounted, tactical accessories, including the Yankee Hill Gas Block Front Flip Sight. Secures to barrel with included setscrews. **Low Profile** version is a low and narrow, one-piece block designed to fit inside most free-float handguards; allows use of rifle length forearms on carbine length barrels for a clean, streamlined look and added gripping surface. Secures to barrel with included setscrews. **2-Rail** gas block is an easy-to-install, two-piece unit that clamps around the barrel using four hex screws; includes machined top and bottom Picatinny rails only. **Single-Rail** gas block adds a top-side Picatinny rail for mounting accessories, and provides a bayonet lug and sling mount like a mil-spec front sight housing. Two-piece design clamps your rifle's standard contour, .750" diameter barrel with four, capscrews—no need to remove muzzle brake or flash suppressor to install. Bayonet lug accepts a mil-spec bayonet or lug-mounted bipod, and pivoting, rubber-coated sling swivel accepts tactical slings up to 1 1/4" wide.

SPECS: Steel, Mil-Spec phosphate finish. Fit standard, .750" diameter barrels. **4-Rail** - 1 7/8" (4.8cm) long, 1 1/4" (3.2cm) wide, 1 3/4" (4.4cm) high. 5.7 oz. (162 g) wt. **2-Rail** - 1 3/4" long, 1 1/4" wide, 1 3/4" high. 5.4 oz. (153 g) wt. **Single-Rail** - 1 7/8" (4.8cm) long, 1 3/16" (3cm) wide, 1 3/4" (4.5cm) high. 5.5 oz. (155g) weight. **Low Profile** - 1 7/8" long, 1" (2.5cm) wide, 1 1/16" (3.3cm) high. 4.4 oz. (125 g) wt.

SABRE DEFENCE AR-15/M16 M4 CARBINE BARREL

Stress-Relieved Ordnance-Grade Steel For Superb Accuracy & Long Service Life

Premium-quality, M4-contour, 16" barrel is machined from ordnance-grade chrome-moly-vanadium steel alloy to give you outstanding accuracy, exceptional wear resistance, and maximum service life. Sabre manufactures these barrels to the same uncompromising standards they bring to the .50 caliber M2 machine gun and 7.62mm mini-gun barrels they make for the United States military. Each barrel is heat treated to relieve internal stresses in the alloy's grain structure that can lead to accuracy-robbing heat distortion during sustained fire. Chambered for 5.56mm NATO, with a 1-9" twist. Includes A2 flash hider, gas block with A2 front sight, bayonet lug, and sling swivel. Chrome-lined for maximum bore life.

SPECS: Chrome-moly-vanadium steel alloy, Parkerized, matte black finish. 16" (40.6cm) long. 1-9" twist. Chambered for 5.56mm NATO (.223).

#100-003-944CE **M4 Carbine Barrel, 5D349B95** \$ 399.95

DOUBLE STAR SERVICE RIFLE BARRELS

16" and 11 1/2" A1 barrels shown

Original A1 and HBAR Factory Contours; Two Lengths To Choose From

Ready-to-install barrels let you customize your AR-15/M16/M4/CAR-15 or replace a "shot-out" factory barrel with one that preserves your gun's original specs and appearance. Machined from 4140 steel, with a dark gray, military-type Parkerized finish. Button-cut, six groove rifling with 1:9 right-hand twist provides superb accuracy with most bullet weights. Barrel nut and handguard retainer cap included. Forged front sight housing has integral bayonet lug, and muzzle is threaded to accept the flash hider or compensator of your choice. Choose from **Chrome Lined** for maximum bore life or **Standard** (unlined) for an extra edge in accuracy. **A1** has the correct dimensions and contours of the original M16A1 barrel. Offers a substantial weight reduction (10 1/2 oz. in 16" configuration) for carrying ease and faster deployment in combat, with accuracy equal to the heavier HBAR barrel out to 100 meters. Front sight housing is specifically manufactured to fit the .625" forward barrel, not a modified .750" housing, to maintain correct appearance. 11 1/2" model provides an even lighter, more compact and maneuverable package; **all NFA rules apply.**

SPECS: 4140 steel, dark gray Parkerized finish. **A1** - .675" (1.71cm) OD under handguard, .625" (1.59cm) at front sight housing, .600" (1.52cm) at muzzle. **HBAR** - .870" (2.21cm) OD under handguard, .750" (1.91cm) at front sight housing, .730" (1.85cm) at muzzle.

BROWNELLS AR-15/M16 TACTICAL FLASH SUPPRESSOR/COMPENSATOR

Kills Flash & Reduces Muzzle Rise; "Pain Compliance" Tip For CQB

Screw-on flash suppressor disperses combustion gases through five longitudinal vents to reduce the blinding, football-sized fireball of an un-suppressed .223/5.56 NATO rifle to a low-intensity golf ball sized burst. Greatly lowers the chance of muzzle flash giving away the operator's position day and night, and helps preserve night vision. Vent walls are cut at an angle for maximum surface area to help cool gas and redirect gas flow to counteract muzzle rise for fast follow-up shots and improved control during full auto fire. Solid underside prevents dust signature that can obscure the shooter's view of the target or give away his position when shooting prone. Unique "posthole digger" muzzle has cuts that form four chisel-points to provide a backup pain compliance weapon for hand-to-hand combat without creating unusually sharp projections that snag on other objects or cause unintentional injury during routine weapon handling. Precision machined from solid 4140 steel bar stock and heat hardened to Rc 38-42 to resist blast erosion. Long-wearing, matte black oxide finish matches many factory barrel finishes.

SPECS: 4140 steel, black oxide finish, matte black. 2³/₈" (6cm) long, .859" (2.2cm) O.D. 3.3 oz. (94g) weight. 1/2"-28 tpi RH thread. Fits .223/5.56 NATO AR-15-type rifles and carbines.

#080-000-534CE Tactical Flash Hider, 8K39V95 \$ 59.95

DPMS AR-15

A2 FLASH SUPPRESSOR

Reduces Muzzle Flash; Dissipates Gas

Machined steel, five-port flash suppressor effectively controls muzzle flash to minimize shooter exposure in both daytime and low-light situations. Ports are located along the top of the suppressor and bottom is solid to reduce dust printing when shooting prone.

SPECS: Machined steel, matte black. 1³/₄" (4.4cm) long, 7/8" (2.2cm) O.D. 1/2"-28 tpi. Requires peel washer (not included) for proper indexing.

#231-000-198CE A2 Flash Suppressor, 3B04H33 \$ 8.00

NOVESKE AR-15/M16

KX3 FLASH SUPPRESSOR

Reduces Muzzle Flash & Protects Nearby Personnel From Side Blast

Unique, patent-pending design redirects concussion forward to provide better flash suppression than standard A2 suppressor on short-barreled AR-15/M16/M4 rifles and other centerfire gas-operated weapons. Virtually eliminates side blast to protect nearby personnel during CQB, building entries, and when shooting from inside vehicles. Lessens felt recoil and reduces muzzle rise to help keep sights on the target for fast follow up shots and superior recoil management on full-auto assault rifles, especially with barrels 13" or shorter. High-carbon steel with matte black manganese phosphate finish stands up to the heat and pressure of thousands of rounds. Convenient, 3/4" wrench flats allow easy installation with the same wrench used to remove factory flash suppressor. Crush washer included. Each unit individually serial numbered for quality control.

SPECS: Heat-treated steel, phosphate finish, matte black. 1/2"-28 tpi. 3³/₂₃" (8.3cm) O.A.L. 1¹/₂" (3.4cm) diameter. 72 oz. (g) weight. Fits AR-15/M16/M4 rifles in 5.56mm/.223.

#100-003-335CE KX3 Flash Suppressor, 1A116D95 \$ 134.95

SUREFIRE AR-15/M16/AR-STYLE .308 MUZZLE BRAKES, FLASH SUPPRESSORS & COMPENSATORS

Get The Right Combination Of Recoil Control & Flash Suppression

Complete line of thread-on muzzle devices gives the tactical rifle shooter a variety of options for recoil reduction, flash suppression, or a combination of both to meet his exact needs. Precision CNC machined to exact tolerances from high-quality stainless steel alloy that withstands extreme heat and gas particle erosion, even after thousands of rounds. Stands up to the intense tempo of combat conditions without loss of performance. Easily replaces factory flash suppressor on military-configuration AR-15/M16/M4/AR-style .308 rifles with no permanent modifications to gun. Install on other assault rifles, semi-autos, and bolt actions with muzzle threaded to accept the device. Not only improves the performance and enhances the appearance of your rifle, but also provides a rock-solid mounting platform for Sure-Fire Fast-Attach® sound suppressors. Each kit includes a set of varying-thickness crush washers for proper indexing.

SPECS: Heat-treated stainless steel, matte black finish. Fits rifles with threaded muzzles only. Crush washer set, tube of Rocksett heat-resistant thread locker, and complete instructions included.

MUZZLE BRAKES

Substantially reduces muzzle rise and provides outstanding felt recoil reduction for better shot follow-through, improved accuracy, and faster follow-up shots. Patented Impulse Diffusion™ technology diffuses muzzle blast to the sides, virtually eliminating gas dispersion back to the shooter and minimizing felt concussion to help keep the sights firmly on the target.

FLASH SUPPRESSORS - Advanced design provides superior muzzle flash reduction to help conceal the shooter's position and preserve night vision. Rugged stainless steel construction gives exceptional strength and durability, with a variety of styles to fit AR-type rifles and carbines in both 5.56/.223 and 7.62/.308, as well as other assault rifles, semi-autos, and bolt actions.

COMPENSATORS - Stainless steel compensators offer a carefully balanced combination of effective flash suppression and a muzzle brake's recoil reduction benefits. Externally resembles the birdcage-style flash hiders used by the U.S. military to preserve the stock appearance of your weapon.

NEW

TROY INDUSTRIES AR-15/M16 MEDIEVAL MUZZLE DEVICES

Choice Of Flash Suppression Or Recoil Reduction To Suit Your Mission; Aids In Hand-To-Hand Combat

Muzzle attachments specifically designed to enhance your CQB effectiveness install on any AR-15 rifle or carbine with 1/2"-28 tpi muzzle threads. Aggressive, diamond-shaped teeth aid in effective less-lethal muzzle strikes during hand-to-hand combat, while wide strike face lessens danger of a penetrative wound on contact. Also serves as a stand-off device for body contact shots. Precision formed from 8620 steel, heat hardened to resist erosion by combustion gases, with a tough, parkerized finish that matches most black/dark

gray rifle finishes. **Flash Suppressor** minimizes muzzle flash by dispersing and cooling gases through three irregularly shaped vents. Prevents flash from giving away your position at night or in low-light situations. **Muzzle Brake** helps you stay on target by venting gases upward to counteract muzzle rise for fast follow-up shots; improves control and accuracy during full-auto fire. Accepts most over-the-barrel sound suppressors and actually increases their effectiveness.

SPECS: Steel, parkerized, matte black finish. .860" (2.2cm) O.D., 2¹/₂" (6.4cm) long. 3.1 oz. (81g) wt. Fits barrels with 1/2"-28 tpi right-hand threads.

AR-15/M16

NEW Model **SMITH ENTERPRISE AR-15/M16**
VORTEX FLASH ELIMINATOR
 Helical Flutes Dissipate Gas, Hide Muzzle Flash

Four, specially angled flutes hide nearly 100% muzzle flash, even during full-auto fire, by dissipating gas and retaining unburned powder for increased residual burn. Constructed of the same 8620 bar stock steel used in the manufacture of AR-15/M16 bolts and carriers, then case-hardened to provide a high-strength core and tough, outer shell. Special, helix design helps align exiting barrel gas to improve accuracy with all bullet types. 

AR-15/M16 G6-A2 VORTEX - Skirt extension conceals gap between barrel shoulder and flash hider on AR-15, M16, and M4 rifles. Grooved base ring allows integration of Blank Firing Attachment (BFA) used by law enforcement trainers, and permits installation of military sound suppressors. Thread-on design requires no washer. Torque to 10 ft. lbs. maximum, self-tightens as weapon is fired. Use M-193, SS-109, American Eagle 55 gr. FMJ, and NATO spec ammunition for highest degree of flash suppression. Can be permanently attached to 14.5" long, M4 barrels for an overall length of 16.1". **SPECS:** 8620 steel, parkerized, black, matte finish. 1/2"-28 tpi. 2.31" (5.9cm) long, .858" (22mm) dia. 2.9 oz. (82 g) weight. Fits AR-15, M16, and M4.

#851-000-047CE AR-15/M16 Vortex, 1E44B33 \$ 55.68

6.8mm/.30 CAL. VORTEX - Provides the Vortex system's superior flash hiding benefits for 6.8mm/7.62mm/.30 caliber AR-15 type rifles and carbines. Clean, streamlined design with rounded edges minimizes snagging; skirt extension conceals gap between barrel shoulder and flash eliminator. Thread-on design requires no washer. Models available to fit rifles with 1/2"-28 tpi and 5/8"-24 tpi threaded muzzles. **SPECS:** 8620 steel, Parkerized matte black finish. 2 1/4" (5.7cm) long, .859" (22mm) O.D. 2.9 oz. (81 g weight). Fits AR-15/M16/M4 type rifles.

#851-000-072CE 6.8mm/.30 Cal. Vortex, 1E44U33 \$ 55.68

#851-000-070CE 6.8mm/.30 Cal. Vortex, 1E42U99 \$ 53.99

.308 VORTEX - Streamlined unit reduces muzzle flash with four, 15" helical flutes. Provides Vortex technology for Remington 700 Tactical and AR-Style .308 rifles. **SPECS:** 8620 steel, parkerized, black, matte finish. 5/8"-24 tpi. 2 1/16" (6.8cm) long, .905" (2.3cm) dia. 3.9 oz. (112g) weight. Fits Rem 700 Tactical and AR-1Style .308 rifles.

#851-000-032CE .308 Vortex, 1E73B34 \$ 91.30

9mm SMG VORTEX - The very best choice to achieve maximum low light visibility when using tactical entry carbines. Fits AR-15 carbines chambered in 9x19mm with muzzles threaded to the original Colt 1/2"-36 tpi. Exit hole is properly clearanced to provide minimum blow-by flash without bullet interference. Rigid, unique Vortex helical flutes capture exiting gasses for improved final burn and significant reduction in muzzle flash. **SPECS:** 8620 steel. Black, military magnesium phosphate finish. 1/2" x 36 tpi. 2 1/16" (5.9cm) long, .860" (2.1cm) dia. 3 oz. (81g) weight.

AR-15/M16
PHANTOM MUZZLE ACCESSORIES

Dedicated Flash Suppressor Or Comp/Flash Suppressor Combo; Aggressive Front End Cuts For CQB Maneuvers

PHANTOM FLASH SUPPRESSOR - Longitudinal ports help minimize the blinding effects of muzzle flash in low light for improved target acquisition during night operations. Screw-on design for threaded barrels only. Includes crush washer for proper timing of vents. **.223** model has four ports and aggressive, serrated notches at the tip that provide extra insurance in hand-to-hand combat. Integral rings at the base accept military sound suppressors and allow mounting of Blank Firing Attachments (BFAs) for training exercises. **.308** has five ports and smooth, non-serrated muzzle tip; no BFA ring at base. **SPECS:** Steel, mil-spec phosphate coating. **.223** - 1/2"-28 tpi. 2 1/4" (5.7cm) long, 5/8" (2.2cm) diameter. 2.3 oz. (65g) wt. **.308** - 5/8"-24 tpi. 2 1/16" (7.5cm) long, 1" (2.5cm) diameter. 4.5 oz. (127g) wt.

#100-002-070CE .223 Phantom Flash Suppressor, 9A21B05 \$ 30.50

#100-003-227CE .308 Phantom Flash Suppressor, 9A36Z05 48.00

PHANTOM 5C1 COMP/FLASH SUPPRESSOR - Flat, non-serrated muzzle face helps prevent catching or snagging muzzle tip during storage or deployment. Five, longitudinal vents help hide flash while dispersing gases up and outward; tames muzzle rise and keeps your front sights on target. Outward facing ports and solid panel on bottom help eliminate dust signature when shooting in the prone position. For threaded barrels only, includes crush washer. **.223** model has grooved, base rings that accept training attachments and sound suppression devices for LE and military personnel. **SPECS:** Steel, mil-spec phosphate coating. **.223** - 1/2"-28 tpi. 2 1/4" (5.7cm) long, 5/8" (2.2cm) diameter. 2.1 oz. (60g) wt. **.308** - 5/8"-24 tpi. 2 1/16" (7.5cm) long, 1" (2.5cm) diameter. 4.5 oz. (127g) wt.

NEW Model **VLTOR AR-15/M16/AR-STYLE .308**
FLASH
SUPPRESSOR/COMPENSATOR

Minimizes Muzzle Flash, Reduces Muzzle Jump

Highly-efficient internal helical design uses ten precisely contoured longitudinal ports combined with a unique, cloverleaf-shaped exit port to trap unburned powder particles long enough for full burn and dissipation of hot combustion gasses. Muzzle flash cancels itself out to minimize shooter exposure during daytime and low-light situations. Also serves as a compensator by directing venting gasses to help reduce muzzle jump and improve shooter control. Precision machined from 4140 steel to stand up to rough tactical operations. 2 1/2" overall length brings a 14 1/2" barrel up to legal length for civilian use when flash suppressor is permanently pinned or welded in place. Accepts most sound suppressors and Blank Firing Attachments designed to fit a M16/M4 flash hider. **VC-1** fits .223/5.56mm AR-15/M16/M4 rifles; **VC-301** fits .308/7.62mm AR-style rifles. **SPECS:** Steel, matte black Parkerized finish. 2 1/2" (5.4cm) long, .856" (2.2cm) O.D. Includes peel washer. **VC-1** fits .223/5.56mm AR-15/M16/M4 rifles with 1/2"-28 tpi threaded muzzle. **VC-301** fits AR-style .308/7.62mm rifles with 5/8"-24 tpi threaded muzzle. **#100-003-114CE VC-1 Flash Supp/Comp 3A50X77** .. \$ 59.95

NEW **BUSHMASTER AR-15**
COMPETITION TRIGGER

Two-Stage Design For Ultra-Precise Release

Ready-to-install, match-grade trigger kit gives a light, ultra-smooth, two-stage trigger pull and exceptionally clean, precise letoff for superb accuracy. Adjustable spring plunger on the safety selector allows you to set the second-stage release, while an adjustable setscrew on the selector lets you eliminate trigger overtravel. Full-width hammer and trigger engagement surfaces are precision-ground to eliminate grittiness. Available in Standard configuration with single, left-side safety lever or Ambi with ambidextrous safety lever. Kit includes trigger, trigger spring, disconnect, disconnect spring, hammer, hammer spring, safety lever with adjustment screws, hex wrench, and instructions. **SPECS:** Steel, black phosphate finish. Will not fit large-pin lowers or Colt lowers with safety block.

#100-003-600CE Std Trigger Group 9B127T95 \$ 139.95

#100-003-601CE Ambi Trigger Group 9B148T95 159.95

JARD AR-15 ADJUSTABLE TRIGGER KIT
 Improves Trigger Function & Accuracy

Single-stage trigger kit reduces pull weight to improve accuracy, without gunsmith fitting. Available in 2, 3, and 4.5 lb. pull weights. Adjustments for sear engagement, trigger overtravel, disconnect engagement and safety lets you achieve a smooth, consistent trigger pull. Sear engagement point located behind the hammer improves leverage to reduce pull weight; low mass hammer gives faster lock time. Engagement surfaces are hardened and polished for a smooth, clean-breaking pull. Trigger requires gunsmith fitting in receivers with a sear block. **SPECS:** Steel, black, matte finish. 2 lb. (1 kg), 3 lb. (1.4 kg), or 4.5 lb. (2 kg) pull weight. Includes hammer, hammer spring, trigger, trigger spring and sear engagement screw. Available to fit rifles with .154" or .171" hammer and trigger pins.

NEW **GEISSELE AUTOMATICS**
AR-15/M16/AR-STYLE .308
HI-SPEED TRIGGERS

Precision-Adjustable Two-Stage Trigger With Ultra-Fast Lock Time

Fully adjustable trigger gives a smooth, two-stage pull with a precise "icicle sharp" break and ultra-fast lock time to minimize accuracy loss caused by gun movement during trigger pull. Set first stage pull weight by bending the legs of the trigger spring; set second-stage weight within a pre-set range by turning its adjustment screw. Another screw on the trigger lets you adjust overtravel for clean, crisp letoff. Lightweight hammer provides a 50% reduction in lock time over factory hammer, yet uses standard weight hammer spring to ensure sufficient energy transfer for reliable primer ignition, even on AR-style .308 weapons. Trigger shoe is positioned 1/8" farther forward than factory shoe for comfortable firing position during the squeeze. All contact surfaces are wire EDM cut to exact dimensions for full, precise engagement free of unwanted play. Available to fit both large (.169") and small (.154") pin receivers; small pin models include spare hammer pin to aid in proper fit on receivers with slightly oversized holes. Service model provides nominal 4 1/2 lb. pull weight required for NRA High Power Service Rifle competition and is also approved for CMP-sanctioned competitions. Most of the pull weight is loaded on the first stage, followed by a quick, clean second-stage break. First stage, 3.2 to 5 lb.; second stage, 1/2 to 1 1/2 lb. Match model allows a very low combined pull weight for superb trigger control on highly modified raceguns used in unlimited NRA High Power Rifle competition. Helps you shave those extra hundredths of an inch from your groups for a competitive edge. First stage, 1.3 to 3 lbs.; second stage, 4 oz. to 14 oz. Designated Marksman Rifle (DMR) model combines the light first stage of the Match trigger with the heavier Service second stage to reduce risk of premature release in high stress situations. Perfect for precision tactical and competitive shooting where trigger pull is not regulated. Allows a high rate of semi-auto fire; an experienced shooter can fire 30 rounds in as little as 4 1/2 seconds. First stage, 1.3 to 3 lbs.; second stage, 1/2 to 1 1/2 lbs. **SPECS:** Steel, black finish. Available for receivers with .154" (military, current aftermarket, older Colt) and .169" (current Colt without sear block) hammer and trigger pins. Kit includes trigger and hammer assemblies, plus oversized hammer pin, compact pin punch, three hex wrenches, tube of GA No. 1 grease, bottle of GA No. 2 oil, and complete illustrated instructions.

ARMALITE AR-10 ADJUSTABLE TRIGGER - Proven, single-stage design greatly improves trigger feel and function so you can concentrate on your shots instead of a stiff, factory trigger pull. Sear engagement point behind the hammer provides added leverage for a clean-breaking, 2, 3, or 4 lb. pull weight. Sear and disconnect engagement, overtravel and safety movement adjustments allow fine-tuning for ultimate crispness and less stress on parts. Engagement surfaces are precision-ground and honed to minimize drag, then heat-treated to prevent wear. Includes hard striking, low mass hammer to reduce locktime. **SPECS:** Steel, matte black. 2 lb. (.9kg), 3 lb. (1.4kg), or 4 lb. (1.8 kg) pull weight. For Armalite AR-10[®] rifles with .154" hammer and trigger pins.

ROCK RIVER ARMS AR-15 NATIONAL MATCH 2-STAGE TRIGGER

Lightens & Smooths Trigger Pull
For Improved Accuracy

Drop-in, match grade trigger provides a crisp, 4½ to 5 lb., 2-stage, trigger pull to improve accuracy for competition or varmint shooting. Sear engagement point is located behind the hammer to reduce pull weight. Low mass hammer speeds lock time. Includes trigger and hammer pins. Fits AR-15 receivers with .154" hammer and trigger pins.

#739-000-011CE .154" 2-Stage Trigger 9C00UAV . . . \$ 120.00

NORGON AR-15/M16 AMBI-CATCH™

Rapid Reloads With The Non-Firing Hand

Quicker, easier reloads for right- or left-hand shooters. Lets you activate the magazine release with the thumb of the non-firing hand while keeping the rifle on target. Distinctive design is the same size and configuration as factory part; won't snag on clothes or branches, and does not interfere with rifle function. Drop-in installation.

#635-001-015CE Ambi-Catch 5C72P00 \$ 89.95

DPMS AR-15

OVERSIZED SELECTOR SWITCH

Large, Can't Miss, Thumb Pad
Gives Fast, Sure Operation

Long, wide thumb pad provides fast, sure safety operation when wearing gloves, or when speed is important. Upturned lip ensures positive thumb engagement for full selector travel. Drop-in installation.

#231-000-036CE Oversized Selector 3B14H95 \$ 29.95

DPMS AR-15 AMBI SAFETY/SELECTOR

Easier Engagement
For Left-Handed Shooters

Puts the same, easy-to-operate safety lever on both sides of the receiver for fast, easy operation by left-handed shooters or when shooting with the weak hand. Swings through the same arc as the standard safety; will not interfere with grip position or thumb placement.

#231-015-012CE LR-08B AR-15 Ambi Safety, 3B24Z24 \$ 30.30

#231-000-231CE LR-08C Full-Auto AR-15 Ambi Selector, 1C23D95 29.95

MAGPUL AR-15/M16 ENHANCED TRIGGERGUARD

Keeps Trigger Accessible,
Even With Gloves

Aluminum triggerguard replaces factory guard and gives full access to the trigger, even when you're wearing gloves. Ends the complication of having to drop the triggerguard in cold weather environments in order to get to the trigger. Triggerguard gives you an oversized opening and is held in place with standard roll pins and set screws. Eliminates need for gap plug and works with most grips.

#100-002-198CE M16/AR-15 Enhanced Triggerguard, 3K13D30 \$ 19.95

BROWNELLS AR-15/M16 OVERSIZE MAGAZINE RELEASE

Aids In Ultra-Fast Magazine Changes

Extended, drop-in replacement for factory part offers a wide, flat finger pad for fast, "can't miss" magazine changes. Perfect for tactical operations. Nearly three times the surface area of the factory button with crisp, .225" higher to give you extra leverage that ensures the mag catch disengages completely. Precision machined from 4140 steel and heat treated for added hardness and wear resistance, with a tough, black oxide finish. May require minor fitting.

J.P. ENTERPRISES AR-15 ADJUSTABLE/REVERSIBLE SAFETY SELECTOR

Eliminates "Fitting" The Safety; Works
With Factory & Aftermarket Triggers

Easy-to-install, reversible safety selector ensures ultra-reliable engagement and eliminates the time-consuming job of "fitting the safety" to a factory or aftermarket trigger—the perfect upgrade to accompany a J.P. Enterprises Adjustable Trigger. Eliminates the risk of damaging the trigger during fitting and shortens installation time by as much as one-third. An adjustment screw on the selector drum lets you quickly and easily set the correct trigger/safety relationship to completely block trigger movement when the selector is set to "safe." A second screw inside the drum ensures the adjustment screw stays locked in place. Deeply grooved control pad gives positive thumb engagement even when wearing gloves, and can be installed in the standard position on the left-side of the receiver or on the right side for fast, natural operation by left-handed shooters.

#452-000-043CE Adjustable/Reversible Selector, 2E40B00 \$ 49.95

ROCK RIVER ARMS AR-15 STAR SAFETY SELECTOR

Round Profile Rolls Under Your Thumb

Round thumb pad gives fast, positive operation; ideal when wearing gloves.

SOG ARMORY AR-15/M16 CHARGING HANDLE WITH TACTICAL LATCH

Extra Leverage
For One-Hand Operation

When you have to cycle the charging handle quickly, you need to be able to find it easily. ¾" square steel pad extends 1 3/16" from the charging handle, providing an easy-to-find surface that helps you cycle the bolt quickly when seconds count. Replaces existing charging handle with no gunsmithing and no modifications to the rifle.

#100-002-212CE Charging Handle w/ Tactical Latch, 9A25D70 \$ 46.80

BADGER ORDNANCE AR-15/M16 TACTICAL LATCH

One Hand Operation Of Charging Handle

Oversized for quick access from all shooting positions. Allows brisk, easy operation with left hand. Makes the charging handle easier to find and operate, especially on scope-mounted flat top receivers. Great for three gun shooters; expedites reloads and immediate action drills. Legal for NRA High Power, Match Rifle shooters. Works on all AR-15/M16-type rifles including the AR-10 and SR-25. Easy, no-gunsmithing installation.

#093-249-020CE Tactical Latch 3K17V78 \$ 19.75

Z-M WEAPONS AR-15/M16 ACCU-WEDGE

Instantly Tightens
Loose Upper & Lower Receivers

Helps promote better accuracy by making the upper and lower receiver fit tighter. Open upper receiver; drop this long-wearing, rubber wedge into the rear of the lower, behind the push pin. Absolutely no modifications required.

#993-150-100CE ACCU-Wedge 3Z04A25 \$ 4.95
- 3 or More - ACCU-Wedge, per each 3Z03A50 4.95

DPMS AR-15/M16 ACCESSORIES

COLT PUSH PIN - Makes takedown faster. Hardened-aluminum pin with ball detent replaces the two-piece, threaded pin found on all civilian Colt AR-15's.

#231-015-011CE Old Colt Push Pin, 3B04Z00 \$ 6.00

#231-015-013CE New Colt Push Pin 3B05Z33 7.00

RECEIVER ADAPTER - Use this off-set bushing and pivot-pin screw to adapt pre-ban and current after-market, upper receivers that accept the .250" dia. pivot pin to Colt Sporter lower receivers that take the larger (.315" dia.) pivot pin. Installation requires no alterations to either unit. Measure your pivot pin before ordering.

#231-015-016CE AR-15 Receiver Adapter 1C05Z17 . . . \$ 7.40

PIVOT-PIN ADAPTER BUSHING - Eccentric, steel bushing fits tightly inside .315" upper-receiver, pivot-pin holes reducing the internal diameter to correspond with .250" lowers. Matches the military finish of your gun. Measure your pivot pin before ordering.

#231-000-181CE Pivot-Pin Adapter Bushing, 1C02X50 \$ 3.12

J.P. ENTERPRISES AR-15 ANTI-WALK PINS

Eliminate Hammer & Trigger Wobble

Oversize pins hold hammer and trigger in precise alignment without free play for consistent trigger letoff. Moly impregnated to reduce friction. Sizes for large or small pin receivers. Hex-head screws locate pins to frame, eliminate the hammer J spring. Installation may require reaming hammer for proper fit.

#452-015-028CE Small Anti-Walk Pins 2E08Z00 \$ 9.95

#452-015-029CE Large Anti-Walk Pins 2E08Z00 9.95

BROWNELLS E-CLIPS FOR OLD MODEL ANTI-WALK PIN - Replacement steel E-Clips for old model J.P. Enterprises Anti-Walk Pins. Clips keep pin in frame. Sold in paks of four.

#080-000-320CE E-Clip For Anti-Walk Pin, (4), 8K00H90 \$ 2.99

GEN II TACTICAL LATCH - Mid-sized latch for those who want a size between standard and oversized. Makes the charging handle easier to find for brisk operation with the left hand without protruding too far. Works on all AR-15/M16-type rifles including the AR-10 and SR-25. Easy, no-gunsmithing installation.

#093-000-024CE Gen II Tactical Latch 3K15B64 . . . \$ 19.75

AR-15/M16

NEW YANKEE HILL MACHINE AR-15/M16 EZ PULL PIVOT & TAKEDOWN PIN SET

Easy, Fast Separation
Of Upper & Lower Receiver Halves

Pivot and takedown pins with easy-to-grasp, oversized heads make separating upper and lower receiver halves fast and easy. Simply grasp the large, button-style head and disengage the pin—no fumbling for a punch and scratching the receiver. Pin shafts are designed to lock as securely as factory pins. Perfect for the shooter who mounts different top ends for different applications on a single lower receiver. Precision machined, heat-hardened steel with long-wearing mil-spec Parkerized finish.

SPECS: Steel, matte black finish. Set of 1 front pivot pin, 1 rear takedown pin. Fits receivers with .250" (6.3mm) diameter pivot and takedown pins.

#100-003-690CE EZ Pull Takedown Pin Set, 9A14D95 \$ 19.95

BROWNELLS/ENIDINE AR-RESTOR™

Hydraulic, Rate-Reducing
Buffers Tame
Recoil & Suppress
Bolt Bounce
For Maximum
Reliability,
Accuracy & Service Life

Seldom do you find an AR-15 product so simple to install, yet offers the many advantages this buffer delivers. Our Gun Techs tested these units, and were so impressed with the performance, we teamed-up with the weapon experts at Enidine to offer them directly to you. Quite possibly, the AR-RESTOR is the biggest breakthrough in rate-reducing, recoil reduction systems available for the AR-15. Best of all, they install in minutes, without any modifications to your weapon. Long known for their successful development of recoil absorption devices for the U.S. Military's M240B, M249, and M2 machine gun, Enidine now produces these easy-to-install, direct replacements for the conventional, inertia mass type buffers currently in production today. Never before has it been this easy and economical to manage recoil and rate of fire in full- or semi-automatic modes of fire, plus improve the overall reliability of your AR-15. Each steel buffer assembly features a sealed hydraulic cylinder with high-impact striker cap and smooth running, nickel-plated cylinder rod – all of which work in unison with your factory recoil spring to cushion carrier impact, lessen felt recoil, and minimize the overall beating your rifle and optics endure when shooting. But, that's not all – you get better accuracy and significantly reduced muzzle rise to maintain efficient target acquisition during rapid fire maneuvers. These benefits are amplified with short-barreled carbines. For rate of fire reduction, nothing works better – AR-RESTOR has been tested by the U.S. Army and proven to drop cyclic rates from 900 rounds per minute to 650 – 700! **AR-15 Collapsible** fits rifles with M4-type collapsible buttstocks. **AR-15 Fixed** fits rifles with fixed A1/A2-type stocks. **AR-308 Standard Collapsible** fits collapsible stock ArmaLite® AR-10® and other AR-style .308 rifles with 3/4" recoil buffers. **AR-308 Shorty Collapsible** fits collapsible stock DPMS Panther LR-308 carbines and other AR-style .308 rifles with 2 1/4" recoil buffers.

SPECS: Steel, black oxide finish. **AR-15 Collapsible** – 3 3/8" (76cm) long, 4.3 oz. (122g) wt. **AR-15 Fixed** – 6 1/4" (15.9cm) long, 5.9 oz. (167g) wt. **AR-308 Standard Collapsible** – 3 3/8" (79cm) long, 5 oz. (140g) wt. **AR-308 Shorty Collapsible** – 2 3/4" (7cm) long, 4 oz. (112g) wt.

DPMS CAR-15 COUNTERWEIGHT BUFFER

Improves Reliability
& Control, Softens
Felt Recoil

Extra-heavy to soften felt recoil on semi-auto and full-auto guns; added mass reduces cyclic rate during full-auto fire. Provides smoother function for faster follow-up shots to help improve on-target accuracy. Stops bolt bounce on full-auto CAR-15's to increase feeding and extraction reliability. Drop-in installation, uses standard recoil spring. Fits AR-15/CAR-15 with collapsible stock only.

SPECS: Steel body, 3 1/4" (8.3cm) long, 5.4 oz. (155 g) wt.

#231-000-039CE Counterweight Buffer, 3B25H00 \$ 59.95

BROWNELLS/PEACE RIVER AR-15/M16/M4 SPRINGS

Assorted Replacement Springs
Restore Performance In Tactical Rifles

Put the zing back into the rifle you thought was past its prime. Manufactured to precise tolerances, these high quality, replacement springs help keep your AR-15 functioning properly. Great for emergency spares or for assembling a parts rifle. Available singly, or in 3-paks.

SPECS: Materials and finish at least equal to OEM parts. Chrome silicon springs indicated by (CS).

NEW TACTICAL SPRINGS CAR-15/M4 SPRING RELIABILITY KIT

Consistent Performance For High-Stress,
High-Volume Shooting

Premium-quality buffer spring helps ensure consistent, dependable operation for tens of thousands of compression cycles. Perfect for the high-volume tactical or competition shooter who needs a finely tuned spring that delivers its full power as reliably on the 50,000th shot as it did on the first. Made from chromium-silicon steel alloy selected specifically for its hardness, heat resistance, and ability to withstand high stresses—the same alloy used for valve springs on automobile engines. Cryogenically treated to relieve internal stress, and surface impregnated with Sprinco's proprietary Plate+ molybdenum disulfide lubricating coating. Available with **Standard Weight** buffer spring that matches your carbine's original factory spec or **Extra Power** that keeps the bolt closed a bit longer, which helps some rifles cycle better and eject more positively. Both kits include an extra-power extractor spring that aids in complete extraction and ejection of spent shells, even from a tight or dirty chamber.

SPECS: Cryo-treated chrome silicon alloy. Fits CAR-15/M4 carbine and AR-15/M16 fitted with M4-type collapsible buttstock.

#943-000-018CE CAR-15/M4 Std Weight Reliability Kit, 3D17T95 \$ 21.95

NEW BUSHMASTER AR-15
LOWER RECEIVER PARTS KIT

**All The Internal Parts Needed To Complete
A Smooth-Functioning, Reliable Lower**

Complete kit of all the internal parts, plus the pistol grip, allows you to build or refurbish on the small-pin lower of your choice. Unified set of components designed to work together helps ensure proper fit and smooth operation. Engagement surfaces on trigger and hammer are precision ground to give you a crisp letoff without sacrificing reliability. Pistol grip is injection molded from high-impact polymer and offers the streamlined contours of a standard A2-style grip, with a ledge for the second finger, molded in checkering, and deep grooves on the backstrap for improved control under recoil. Separate triggerguard molded from the same high-density polymer is included.

SPECS: Steel, blued finish on metal parts; injection-molded polymer, black grip. Includes trigger, hammer, disconnect, safety selector lever, bolt catch, magazine catch, magazine button, pistol grip, front and rear pivot pins, and all necessary pins, dentents, and springs.

DPMS AR-15 PARTS KITS

Sub-Assembly,
Mil-Spec Parts
Packaged In
Money-Saving Kits

The easiest way to stock and sell genuine, mil-spec AR-15 parts, or use to assemble rifles on your receivers. Much lower in total cost than buying the parts one at a time. All kits listed contain only new, current-production, genuine, mil-spec parts; never pull-offs or direct-exchange surplus.

SPECS: Unassembled kits packaged in heat-sealed, poly bags, labeled for resale. Fits AR-15 only.

BOLT CARRIER ASSEMBLY - Kit includes: bolt carrier, bolt, extractor, extractor spring, extractor pin, ejector, ejector spring, ejector pin, (3) gas rings, firing pin, firing pin retainer, cam pin, gas key and screws.

#231-000-176CE Bolt Carrier Assembly 1C119X96 \$ 150.49

A2 UPPER RECEIVER PARTS KIT - Kit includes: charging handle assembly, A2 rear sight assembly, forward assist assembly, and ejection port cover assembly.

#231-115-002CE Upper Receiver Kit 1C50H67 \$ 68.00

LOWER RECEIVER PARTS KIT - Kit includes: trigger spring, trigger pin, hammer, hammer spring, hammer pin, disconnect and spring, bolt catch, b/c plunger, b/c spring, b/c roll pin, selector, selector detent, selector detent spring, (2) takedown detents and springs, pivot pin, rear takedown pin, buffer retainer and spring, magazine catch, button and spring, A2 pistol grip, screw and washer, triggerguard assembly and pin.

#231-115-003CE Lower Parts Kit 1C50H70 \$ 64.99

BUTTSTOCK ASSEMBLY - Kit includes buttstock shell, door assembly, buttplate, hinge and pin, rear swivel, lower buttstock screw, upper buttstock screw, aluminum buttstock spacer, extension tube, buffer, and buffer spring.

#231-115-004CE Buttstock Assembly 1C66H60 \$ 89.95

FULTON ARMORY AR-15 MCFARLAND™ BOLT GAS RING

Stops Gas Leaks & Eliminates
Sluggish Bolt Performance

Single spiral of spring steel loops around the bolt three times and leaves no path for gas leakage. Replaces conventional three-piece "piston ring"-style sets that can accidentally line up, causing a major leak from the gas expansion chamber in the carrier.

SPECS: Polished spring steel.

#100-001-257CE McFarland Gas Ring 3K02D97 \$ 3.79

MGI MILITARY AR-15/M16 D-FENDER D-RING

Drop-On Installation Gives
A Lifetime Of Improved Extraction

Firm, rubber, D-shaped ring surrounds the extractor spring to multiply extractor spring tension by 400%. Easy installation prevents virtually all extraction problems associated with AR-15 and M16 firearms.

SPECS: Rubber, black. .068" (1.7mm) thick.

#741-015-003CE D-Fender D-Ring 1D11P70 \$ 15.23

DPMS AR-15 FIRING PIN & RETAINER

OEM Quality
For Long Life

FIRING PIN - Quality-made, original-style, chrome pin. Perfect for replacement of worn or damaged pins; great for building new rifles. Small collar fits all carriers.

SPECS: Steel, chrome. Fits AR-15 and M16.

#231-000-005CE AR-15 Firing Pin 3B06X09 \$ 9.99

EARLY-STYLE FIRING PIN RETAINER - Has the strength and appearance of the original machined, solid steel pin used on the first AR-15's. Heat treated for additional strength and greater resistance to bending.

SPECS: Steel, silver, hard chrome finish. Fits AR-15 and M16.

#231-000-029CE Early-Style Firing Pin Retainer,
3B03H75 \$ 6.99

ADVANCED TECHNOLOGY AR-15/M16 STRIKEFORCE STOCK & PISTOL GRIP

Rugged, Adjustable Length
Buttstock & Pistol Grip
For All Tactical Ops

Six position, length adjustable stock lets you determine length of pull and benefit from a shorter overall length when the tactical situation dictates. Glass-filled nylon composite stock features a rubber buttpad with a slight negative angle for fast shouldering.

Includes an easy-to-operate, spring-loaded release lever for lightening quick adjustments. Cheekrest is adjustable 3/8" up to provide correct eye alignment with optics for fast target acquisition. When in the full-down position, provides a very comfortable, streamlined stock that works perfectly with iron sights. Includes base stud. Installation requires receiver extension, locknut and end plate, recoil spring and buffer. Included, hollow core, composite pistol grip fills the contours of your hand for improved weapon control in all types of shooting scenarios. Features equally proportioned finger grooves to allow both right- and left-handed operators to shoot with confidence. Pebble textured surface provides a non-slip grasp, even when wet.

SPECS: Glass-filled nylon, matte black. 7 1/2" (19cm) long. 3 3/8" (9.8cm) maximum extension. 10.3 oz. (292g) weight. Pistol Grip - 4 1/4" (10.8cm) long x 1 3/8" (3.5cm) wide. 4.3 oz. (122g) weight. Installation requires receiver extension, locknut and end plate, recoil buffer and spring. Includes instructions.

#019-000-022CE Strikeforce Stk & Grip 9A54V95 . . \$ 69.95

BROWNELLS AR-15/M16/M4 COLLAPSIBLE BUTTSTOCK

Rugged, Six-Position
Adjustment For L.O.P. &
Easy Storage

Collapsible buttstock similar to the current USGI M4 carbine stock provides convenient six-position length-of-pull adjustment to fit different-size shooters, including those wearing body armor. Ready to install on any standard AR-15 rifle or carbine lower receiver; includes 1.17" diameter commercial buffer tube, receiver lock plate, lock nut, toe-mounted steel sling loop, carbine recoil spring and buffer. Convert a fixed-stock, flattop rifle to M4 carbine configuration without permanent alterations to gun. Buttstock made from extremely tough, fiberglass-reinforced, injection-molded nylon that resists impact, heat, moisture, extreme cold, and most cleaning solvents. Stock interior diameter is matched to buffer tube O.D. for a snug fit that eliminates unwanted play and rattles that can give away your position. Steel lock nut has four square notches and pre-cut detents for staking to lock plate. Heavy duty, machined aluminum receiver extension, hardcoat anodized for extra strength, stands up to the punishment of harsh tactical operations.

SPECS: Aluminum and fiberglass-reinforced, injection-molded nylon, matte black. 8 3/4" (22.2cm) OAL collapsed; 11 3/4" (29.9cm) OAL fully extended.

SOG ARMORY CAR-15/M4 BUTTSTOCK PAD

Comfortable Pad Adds Length To M4 Stock

Rubber buttstock pad covers the hard plastic M4 stock for more comfortable shooting. Slip-on pad helps keep the gun against your shoulder and adds 1/2" to the length of pull. Plus, it protects the stock from bumps and dings. Installs with no modifications to the stock. Fits M4 stocks only.

SPECS: Rubber, black or green. Adds 1/2" (12.7mm) to length of pull. Fits M4 stocks only.

COMMAND ARMS CAR-15/M4 COLLAPSIBLE STOCK SADDLE

Lightweight Cheek Support Plus
Convenient Battery Storage

Provides added cheek support for increased comfort and shooting accuracy to AR-type rifles equipped with M4-style collapsible stocks. Plus, gives an advanced tactical appearance similar to the SOPMOD stock. Made from a very lightweight, fiberglass reinforced plastic that's as strong as it is functional. Waterproof, sealed compartments on each side will hold four "AA" or six CR123 cell batteries. No gunsmithing required for installation; saddle locks onto stock with accessory sling loop hardware that's provided. **Rubberized** model includes all the features of the standard model and adds a rubberized, no-slip coating that gives an exceptionally solid cheekwell for even greater shooter comfort and control.

SPECS: Injection molded plastic, black, matte finish, 5 3/4" (14.5cm) long, 2 3/4" (6.9cm) wide. Fits M4-style stocks only.

COMMAND ARMS AR-15/M16 MODULAR BUTTSTOCK

Unique Design Incorporates
Battery Storage Plus
Picatinny Accessory Rail

Replace your existing buttstock with this updated, collapsible, six-position design that includes secure storage for up to four, CR123, 3-volt batteries in the snap-latch side compartment. Plus, the storage lid is interchangeable for either right- or left-side carry with a convenient Picatinny rail unit that accepts the Command Arms Rail Mounted Magazine Pouch. Kit comes with all the hardware, including the receiver extension and recoil buffer/spring assembly, necessary to convert your AR-15/M16 rifle to accept this stock. Made from long lasting and durable fiber-filled plastic composite with rubber buttpad that features a negative angle for faster shouldering and increased comfort, especially when wearing body armor. Combat proven design includes an easy-to-operate release lever, lower sling swivel and dual position receptacles for push-button type sling swivels.

SPECS: Fiber-filled polymer composite, black. 7 1/2" (19cm) long, 11 oz. (313g) weight. Fits AR-15/M16/M4 or equivalent buffer tube guns. Includes buttstock, receiver extension, recoil buffer/spring assembly, receiver extension nut, and receiver plate.

#100-002-598CE M4 Modular Buttstock,
2Z20P00 \$ 110.00

ADJUSTABLE CHEEK PIECE - Adjustable cheek piece quickly installs on the accessory rail of your Command Arms Modular Buttstock to provide added cheek support and correct eye alignment with sights or optics for fast target acquisition. Easy installation and removal, just hold down the spring-loaded lever, slide the cheek piece onto the rail, then release the lever to lock the dual square pins into the rail grooves. Front-to-rear adjustable up to 1", friction lock knob allows up to 1/2" vertically adjustment. When in the full-down position, provides a very comfortable, streamlined stock that works perfectly with iron sights. Made from high-strength, lightweight, fiber-filled polymer composite.

SPECS: Fiber-filled polymer composite, black. 4 1/2" (12cm) long, 2 3/4" (7cm) wide, 2 5/8" (6.6cm) high. 3.5 oz. (100g) weight. Adjusts 1/2" vertically, 1" horizontally. Right hand only.

#100-003-331CE Adjustable Cheek Piece,
2Z21D95 \$ 29.99

RAIL MOUNTED MAGAZINE POUCH - Attaches instantly to any Picatinny accessory rail; provides fast and secure access to one additional .223 magazine for quick reloads when every second counts. A great add-on to the Command Arms Modular Butt Stock. Magazine body is held securely by molded internal ribbing or finger release tab. Convenient, spring-loaded thumb lever allows fast installation and removal of entire pouch assembly.

SPECS: Fiber-filled polymer composite, black. 3" (7.6cm) wide, 2 1/2" (6.3cm) high, 1 5/8" (4.1cm) thick including rail mount, 3 oz. (85g) weight.

MAGPUL CTR BUTTSTOCK

Locking System Eliminates
"Play"

Features a friction locking mechanism that eliminates movement between the buffer tube and buttstock for a solid "feel" when mounting rifle to shoulder. Heavy duty, spring-loaded hand lever allows fast length-of-pull adjustments. Nylon polymer body provides maximum impact and heat resistance, with molded-in reinforcements at stress points for added strength. Accepts a variety of ambidextrous sling attachment options, including web slings and single-point, push-button sling mounts. Comb contour is wider than standard issue M4 stock to help shooter maintain a solid cheekweld. Fits buffer tubes that accept both four- and six-position collapsible stocks. Buffer tube, carbine buffer, receiver extension nut, and carbine-length action spring not included. Available in Black, Dark Earth, and O.D. Green, so you can match the color of your stock to your tactical rifle's color scheme. **Mil-Spec** fits smaller buffer tubes on Colt-manufactured M4 and similar mil-spec carbines. **Universal** fits larger diameter, commercial buffer tubes and includes a rubber buttpad for added comfort. **Butt pad** - Add to Mil-Spec buttstock or use as a replacement on the Universal model. Drop-in installation—just screw on with the included mounting screws. Adds 3/8" (8mm) to length of pull. Synthetic rubber exterior over hard polymer core. Available in Black only. 

SPECS: Impact-resistant nylon polymer. Available in Black, Dark Earth, and O.D. Green. L.O.P. adjustment range, 3.5" (8.9cm). **Mil-Spec** - 6 3/4" (17.15cm) OAL, 5 1/4" (13.34cm) high. Fits Colt M4 buffer tubes. Does not include rubber buttpad. **Universal** - 7 1/8" (21cm) OAL, 5 1/4" (13.34cm) high. Fits commercial AR-15 carbine buffer tubes. Includes rubber buttpad.

MAGPUL AR-15/M16 UBR BUTTSTOCK

Compact, Convenient
Collapsible Stock With
The Comfort & Solidness
Of A Fixed Stock

Stock shown partially extended

Rugged, adjustable carbine buttstock combines the solidness of a fixed stock with a unique set of convenience and comfort features to provide a highly versatile, stable shooting platform. Available in black or dark earth, the Utility/Battle Rifle (UBR) stock's tough, reinforced polymer construction stands up to the pounding of the new large-bore chamberings found in AR-style rifles. It can handle high-tempo tactical operations, while providing an extremely secure cheekweld in almost any position. Compact, streamlined design has minimal protrusions to snag on foliage, clothing, sling, or other gear. Provides seven length-of-pull positions, with a proprietary preset system that lets you pull the release lever and instantly snap the stock open to the position that's right for you. Set your preferred preset position simply by moving a machine screw. Depress the Preset button and pull the release lever again to open the stock the rest of the way; then hit the Remove button, pull the release, and slide the stock completely off the UBR main tube. Comes with interchangeable narrow and ACR-style wide cheekpieces that can be installed in three positions to move the cheekweld point forward or back as needed. Includes a slot at the toe for a 1 1/4" sling, plus front and rear QD pushbutton sling receptacles that may be positioned on either side of the stock. Storage compartment for spare batteries, cleaning supplies, or other small items has a positive-locking door that may be positioned on either side. Or remove the compartment entirely to give the UBR a skeletal look. Removable buttpad of synthetic rubber over hard-polymer core gives a comfortable, non-slip shoulder fit without impeding maneuverability. Kit includes Magpul's machined aluminum "entry length" receiver extension that replaces your gun's factory extension. If mounting on a rifle with A1/A2 fixed stock, you must also install an M4 carbine buffer and action spring (not included) for correct weapon function with UBR mounted. Instructions included. 

SPECS: Impact-resistant polymer and machined aluminum, black or dark earth. 8" (20.3cm) OAL retracted, 11 1/4" (28.6cm) OAL fully extended. Approximately 5 1/4" (13.3cm) high. L.O.P. adjustment range, 3 3/8" (8.6cm).

MAGPUL AR-15/M16/AR-STYLE .308 GENERATION II PRECISION RIFLE STOCK

Adjustable Length
Of Pull & Comb Height

Fully adjustable stock and comb for AR-15/M16/AR-Style .308 rifles readily adapts length of pull and comb height with two click-detent adjustment wheels. Drop-in installation on rifles with standard A1/A2 fixed buffer tubes without A2 spacer. Rubber buttpad seats securely onto your shoulder and won't slip during sustained shooting exercises. Fully-raised comb will not get in the way of charging handle operation. Removable base cover conceals an accessory rail to provide a mounting platform for a monopod. Removable sling loops can be mounted on either side of stock to accommodate your preferred carry position. **AR-15/M16** model available in Black, Dark Earth, and O.D. Green to provide a close match to rifles painted in military colors. Separate **AR-Style .308** model in black only. 

SPECS: Polymer, black. **AR-15/M16** model also available in dark earth and O.D. green. L.O.P. adjusts from 13 1/4" (33.6cm) to 14 1/2" (36.8cm). Comb can be raised 1" (2.5cm). 1 lb. 12 oz. (.79kg) wt.

VLTOR AR-15/M16 ENHANCED MODSTOCK

Precise Weapon Control In
All Tactical Situations

"Clubfoot"-style adjustable stock with modular storage options gives the tactical shooter exceptional versatility and weapon control. The EMOD is 1 1/2" longer than the original Mod-

stock to ensure a solid, comfortable cheekweld even on rifles with long eye relief scopes. Two, detachable storage compartments provide additional cheek support. Each waterproof compartment holds up to 3 AA or 4 CR123 batteries, and a permanent flip-open compartment on the left side of the stock holds two more AA batteries or other small items. Extra-length buttplate with removable rubber pad angles forward from heel to toe for a better hold in the "ready" position. Two, molded-in sling loops accept military-style web slings; molded-in sling socket accepts a quick-detach, push-button swivel for ambidextrous single-point slings. **Basic EMOD Kit** includes buttstock and detachable storage compartments only, available for **Mil-Spec** and **Commercial** buffer tubes. **Mil-Spec Combo Kit** contains all parts needed to replace an existing A1 or A2 stock, including a five-position, mil-spec buffer tube with white index numbers visible through a witness hole in the top of the stock. 

SPECS: Polymer, black or dark earth. 7 3/4" (19.7cm) long. **Basic EMOD Kit** includes buttstock and (2) detachable storage compartments. **Mil-Spec** fits 1.14" O.D. carbine buffer tubes. Commercial fits larger, 1.17" O.D. commercial buffer tubes. **Mil-Spec Combo Kit** includes stock, storage compartments, mil-spec buffer tube, buffer spring, endplate, and locking nut. L.O.P. adjusts from 11 1/2" (29.2cm) to 14 3/4" (37.5cm).

VLTOR AR-15/M16 MODSTOCK BASIC CARBINE COMBO KIT

Better Control & More Options In Tactical Situations

Rugged, tactical stock system contains all the parts you need to replace your AR-15/M16 or existing collapsible stock with an advanced, five-position, carbine stock. Unique, clubfoot design provides better overall control and a firm, tight grip in all combat situations. Three sling loops are molded directly into the stock and are wide enough for use with military-style, nylon web slings. One sling locking sleeve is also built-in to accept a quick-detach, push-button sling swivel. Two battery compartments with waterproof caps hold up to four, spare, 3-volt lithium batteries. Kit includes Clubfoot Modstock, buffer, buffer spring, endplate, locking nut, and two, long accessory storage compartments with caps. 

SPECS: Molded polymer, black. 11" (27.9cm) to 14 1/2" (36.8cm) l.o.p.

MAGPUL AR-15/M16 MOE™ BUTTSTOCK

Economical, Drop-In Upgrade
For Carbine Collapsible Stock

Magpul Original Equipment (MOE) carbine buttstock provides the quality, durability, and ergonomic benefits of Magpul's CTR stock in a rugged, economical, drop-in package. Strong, A-frame design is lightweight and comfortable, yet provides operator with plenty of support. Comb contour is wider than standard issue M4 stock to help shooter maintain a solid, consistent cheekweld. Streamlined exterior and protected release lever won't snag on clothing, gear, vehicle interior, or vegetation. Heavy duty, spring-loaded release lever allows fast length-of-pull adjustments and won't dig into your hand. Impact- and heat-resistant, polymer construction includes molded-in reinforcements at stress points, plus two slots for web slings and a hole for a toe-mounted sling swivel or clip-on sling. Soft, synthetic rubber buttpad increases comfort and helps prevent slippage. **Mil-Spec** fits 1.14" O.D. buffer tubes on Colt-manufactured M4 and similar mil-spec tubes that accept both four- and six-position collapsible stocks. **Universal** fits larger, 1.17" O.D. commercial carbine buffer tubes. Buffer tube, carbine buffer, receiver extension nut, and carbine-length action spring not in-

CAA AR-15/M16 4-RAIL HANDGUARD

**Extra Mounting Area
For Your Accessories**

Four Picatinny rails and rigid aluminum construction provide a two-piece handguard capable of supporting all your accessories, while holding up to the tough demands of tactical and competition exercises. Each rail is equipped with removable thermal rubber covers for better grip and protection for the rails when not in use. Integral metal heat shields with 24 ventilation holes help dissipate heat away from the barrel during sustained fire. Mounts easily using existing delta ring. No gunsmithing required.

SPECS: Aluminum, painted matte black. 6" (15.2cm) long.

DOUBLE STAR AR-15/M16

FOUR-RAIL CARBINE HANDGUARD

Plenty Of Accessory Mounting Space

Easy to install, all-metal replacement for factory handguard gives your AR-15/M16 carbine the added versatility of four Picatinny-type rails

for mounting a broad variety of accessories. Slots indexed with white, alphanumeric position markers ensure precise positioning of accessories for fast, repeatable configuration changes. Plenty of large vent holes allow free flow of air to help cool barrel. Two-piece drop-in design installs without removing gas block and requires no permanent alterations to your rifle; delta ring is left intact to allow re-mounting of factory handguard. Bottom rail may be left off to allow mounting on rifles with shotguns or grenade launchers. Precision CNC machined from high-quality 6061 T6 aluminum and mil-spec hardcoat anodized for extra strength and a hard, scuff-resistant surface that handles the wear and tear of intensive tactical operations.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. 6 5/8" (16.8cm) long, 2" (cm) wide, 2 5/8" (6.6cm) high. 7.4 oz. (210g) weight. Fits AR-15/M16 with carbine-length gas system.

#100-003-827CE Carbine Handguard 2Z109V95 . . . \$ 139.95

FA ENTERPRISES AR-15/M16 TACTICAL HANDGUARD

**Integral Accessory Rails
For Maximum Versatility**

Free-float tube eliminates barrel pressure points to help improve accuracy. Four, Picatinny rails let you mount accessory lights, lasers and hand grips to meet mission requirements. Separate lock ring allows you to orient rails at any position; prevents tube from working loose and spinning. Multiple cooling slots prevent heat buildup.

SPECS: 6061 aluminum, anodized, matte black. Fits barrel up to 1" (2.5cm) in diameter. **Carbine** - 7" (17.8cm) long. **Rifle** - 11 1/2" (29.2cm) long.

V-TAC MODULAR FREE-FLOAT HANDGUARD/RAIL SYSTEM

**Configure Accessory Rails
& Swivels On Tactical Rifles
For Each Mission**

Modular handguard/rail system provides the tactical shooter maximum flexibility to customize the number, position, and length of accessory rails on his AR-15. Mount rails or sling swivels at 45° intervals around the handguard. Free-float handguard eliminates barrel pressure points for maximum accuracy; use a bipod or sling without affecting point of impact. Ventilated tube provides maximum heat dissipation, and the textured surface assures a non-slip grip in any weather conditions. Dual barrel nut system provides precise alignment of tube with top of receiver. Inner nut can be secured with a standard armorer's wrench. Fluted aluminum outer nut reduces weight without compromising strength and prevents accidental hand contact with hot gas tube, and protects the tube from damage if rifle is dropped. Outer nut is secured to handguard with seven, flush-fitting, Allen head screws for rock-solid alignment with upper receiver. Handguard comes with two sling swivels; rails sold separately. Rail Kits designed for JP system, will also work with many other free-float tubes. **Rifle Length Handguard** leaves gas block exposed on 18", 20" or 24" barrels; covers gas block on 16" barrels. **Mid-Length Handguard** leaves gas blocks exposed on rifles with 16" barrels and mid-length gas systems; covers gas block on 14" barrels for a streamlined profile. **Carbine-Length Handguard** leaves gas block exposed on 14" and 16" barrels.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. Steel inner barrel nut, swivel studs, and setscrews with matte black oxide finish. Handguard - 2" (5cm) dia. without attachments. Rifle handguard is 11 1/2" (29.2cm) long; mid-length handguard is 9 5/8" (23.2cm) long; carbine handguard is 7 5/8" (18.1cm) long. Includes inner and outer barrel retainer nuts and 2 sling swivels with backer plates, Allen head setscrews. Rails - Picatinny cut, backer plates and Allen head mounting screws included. Rifle rail is 11 1/2" (29.2cm) long; mid-length rail is 9" (22.9cm) long; carbine rail is 7 5/8" (18.1cm) long.

TROY INDUSTRIES AR-15/M16 MODULAR RAIL FOREND

**Four-Rails
For Maximum
Accessory Mounting
Versatility; Free-Float &
Non-Free-Float Models**

Free-float handguard provides four U.S. MIL-STD 1913 Picatinny rails at 3, 6, 9, and 12 o'clock positions for mounting a wide variety of accessories. Top rail aligns with flattop receiver. Top rail provides an extra-long expanse of uninterrupted rail space without additional cantilever mounts that add complexity and weight to your gun. Installs easily on AR-15 with carbine-length gas system and original factory barrel nut without removing sight or barrel; factory delta ring must be removed. A robust clamp and four anti-rotation alignment bolts lock the forend to the rear of the barrel and actually reinforce the barrel/receiver connection. Large vent holes dissipate heat from the barrel and minimize weight. White alphanumeric identifiers on cross slots ensure easy repeatability of accessory positions when changing configuration from one mission to another. Precision machined from high-grade aluminum billet, then Type III hardcoat anodized for strength and corrosion protection, with Teflon® additive for extra resistance to surface abrasion. **Standard** (7" long) and **Mid-Length** (9" long) available in Black or Dark Earth. **Extended** (12" long) model has opening for the gas block/front sight; available in black only.

SPECS: Aluminum, hardcoat anodized, Black or Dark Earth, matte finish. Fits AR-15/M16 rifles with carbine-length gas system.

MIDWEST INDUSTRIES AR-15/M16 TWO-PIECE FREE-FLOAT FOREND

**Free Float Design Clamps On
To Relieve Stress**

Quality, two-piece free-float forend clamps firmly in place without having to remove the barrel or front sight. Simply cut off the delta ring, install and you'll experience better accuracy at the range and in tactical situations with significantly less stress on your barrel. Four Picatinny 1913 rails with fifteen mounting slots are laser etched with letters and numbers for precise mounting and remounting of all your accessories. Available in four lengths.

SPECS: CNC machined from 6061 aluminum. Hard coat anodized to Mil-Spec, black. Mounts over existing OEM barrel nut without removing front sight base. Requires removal of Delta ring. **Carbine** - 7" (17.7cm) long. Fits carbine length, 16" Mil-Spec barrels. **Extended Length** - Rail extends past front sight. Top and side rails are 10 1/2" (26.6cm) long. Fits carbine length, Mil-Spec barrels. Will not fit Colt-made AR-15's/M4's. **Mid Length** - 8 1/2" (21.5cm) overall

MIDWEST INDUSTRIES AR-15/M16 TWO-PIECE FOREND

**Versatile, Easy To Install,
Snap-On Forend Rails For
Optics & Accessories**

Carbine length, two-piece vented forearm snaps solidly in place and replaces factory plastic handguards on AR-15 type rifles. Four Picatinny rails contain 15 mounting slots for optics, lasers, vertical grips, bipods, and lights. Two-piece design permits removal of lower section to install a grenade launcher or shotgun. Both pieces are easily removable for cleaning and maintenance. Each MIL-STD rail is laser etched with lettering and numbering allowing for fast mounting and remounting of optics and accessories. No gunsmithing required. Will not fit Colt made AR-15s/M4s.

SPECS: CNC machined from 6061 billet aluminum, hard coat anodized to Mil-Spec. Black. 6 5/8" (16.8cm) long. Fits 16" carbine-length Mil-Spec barrels with round front attaching point.

- #100-002-330CE Two Piece Carbine Length Rail Forend, 2A124P00 \$ 155.00

EXTENDED-RAIL CARBINE FOREND

Extended, MIL-STD 1913 Picatinny side rails give 10" of uninterrupted rail space and top rail extension past front sight provides flexibility in accessory mounting options. Laser-etched with alphanumeric designations. Bottom section is removable to allow installation of grenade launcher or shotgun.

SPECS: CNC machined from 6061 aluminum, hardcoat anodized, matte black. 6 5/8" (16.8cm) long, 2 1/2" (6.35cm) diameter. Top and side rails are 10" (25.4cm) long. Fits carbine length, Mil-Spec barrels. Will not fit Colt-made AR-15s/M4s.

- #100-002-411CE Two-Piece Extended-Rail Carbine Forend 2A148B00 \$ 185.00

MID-LENGTH TWO-PIECE CARBINE FOREND

Four Picatinny rails contain 20 mounting slots for lasers, optics, bipods, vertical grips, and lights and each MIL-STD rail is USGI type laser etched with lettering and numbering. Two-piece design permits removal of lower section for installation of a shotgun or grenade launcher.

SPECS: CNC machined from 6061 billet aluminum, hard coat anodized to Mil-Spec. Black. 8 1/2" (21.5cm) overall length. Fits carbine length barrels with extended gas system as made by Rock River Arms and Armalite.

- #100-002-455CE Two-Piece Mid-Length Carbine Forend, 2A148X00 \$ 185.00

FULL-LENGTH TWO-PIECE FOREND

Versatile, rifle-length vented forearm replaces factory handguard on full-size AR-15 rifles and provides four Picatinny rails, each with 28 mounting slots for optics, lasers, vertical grips, bipods, and lights.

Two-piece design permits easy installation without removing gas block; no gunsmithing required. Bottom section is removable to allow installation of a grenade launcher or shotgun. Each rail has precise laser-etched alphanumeric markings for fast remounting of optics and accessories. 60 oversized vent holes reduce weight and ensure plenty of airflow to help prevent barrel overheating. Will not fit Colt manufactured AR-15 rifles. **SPECS:** CNC machined from 6061 billet aluminum, hardcoat anodized, matte black. 12" (30.5cm) long. Fits 20" rifle-length Mil-Spec barrels with round front attaching point. Will not fit Colt manufactured AR-15.

- #100-002-841CE Two-Piece Full-Length Rifle Forend, 2A167X96 \$ 209.95

length. Fits carbine length barrels with extended gas system as made by Rock River Arms and Armalite. **Full Length** - 12 5/8" (31.4cm) long. Fits standard 20" barrels with rifle length gas systems.

Models **YANKEE HILL MACHINE AR-15/M16****TACTICAL HANDGUARDS****Fixed Or Removable Rail Models For Extreme Tactical Duty**

Lightweight, vented handguards allow the shooter to choose fixed, permanent Picatinny rails or easily removable ones for high-level customization. Precision machined from aircraft grade aluminum, then mil-spec hardcoat anodized for extra strength and superior abrasion resistance. 

CUSTOMIZABLE FREE-FLOAT TUBE - Versatile forearm system lets you choose exactly how much rail space you need to accommodate add-on, tactical accessories. Lightweight, aluminum, tube free-floats the barrel to eliminate shifts in bullet point-of-impact caused by sling or bipod tension on the handguard. Four, evenly spaced rows of threaded mounting holes accept Yankee Hill's Picatinny-type, modular, Add-On Rails. One full-length rail and one 3" elevated rail included; additional rails available separately below. Front end is internally threaded to accept the ported, Yankee Hill End Cap. Included barrel nut features a slotted lock ring to allow proper indexing of added accessory rails. Lock ring is best tightened using the Yankee Hill Forearm Wrench. Choose from Carbine, Specter, or Rifle length tubes.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. Includes tube, full-length rail, 3" elevated rail, jam nut, and barrel nut. **Carbine** - 7¹/₁₆" (18.3cm) long x 2" (5.1cm) dia. 9.5 oz. (269 g) wt. Accepts up to four 3", 4" or 7" rails. **Specter** - 9⁵/₁₆" (24.4cm) long x 2" dia. 12 oz. (340g). Accepts four 6", 7", or 9¹/₄" rails or a combination of eight 3" and 4" rails. **Rifle** - 12¹/₂" (31.8cm) long x 2" dia. 14.6 oz. (414 g) wt. Accepts up to four 7", 9¹/₄" or 12" rails; eight 3" and 4" rails; four 6" rails and four 3" or 4" rails; four 7" rails and four 3" or 4" rails.

- #100-002-078CE Carbine Customizable Tube, 9A90B40 \$ 128.50
- #100-002-452CE Specter Customizable Tube, 9A98X35 140.50
- #100-002-079CE Rifle Customizable Tube 9A117B35 167.00

CUSTOMIZABLE 2-PIECE CARBINE HANDGUARD - Two-piece forearm replaces your AR-15 carbine's mil-spec, factory plastic handguard and allows you to install Picatinny rails at 45-degree intervals for precise, custom positioning of lights, lasers, vertical grips, and other accessories. Eight, evenly spaced rows of threaded mounting holes accept Yankee Hill's Picatinny-type, modular, Add-On Rails. One full-length rail and one 3" elevated rail included; additional rails available separately below. Bottom half removes easily to provide clearance for a shotgun or grenade, flare, or tear gas launcher. Sixteen, lengthwise cooling vents ensure thorough dissipation of heat from barrel. Machined from rugged but lightweight aluminum, then hardcoat anodized matte black for added strength and exceptional wear resistance.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. 6⁵/₁₆" (16.8cm) long x 2" (5.1cm). 7.6 oz. (216g) wt. Accepts up to four 3", 4" or 6" add-on rails.

- #100-002-896CE Customizable 2-Pc Carbine Handguard, 9A116D75 \$ 146.00

ADD-ON RAILS - Bolt-on Picatinny rails give you almost unlimited accessory mounting options for your Yankee Hill Customizable Free-Float Tube or Customizable Two-Piece Handguard. Choose only as much rail as you need to avoid cluttering handguard with unused rail space. 6" rail is a full-length rail for Carbine-length handguards, 9¹/₄" rail is the correct length for Specter tubes, and 12" rail is full-length for Rifle tubes.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. Fits Yankee Hill Customizable Free-Float and Two-Piece Handguards. Mounting screws included.

- #100-002-081CE 3" Add-On Rail 9A12B65 \$ 18.00

- #100-003-158CE 9¹/₄" Add-On Rail 9A19H85 28.50
- #100-002-080CE 12" Add-On Rail 9A28B75 40.90

4-RAIL FREE-FLOAT HANDGUARD - Four, integral, full-length Picatinny rails machined into a single piece of high-strength, rigid aluminum forms a handguard that delivers maximum stability and reliability. Stress-free tube design ensures complete free-float of the barrel for optimal accuracy. Barrel nut locks in place with two anti-rotation screws to ensure handguard remains locked in place, even under the added torque from vertical grips. Four, threaded, swivel stud mounting holes allow attachment of Yankee Hill threaded swivel stud at the top, bottom, or either side of the handguard. Available in Carbine or Rifle lengths. Heavy duty, **Standard** model features narrow cooling vents that run lengthwise along the handguard. **Lightweight** model is a skeletonized version specifically machined to reduce weight from the rails; oversized cooling holes provide maximum ventilation and allow clear view of the barrel for the ultimate tactical look.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. Carbine Models - 7¹/₁₆" (18.3 cm) long x 2³/₈" (6 cm) wide. Rifle Models - 12¹/₂" (31.8cm) long x 2³/₈" wide. Weight: **Standard Carbine** - 14.3 oz. (405 g). **Standard Rifle** - 22.5 oz. (638 g). **Lightweight Carbine** - 10.6 oz. (300 g). **Lightweight Rifle** - 14.75 oz. (418 g).

- #100-002-169CE Std Carbine Handguard, 9A91H50 \$ 122.00
- #100-002-170CE Std Rifle Handguard, 9A123H05 162.00

- #100-003-413CE Lightwt. Rifle Handguard, 9A123H05 162.00

2-PIECE HANDGUARD - Tough, 2-piece, forearm uses your existing delta ring, so it's easy to replace the standard issue, mil-spec handguard with a strong, lightweight aluminum version. Four, fixed, Picatinny rails provide a solid mounting platform for backup sights, lasers, tactical lights, vertical grips and more. Oversize cooling ports prevent heat buildup and allow clear view of the barrel section underneath for a radical, tactical look. Bottom panel removes easily to provide clearance for grenade and flare launchers if needed. Drilled and tapped in four locations to accept the Yankee Hill Threaded Swivel Stud. Use Colts Carbine model on Colt-manufactured guns.

SPECS: Aluminum, mil-spec hardcoat anodized, matte black. Carbine - 6⁵/₁₆" (16.8cm) long x 2³/₈" (6cm) wide. 9.9 oz. (281 g) wt. Colt Carbine model fits Colt-manufactured guns only. Standard Carbine model fits carbines made by most other manufacturers. Rifle - 12" (30.5cm) long x 2³/₈" wide. 20 oz. (567 g) wt.

- #100-002-093CE Std Carbine 2-Piece Handguard, 9A104X65 \$ 149.50
- #100-003-122CE Colt Carbine 2-Piece Handguard, 9A104X65 149.50
- #100-002-096CE Rifle 2-Piece Handguard, 9A149X25 199.00

TACTICAL SWIVEL MOUNTS - Steel, swivel stud features a full, 360 degrees of rotation to allow your tactical sling to follow the movements of your body, not just the rifle. Virtually eliminates sling tangle. Accepts standard, quick-detach type swivels. **Threaded Swivel Stud** is a 3/16"-32 tpi pivoting stud. Fits Yankee Hill drilled and tapped handguards. Add-on to other applications with at least 1/4" depth clearance. **Dovetail Sling Mount** - Threaded Swivel Stud (above), combined with an aluminum dovetail clamp and steel cross-bolt. Secures directly to any Picatinny or Weaver-style rail.

SPECS: Threaded Swivel Stud - Steel, blued finish. 5/16"-32 tpi. Approx. 3/4" (1.9cm) OAL, requires 1/4" (6.4mm) depth clearance for drill/tap applications. **Dovetail Sling Mount** - Steel stud, blued; aluminum clamp, matte black mil-spec hardcoat finish. Approx. 1 1/4" (3.2cm) wide x 1 1/4" high.

- #100-002-084CE Threaded Swivel Stud 9A03B55 ... \$ 5.00

VLTOR AR-15/M16**CASV MODULAR FREE-FLOAT HANDGUARD****12" Of Top Rail Space Plus Add-On Rails For Customized Accessory Mounting**

Highly versatile accessory rail/free-float handguard system mounts "piggyback" on the receiver rail of your flattop carbine to provide 12" of elevated rail space. Five additional, bolt-on Picatinny rails can be installed on the handguard at 3, 6, and 9 o'clock, plus two lower 45 degree positions, so you can add, remove, or reposition rail space depending on specific mission requirements. Includes one 6" rail, two 4" rails, and two 2" rails for mounting lights, laser sights, vertical grips, bipods, and any other accessories requiring Picatinny rail attachment. Lower half of handguard detaches easily to allow mounting of an M203 grenade launcher. Entire assembly installs in minutes directly to the receiver rail and barrel nut, so it places no stress on the barrel itself. Delta ring and factory gas block front sight may be retained, but gas-block mounted sling swivel (if present) must be removed. Anodized aluminum construction with stainless steel mounting hardware adds less than 1 lb. to total weight of firearm. 

SPEC: Aluminum, hardcoat anodized, matte black finish. 13³/₁₆" (35.2cm) overall length, 2 1/8" (5.4cm) wide, 2 3/4" (7cm) high without bolt-on rails attached. Fits rifles with carbine-length gas systems only. Kit includes handguard/extended top rail assembly, (1) 6" accessory rail, (2) 4" rails, (2) 2" rails, (11) 10-32 hex-head mounting screws, (2) hex wrenches, and installation instructions.

**MAGPUL AR-15/M16****XTM™ RAIL PANELS****Protects Your Hands; Easy To Install & Remove**

Modular, snap-on panels cover exposed portions of Picatinny-type handguard rails to help you maintain a firm grip on your weapon while protecting hands from sharp edges of rail slots and grooves. Textured, low-profile panels install quickly and easily without removing already-mounted light, laser, vertical grip, bipod, or other accessories. Simply snap two panels together over the rail to cover a 1 1/2" segment of rail. Unique locking system ensures the panels go on easily and remain securely affixed even during strenuous tactical operations. Remove them using the tips of two .223/5.56 NATO rounds or any tools with similar non-marring rounded tips. No need to match up "left" and "right" halves because each panel fits on either side of rail. As long as you have two XTM panels in your hand, you can snap them together and cover four rail slots. Sold in 8-Paks—enough to cover one standard carbine-length rail. 

SPECS: Molded polymer, Black, Flat Dark Earth, or Foliage Green. Eight (8) panels per Pak. Fits MIL-STD 1913 Picatinny rails. #100-003-521CE XTM Rail Panels, Black 3K06C00, ... \$ 795
- #100-003-522CE XTM Rail Panels, Flat Dark Earth, 3K06C00 795
- #100-003-523CE XTM Rail Panels, Foliage Green, 3K06C00 795

MAGPUL AR-15/M16 ACCESSORY RAIL COVERS**Improves Grip, Protects Rails From Damage**

Tough, polymer cover slides over Picatinny rails to protect shooter's hand from sharp edges of unused rails, and shield exposed rails from damage. Rubber-like, pebble-texture grip surface helps shooter maintain better weapon control. Each panel covers 15 rail slots—the correct length to fit many carbine-length handguards without modification. Pre-segmented construction for ease in cutting to length to custom fit on other handguards. Multiple sections can be mounted one after the other for smooth, visually continuous cover on longer handguards. 

SPECS: Synthetic polymer, matte black pebble finish. 6 1/4" (15.9cm) long x 1 3/8" (3.5cm) wide. Fits Picatinny and Weaver-style accessory rails. Covers 15 rail slots.

AR-15/M16

FALCON AR-15/M16 ERGO GRIP

Improves Trigger & Recoil Control

Hand-filling, ergonomic profile with finger grooves, palm swells, and many other features improves shooting comfort and accuracy. Tactical grips feature either Suregrip or Rigid grip for a non-slip, textured finish. **Suregrip** adds an overmolded, rubberized covering to the polymer body for a superior grip and added cushion. **Rigid** grip features Rhino Hide™, a hard textured finish molded directly into the polymer.

STANDARD - Slightly thinner than the factory grip but with additional depth front to back. Pebble grain, non-slip surface and subtle finger grooves improve grasp and promote correct trigger finger position. Curved rear backstrap fills web of hand. **Right-Hand** models have a distinct thumb shelf. Includes a tethered grip plug and triggerguard gapper. Models available with Suregrip or Rigid textured finish.

- SPECS:** Polymer, hard texture or overmolded rubber, black. 4" (10cm) long.
- #573-000-008CE **Ambi AR-15 Rigid ERGO Grip, 3G16A80** \$21.00
 - #573-000-025CE **Ambi AR-15 SureGrip ERGO, 3G17V95** 24.00
 - #573-000-026CE **R-H AR-15 SureGrip ERGO, 3G17V95** 24.00

TACTICAL - Patterned after the factory grips found on the H&K PSG-1 Rifle. Larger, with a more rounded profile and subtle finger grooves, for use on target rifles. Features a hand-filling right side palm swell. **Tactical Deluxe w/Palm Shelf** features palm shelf that adjusts vertically 1/2" providing a custom fit for maximum recoil control. All models feature Rigid grip textured finish.

- SPECS:** Polymer, hard texture, black. 5" (12.5cm) high. Palm shelf 3" (7.6cm) wide, 4" (10cm) long, 1" (2.5cm) thick. Includes attachment screw.
- #573-101-402CE **AR-15 Tactical Grip 3G27B59** \$41.37
 - #573-101-403CE **AR-15 Tact. Grip w/Palm Shelf, 3G34B67** 52.00

TACTICAL DELUXE - Upward-curved, grip extension fills the web of the shooting hand, spreads recoil over a large area for excellent feel and comfort. **Tactical Deluxe w/Palm Shelf** features palm shelf that adjusts vertically 1/2" providing a custom fit for maximum recoil control. All models feature Rigid grip textured finish.

- SPECS:** Polymer, hard texture, black. 5" (12.5cm) long. Palm shelf 3" (7.6cm) wide, 4" (10cm) long, 1" (2.5cm) thick. Includes attachment screw.
- #573-101-404CE **AR-15 Tact. Deluxe Grip 3G24B30** \$36.45

MAGPUL AR-15/M16 PISTOL GRIPS

Models

Improves Comfort For Better Weapon Handling & Control; Fixed & Adjustable Models

Ergonomically enhanced pistol grips provide a more comfortable, secure grasp than standard, A2-style grip for better trigger control and recoil management with less fatigue. Improves weapon handling during precisely aimed shots as well as sustained semi- or full-auto fire. Hand-filling palm swells and non-slip "crackle" texturing keep your hand firmly in place, even when wet. Removable grip cap provides access to a roomy internal storage compartment for spare batteries, cleaning supplies, small bottle of oil, or even a spare bolt. Reinforced, high-impact, molded polymer construction stands up to the rigors of harsh operational environments. Drop-in installation in minutes with included mounting hardware and instructions. All models available in black and two popular tactical colors, Dark Earth and Foliage Green.

SPECS: Reinforced molded polymer, Black, Dark Earth, or Foliage Green.

MIAD™ MODULAR GRIP KIT - Mission ADaptable (MIAD) modular grip system with interchangeable inserts lets you find the grip configuration that fits your hand size and mission requirements. All models come with main grip body and detachable rubber core in cap for rattle-free internal storage of three spare rounds of .223/5.56 ammo. Additional cores for storing batteries and other items are available separately, below. Front- and backstrap inserts slide on easily, yet snap firmly into place and require no glue or screws to stay put. **Basic Kit** comes with one straight and two different beavertail backstrap inserts, plus straight and finger-ledge frontstrap inserts. **Full Kit** adds two more finger-ledge front inserts, one with an integral, oversized triggerguard for more room when shooting with gloves.

- #100-003-643CE **MIAD Basic Kit, Black 3K29Y95** \$35.95
- #100-003-644CE **MIAD Basic Kit, Dark Earth, 3K29Y95** 35.95
- #100-003-645CE **MIAD Basic Kit, Foliage Green, 3K29Y95** 35.95

- #100-003-647CE **MIAD Full Kit, Foliage Green, 3K34Y95** 44.95

MIAD GRIP CORES - Further customize your MIAD grip to suit your specific needs with one of these interchangeable internal storage compartments. No tools or permanent alternations required. **123 Battery Core** holds two, spare CR123 batteries in a sealed, waterproof compartment, keeping them ready for quick deployment if the batteries in your laser, light, or red dot sight fail. **AA/AAA Battery Core** provides waterproof, rattle-free storage of two AA batteries or, with the included internal spacer installed, two AAA batteries. Reversible rubber cap has "SPENT" stamped on one side, so you always know the status of the batteries in the compartment. **Bolt & Firing Pin Core** securely holds one, standard AR-15/M16 bolt, plus a spare firing pin, should your gun suffer a failure in competition or during a critical operation.

- SPECS:** Molded polymer, black.
- #100-003-043CE **MIAD 123 Battery Grip Core, 3K08P65** \$12.95
 - #100-003-044CE **MIAD AA/AAA Battery Grip Core, 3K08P65** 12.95

TANGODOWN AR-15/M16 BATTLEGRIP

Tough, Combat-Tested Grip With Built-In Utility Features

Unique, storage grip features internal cavities for two Aimpoint-type power cells, plus two AA or 123 lithium batteries, or your choice of other small spare parts or supplies. Anti-rattle foam spacers keep everything quiet. Flexible cap includes integral seals to protect contents from dirt and moisture. Curved backstrap is shaped to fill and support the hand and provides the correct finger-to-trigger position; aggressive grip texture ensures positive hold. Includes stainless steel, Dry-Lok attaching screw and installation tool.

- SPECS:** Resin-impregnated polymer, black, dark earth, or olive drab. 4 1/4" (10.5cm) high. Fits rifles that accept standard AR-15/M16 grips.
- #071-000-015CE **Black BG-16 Rifle Grip 9B27A99** \$34.89
 - #071-000-025CE **Dark Earth BG-16 Rifle Grip, 9B27A99** 34.89

BOTACTACTICAL AR-15/M16 KZ TACTICAL FOREGRIP WITH SIDE RAIL

All-Metal Grip Improves Weapon Control & Allows Convenient Accessory Mounting

Rugged, all-metal vertical forend grip provides enhanced weapon control and convenient mounting of a light or laser for easy operation by support hand. The 2 1/2" rail accepts both Picatinny and Weaver-style accessories and positions them directly above the grip—the perfect location for operating the controls of tactical lights or lasers with the thumb of the support hand. Also keeps the light or laser beam close to the bore axis for accurate aiming. Available with rail on right or left side of grip. The grip's unique combination of vertical and horizontal ribs gives the operator an exceptionally secure hold. Ergonomically designed "soda-bottle" shape is narrow at the top, swelled in the middle, and a little narrower again at the bottom to match the natural shape of the hand for comfort and ease of grasp. Screw-on, O-ring sealed grip cap provides access to waterproof storage compartment for spare batteries or even a spare AR-15 bolt. **KZ's** integral "Rail Grabber" locking bar with two, internal, steel support lugs and hex head bolt securely anchors the grip and rail tightly to the handguard to prevent unwanted movement during strenuous combat maneuvers or heavy full-auto fire. Bolt also acts as a recoil lug, further ensuring the mount won't shift. Grip body and rail are machined separately from solid 6061 T6 aluminum billet, then Type II Class 3 hardcoat anodized for added strength and surface wear resistance.

SPECS: Aluminum, anodized, matte black. Grip extends 4 1/2" (11.4cm) below rail. Approx. 1 3/8" (3.5cm) at widest point. 6.3 oz. (179g) weight.

- #100-003-558CE **Foregrip w/Right Side Rail, 8B52T45** \$70.00
- #100-003-559CE **Foregrip w/Left Side Rail 8B52T45** 70.00

MOE™ GRIP - Magpul Original Equipment (MOE) grip is a durable, economical, easy-to-install replacement for factory pistol grip that gives the shooter a solid, secure grasp. Rigid, fully supported one-piece construction from the same reinforced, high-impact polymer as the MIAD grip, with crackle texture on the sides and deep horizontal grooves on frontstrap and backstrap. Curved beavertail similar to the MIAD B2 insert fills the grip-to-receiver junction to help you maintain a comfortable hold and protect the web of your hand during sustained firing. Compatible with Magpul MIAD Grip Cores and Enhanced Aluminum Triggerguard, available separately.

- #100-003-515CE **MOE Grip, Black 3K16C50** \$20.95
- #100-003-516CE **MOE Grip, Dark Earth 3K16C50** 20.95
- #100-003-517CE **MOE Grip, Foliage Green 3K16C50** 20.95

FA ENTERPRISES AR-15/M16 HANDGUARD GRIP

Improves Control & Handling For Tactical Response Rifles & Carbines

Comfortable, hand-filling grip, machined from high-strength aluminum, improves close-quarters weapon retention and control. Slides onto Picatinny or Weaver-style accessory rails; locks tightly with no external bolts or screws that can snag or catch.

- SPECS:** T6061 aluminum, anodized, black, matte finish. 4 1/4" (10.8cm) long.
- #246-000-007CE **AR-15 Handguard Grip 6D46C95** \$58.95

GRIP POD SYSTEMS AR-15/M16 GRIP POD

Vertical Forend Grip With Built-In Quick-Deploy Bipod

Dual-function vertical grip locks to the bottom accessory rail of your tactical rifle's forend to give you enhanced control during CQB and a stable bipod rest for precise long-range fire. The grip's hand-filling contours and deep grooves provide a solid purchase even when your hands are wet. Hit the large, deeply grooved release button, and a powerful spring deploys the legs instantly. Conveniently placed for thumb activation, the button sits flush with the surrounding surface to prevent accidental deployment. Extended legs provide sufficient elevation for a standard 30-round magazine to clear the ground, and will not snag on brush, vehicle interior, or other gear when retracted. Legs and grip are made of tough, injection-molded polymer; steel cross-bolt with easy-grip thumbscrew locks directly to any MIL-STD 1913 Picatinny rail to ensure a rock-solid fit. **GPS-02** has steel inserts in legs for maximum strength in high-stress tactical operations. **GPS-LE** (Law Enforcement) is an economical alternative for applications where the steel reinforcements are excess to requirements. Both models accept GPRS1 and GPRS2 bolt-on accessory rails, available separately. May be used on many non-AR rifles and light machine guns with forend accessory rails.

- SPECS:** Reinforced polymer, black. 6 1/4" (15.9cm) long with legs retracted. 8 1/2" (21.6cm) high with legs extended. 1 3/8" (3.5cm) diameter. **GPS-02** - Steel inserts in legs. 7.8 oz. (220g) weight. **GPS-LE** - 7 oz. (197g) weight.
- #100-003-226CE **GPS-02 Grip Pod 3B129Z00** \$154.95
 - #100-003-633CE **GPS-LE Grip Pod 3B79H95** 99.95

ACCESSORY RAILS - Bolt-on, Picatinny-type rail increases the versatility and effectiveness of your Grip Pod by adding mounting space for tactical accessories directly below the handguard. Puts controls for lights and lasers in easy reach of your support hand for exceptionally fast activation in any situation. Made of the same tough, reinforced, high-density polymer as the Grip Pod itself, so it stands up to the rigors of tactical operations. No drilling or other permanent alterations required to install; simply remove a pin and plug from the front of the Grip Pod, insert the rail unit and lock it down by tightening the steel hex-head bolt with the included hex-wrench. Available in single, right-hand rail (**GPRS1**) and double rail (**GPRS2**) models.

- SPECS:** Reinforced, injection-molded polymer, black. **GPRS1** - 2 1/2" (5.4cm) length rail on right side of weapon. **GPRS2** - 2 1/2" of rail space on each side.
- #100-003-478CE **GPRS1 Single Rail 3B21X50** \$26.99
 - #100-003-479CE **GPRS2 Double Rail 3B24X95** 31.99

GRAPHITE VERTICAL GRIP**

Rubber-Coated Gripping Surface
For Maximum Weapon Control

Molded vertical grip with tread-like, rubber coating ends the potential for loss of weapon control in wet, slippery conditions, or when hands become slick with sweat. Made from a new, graphite blend that reduces weight without compromising strength or rigidity. Will not heat up during high volume shooting sessions or after exposure to sunlight for long periods. Deep, textured, block pattern sticks to your hand for an exceptional grip. Dovetail locks onto any Picatinny or Weaver-style, handguard rail. Aluminum lockdown post with threaded cap provides a snug, pressure fit that won't rattle loose under recoil or rigorous use.

SPECS: Graphite body w/rubber grip, black. 4 1/2" (11.4cm) long x 1 1/4" (3.2cm) dia. 3.8 oz. (108g) wt.

#100-002-213CE ABS Vertical Grip 9A23D00 \$ 39.95

**TANGODOWN AR-15/M16
BATTLEGRIP VERTICAL GRIP**

Provides Improved Weapon Control

Quick-release, dual locking bars provide a rock-solid mounting interface to MIL-STD 1913 rails. Large diameter, ribbed grip helps prevent hand fatigue and cramping during long periods in the ready position. Both models have storage compartments large enough for spare batteries or parts. O-ring on cap forms a waterproof seal down to 66 ft. deep. **BGV-MK46** - Full-size grip has enough internal storage for a complete M4/M16 bolt assembly. Integral pocket for a light/laser remote pressure switch allows easy access to the switch yet protects it from bumps, damage, and accidental activation. Sliding panel covers pocket when switch is not mounted. **BGV-MK46K** - Low-profile "Stubby" grip keeps M4 carbines, breaching shotguns, and other CQB weapons as compact as possible and won't interfere with most vehicle gun racks. No pressure switch pocket.

SPECS: Polymer, black, dark earth, or foliage green. **BGV-MK46** - 4 3/4" (12.1cm) long. **BGV-MK46K Stubby** - 3 3/8" (8.6cm) long.

NEW DPMS PANTHER AR-15/M16
45-ROUND MAGAZINE

Extra Capacity
For More Firepower & Fewer Mag Changes

Extra-high-capacity magazine gives you 15 more shots between mag changes for longer target engagement with fewer pauses to reload. Designed to function properly in any .223/5.56mm AR-15-type rifle that accepts a standard 30-round magazine. Body stamped from .040" thick 6061 T6 aluminum sheet for structural rigidity, hardcoat anodized to MIL-A-8525 Type 3 spec for superior strength, and Teflon® coated to resist abrasion. Disassembles like USGI 30-round magazine for cleaning, and uses the same follower and floorplate for ease of replacement parts acquisition.

SPECS: Aluminum body, anodized, matte black. Polymer follower, green. Fits AR-15/M16 chambered for .223 Rem./5.56mm.

20- & 30-ROUND MAGAZINES**

The Most Up-To-Date & Reliable
Civilian Magazine Available

Supplier Of
U.S. Military
Mags

A battle rifle is only as reliable as its magazine - make sure the one in your rifle is from Brownells. When the difference between a "bang" and a "click" is life and death, a magazine failure is more than inconvenient - it can be fatal. So when we decided to build our own AR-15/M16 magazines, reliability was our first priority. Some of us have sons and daughters serving overseas or in law enforcement, and we aimed to build the kind of magazine we'd trust their lives with. We started with a clean slate, then worked out the bugs on the drawing board and the test range before we offered a single mag for sale, so you get a magazine of uncompromising quality and reliability that's built to last and ready to run hard. When failure is not an option, these magazines deliver on the range, in the field, in a tactical situation, under fire. Load these smooth-feeding magazines to maximum capacity and fire the full 30 rounds you expect. No jams, no misfeeds, no hangups. **USA**

All components are made of mil-spec materials and are manufactured under strict, ISO quality control standards. The heat-treated, welded aluminum body is hard-anodized for superior corrosion resistance, then given a tough, dry-lube coating to eliminate the need for additional lubricants that would attract dust, sand, or dirt. The latest military-type, glass-fiber reinforced composite follower further guarantees flawless feeding in the harshest tactical conditions. Choose from a mil-spec stainless steel spring or our **new**, high lubricity, dry-lube-coated chrome silicon spring that's corrosion-resistant certified to 500 hour salt spray standards, and less prone to spring "set." Updated material and design features like those in our 30-round magazine have been adapted to our straight-bodied, 20-round model. All models are available in tow colors; standard military **Gray** and **SOCOM Tan**. Since we manufacture these mags ourselves, we can maintain a large inventory. So, if you need magazines in a hurry, even in quantity, we can get them to you ASAP.

SPECS: Aluminum body, hard-anodized, dry-lube coating. Fiberglass-filled plastic follower. Available in **Gray** or **SOCOM Tan** with dry-lube-coated chrome silicon (CS) spring or stainless steel (SS) spring.

**BROWNELLS AR-15/M16
TACTICAL MAGAZINE/POUCH
READINESS PACK**

Economically Load, Store &
Carry Up To 90 Rounds

Convenient kit helps you maintain peak tactical readiness with everything you need to load, store, and carry up to 90 rounds of .223/5.56 ammo for your AR-15/M16. Each pack contains three, ultra-reliable Brownells 20- or 30-round Tactical Magazines equipped with Magpul's Ranger® floorplate to help ensure fast, positive extraction from the pouch and lightning-quick mag changes. 30-round magazines are further enhanced with a Magpul self-leveling follower to ensure snag-free movement of the round stack for easier loading and smooth, reliable feeding. You also get a Butler Creek LULA® loader for pain-free loading and unloading of a full mag in seconds, and our Signature Series Triple Magazine Pouch for secure storage and carrying of the mags. Pouch has fold-over snap closures that loop through the exterior straps on our M4 rifle case or other MOLLE-compatible gear, so you have plenty of spare mags where you need them—with your rifle. Kits available in two tactical color

NEW

BROWNELLS AR-15/M16 TACTICAL MAGAZINE

Our Ultra-Reliable Magazine With Popular Aftermarket Accessories Pre-Installed

We added two of the most popular aftermarket accessories to our ultra-reliable chrome silicon spring magazines, so you get a customized magazine ready to run hard right out of the bag. The curved 30-round model comes with the Magpul Self-Leveling Follower. This follower won't tilt as rounds are fed into or stripped from the magazine, and its self-lubricating polymer composition helps ensure smooth movement in the mag body for easier loading and ultra-smooth feeding. For an added tactical or competitive edge, the 30-round Tactical Magazine is also available with the Magpul Ranger® floorplate to ensure lightning-fast magazine changes. An easy-to-grasp finger loop aids in fast, positive extraction from tight mag pouches and helps you hang onto the empty magazine with just a finger after a tactical reload. Made of tough stainless steel overmolded with non-slip Santoprene™ synthetic rubber to cushion the magazine from impact when dropped on concrete or other hard surfaces. Straight-body 20-round model comes with the Ranger plate and a fiberglass-reinforced plastic follower specially designed for smooth operation in a straight-body magazine. Both models available in standard **Military Gray** and **SOCOM Tan**.

SPECS: Aluminum body, hard-anodized, dry-lube coated. Chrome silicon steel spring. Reinforced plastic follower. Available in Military Gray and SOCOM Tan. Ranger - includes stainless steel floorplate overmolded with Santoprene synthetic rubber.

**Dependable & Nearly Indestructible;
Store Fully Loaded Without Loss
Of Reliability**

Exceptionally rugged, combat- and competition-ready magazine functions flawlessly, even when left fully loaded for extended periods. Corrosion-proof, self-lubricating one-piece body of fiber-reinforced, molded polymer

has no spot welds or joints to impair the follower, and the constant internal curve ensures smooth, unobstructed movement of the round stack. Anti-tilt follower stabilizes the stack to help prevent nose-diving and bolt-over-head failures. Heat-treated, stainless steel spring is stress-relieved

for optimal performance. Included quick-release magazine cover seals out dirt and alleviates feed lip deformation caused by pressure from a full ammo stack during long-term storage. Withstands the heat from prolonged full-auto fire and is not harmed by most bore cleaners and solvents. Exterior ribbing provides added gripping surface; magazine catch notch, rather than a traditional hole, keeps dirt and debris out. Easy-to-grasp ledge on floorplate aids in extracting magazine from pouches; floorplate removes easily for cleaning. Curved-body 30-Round model is also available in **MagLevel** configuration with windows on both sides of the magazine and a bright, orange indicator to display ammo level. Compact, straight-body 20-Round model makes a tactical rifle easier to store and retrieve from a vehicle, and provides a stable rest for target shooting. All models available in Black, Flat Dark Earth, O.D. Green, and Foliage Green.

RANGER® FLOORPLATE FOR PMAG - Replacement floorplate brings the speed and controllability of the original Magpul Ranger Floorplate to both 20- and 30-round PMAGs for fast, secure tactical magazine changes under stress. Smoothly contoured, easy-to-grasp finger loop and grooved thumb dimple aid in positive extraction from tight mag pouches and help you hang onto the empty magazine with just a finger after a tactical reload. Made from tough, reinforced polymer overmolded with soft, non-slip synthetic rubber that also cushions the magazine from impact if dropped on a hard surface. Includes molded-in para-cord hole for custom loop configurations. Easy, drop-in installation: simply remove the PMAG's factory floorplate as you do for cleaning, and replace it with the Ranger Floorplate. Sold in 3-paks and available in **Black, Dark Earth, O.D. Green, and Foliage Green.**

SPECS: Reinforced polymer, rubber coated. 3 per pak. Fits all PMAG models.

RAINIER ARMS ENHANCED MAGAZINE GRIP - Press-on panels of textured rubber create a superior grip on your Magpul PMAG AR-15/M16 magazine, providing confident, positive handling, even when wet. Precut, waterproof panels are coated with an industrial strength pressure adhesive designed to bond firmly to the grip recesses on the PMAG. Will also bond directly to USGI magazines or similar equipment where a no-slip surface is critical.

SPECS: Rubber, black. 1" (2.5cm) long x 5/8" (1.5cm) wide. Contains 24 per pak.

- #100-003-346CE Enhanced Mag Grip, 9B16X50 \$ 19.95

**CMMG AR-15/M16
BRAIDED WIRE MAGAZINE SPRING**

Extra Power For More Reliable Feeding; Won't Take A Set

Multi-strand, braided spring delivers 40% greater force than standard USGI springs for more consistent release of pressure and smoother, more reliable feeding of 30-round magazines. These springs will not reduce magazine capacity and will not take a set. Corrosion resistant, olive drab ceramic coating was tested in salt spray for 400+ hours without developing corrosion. Compatible with standard-issue and most aftermarket followers, including CMMG's Stainless Steel Anti-Tilt follower, also available from Brownells.

SPECS: Spring steel. 11 1/4" (28.6cm) long. Fits 30-round AR-15/M16 magazines.

- #100-003-143CE Braided Wire Mag Spring 3B05C50 \$ 6.95

**CMMG AR-15/M16
STAINLESS STEEL
ANTI-TILT FOLLOWER**

**Ultra-Stable, Low Drag Design
For Reliable Feeding**

Stainless steel follower rides evenly in all four corners of the magazine body to eliminate tilting, so the ammo stack stays fully supported for smooth, reliable feeding. High-lubricity, polished finish helps reduce drag on spot welds, seams, and rough patches in the mag body, even under inconsistent spring pressure. Easy to install-drops in and secures to top of standard mag spring. Use with CMMG Braided Wire Magazine Spring (found elsewhere in catalog) for added reliability.

SPECS: Stainless steel, natural, polished finish. Available in 3-Paks.

- #100-003-142CE Anti-Tilt Mag Follower, 3-pak, 3B08C43 \$ 9.99

**MAGPUL AR-15/M16
GENERATION III SELF-LEVELING
FOLLOWER**

**Won't Tilt; Feeds Rounds Smoothly;
Helps Prevent Magazine-Related
Failures**

Molded plastic follower won't tilt as rounds are fed into or stripped from the magazine, so it helps prevent jams, misfeeds, and other magazine-related failures. Rectangular extensions at the front and rear prevent tilt of the round stack to eliminate jams caused by over-compression and binding of the spring. Self-lubricating polymer composition helps ensure smooth movement for easier loading and ultra-smooth feeding. Extended bolt catch makes sure bolt locks open after the last round is fired. Generation III improvements include a spring stabilizer molded into the underside to keep spring force centered no matter how many rounds are in the mag, rounded edges on the extensions for even slicker movement in the mag body, and more streamlined ramp geometry for easier travel of the round from the magazine into the chamber. Drop-in fit on standard USGI 30-round magazines.

SPECS: Molded polymer, foliage green. Fits standard 30-round magazine. Instructions included. Available in 3-paks.

- #100-003-500CE Gen III Self-Leveling Follower, 3-pak, 3K04X50 \$ 5.95

NEW MAGPUL AR-15/M16
USGI MAGAZINE UPGRADE KIT

Improves Function,
Reliability &
Convenience of
Standard 30-Round
Magazines

Convenient kit lets you improve the reliability and tactical effectiveness of three standard USGI 30-round magazines by replacing the factory followers and floorplates with Magpul Generation III Self-Leveling Followers and Ranger® Floorplates. Simply disassemble each magazine as you would for cleaning and reassemble with the Magpul parts. Gen III Self-Leveling Follower of high-lubricity molded polymer helps ensure smooth movement of the round stack for easy loading and ultra-reliable feeding. Fully supported at all four corners to prevent nosives and other feeding failures caused by uneven spring pressure or roughness inside the mag body. Ranger Floorplate has easy-to-grasp finger loop for lightning fast magazine changes. Ensures positive extraction from tight mag pouches and helps you hang onto the empty magazine with just a finger after a tactical reload. Two-piece construction, polymer and stainless steel overmolded with soft, non-slip synthetic rubber that also cushions the magazine from impact if dropped on a hard surface.

SPECS: Kit contains 3 followers and 3 floorplates. Follower - Molded polymer, foliage green. Floorplate - Stainless steel, rubber-covered, black.

MAGPUL AR-15/M16
RANGER® FLOORPLATE

Easier Mag Changes
With Just A Finger

Two-piece, slide-on replacement for factory floorplate has a smoothly contoured, easy-to-grasp finger loop that helps you perform lightning-fast magazine changes in high stress situations. Aids in fast, positive extraction from tight mag pouches and helps you hang onto the empty magazine with just a finger after a tactical reload. Also cushions magazine from impact when dropped concrete or other hard surfaces. Made from tough, yet soft, non-slip synthetic rubber over a stainless steel core that snaps into a reinforced polymer insert to keep the Rangerplate firmly locked to the magazine. Includes molded-in para-cord hole for custom loop configurations. Sold in 3-paks and available in **Black, Dark Earth and O.D. Green.**

SPECS: Synthetic rubber, stainless steel, and reinforced polymer. Fits 20- and 30-round USGI-style magazines. Instructions included. Sold in 3-paks.

MAGPUL INDUSTRIES AR-15/M16
MAGPUL™

Fast, Fumble-Free Mag Changes

Thermoplastic loop installed on the base of a rifle or subgun magazine provides an easy-to-grasp handle for unsurpassed speed and controllability during high stress, tactical magazine changes. Recessed, rough texture provides positive gripping surface

under slippery or wet conditions. Finger loop acts as shock absorber to protect magazine from damage when dropped from rifle. Silences magazines stored next to each other in pouch. **USA**

BLADE-TECH AR-15/M16
MAGAZINE POUCHES

Holds Spare Magazines Securely Within Easy Reach

Tough, injection molded Kydex magazine pouches allow you to carry extra magazines for fast reloads in tactical and competitive situations. Rigid, specially formed pouch bodies are molded to the shape of AR-15 and M-16 magazines to hold them firmly in place without crushing or denting. Adjustable tension screws eliminate the need for awkward flaps and hold magazines securely without rattling or falling out. Ambidextrous so you can put magazines in from either way depending on your preference.

SPECS: Injection molded polymer, black matte finish.

TEK-LOK MAGAZINE POUCH - Holds one spare 20- or 30-round AR-15/M-16 magazine. Patented Tek-Lok belt clip system mounts tightly to belts and will not come loose and fall off in the heat of battle or competition. Convertible for high ride or low ride placement on the hip and offers three-position adjustment for angle of carry. Hinge pin locking tabs make it easy to clip and unclip from your belt.

#098-000-038CE Mag Pouch w/Tek Lok 8K21U56 . . . \$ 26.95

PADDLE MAGAZINE POUCH - Contoured paddle adjusts to your preferred angle of carry and holds one extra magazine. Adjustable wedge grips inside the waistband and under the belt for great stability on to 2 1/2" wide belts.

#098-000-040CE Mag Pouch w/Paddle, 8K19U96 . . . \$ 24.95

MAGAZINE POUCH w/1 1/4" BELT LOOP - Designed to hold one additional magazine and fits belts 1 1/4" wide. Adjusts to fit your preferred angle of carry.

#098-000-041CE Mag Pouch w/1 1/4" Loop, 8K21U56 . . . \$ 26.95

MAGAZINE POUCH 1/3" BELT LOOP - Low-profile single magazine pouch fits snugly and adjusts to fit from 1 1/4" to 3" belts. Two adjustment screws allow you to modify the amount of tension holding the magazine in place. Also adjusts to fit your most comfortable angle of carry.

#098-000-042CE Mag Pouch w/ 1/3" Belt Loop, 8K17U47 . . . \$ 24.95

TRIPLE HIP POUCH - Three individual magazine pouches capable of holding Mil-Spec 5.56mm 20- or 30-round magazines are mounted in this one piece rig. Features a 2" wide adjustable nylon loop with two vertical Velcro straps. Entire unit is mounted to a contoured hip/leg bracket with interior foam padding to protect your leg from excess rubbing during shooting exercises. Fully adjustable tension screws hold magazines firmly in place without the need for flaps to prevent excess noise and provide smooth, fast reloads. A second, 2" adjustable nylon strap fastens with a belt clip to hold the unit firmly in place around your leg below.

SPECS: Injection molded polymer, black matte finish. Top Velcro straps with fit belts up to 3" (7.6cm) wide.
#098-000-039CE Triple Hip Mag Pouch 8K59U96 . . . \$ 74.95

SPECS: Industrial thermoplastic, black, flat dark earth or olive drab depending on model. Impervious to most chemical compounds. Pak of 3. **5.56 NATO** fits 20- and 30-round AR-15/M16. **7.62 NATO** fits AR-Style .308. **9mm Subgun** fits Colt SMG.

BOONIE PACKER AR-15/M16 RM-15 GENERATION II REDI-MAG

Holds Spare Magazine On The Receiver For Ultra-Fast Reloads

Don't lose precious seconds in competition or combat fumbling for a spare magazine during a reload. Rugged, all-steel speed loading system clamps directly to the receiver of any AR-15/M16 rifle or carbine and securely holds a second, fully loaded magazine alongside the mag well for super fast mag changes. More reliable and easier to use than improvised methods—like taping two magazines together—that can cause malfunctions at critical moments. Closed-top design protects the spare mag from rain, dirt, dust, and debris and prevents the top round from jumping forward under recoil. Installation requires no permanent alterations to receiver or mag well. Choose **A1** model where frequent removal of the Redi-Mag is not necessary. Dual release system allows a quick push on the gun's mag release to drop the empty magazine from the rifle and free the spare magazine, ready for reloading—excellent for competition. Includes a remote bolt release button that activates your rifle's bolt release. **A2** and **QA** models include the dual release system and also allow quick attach/detach of entire Redi-Mag from the weapon. All models release the spare mag and the mag in the rifle independently to allow tactical reloads and greater flexibility for clearing malfunctions. **BCE** models omit the remote bolt release button and substitute a separate, Bolt Catch Extension that mounts directly to the factory bolt release. Makes the bolt release easier and faster to operate with or without the Redi-Mag attached to the gun, simply by slapping the BCE with an open palm.

SPECS: Steel, parkerized finish, dark gray. 3" (7.6cm) long, 2 3/4" (7cm) high. 8.4 oz. (234g) weight. Fits AR-15/M16/M4 rifles and carbines.

BLADE-TECH INDUSTRIES
AR-15/M16/AR-STYLE .308
KYDEX® MAGAZINE POUCH

Comfortable, Simple, Secure; Impervious To Wear

Provides secure, custom-fit retention and easy accessibility for one spare magazine for AR-15 or AR-Style .308 rifles. Thermoformed Kydex provides long-lasting weapon and shape retention, plus it stands up to the harshest environment, does not squeak, and it's impervious to solvents and oils. Two tension screws allow you to adjust retention. Tek-Lok belt-clip system with adjustable setscrews lets you configure pouch for high- or low-ride placement, and three different carry angles. Ambidextrous design.

SPECS: Kydex, matte black. Both models fit belts up to 2 1/4" (5.7cm) wide. **AR-15** - 3 1/2" (8.9cm) high, 3 1/2" wide, 1 1/8" (4.8cm) deep. **AR-Style .308** - 3 1/8" (9.7cm) high, 4 1/8" (10.6cm) wide, 2 1/8" (5.4cm) deep.

**BROWNELLS AR-15/M16
TEK-LOK MAGAZINE POUCH**

Secure Magazine Retention
With Easy Accessibility

Tough, shock-resistant polymer magazine pouch holds one spare 20- or 30-round AR-15/M16 magazine ready for fast reloads in combat or competition. Rigid, pouch body is specially formed to the shape of standard AR magazine for secure retention without crushing or denting. Adjustable tension screws hold magazines tightly in place so they won't rattle or fall out, eliminating the need for awkward flaps that can snag on clothing, slings, or other equipment. Patented Tek-Lok belt-clip system prevents the pouch from shifting on your belt in the heat of battle or competition, yet hinge pin locking tabs make it easy to clip and unclip from belt. Setscrews let you configure pouch for high- or low-ride placement on the hip, as well as your choice of three different carry angles. Ambidextrous design.

SPECS: Injection-molded polymer, matte black. 3 3/8" (8.4cm) high, 3 5/8" (9.8cm) wide, 1 1/8" (3.3cm) deep. Fits belts up to 2 1/4" (5.7cm) wide.

BLACKHAWK INDUSTRIES AR-15
BUTTSTOCK MAGAZINE POUCH

Carry Extra Magazines Within Easy Reach

Abrasion resistant, denier magazine pouch fastens snugly with two hook-and-loop straps to either the left- or right-hand side of fixed AR-15 buttstocks and holds either 20- or 30-round magazines for fast reloads.

Two, steel D-rings provide sturdy sling points and elastic forward slip strap on the back of the pouch prevents slippage. Fully adjustable, flap holds magazine securely in place in all tactical and competition exercises. Also fits M4 collapsible stocks but must be removed to adjust stock length.

SPECS: 1000 denier NyTaneon, black. Accepts 20- or 30-round AR-15/M16 type magazines.

BROWNELLS AR-15/M16
MAGAZINE COUPLER

Keeps A Spare Mag Ready
For An Instant Reload

Magazines not included

Tough, molded nylon magazine coupler binds a backup magazine directly to the mag in the gun for lightning fast tactical reloads without moving your trigger hand. Three, steel bolts let you adjust retention force, so the magazines won't slip out even during vigorous combat maneuvers. Side-by-side configuration with staggered heights, plus fixed standoff points between the compartments further ensure the magazines won't shift position or rattle. Includes a Top Round Protector (TRP) to protect the feed lips of the backup mag, prevent accidental dislodgement of the top round, and keep out dirt. TRP instantly detaches by applying downward thumb pressure on the release tab while pushing forward. Rubber retention strap keeps TRP from getting lost.

SPECS: Molded nylon, black, with steel tension adjustment bolts. 2 3/4" (7cm) long, 2 1/8" (6.2cm) wide, 3 1/4" (8.3cm) high.

XS SIGHT SYSTEMS AR-15/M16

HIGH VISIBILITY SIGHT

Fast, Accurate Sighting In All Light Conditions

WHITE LINE FRONT POST - Draws your eye to the sight and increases contrast on dark targets. Double-faced, 30° angle blade offers 2.5 MOA elevation per click. .080" wide version for improved accuracy at long range, .100" wide version is faster to acquire at close range.

SPECS: Stainless steel, black, matte finish. Includes sight adjustment tool. .080" (2mm) or .100" (2.5mm) wide post. .030" (7.6mm) wide, white stripe, square top.

#006-111-080CE .080" White Front Post, 6K22P50 \$ 30.00

#006-111-100CE .100" White Front Post, 6K22P50 30.00

24/7 TRITIUM STRIPE POST - Features a strip of glowing, green, tritium gas inset against a white stripe, surrounded by a .100" wide black blade. Ideal for low-light tactical situations where rapid sight acquisition is critical. Available with, or without, rear aperture. Rear aperture features a large, ghost-ring, .230" I.D. opening for close ranges and a precision, .100" I.D. opening for long distances.

SPECS: Stainless steel, black, matte finish. Includes sight adjustment tool. **24/7 Tritium Stripe Post** - .100" (2.5mm) wide post, square top. Green tritium stripe is inset against the .030" (7.6mm) wide, white stripe. Rear Aperture - .230" (5.8mm) I.D. large aperture, .100" (2.5mm) I.D. small aperture.

#006-000-104CE 24/7 Tritium Stripe Front Post/Rear Set, 6K67C50 90.00

ROUND TOP TRITIUM DOT FRONT POST - Round Top, single-faced, .080" wide front post with a bright, green tritium dot with a .11" O.D. white ring for fast, low-light, target acquisition. 5 MOA elevation per click.

SPECS: Stainless steel, black, matte finish. Includes sight adjustment tool. .080" (2mm) wide, round top with .11" (2.8mm) O.D. white ring with tritium center.

#006-111-181CE Round Top Tritium Dot Front Post, 6K45P00 \$ 60.00

REAR APERTURE - Features two, flip-style apertures for close engagement and precision, distance shooting. Large, ghost-ring for close ranges has .230" I.D. opening; precision, long distance aperture with .100" I.D. opening. Elevation does not change when switching apertures. Direct replacement for factory rear sight, no modifications to the rifle are required.

SPECS: Stainless steel, black matte finish. .230" (5.8mm) I.D. large aperture, .100" (2.5mm) I.D. small aperture.

#006-111-001CE AR-15/M16 Rear Aperture, 6K22P50 \$ 30.00

24/7 PRECISION TACTICAL SIGHT SET - Tritium sight set provides excellent sight visibility in all light conditions. Front post is .100" wide and features a green, tritium vial for low-light operations. Easy-to-see, white outline reflects ambient light for day missions. Rear sight features two, flip-style apertures (.100" and .225" I.D.) for long-range and close-quarter engagement. Close-range aperture features two, subdued, tritium dots at 3 o'clock and 9 o'clock for proper alignment with the front sight post in low-light conditions. Same-plane design eliminates elevation differences between small and large apertures. Rear sight aperture can be chosen for the lighting situation as well as the range of target.

SPECS: Steel, Mil-Spec phosphate coating. 1" (2.5cm) long, 1 1/2" (3.8cm) wide, 1 1/2" high when raised. 2.5 oz. (71 g) wt.

BACKUP FLIP SIGHTS

Rugged Steel Construction; Deploys Fast For Instant Emergency Use

Heavy-duty, steel construction makes these emergency rear/top flip sights the tactical shooter's choice for LE and military tasks requiring a compact, backup, sight system of superior strength and dependability. Deploys easily with the flick of your thumb; disengages down, out of your sight path when not in use by depressing the spring-loaded pushbutton. Extra thick, protective ears guard against blows that could potentially bend or break the sight post or aperture. Solid clamp with large cross-bolt provides rock solid attachment to Weaver or Picatinny rail systems. Knurled and slotted, quick-release thumbscrew makes sight easy to install/remove.

GAS BLOCK FRONT FLIP SIGHT - Designed specifically to regulate properly when attached to a gas block rail. Positions the front sight post approximately 1 1/4" above the accessory rail. All steel components; includes standard sight post. Does not function as a gas block.

SPECS: Steel, Mil-Spec phosphate coating. 1" (2.5cm) long, 1 1/2" (3.8cm) wide, 2" (5.1cm) high when raised. 2.5 oz. (71 g) wt.

#100-002-089CE Gas Block Flip Sight, 9A57H45 \$ 82.00

FOREARM FRONT FLIP SIGHT - Shortened version of the Gas Block Front Flip Sight for use on tactical handguards with accessory rails. Provides the proper sight regulation by placing the sight post approximately 1 3/8" above most forearm rails. All steel construction. Includes standard sight post.

SPECS: Steel, Mil-Spec phosphate coating. 1" (2.5cm) long, 1 1/2" (3.8cm) wide, 1 1/2" high when raised. 2.5 oz. (71 g) wt.

#100-002-091CE Forearm Flip Sight, 9A57H45 \$ 82.00

REAR FLIP SIGHT - Low-profile design attaches to A4 flattop receivers and regulates correctly with standard, M16/M4 front sights, as well as all Yankee Hill front sights. Rugged, steel base features an aluminum stem to keep weight to a minimum. Deploys instantly with thumb pressure. Large, knurled, screw head provides 1/2 M.O.A. windage adjustment. Includes flip-style aperture with .065" and .200" diameter peepholes for short- and long-range accuracy.

SPECS: Steel, Mil-Spec phosphate coating. 1" (2.5cm) long, 1 1/2" (3.8cm) wide, 1 3/8" (3.5cm) high when raised, 2.5 oz. (71 g) wt.

BROWNELLS CAR-15/M4 FLIP-UP TACTICAL SIGHTS

Fast Deploying For Emergency Situations

Rugged flip-up sights provide instant backup when primary sight fails or weather conditions limit its use. Robust cross-bolt with oversized, slotted hex nut locks clamping lock tightly to Picatinny accessory rail for zero sight movement. All models regulate with mil-spec A2 carbine sights or same-height aftermarket sights—perfect for co-witnessing with non-magnifying red dot and holographic optical sights. Precision machined from hardcoat anodized 6061 T6 aluminum and heat-treated 4140 steel for repeatable settings and the strength to handle the rigors of combat. A2 windage knob on rear sights provides precise 1/2 MOA adjustment. **Standard Rear** - Versatile, .108" diameter aperture gives an excellent field of view for both short- and long-range targets. Deep grooves on the sides ensure positive grip for quick deployment, while ball detent lock resists accidental folding down during strenuous maneuvers. **360 Series Rear** - HK-style rotating turret for maximum accuracy out to 300 yards. Knurled turret collar with machine engraved range index marks allow quick aperture changes; two ball detents lock turret in place at each position. Close-range .160" aperture provides a large field of view for close combat; three .070" apertures are trajectory calibrated for the mil-spec M4 at 100, 200, and 300 yard ranges. (Best accuracy with 5.56mm (.223) ammunition that duplicates the military M855 62 grain FMJ load.) **Front Sight** clamps to gas block accessory rail. A2-style .070" wide adjustable post is correct height for both rear sight models. Thick, protective ears guard sight post from damage.

SPECS: 6061 T6 aluminum and 4140 steel, matte black. **Standard Rear** - 1 3/8" (3.5cm) overall length, 1 7/8" (4.8cm) high (extended), 7/8" (2.2cm) high (folded). **360 Series Rear** - 1 3/8" overall length, 1 7/8" high (extended), 1 3/8" (3cm) high (folded). Trajectory calibrated for carbines with 16" long barrel equipped with A2 front sight or sights of equivalent height. **Front** - 1 1/2" (2.2cm) long, 1" (2.5cm) wide, 1.650" (4.2cm) high (extended), 3/4" (1.9cm) high (folded).

A.R.M.S. AR-15/M16 FLIP-UP REAR SIGHT

Dual Range Flip-Up Sights

Dual apertures are calibrated for mid-range and close-range targets. Sight easily mounts to A2 rail with stainless steel cross bar and clamp secured by a locknut that's safety wired, so you can't lose it. Features precision machined aluminum base with stainless steel hardware and steel apertures. Regulates properly with standard issue front sights. **40 Std. A2** is 1 5/16" high from top of flattop when folded down and is calibrated for 500 - 600 meters and 250 - 300 meters. Windage adjustable using 3/4" diameter side knob. **40 L Low Profile** is 3/8" high from top of flattop when folded down. Calibrated for 300 meter and 250 meter combat ranges. Vertical notches above both apertures provide a secondary sighting system, designed for shooting inside 50 meters. Windage adjustable using 3/8" diameter side knob.

SPECS: Apertures - Steel, matte, black. Hardware - Stainless steel, matte, dark gray. Base - aluminum, hardcoat anodized, matte, dark gray. 2 1/8" (5.4cm) long, 1 3/8" (3.4cm) wide, 1 5/8" (4.2cm) high (upright position). **40 Std. A2 sight** - 1 5/16" (2.4cm) high (fold down height). **40 L Low profile sight** - 3/8" high (1.5cm) (fold down height).

GG&G AR-15/M16 MAD FLIP-UP REAR SIGHT

Multiple-Setting Aperture
For Precise Accuracy

Originally manufactured under contract for Picatinny Arsenal, the MAD (Multiple Aperture Device) rear sight gives the tactical shooter a dependable, fast-deploying back-up sight system with preset range points out to 600 yards. A robust locking bar and cross-bolt clamp the MAD securely to the rearmost slot in any Picatinny-style flattop receiver rail. Rotating disc has five numbered .070" apertures preset to provide the right elevation for quick, short-range engagements or precise accuracy at longer distances: 0-0 to 200 yards, 3-300 yards, 4-400 yards, 5-500 yards, 6-600 yards. (Calibrated for 5.56 NATO ammunition with 55-62 grain bullet fired from a 16" barrel.) Position number is clearly visible to the shooter through a window below the aperture. Easy-to-grasp serrated windage adjustment knob provides approximately 1/2 MOA adjustment per click on standard-issue M16A3 rifle and .65 MOA on M4 carbine. Co-witnesses with most non-magnifying holographic and red dot optical sighting systems. Folds down out of the way for low-profile storage when not in use; radiused edges and rounded corners help prevent snagging on other gear. Folded MAD overhangs the upper receiver by approximately 1/4", providing a lip for solid thumb contact to deploy the sight instantly, even when the operator is wearing gloves. Locking detent ball prevents the raised sight from accidental lowering; the operator must depress a spring-loaded release button to lower the sight. Precision machined base of strong, hardcoat anodized 6061 T6 aluminum and sight tower/aperture wheel of Parkerized 4140 steel handle the punishment of combat operations.
SPECS: Steel and aluminum, matte black finish. Covers 1 1/4" of rail space. .070" diameter apertures. Fits flattop AR-15 rifles.

GG&G AR-15/M16 A2-STYLE BACKUP IRON SIGHTS

Standard, Same Plane & Tritium Models

Innovative, spring loaded detent button locks the sight in the upright position to ensure it won't fold down unexpectedly. Steel cross-bolt is countersunk to provide a smooth, snag-free surface. Clamps to Picatinny or Weaver-style flattop rails and with proper setup will co-witness with an Aimpoint, EOTech, or similar red-dot sight system. All models feature standard military A2-style double peep apertures for an excellent field of view for both short- and long-range targets. Large, knurled windage knob is easy to grab and provides 0.48 MOA adjustment on M162E4 rifles and 0.65 MOA on M4 carbines. Precision machined from 6061 T6 aluminum and Type III hardcoat anodized for durability; includes heat-treated, 4140 steel hardware. **Standard** sight includes a .062" diameter aperture for precision accuracy during daylight, especially at long range. Large, .195" diameter aperture provides a wide field of view for close quarters operations. **XS Same Plane** sight features the XS same plane aperture to eliminate noticeable shifts in point-of-impact when switching between short- and long-range apertures. Includes .100" diameter aperture for precision accuracy during daylight and at long range. Extra large, .230" diameter aperture allows superior low light visibility and faster close range target acquisition. **Tritium** sight with large .210" diameter aperture and two self-luminous, tritium dots provide fast, close range target acquisition during low light or night operations. Includes a plain black .090" diameter aperture for exceptional long range accuracy.
SPECS: Base - 6061 T6 aluminum, matte, black, hardcoat anodized finish. Aperture/Hardware - 4140 steel, matte, black, mil-spec manganese phosphate coating. 2" (5.1cm) overall length (folded), 1 7/8" (2.9cm) high extended, 1 1/16" (1.7cm) high folded.

HIGH STANDARD AR-15/M16 DETACHABLE CARRY HANDLE/REAR SIGHT

Gives Flattop
The Convenience,
Simplicity &
Ruggedness Of Carry
Handle Configuration

Military-style carry handle attaches to receiver rail to provide a simple, rugged iron sight system that converts flattop rifle for CQB operations or CMP Service Rifle Competition. Also serves as a mounting platform for ACOGs and other optics with a base already configured to fit carry handle. A2 rear sight assembly provides reliable primary or back-up sighting; correct height for issue front sight. Full-length clamping bar with two cross-bolts and thumb nuts lock handle securely to receiver rail and prevent unwanted movement even during strenuous tactical operations. Deep grooves on nuts provide extra purchase for hand tightening, and slots accept a U.S. nickel or quarter for more tightening leverage.

SPECS: Hardcoat anodized aluminum handle and parkerized steel sight parts, matte black. Fits flattop rifles and carbines with Picatinny-style receiver rail.

MATECH AR-15/M16 USGI BACKUP IRON SIGHT

Deploys Quickly;
Fast, Easy Range Setting;
Compact Profile When Folded

Current U.S. Army standard-issue backup rear sight for M4 carbines and M16A4 rifles flips up instantly at the touch of your thumb when primary sight fails or tactical situation makes iron sights preferable. Designed in conjunction with Picatinny Arsenal engineering staff and rigorously tested at Fort Benning and Aberdeen Proving Ground for robustness, ease of use, and effective targeting out to 600 meters. Detent-locking lever lets you quickly switch to one of eight range settings: 200, 300, 350, 400, 450, 500, 550, and 600 meters. Adjust windage easily with grooved, A2-style windage knob and position markers on the back of the sight for repeatability of settings. Bright, white, laser etched numbers and markers are clearly visible even in low light. Rugged machined steel construction ensures sight retains zero even under heavy, full-auto fire. Clamps securely to the rearmost slot of MIL-STD 1913 Picatinny or Weaver-style accessory rail on flattop receiver via simple but strong locking bar and bolt. Rounded corners and beveled edges further reduce danger of snagging on other gear when sight post is down. Regulates correctly with A2 front sight on any AR-15-style rifle or carbine; instructions included for adjusting front sight post height to set exact zero. Designed to co-witness with most non-magnifying optical sights.

SPECS: Steel, matte black finish.

WILSON COMBAT AR-15/M16 FLIP-UP REAR SIGHT

Tactical Back-Up Sight
For Optic-Sighted Rifles

All steel, rear sight provides dependable backup in the event of optic sight failure. Folds down out of the line of vision; flips up for instant use. Large aperture peep is fast to pick up, doesn't interfere with field of view. Dual clamp screws with a single cross bolt adapt to Weaver- or Picatinny-style bases. Click adjustment for elevation and windage gives excellent repeatability. **TR-FURS** - Has a coin-slot windage screw to prevent accidental

MIDWEST INDUSTRIES AR-15/M16/AR-STYLE .308 FLIP-UP SIGHTS

Instant Back-Up Sighting At All Ranges

Flip-up sights deploy with the flick of a finger to provide instant back-up, so you stay in the fight if your optical/laser sight fails or conditions render it ineffective. Super-smooth pivot mechanism with sturdy ball-bearing detent locks positively in the raised position and stays locked until you hit the pushbutton release. Sight folds down neatly out of your sight path when not in use. Machined from high-quality 6061 T6 aluminum and hardcoat anodized matte black for increased wear-resistance. Hex wrench included with all models for easy installation.

REAR SIGHTS - Clamp securely to flattop receivers. Flip-style A2 aperture features a small peep opening for long-range daylight shots and a large opening for close-range and low-light work. Same-plane calibration ensures the point of impact will not change when switching from one aperture to the other. Deeply grooved knob provides positive clicks for windage adjustment in .65 MOA increments on rifles and carbines with 16" barrels and .49 MOA on rifles with 20" barrels. **MCTAR-ERS** - Emergency Rear Sight with protective "ears" to guard the aperture from accidental damage. Aperture has .060" and .200" diameter peep openings; same windage knob as standard A2 sight. **MCTAR-SPLP** - Low-profile design is less than 1/2" high when folded, yet provides full windage adjustment like the ERS model. Aperture has .070" and .200" diameter peeps.
SPECS: Aluminum, hardcoat anodized, matte black. Fits flattop AR-15/M16 rifles. **MCTAR-ERS** - 1 3/8" (3.5cm) long, 1 3/8" wide, 1 3/4" (4.4cm) high deployed, 1" (2.5cm) high folded. 2.2 oz. (61g) weight. **MCTAR-SPLP** - 1 1/8" (2.9cm) long, 1 1/4" (3.2cm) wide, 1 3/4" high deployed, 7/8" (1.1cm) high folded. 1.5 oz. (41g) weight.

TROY INDUSTRIES AR-15/M16 FOLDING BATTLE SIGHTS

Rugged, Reliable
Backup Sighting;
Same Height As
Factory Iron
Sights

Rugged, flip-up sights provide fail-safe backup when your primary optic or red dot sight fails. Sight post flips up easily when you need it and locks securely in place under powerful spring pressure and two locking detent balls, so it can't be accidentally bumped down until you hit the spring-loaded button on the left side of the base to retract it. Positions apertures at the same height as factory sights, simplifying integration of these sights on your rifle. Base with sturdy side clamp and heavy duty stainless steel crossbolt attaches to any military or commercial Picatinny rail. Installs with a standard flathead screwdriver—no protruding knobs or levers to catch on brush, clothing, or other equipment. Machined from 6061 T6 aluminum and Type III hardcoat anodized for durability with Teflon® additive to resist surface abrasion; available in Black and Dark Earth. Front sight clamps to gas block accessory rail or extended handguard rail and is only 1/2" high when folded. Available in **HK** and **M4** styles, both with M4-type sight post that is elevation adjustable in 1/2 MOA increments. Protective ears on both models shield the post from damage. Distinctive "globe" shape of HK sight aids in fast target acquisition under stress. Deep grooves in sides of M4/M16 sight post ensure a firm grasp for fast deployment. **HK-Style Rear Sight** bolts to flattop receiver rail and is only .460" high when folded. Flip between two same-plane apertures; large .190" aperture provides a wide field of view for close-in targets, while .070" aperture is calibrated for engaging long-range targets. Sturdy, protective "ears" guard the aperture from impact. Large adjustment wheel with deep serrations lets you change the windage setting in 1/2 MOA increments; positive-locking detent ensures settings change only when you want them to.

SPECS: Stainless steel and aluminum, Black or Dark Earth finish. **Rear** - 1.17" (3cm) long, 1.25" (3.2cm) wide, 1.85" (4.7cm) high extended. 1.8 oz. YANKEE HILL MACHINE AR-15/M16 A2-STYLE REAR SIGHT

Co-Witnesses With Most Red Dot Sights

Solid, A2-style rear sight clamps to the rear of your flattop receiver to co-witness with an Aimpoint, E.O. Tech, or similar red-dot sight system. Functions like the original carry handle sight—perfect for a combat-ready backup sight—and regulates correctly with standard, M16/M4 front sights and Yankee Hill front sights. Large, grooved, steel windage knob and elevation wheel provide full click-adjustments in 1/2 M.O.A. increments. Standard, flip-style aperture has .065" and .200" diameter peepholes for short- and long-range shooting. Large, steel "ears" protect the aperture from blows. Rugged, aluminum base keeps weight to a minimum without sacrificing strength.
SPECS: Aperture, Housing & Hardware - Steel, matte, black, mil-spec phosphate coating. Base - Aluminum, matte, black, anodized finish. 1 1/8" (2.9cm) long, 1 1/4" (3.2cm) wide at base, 1 7/8" (4.8cm) high. 3.6 oz. (101g) weight.

AMERICAN DEFENSE QUICK-RELEASE ACCESSORY MOUNT

Patented, Easy-On/Easy-Off System For Mounting Lights, Vertical Grips & Other Accessories

Convenient, quick-detach mount clamps solidly to almost any Picatinny or Weaver-style rail for mounting weaponlights, vertical grips, lasers, optics, and other accessories that need to be removed and reinstalled quickly. Increases the flexibility of your weapon and allows quick changes of accessory configuration to meet individual mission requirements. Patented lever-lock system will not work loose under recoil; the more force acting on the lever, the tighter it locks, yet when you depress the release tab, the lever swings open easily. Adjust gripping force with a flat head screwdriver or coin for an ultra-secure fit even on non-mil-spec, over- or under-sized rails. Lever may be configured to lock to the front or the rear to suit the operator's preference. Locking bar on the side of the mount engages maximum rail area, while the crossbolt and two integral locking lugs ensure rock-solid engagement with rail slots. **SPECS:** 6061 T6 aluminum, hardcoat anodized, matte black. 2 1/4" (5.7cm) long. Provides .615" (1.6cm) standoff from weapon rail. **#100-003-648CE Quick-Release Accessory Mount, 7B79P95** \$ 99.95

FALCON INDUSTRIES AR-15/M16 UNIVERSAL MOUNTING PLATFORM

Quickly Mount Accessories
To AR Handguards

Lightweight, aluminum mount attaches to AR-15 handguards; gives quick, sturdy mounting for lights, forward grips, bipods and tripods. Fits standard, round, plastic, AR-15 and CAR-15 handguards without removing the heat shield. Requires removal of heat shield to fit M4 handguards. Can be attached to top or bottom handguard. Accepts Weaver-style accessories. 4" w/adaptor permits use with 2" diameter aluminum float tubes, also fits standard handguard. **SPECS:** Aluminum, anodized, black. 2", (5cm), 4" (10.1cm) and 6" (15.2cm) long. Includes mounting bolts and hardware. 4" w/adaptor and 6" Platform also include low profile rail covers. **#573-000-017CE 2" Mounting Platform 3G09C35** \$ 15.00

FALCON INDUSTRIES AR-15/M16 UNIVERSAL ACCESSORY MOUNTING PLATFORM

Easy Installation;
Mount Tactical Accessories

Injection-molded, nylon-based, polymer platform installs easily on tube and conventional two-piece AR-15 handguards to mount lights, lasers, and tactical gear. Six mounting holes and lots of slots make it adaptable to different situations. Comes complete with three mounting screws and flat nuts. Accepts picatinny and Weaver-style accessories. **SPECS:** Injection-molded polymer, black. 5 5/8" (14.3cm) OAL. **#573-000-027CE Universal Accessory Mounting System, 3G07C14** \$ 10.00

YANKEE HILL MACHINE DOVETAIL ANGLE MOUNT

Solid, Offset Mount For Lights & Lasers;
Prevents Interference
With Primary Sights

Lightweight, clamp-on rail eliminates the issue of front sight obstruction when mounting a tactical flashlight or laser sight/laser under the sight picture when using iron sights or optics. Compact, 3-slot rail accepts a Weaver or Picatinny ring. Aluminum body with steel, clamping jaw provides superior holding strength with minimal weight increase. **SPECS:** Aluminum, matte black, Mil-Spec, hard coat finish. 1 3/8" (3.5cm) long, 1 3/8" wide, 7/8" (2.2cm) high. 1.2 oz. (34 g) wt. **#100-002-095CE Dovetail Angle Mount, 9A19D50** \$ 26.00

YANKEE HILL AR-15/M16 MINI RISER ASSEMBLY

Adds Extra Mounting Space
For Small Accessories

Compact, Picatinny mini-riser is perfect for raising lasers, lights, sights, and other essential accessories that need a little extra lift or clearance. Constructed of aircraft grade aluminum and hardcoat anodized for extra durability and long-lasting wear. Milled out center slot considerably cuts down on weight. Fits Picatinny rail systems with two slightly oversize screws to increase clamping power. **SPECS:** Aluminum, hardcoat anodized, black. 1 5/8" long, 1 1/4" (3.1cm) wide, .72" (1.8cm) overall height. 1.1 oz. (31g) weight. **#100-002-858CE Mini Riser Assembly, 9A11H35** \$ 17.00

DANIEL DEFENSE AR-15/M16 RAIL MOUNT QD SLING SWIVEL

Helps Stabilize Weapon
To Prevent Gun Roll

Uniquely designed, quick-detach swivel mounts limit rotational movement or offset the traditional swivel position to help the soldier achieve optimum weapon balance and control with popular tactical slings. Attach anywhere along railed forearms; robust, aluminum clamping block with hex head cross-bolt locks mount securely to any Picatinny or Weaver-style rail platform. Extra heavy-duty, steel, push-button swivel removes quickly, so operator can break-away from the sling in emergency situations. Available in two models; both can be mounted for right- or left-hand use. **Standard QD Rail Mount** for 2- and 3-point sling configurations limits swivel rotation to approximately 45° to help stabilize the weapon and eliminate sling tangle. **Offset QD Rail Mount** rotates on a 90° axis, with stops to prevent sling twist. Allows weapon to hang closer to the vertical position when slung in a 3-point configuration. Keeps rifle closer to the body in the low-ready position. **SPECS:** 6061 T6 aluminum, Mil-Spec Type III, hardcoat anodized, black. **QD Rail Mount** - 1 1/4" (3.2cm) long, 1" (2.5cm) wide, 5/8" (1.6cm) high, 1 oz. (28g) wt. **Offset QD Rail Mount** - 2" (3.2cm) long, 1" (2.5cm) wide, 3/4" (1.9cm) high, 1.2 oz. (34g) wt. **#100-002-987CE QD Rail Mount Swivel, 8K34V65** \$ 39.95

BROWNELLS CAR-15/M4 LOW-PROFILE AMBI SLING ADAPTER

Compact, Slimline Design
Won't Snag On Brush Or Clothing

Steel sling adapter features a unique slot/hole configuration that keeps the plate as slim and compact as possible to help eliminate snags on brush and your BDUs when carrying rifles with collapsible stocks. Accepts both 1/4" wide webbing and single-point clip-on tactical slings. Move the sling from one side of the receiver to the other or swap it for a different one in seconds. Provides plenty of clearance for forward assist and easy access for clearing jams. Replaces factory receiver plate without gunsmithing. **SPECS:** Steel, black oxide finish. Fits CAR-15/M4 and collapsible-stocked AR-15 rifles. 2" (5.2cm) long, 1 3/16" (4.6cm) wide, 1/8" thick. **#800-000-381CE Low-Profile Sling Adap. 8K15C31** \$ 19.99

GRSC CAR-15/M4 CAR AMBI SLING ADAPTER

Allows Rapid Switch From
Right-To Left-Hand Carry

Steel, sling adapter replaces the issue, receiver plate to provide a rock solid attachment point for fast handling, tactical slings on CAR-15 rifles. Ambidextrous slots accept 1/4" wide webbing, rings accommodate carry straps with snap fasteners. Allows the sling to be switched from right or left side of receiver in seconds. Keeps sling tangle-free and provides the proper balance and stability for hands-free carry. **SPECS:** Steel, Parkerized finish. 2 9/16" (6.5cm) long, 2 1/8" (5.2cm) high, 3/32" (2.4mm) thick. Fits CAR-15 rifles. **#100-001-467CE CAR Ambi Sling Adapter, 6A08V00** \$ 9.95

MIDWEST INDUSTRIES AR-15/M16 SLING ADAPTER

Installs Easily; Choose Your Sling Position
On Collapsible Stocks; Made In The U.S.A

Hard anodized, 6061 aluminum sling adapter clamps to collapsible stock buffer tubes with no need for special tools or to remove the buffer tube. Two models available: **Loop** for claw-type clasp; or **Slot** for conventional web slings. Adapters can be used with single-point, two-point, or three-point tactical slings and are ambidextrous for use with right- or left-hand operation. **SPECS:** 6061 aluminum, hard anodized, matte black. Fits 4- or 6-position collapsible stocks. No gunsmithing required. **#100-002-123CE Loop Sling Adapter 2A27Z21** \$ 35.71
#100-002-122CE Slot Sling Adapter 2A27Z85 36.20
MCTAR-30HD SLING ADAPTER - No gunsmithing required, extra heavy-duty ambidextrous sling swivel mount simply clamps onto the buffer tube. Includes 1/4", mil-spec, push-button, quick-detach sling swivel that can be mounted on either side or the center of the adapter body. Fits adjustable M4-type buttstocks Hard coat anodized, 6061 aluminum body with a matte black finish is built to take extreme duty use without failure. Won't interfere with the operation of stock. Makes an excellent choice for adding an easy quick-release feature to any single-point, two-point, or three-point tactical sling. Made in the USA. **SPECS:** 6061 aluminum, hard anodized, matte black. Fits 4- or 6-position collapsible stocks. No gunsmithing required. **#100-002-876CE MCTAR-30HD Sling Adapter, 2A45D00** \$ 59.99

MIDWEST INDUSTRIES AR-15/M16 FRONT SLING ADAPTER

Provides Strong, Reliable Sling Attachment

Two-piece clamp with single cross-bolt secures adapter to Picatinny/Weaver-style handguard rails so you have a front sling attachment point. **MCTAR-06** has pivoting, 1/4" wide swivel for direct sling attachment. Rubber coating on swivel prevents noisy, metal-to-metal contact. **MCTAR-07** includes a fixed, dome-shaped stud that accepts your own, standard quick-detach swivel. **MCTAR-08** includes a 1/4" wide, 360° rotating, push-button swivel for rapid sling removal. **MCTAR-08HD** has heavy duty base and swivel that stands up to extreme tactical operations. 1 1/4" wide, quick-detach swivel limits travel to prevent sling wrapping yet allows necessary movement. **MCTAR-TS** has a fixed, round, 5/16" (7.8mm) ID loop for clip-on, H&K-style or similar quick-release slings. **SPECS:** Bases - 6061 aluminum, mil-spec hardcoat anodized, matte black; steel setscrew, matte black oxide. **MCTAR-08HD** - 2 1/8" (2.2cm) long x 1 3/16" (3cm) wide. Other models - 5/16" (1.4cm) long x 1 3/16" (3cm) wide. **Swivels/Studs** - Steel, black finish. Swivels accept slings up to 1 1/4" (3.2cm) wide. **#100-001-922CE MCTAR-06 Adapter, 2A25U92** \$ 33.70

TACTICAL OPERATIONS
TACTICAL BOLT KNOB CONVERSION

Oversize Knob For Fast, Positive Action Cycling; Installs With Or Without Adapter Stud For Desired Look & Feel

Unique, 2-piece, bolt knob conversion gives the tactical rifle builder the flexibility to extend the overall bolt handle length for maximum leverage, or to maintain near factory length for minimal bulk or weight increase. Installation is fast and easy – simply cut off the factory bolt knob, drill the cut end of the bolt handle shank, TIG weld or silver solder the pre-threaded adapter stud in place, and screw-on the tactical knob. Increases overall bolt handle length by up to 1" for added leverage and to prevent the trigger finger from hitting the bolt knob when shouldering the rifle. For minimal length increase, turn and thread the bolt handle shank for 9/16"-18 tpi and screw-on the knob. Oversize, tapered knob is machined from 6061 T-6 aluminum for maximum strength with minimal weight increase. Available with **HardAnodized**, semi-gloss, black finish or with the addition of Walter Birdsong's matte **Black-T** tactical finish. **SPECS:** Knob - 6061 T6 aluminum, hard-anodized, semi-gloss black or hard-anodized with matte Black-T coating. Adapter Stud - Chrome moly, in-the-white. 1 1/16" (2.7cm) long, O.D. tapers 1" (2.5cm) to 7/16" (1.1cm), 5/16"-18 tpi. 1.5 oz. (42.5g) wt. Gunsmith installation recommended.

HOW TO BUILD AN AR-15

Tim Dillon, Brownells Military/Law Enforcement Manager and a former U.S. Army small arms repair specialist, shows you how to build your own AR with features and accessories that'll help you shoot your best. Tim walks you through each step in plain English and crystal-clear video. He explains AR-15 models and variations, laws and regulation, specifications, operation, deciding what rifle to build, selecting and ordering parts, tools, step-by-step assembly, function testing, safety checking, cleaning, and maintenance. The presentation is divided into a series of short segments, each devoted to a specific subassembly or variation of one. Watch only the segments that apply to the rifle you want to build. If you decide to modify your rifle later, go back and just watch the segments that cover your planned changes. **1 DVD, 2 hours 10 minutes.**

DESIGNATED MARKSMAN RIFLE

NEW **SURGEON RIFLES**
SHORT-ACTION RECEIVER & BOLT

Rugged, Remington-Style Action For Building Precision Tactical Bolt Action Rifles

Complete short-action receiver and bolt assembly give the reliability and smoothness of the classic Remington 700 action combined with innovative features designed specifically for police, military, and civilian precision shooters. Machined, not forged, to exceptionally tight tolerances from a solid billet of 4340 steel. Raceways are EDM-cut to be perfectly square with the receiver face, threads, and bolt locking lug surfaces. A rail in the left raceway eliminates misfeeds caused by a shell getting stuck in the raceway, and the extended ejection port ensures plenty of clearance for fired cases. Full-length, 20 M.O.A. MIL-STD 1913 Picatinny rail milled into the receiver top offers exceptional scope mounting flexibility and stays perfectly aligned with the action centerline and barrel tenon threads because it can't work loose or get misaligned by impact. Hefty 1/4" thick recoil lug machined into the underside spreads recoil force over a larger area than standard lugs. Bolt is machined from a single piece of 4140 steel billet, including .308 (.473" diameter) breech face, extraction cam, and bolt handle; outside diameter and locking lugs are machined in a single operation, so the lugs are perfectly square with the bolt exterior. Bolt maintains a .007" clearance out of battery, with .004" clearance (.002" per side) when closed. Streamlined, screw-on tactical bolt knob can be replaced with other aftermarket knobs to suit your needs. Shroud around the oversize bolt stop keeps out dust and dirt and prevents accidental release. All components are heat treated for hardness before final surface machining to prevent unwanted stress or warpage. Extractor, ejector, firing pin, shroud, and cocking piece are standard Remington 700 parts, and action accepts all triggers, stocks, and magazines compatible with the 700, greatly expanding customizing options.

SPECS: Steel, in-the-white. Includes receiver, bolt, bolt knob, bolt stop, bolt stop pin, bolt stop spring, ejector, ejector spring, ejector pin, extractor, firing pin, and trigger pins. **FFL required for purchase.**

#100-003-660CE SA Receiver 3F1069A95 \$ 1,285.00

ACTION WRENCH - Eliminates unwanted twisting or bowing of the Surgeon receiver that can result in distorted bolt raceways and other expensive damage. Inserts in the ejection port; the two "ears" fit in the raceways at the front ring. Insert a 1/2" drive ratchet handle or torque wrench and tighten/loosen the action to the barrel. Also works on any length Remington 700 receiver.

SPECS: Steel, black oxide finish. Fits Surgeon Rifles and Remington 700 receivers.

NEW Models **RIFLE BASIX**
CUSTOM RIFLE TRIGGERS

Easy-To-Install; Helps Improve Accuracy

Adjustable trigger kit lets you select the weight of pull, let-off, and overtravel that best suit your style of shooting. Comfortable, .330" factory width, trigger shoe delivers excellent feel, vertical grooves give positive purchase. Housing is CNC machined from aluminum billet; provides greater internal clearance to reduce drag and produce a smooth felt pull. Available in four weight-of-pull ranges. Models for pre-2006 manufactured rifles retain the factory safety lever and bolt release. K models are required for rifles manufactured in 2006 and later, and include safety and bolt release. Fits Remington 700, Model Seven, and 40X target models.

SPECS: Housing - T6-6061 aluminum, hardened. Machined and hardened steel levers and pins. Fit Remington 700, Model Seven, and 40X target rifles. Right hand only. Adjustable pull weight: **L-1/L-1K** - 1 1/2 lb. to 3 lb. **LV-1/LV-1K** - 8 oz. to 1 1/2 lb. **ERV-3/ERV-3K** - 4 oz. to 1 1/4 lb. **L-3/L3-K** - 2 oz. to 6 oz.

NEW **TACTICAL RIFLES REM 700**
BOTTOM METAL ASSEMBLY

Faster, Easier Reloads; Drop-in Fit

Add all the convenience of a removable magazine to your favorite Remington 700 BDL tactical rifle. Precision machined from high strength steel and overbuilt to withstand extreme tactical use. Large, spring-loaded lever outside the triggerguard is easy to find and reliably drops the magazine free to allow fast loading and unloading. Uses Accuracy International, steel, 5-round and 10-round double-stack magazines. Includes Allen head action screws.

SPECS: Steel, matte, black oxide finish. 9.3 oz. (265 g) weight. Fits Rem 700 BDL .308 length, short action (SA).

POLICE RIFLE STOCK

Full Contoured "Target"-Style Stock For Building Highly Accurate S.W.A.T. Rifles

Same stock as used by the U.S. Army. Exclusive, molded-in, machined, aluminum bedding block gives a true "drop-in" fit that requires no initial fitting and no maintenance. Made from Kevlar/graphite-reinforced fiberglass, bonded to structural polyurethane foam for lightest weight and complete stability, regardless of changes in temperature or humidity. Extra-wide forend and double palmswells in the grip area help promote a tighter, more comfortable hold for consistent accuracy when it's needed most. Available in Black or Sand.

SPECS: Oversize, target-style stock. **Flat Black (B) or Sand (S)**, baked-on, non-reflective finish. 13 1/2" (34.2cm) l.o.p., minimum drop at heel, wt. 2 lb. 12 oz. (1.3 kg). Includes sling and tripod stud, rubber recoil pad and instructions. **BDL** fits Remington 700 BDL short action, heavy barrel only. **DM** fits Remington 700 BDL short action with detachable mag., heavy barrel only.

—VLTOR M14/M1A SOCOM MODSTOCK—

Gives Your Rifle AR-15 Handling Qualities, Plus Plenty Of Storage For Special Operations

Give your semi-auto M14/M1A the handling qualities of a 21st century tactical rifle with this easy to install replacement stock. Modstock consists of a modified USGI fiberglass stock fitted with a machined aluminum adapter supporting an AR-15-style receiver extension for the collapsible "Clubfoot" buttstock. Five locking positions on the extension provide a length of pull adjustment from 10 1/2" to 14", and a 1" range of vertical adjustment helps you set the correct stock height for a solid cheek weld. Two, detachable, full-length storage compartments provide additional cheek support; each waterproof compartment holds up

H-S PRECISION REMINGTON 700
VERTICAL GRIP
TACTICAL RIFLE STOCK

Fully Adjustable For Right- & Left-Handed Shooters

Designed for police departments and law enforcement agencies. Stock is instantly and fully adjustable (no tools required) for length of pull and drop at comb. Plus, the handfilling, vertical grip and adjustable cheekpiece are ambidextrous for both right- and left-handed shooters. Machined aluminum bedding block runs from near the front swivel mount all the way back, into the pistol grip so no additional bedding is needed for superior accuracy. Kevlar/graphite-reinforced fiberglass provides stability and strength for a zero that never shifts due to changes in temperature or humidity. Barrel channel is relieved for straight contour, bull-style, heavy barrels up to 1.250" in diameter. Available in Flat Black or Sand.

SPECS: Oversize, target-style stock. **Flat Black (B) or Sand (S)** baked-on, non-reflective, textured finish. Adjustable from 12 1/2" (31cm) to 14 1/2" (36cm) lop, 0" to +2" (5cm) rise at comb. 4 lb. 3 oz. (1.9 kg) wt. Fits Remington 700 BDL Short (right hand) and Long actions only.

NEW **TROY INDUSTRIES M14/M1A**
MODULAR CHASSIS SYSTEM

Advanced Tactical System For Accessory Mounting & Improved Accuracy

High quality, machined aluminum chassis turns your M14/M1A service rifle into an advanced tactical weapon platform with a built-in, four-rail system for mounting accessories. Rigid, two-piece upper and lower with an adjustable bedding block allows fine-tuning for improved accuracy. MIL-STD 1913 Picatinny rails feature numbered cross slots for easy identification, plus machined lightening holes between the rails for enhanced barrel cooling. Low profile top rail allows back-up iron sights or co-witness capability. Back end accepts AR-15/M16 style buttstock assemblies and pistol grips for superior recoil control and reduced muzzle jump. Easy installation without special tools; fits all diameter M-14 barrels and standard operating rod guide. T6 aluminum, hardcoat anodized for durability.

SPECS: Chassis - T6 aluminum, hardcoat anodized, matte black. 23 1/2" (59.7cm) OAL. Rails: Top - 22" long (56cm), Bottom - 11" long (28cm), Right - 6 1/2" long (16.5cm), Left - 6 1/2" long.

#100-003-461CE Black Modular Chassis 3B699Z00 \$ 754.99

to 2 AA or 3 CR123 batteries. Tangodown pistol grip ensure positive weapon control. Storage recess in the grip can hold spare batteries or other small items; flexible rubber cap seals out dirt and moisture. Another compartment in the receiver extension is ideal for a field cleaning kit. Sockets on each side of the stock adapter accept the included quick-detach, push-button swivel for an ambidextrous 1/4" single-point sling. Note: stock is designed for use with the Springfield Armory CAS-14 Cluster Rail system and does not have a forward sling attachment point.

SPECS: Forward Stock - Textured fiberglass, matte black. Receiver Adapter/Extension - Aluminum, hardcoat anodized, matte black. Buttstock & Pistol Grip - Molded polymer, black. Fits semi-auto M14/M1A only; no clearance for selector switch assembly.

SPRINGFIELD ARMORY M14/M1A NATIONAL MATCH GAS CYLINDER

Unitized Front Band & Gas Cylinder Increases Accuracy

Solid, welded construction makes the gas cylinder and front handguard band a single unit to free float the barrel assembly for consistent accuracy. Lets you sling up tightly without sling pressure affecting accuracy.

SPECS: Steel, blue. Fits M14/M1A.

- #817-030-400CE N/M Gas Cylinder, 7A91Y00 \$ 114.00

SADLAK INDUSTRIES M14/M1A GAS PISTON

Helps Shed Carbon For Easy Cleaning & Long Service Life

Precision machined, 420 stainless steel pistons are highly polished and heat treated for a smooth, hard surface that resists carbon build-up, reduces friction, and helps maintain critical tolerances for improved service life and reduced gas cylinder cleanings. Smooth surface **Stainless Steel** piston is micro-finished, then electro-polished to prevent rounding of the gas grooves for smooth, reliable cycling and extended service life. **Titanium Nitride** model adds an extra hard, TiN coating for increased protection against burnt-in powder fouling, corrosion and excessive heat build-up. Also helps reduce wear of the push grooves for more consistent gas pressure.

SPECS: 420 stainless steel hardened to Rc 50. 3.620" (9.2cm) long x .497" (1.3cm) piston diameter. 1.6 oz. (45.4g) wt. **Stainless Steel** - Polished finish. **Titanium Nitride** - Titanium Nitride gold finish. Surface hardened to Rc 80.

SNIPERTOOL DESIGNS COSINE INDICATOR

Improves Accuracy When Shooting Up Or Down Hill

Precision-machined, aircraft-grade aluminum instrument eliminates guesswork when adjusting your scope to fire at elevated, or very low targets. The orange needle moves with your rifle and displays a number that indicates the percent your rifle is off level. Multiply the indicated percent by the target distance to easily calculate the adjusted distance for gravity. Dovetailed bottom fits onto the aluminum mount (listed below) which fits Picatinny and Weaver-style rails. Or, mount an extra Weaver-style ring on your scope tube and clamp the Indicator in the ring's dovetail. Ring not included. Lets you keep your face on the cheekpiece and see the Indicator. **Mil-Spec** version is waterproof for 35 minutes and 1 meter of water.

SPECS: Aircraft-grade aluminum, anodized, black. **Cosine Indicator** - 1" (2.54cm) diameter of dial, .75" (1.9cm) thick. **Mount** - 1.37" (3.5cm) wide, 1" high.

Indicator shown with Optional Mount

MOUNTING SOLUTIONS ANTI-CANT DEVICE

Stay On Target, Shot After Shot

Gives an instant check to make sure the gun is perfectly level before pulling the trigger, so every shot goes where it's aimed. When a gun sighted in at 100 yards with the crosshairs level is canted just six degrees, point of impacts moves over 1/2". Not much, but enough to completely miss a small target—or wound a larger one. The problem gets worse at longer ranges. Clamp the ACD on the scope tube where it's visible to the non-sighting eye.

SPECS: Aluminum. Black (**Blk**) or silver (**Sil**), anodized, matte finish. Available for 1" or 30mm scopes.

- #556-200-100CE 1" Blk Anti-Cant Device 1K22P50 \$ 29.95

MILDOT ENTERPRISES

MILDOT MASTER CALCULATOR

Instant Solutions For Mil. Dot Ranging

No need to remember complicated formulas or make complex calculations. Practical analog calculator is comprised of only two parts, uses no batteries, fits easily in a shirt pocket and is impervious to weather. Quick-to-align scales provide direct readout of range and bullet drop/wind drift, plus converts yards to meters. Also determines angle of fire, eliminates hold over errors for uphill or downhill shots.

SPECS: Calculator - 3 1/4" (8.4cm) wide, 6 1/2" (16.5cm) long. Includes 27 page 8 1/4" x 11" instruction book.

- #889-100-000CE Mildot Calculator 9H30A00 \$ 40.00

SCOPE DOPE BALLISTIC DATA QUICK REFERENCE SYSTEM

View Load-Specific Ballistic Information When You Really Need It

Because real life shooting conditions are never ideal or the same, this handy data reference kit puts accuracy-boosting ballistic information right where you need it, when you need it — while you're actually shooting! Reusable, precut, vinyl data disc fits inside the flip-open cap of any #11 or larger Butler Creek scope cover eyepiece, so you always have range, bullet drop, and wind drift information at your immediate disposal while aiming. Simply record the ballistic data for your specific firearm/ammunition onto the data disc with the included waterproof pen, and adhere it to the scope cover cap with the adhesive tabs. Accompanying, rectangular data card with hook-and-loop strips allow you to record and store the same information on the back of a Mildot Master® analog calculator, on your stock, or in your personal ballistic files or notebook. Easily revise the data disc or card at anytime by removing your previous data with the supplied alcohol pads. Calibrated in three configurations to best suit your shooting application. **Standard** system features data tables pre-calculated for 100 to 1,000 yards/meters in increments of 50; **Law Enforcement** is calibrated from 25 to 250 yards/meters in increments of 25; **Long Range** has blank data tables for entering your own, personal range increments.

SPECS: Includes vinyl data disc and card, marking pen, hook-n-loop strips, adhesive tabs, and cleaning pads. **Standard** - Calibrated for 100 to 1,000 yd/m. **Law Enforcement** - Calibrated for 25 to 250 yd/m. **Long Range** - Blank for entering custom range increments.

TANGODOWN AR-15/M16 ADVANCED COMBAT BIPOD

Fast, Simple, No-Fail Design With Variable Height Adjustment

Sometimes the simplest design works the best. This compact bipod has legs that fold down and back up with the push of a button, silently and smoothly, allowing you to stay focused and on target. Individual leg height is set with a recessed push-button that totally eliminates any chance of an accidental release. Legs are preset for the optimum traverse angle and left/right cant; will never require adjustment. Non-slip, molded feet grab and hold the surface, so you won't drift off target during rapid fire. Minimum leg length is 8" from bottom of rail, adjustable in three positions up to 2 1/2" longer to fit individual shooters. Machined aluminum base with durable, polymer composite legs. Secures to picatinny rail with steel latch and Allen head screws. Includes wrench.

SPECS: Aluminum base, steel hardware, polymer composite legs, matte black. 9" (22.9cm) long, 3 7/8" (9.9cm) wide, 1" (2.5cm) high.

YANKEE HILL MACHINE **BIPOD ADAPTER**

Rock Solid Platform For Bipod Attachment

Lightweight, slimline design eliminates the "clunky" extra baggage look that goes along with trying to mate a bipod to an AR-15/M16 handguard. The rugged, aluminum platform with fixed attachment stud provides a superior fit to Weaver or Picatinny, accessory rails. Two hex-head crossbolts give uniform clamping pressure, so adapter remains rock solid while shooting. Specifically contoured to accept Harris and similar bipods that attach to a swivel stud. **SPECS:** Aircraft-grade aluminum, hardcoat anodized, matte black finish. 2 5/8" (6.7cm) long, 1 1/4" (3.2cm) wide, 5/8" (1.6cm) high. 2.2 oz. (62g) wt. **#100-002-072CE Bipod Adapter 9A21H05** \$ 30.50

TOLL FREE: 800-741-0308

AR-STYLE RIFLE FREE FLOAT TUBE ADAPTER - Provides secure mounting of Versa-Pod to any AR-15 style rifle with a tube-free free float forend with an Uncle Mike's or similar design sling swivel stud. This adapter fits ArmaLite® T-Series rifles, Rock River Arms Varmint models, and similar rifles with stud positioned on underside of tube. Comes with a 360° rotating quick-detach sling swivel that fits receptacles on both sides and bottom of mount. No gunsmithing required. **SPECS:** Steel and hard, reinforced polymer composite, black finish. **#100-003-760CE AR-Style Rifle Free Float Tube Adapter, 3K34X95** \$ 44.95

Models **TAPCO** **FUSION AK-47 FURNITURE**

Functional, Durable Buttstocks, Handguards, Pistol Grips

Attractive and functional, AK-47 furniture replaces wooden factory parts and gives your favorite AK a modern look and long-lasting durability. Made from rugged, military-grade, molded polymer composite that stands up to the toughest abuse. Made in the USA. **T6 ADJUSTABLE STOCK** - Six position, adjustable stock lets you select the length of pull best suited for the tactical environment. Easy-to-operate, spring-loaded release lever for fast adjustment. Checkered buttplate with slight negative angle for quick and easy shouldering when wearing body armor. Toe-mounted sling loop accepts slings up to 1 1/8" wide. Fits stamped receivers; requires drilling two holes in stock. **SPECS:** Molded polymer, black, Flat Dark Earth, or O.D. green. Collapsed length 8 1/4" (8.3cm), extended length 12 1/4" (31.1cm). L.O.P. adjusts from 10" (25.4cm) to 14 1/8" (35.8cm). **#100-002-488CE T6 Adjustable Stock, Black, 5A36P22** \$ 49.99

#100-003-791CE T6 Adjustable Stock, Flat Dark Earth, 5A36Y22 49.99
#100-003-792CE T6 Adjustable Stock, O.D. Green, 5A36Y22 49.99

FOLDING STOCK - Modeled after the original Israeli Galil design with positive frame locking for superior control. Fits stamped receiver models; ribbed buttplate prevents slippage. **SPECS:** Molded polymer, black. L.O.P. is 13 1/4" (36.6cm). **#100-002-489CE Folding Stock, 5A36P22** \$ 49.99

SAW-STYLE PISTOL GRIP - Unique, horizontal texturing won't slip and provides an excellent gripping surface in all weather conditions. Features a storage compartment for accessories. **SPECS:** Molded polymer, black, Flat Dark Earth, or O.D. green. 4 1/4" (10.8cm) tall, 1 1/2" (3.8cm) thick, 2 1/2" (6.3cm) wide at base. **#100-002-490CE SAW-Style Pistol Grip, Black, 5A14P48** \$ 19.99

#100-003-812CE SAW-Style Pistol Grip, Flat Dark Earth, 5A14B48 19.99
#100-003-813CE SAW-Style Pistol Grip, O.D. Green, 5A14B48 19.99

GALIL-STYLE HANDGUARD - Reduces heat by allowing more room for ventilation around the barrel. Works in conjunction with factory gas tube. Top cover is removable and snaps easily in and out of place. **SPECS:** Molded polymer, black, Flat Dark Earth, or O.D. green. 6 1/2" (16.5cm) long, 1 5/8" (4.1cm) wide. **#100-002-491CE Galil-Style Handguard, Black, 5A21P73** \$ 29.99

#100-003-810CE Galil-Style Handguard, Flat Dark Earth, 5A21B73 29.99
#100-003-811CE Galil-Style Handguard, O.D. Green, 5A21B73 29.99

3 PIECE RAIL SET - Attaches to Galil-Style Handguard to provide a rigid, practical platform for mounting optics and accessories. Drill bit, screws and Allen wrench included. **SPECS:** Molded polymer, black. 3 rails, 2" (5cm) long. **#100-002-492CE 3 Piece Rail Set 5A07P34** \$ 9.99

NEW **HIGH STANDARD AK-47 FOLDING BUTTSTOCK**

Rugged; Compact For Easy Handling In Tactical Environments

High-strength steel stock easily folds out of the way for maximum compactness during close-quarter situations when maneuverability is necessary. Spring loaded release lever allows fast opening and locks the arm into place for maximum support during conventional shooting. Parkerized finished for corrosion resistance. Includes an integral 1 1/4" swivel loop on the left-side for mounting tactical slings. Drop-in fit, mounts to standard trunnion. **SPECS:** Steel, parkerized. Arm - 8" (25.4cm) long. 18 oz. (510g) weight. **#430-000-534CE AK-47 Folding Buttstock, 3D44X95** \$ 59.95

VLTOR AK-47 COLLAPSIBLE STOCK ADAPTER

Gives Your AK The Adjustability & Convenience Of An M4 Stock

Aluminum receiver extension replaces the standard, fixed buttstock on your AK-47 to let you install an M4 collapsible stock on your rifle. Provides five locking positions; corresponding white index numbers are visible through the release pin access hole found on many buttstocks. Near-receiver sockets on each side of the extension accept quick-detach, push-button swivels for single-point sling attachment. An internal storage compartment is accessible by removing screw-on cap from the rear of the extension. Includes mounting hardware. **SPECS:** Aluminum, hardcoat anodized, matte black finish. 8" (cm) overall length. Fits most AK-47/AKM/AKS rifles with stamped receivers, except the Yugo RPK and Iraqi Tabuk. Accepts Colt and other mil-spec collapsible buttstocks that fit a 1.14" dia. buffer tube. Kit includes stock extension, end cap, mounting bolts, nut, (3) dust plates, and installation instructions. **#100-003-177CE AK-47 Stock Adapter, 3A78V96** \$ 89.95

TDI-ARMS AK-47 THREE RAIL HANDGUARD

Ultra-Light Platform For Mounting Mission-Specific Accessories

Reinforced plastic composite unit mounts to your AK-47 with no gunsmithing and gives you three rails for mounting picatinny pattern accessories. Rails on each side of the handguard, plus an additional rail on the bottom, allow for multiple accessory configurations to fit your specific mission. **SPECS:** Reinforced plastic composite, matte black. Mount - 6.5" (16.4cm) long, Side rails - 1.85" (4.6cm) long, Bottom rail - 5" (12.8cm) long. **#100-002-097CE Three Rail Handguard, AK-47, 2Z29D33** \$ 39.29

NEW Models **FALCON SEMI-AUTO RIFLE ERGO GRIP**

Improves Trigger & Recoil Control

Hand-filing, ergonomic profile with finger grooves, palm swells, and many other features improves shooting comfort and accuracy. Grips feature either Suregrip or Rigid texture for a non-slip surface. **Suregrip** adds an overmolded, rubberized covering to the polymer body for a superior grip and added cushion. **Rigid** grip features Rhino Hide™, a hard textured finish molded directly into the polymer. 

AK-47 STANDARD & CLASSIC - Balanced finger grooves with a hand-filing curved backstrap create a comfortable grip that offers improved trigger and recoil control. Comfortable, non-slip textured finish allows positive handling in extreme weather conditions. **Standard** models feature the basic, time-proven grip for positive control in all conditions. Suregrip version includes 6mm attachment bolt. Rigid grip version fits rifles using a 110mm long mounting bolt, not included. **Classic** models feature the same great benefits as the standard models, plus contain an internal storage compartment for spare batteries or tools, with an integral rubber cap to seal out moisture. Includes 6mm attachment bolt and washers. Both models available in Suregrip or Rigid textured finish.

SPECS: Polymer, hard texture or overmolded rubber, black. **Standard** - 4" (11cm) long. **Classic** - 4 5/8" (11cm) long.

POWER CUSTOM AK-47 ADJUSTABLE MILITARY TRIGGER KIT

Clean Breaking Trigger Helps Improve Performance

Competition-grade hammer, trigger, and disconnecter are fully adjustable for takeup, overtravel, pull weight and disconnecter engagement. Pull adjusts from 4 to 8 lbs., with a two-stage or single-stage pull. U.S. made, qualifies as three of the required parts for compliance with the 922 law. Drop-in installation, may require minor fitting. 

SPECS: Steel, black, matte finish. Deep case hardened and heat treated to RC 56-58. Fits milled or stamped 762x39, 5.45mm receivers. Includes detailed instructions.

#713-000-015CE AK-47 Trigger Kit, 3A76Z49 \$ 84.99

TRIGGER PIN RETAINER PLATE - Saves the frustration of trying to get the factory spring's "crook" back into the receiver. Fits all AK-47 and SAR-3 receivers. **SPECS:** Steel, black, matte finish. **#713-000-017CE Trigger Pin Retainer Plate, 3A10Z39** \$ 12.99

NEW **K-VAR AK-47 FIRE CONTROL GROUP**

Improves Trigger Function & Reliability

Designed using original drawings and manufactured to close tolerances to prevent trigger binding or twisting; helps ensure smooth operation and reliable function. Disconnecter spring well is precision machined to allow the spring to compress flat and prevent trigger slap. Made from hardened steel, with a black oxide finish for corrosion protection. Easy drop-in fit, so there's no need to modify your rifle. Disconnecter tail is not long enough to function with full-auto select lever per BATF regulations. Made in the U.S.A. to help keep your gun in compliance with U.S. Code Title 18 Section 922(r) part-source requirements. Kit counts as three, U.S.-made parts—single catch trigger, disconnecter, and hammer. Fits stamped receivers only. 

SPECS: Hardened steel, black oxide finish. Kit includes single catch trigger, disconnecter, and hammer. Fits stamped receivers only.

#100-003-833CE AK-47 Fire Control Group, 6B39X95 \$ 49.95

NEW **VMGTACTICAL AK-47/AKM VERTICAL MAGAZINE GRIP**

For Better Weapon Control

Rubber sleeve with molded-in finger grooves slides over AK-47/AKM magazine to provide the pointability and recoil management benefits of vertical forend grips commonly used on AR-15/M16 rifles. Due to the way the AK magazine rotates forward for removal, installing a vertical grip on the handguard that the average shooter can reach comfortably is nearly impossible. The VMG creates a secure, conveniently positioned gripping surface for the support hand to let the operator maintain the classic CQB "boxer stance" with weapon held close to the body and elbows tucked close to the sides, so he can quickly address targets simply by pivoting at the waist. Also protects upper portion of magazine from damage that can lead to feeding failures, and helps prevent noise of magazines banging together from giving away your position. Slip-on fit; no tools required for installation. Made of tough, tear-resistant synthetic rubber compound that resists extreme heat, cold, oil, grease, ozone, alkalis, and water. Prototypes were rigorously evaluated by members of the FBI, U.S. military, and private security firms. BATFE has ruled that the VMG is not a forward vertical grip and can be legally installed on an AK-47-type pistol without turning it into a prohibited A.O.W. (any other weapon). 

SPECS: Synthetic rubber, black. Fits curved 20-, 30-, and 40-round AK-47/AKM 762 x 39 magazines.

#100-003-511CE AK-47/AKM Vertical Magazine Grip, 6B07X95 \$ 9.95

NEW **PRIMARY WEAPONS AK-47 FLASH HIDER & COMPENSATOR**

Tames Muzzle Jump & Flash For Improved Weapon Control

Aggressive, scallop-type cuts deliver superior gas dispersion to help stabilize the muzzle during periods of sustained fire. Special internal blast chamber with side-facing ports help reduce recoil and hide muzzle flash. Includes washer for precise indexing of the side ports. Wrench flats directly over the internal threads help ensure easy installation. Includes instructions. 

SPECS: Steel, black, matte finish. Includes washer. Fits AK-47 (762 x 39mm), 2 1/8" (5.4cm) long x 7/8" (22mm) diameter. 2 oz. (57g) wt. 14"-1 tpi LH thread.

#100-003-719CE AK-47 Flash Hider/Compensator, 4B84Z95 \$ 99.95

SMITH ENTERPRISE **VORTEX FLASH ELIMINATOR**

Helical Flutes Dissipate Gas, Hide Muzzle Flash

Four, specially angled flutes hide nearly 100% muzzle flash, even during full-auto fire, by dissipating gas and retaining unburned powder for increased residual burn. Constructed of the same 8620 bar stock steel used in the manufacture of AR-15/M16 bolts and carriers, then heat-treated to provide a high-strength core and tough, outer shell. Special, helix design helps align exiting barrel gas to improve accuracy with all bullet types. 

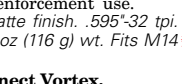

#308 VORTEX - Streamlined unit reduces muzzle flash with four, 15° helical flutes. Provides Vortex technology for Remington 700 Tactical and AR-10. **SPECS:** 8620 steel. Parkerized, black, matte finish. 5/8"-24 tpi. 2 1/16" (6.8cm) long, .905" (2.3cm) dia. 3.9 oz. (112g) weight. Fits Rem 700 Tactical and AR-10 in .308 Win. **#851-000-032CE .308 Vortex 1E73D34** \$ 91.30

M14/M1A VORTEX - Significantly reduces muzzle flash to help preserve your night vision. Provides highest degree of efficiency using NATO spec ammunition. Features four, 15° helical flutes with the sharp edges removed to reduce snagging. Install using the OEM, flash suppressor nut; requires no modifications to rifle. Fits M14 and M1A rifles. 

SPECS: 8620 steel. Parkerized, black, matte finish. 3/4" (9.5cm) long, .900" (23mm) dia. 5.6 oz (158 g) wt. Fits M14 and M1A. **#851-000-035CE M14/M1A Vortex 1E107D95** \$ 135.95

M14/M1A DIRECT CONNECT VORTEX - Threaded, deep skirt design provides a clean-looking, direct connection to M14/M1A barrels. Self-tightening, helix design eliminates need for a lock washer. Requires removal of OEM front sight and replacement with Smith Enterprise M14/M1A Gas Cylinder Lock Sight Dovetail if front sight is desired. BFA and sound suppressor compatible for military and law enforcement use. 

SPECS: 8620 steel. Parkerized, black, matte finish. .595"-32 tpi. 3 1/8" (8.1cm) long, .858" (22mm) dia. 4.1 oz (116 g) wt. Fits M14 and M1A rifles. **#851-000-060CE M14/M1A Direct Connect Vortex, 1E73Z33** \$ 100.61

M14/M1A GAS CYLINDER LOCK SIGHT DOVETAIL - Machined, steel, gas cylinder lock with milled dovetail allows you to mount an OEM or aftermarket front sight separate from the flash suppressor. The perfect choice when replacing the standard issue suppressor with a Smith Enterprise Direct Connect Vortex or other style flash hiders without an integral sight dovetail. Timed threads ensure proper alignment when fully tightened. **Standard** fits M14/M1A rifle with 22" barrel. **Navy** model fits Navy MK14 Model 0 rifle with 18" barrel. 

SPECS: 8620 steel. Parkerized, black, matte finish. 5/8" (1.6 cm) long, 7/8" (2.2 cm) wide, 1 7/8" (4.8 cm) high. 1.3 oz (37 g) wt. Available for standard and Navy model rifles. **#851-000-058CE Std Gas Cylinder Lock 1E73Z95** . . . \$ 91.95

#851-000-059CE Navy Gas Cylinder Lock 1E73Z33 . . . 91.67

AK-47/AKM VORTEX - Designed for Kalishnikov-style rifles with 14x1mm Left-Hand barrel threads. Grooved base ring allows the use of a Blank Firing Adaptor (BFA) used by law enforcement trainers. Left-hand flutes will not come loose during sustained fire. 

SPECS: 8620 steel. Black, phosphate finish. 14mm-1.0 LH thread. 2 3/16" (5.5cm) long, .860" (2.1cm) dia. 2.8 oz. (79g) weight. Fits all AK-47's chambered in 5.45mm M74, 5.56mm NATO and 762 M43 cal. **#851-000-062CE AK-47 Vortex 1E73Z33** \$ 91.67

FALVORTEX - Rigid, unique Vortex helical flutes hide significant muzzle flash and is made especially for use on the 7.62 NATO (Metric) IFA. Permits installation of .30 Direct Connect sound suppressors. **SPECS:** 8620 steel. Black, phosphate finish. 9/16" - 24 tpi LH thread. 2 1/16" (6.1cm) long, .860" (2.1cm) dia. 3.1 oz. (87g) weight. **#851-000-063CE FAL Vortex 1E73Z33** \$ 91.67

Items **FA ENTERPRISES AK MUZZLE BRAKE**

Reduces Flash & Recoil

Russian military pattern provides effective flash and recoil control. For 7.62mm, pre-ban, AK-47 pattern rifles with 14mm-1.0 left-hand thread barrels. **AK-74** splits the flash. Open chamber with 6 gas ports keeps muzzle rise to a minimum. **Krinkov** has two gas ports with a flash cone to redirect muzzle flash. **Slant** redirects muzzle gas to almost eliminate muzzle rise. **SKS Adapter**, non-permanent attachment to unthreaded barrels for muzzle brakes and flash hiders. **14mm-1.0 Tap** cleans and restores threads, cuts new threads. **14mm-1.0 LH Die** cuts 14mm-1.0, left-hand, metric barrel threads. **Thread Alignment Tool** aligns threading die to barrel. 

SPECS: Steel, blued finish. Threaded 14mm-1.0 LH. **AK-74** - 2.8" (72cm) long. **Krinkov** - 3" (77cm) long. **Slant** - 1.5" (4cm) long. **SKS Adapter** fits barrels to .550" (14mm) O.D. **14mm-1.0 LH Die** - HHS, 1 1/2" (3.8cm) diameter. **14mm-1.0 LH Tap** - HHS, 3 3/8" (9.2cm) long, 3/8" shank. **#246-199-001CE AK-74 Muzzle Brake 6D18C25** . . . \$ 22.50

SCATTERGUN TECHNOLOGIES EXTENDED MAGAZINE TUBE

Adds One Or Two Additional Rounds To Your Remington Shotgun

Machined steel magazine extensions increase capacity without gunsmithing or permanent alterations to your Remington 870, 1100 or 11-87 shotgun. Knurled, threaded collar screws onto the end of the mag tube. Includes high-performance, extended length magazine spring and an unbreakable, high-visibility, nylon follower. **Loop** models features a stationary loop on either the bottom or left side of the extension to accept direct attachment of tactical-style slings without swivels. **OD stud** models include a quick-detach, swivel stud mounted either in the center of the magazine cap or at the front of a plate below the extension to accept slings with quick-detach swivels. All models fit 12 gauge only.

SPECS: Steel, gray parkerized finish. Fits Remington 870/1100/11-87, 12 ga. only. **1-Shot** - 2" (5cm) long, **2-Shot** - 6" (15.2cm) long.

NORDIC COMPONENTS EXTENDED MAGAZINE TUBE

required to increase the magazine capacity of 12 gauge shotguns. Strong, lightweight extruded aluminum tubes are CNC-machined to provide uniform inside and outside tube dimensions for consistent and reliable feeding; installs in only minutes. Machined union nut attaches to the end of the factory tube; some models may require removal of factory magazine tube crimp. All models fit 12 gauge only; use the factory follower and install the extended magazine spring provided.

SPECS: Aluminum, hardcoat anodized, black, matte finish. Remington fits 870, 1100, 11-87. Benelli M1/M2 also fits Super Black Eagle & Super Black Eagle II.

SUPPORT CLAMP - Strong, lightweight aluminum clamp attaches securely to barrel to provide extra support for extended magazine tube. Eliminates unwanted vibration under recoil to ensure smooth, reliable feeding of rounds. Low-profile design, rounded edges, and flush-mounted hex-head machine screws prevent snags and damage to patrol car interiors; hardcoat anodized surface adds strength and exceptional resistance to surface abrasion. Available in **Standard** model and **Tactical Rail** configuration with Picatinny-type accessory rail that may be positioned on left or right side of clamp for mounting flashlights and other accessories.

SPECS: Aluminum, hardcoat anodized, black, matte finish. Fits shotguns equipped with Nordic and DPMS extension tubes. 12 gauge only. **Standard** - 2 oz. (57g) weight. **Rail** - 2.6 oz. (73g) weight.

TACSTAR SHOTGUN MAGAZINE EXTENSION

No Gunsmithing Required; Increases Mag Tube Capacity

All-steel extension tubes attach directly to the end of the magazine tube and increase capacity by as much as five rounds. Extension cap is machined from solid steel and welded to seamless steel tubing for extra strength. Includes extended magazine spring. **Barrel Magazine Clamp (BMC)** - Clamps to the barrel and the extended mag tube. Stabilizes and supports the tube; includes built-in sling swivel stud. Benelli 3-round and Remington 5-round magazine extensions include barrel magazine clamp. Barrel clamp available separately for all other models.

SPECS: Steel, blue, matte finish. 12 ga. only. **Rounds (RDS)** indicates number of rounds extension adds to factory magazine capacity model. **BMC-R Clamp** - Fits Benelli M4, Rem. 870, and Win. 1200/1300 Def. **BMC-U Clamp** - Fits Rem. 1100/11-87.

VANG COMP SYSTEMS SHOTGUN MAGAZINE TUBE EXTENSION

Short, screw-on magazine extensions add one or two additional rounds to tactical and sporting shotguns without increasing overall gun length. Replaces factory magazine cap with no permanent modifications. Machined from solid steel bar stock for a much stronger system to resist dents. Included sling loop can be installed for left- or right-handed shooters. Smooth-feeding, unbreakable follower is molded in bright green for easy inspection upon loading/unloading. Models available for Remington 870/1100/11-87 and Mossberg 590A1 shotguns.

SPECS: Steel, black matte finish. Includes extension tube, follower, and extended magazine spring. Accepts 1¼" slings. 12 ga. only. **1-Shot** - 2¼" (5.9cm) long. Models for Remington 870/1100/11-87 and Mossberg 590A1. **2-Shot** - 6¾" (15.7) long. Fits Remington 870/1100/11-87.

BROWNELLS SHOTGUN FOLLOWERS

Tough, Durable Replacement For Factory Followers

Lightweight aluminum or stainless steel followers for Remington, Mossberg, and Benelli shotguns. Tough construction holds up to years of competitive and law enforcement shooting and won't wear out after thousands of rounds, break under spring pressure, or degrade when cleaning solvents are used. Bright colors let you see immediately if the magazine is empty. Vented design reduces weight to allow for smooth feeding. Stainless steel (SS) followers are natural finish. Aluminum followers are available in red, orange, green and black, depending on model and gauge.

SPECS: Aluminum; Stainless Steel.

MESATACTICAL RECEIVER MOUNT SHOTSHELL HOLDER

Puts Extra Shotshells Right Where You Need Them For Fast Loading

Rugged, aluminum shell holder puts up to eight 12 gauge shotshells at your fingertips on the left side of the receiver for fast tactical reloads. Shells are held in place with a unique, internal Santoprene™ elastomer rib that securely retains even heavy slug shells during vigorous movement or heavy recoil. Installation requires no permanent alterations to gun; all necessary installation hardware, tools, and instructions included.

Remington and Mossberg models use steel-on-steel, threaded adapters that replace trigger group pins and anchor the shell holder securely to the side of the receiver. Must be used with shortened, tactical-style forend. Remington available in 6- and 8-round capacities and has cutout for unobstructed view of the firearm serial number when mounted to receiver. Mossberg has a 6-round capacity. Benelli Sidemount model includes an Allen head screw that replaces one trigger group pin to solidly secure the shell holder to the side of the receiver. Benelli Picatinny model mounts to top of factory drilled/tapped receivers and includes an integral Picatinny rail for mounting sights, optics, or other accessories. Benelli models are available in 6- and 8-round configurations for M2 Tactical and M4/M1014 shotguns.

SPECS: 6061 T6 aluminum, anodized, matte black. For 12 gauge only. All models include mounting hardware, rubber gasket, and installation instructions. Remington fits models 870, 1100, and 11-87 6 Round - 6 1/4" (15.8cm) long x 1 1/2" (3.8cm) high. 5.4 oz. (152g) wt. 8 Round - 7 3/4" (19.7) long x 1 1/2" high. 7 oz. (200g) wt. SCATTERGUNTECHNOLOGIES REM TRAK-LOCK® II GHOST RING SIGHT SET

Tritium Provides Excellent Sight Acquisition, Day Or Night

Self-illuminating, Tritium dot front sight combined with a large light gathering rear ghost ring provides extremely fast sight acquisition during day or low light conditions. Rear ghost ring is available with or without tritium. Trak-Lock rear sight features a single set-screw for windage and elevation adjustments. Rugged, low-profile steel body has black parkerized finish for durability. TF20 & TF12 contains tritium dot front sight with standard rear ghost ring. TFR20 & TFR12 includes tritium dot front sight with tritium two dot rear ghost ring for precise alignment while aiming. Both models available for 12 and 20 gauge.

SPECS: Steel, black parkerized. Fits plain barrel Rem. 870, 1100, 11-87, SPT-12. Adapts to fit other guns. Requires drilling and tapping of receiver; front sight epoxies over factory front. Includes rear mounting screws. TF20 - Tritium front sight with standard rear ghost ring. Fits 20 gauge. TF12 - Tritium front sight with standard rear ghost ring. Fits 12 gauge. TFR20 - Tritium front sight with tritium rear ghost ring. Fits 20 gauge. TFR12 - Tritium front sight with tritium rear ghost ring. Fits 12 gauge.

XS SIGHT SYSTEMS SHOTGUN

BIG DOT TRITIUM FRONT SIGHT

Installs Easily Over The Existing Bead Sight

Highly visible, tritium dot front sight surrounded by a large white ring epoxies over the existing front bead sight to help improve target focus and low light sight acquisition and sight recovery after muzzle flash. Installs over front sight beads from .125" - .140" diameter by filling the cavity on the underside of the sight with Brownells Acraglas Gel, then pressing the sight over the bead and allowing it to fully cure. If existing bead is too small or too large, replace with Brownells #6 bead for 3-56 threads or #26 for 6-48 threads. Some shotgun barrels may require drilling and tapping of existing hole to 6-48 for installation of #26 Brownells bead. Remington Pedestal model with stepped bottom fits Remington shotgun barrels with front sight pedestal. Vent Rib model with flat bottom fits shotgun barrels with ventilated ribs. Plain Barrel model with capped bottom fits round shotgun barrels. Includes instructions.

BOTACHTACTICAL REMINGTON 870 KZ PICATINNY FOREND

Three Rails Increase Accessory Mounting Options On Tactical Shotguns

Lightweight, strong, machined aluminum replacement for factory forend turns your Remington 870 into a highly versatile tactical shotgun by providing three Picatinny-type accessory rails for mounting vertical grips, lights, lasers, and other combat accessories. Gnarly surface provides a secure, no-slip grip when racking the action for faster follow-up shots. No gunsmithing required; mounts just like factory forend. CNC machined to precise dimensions from solid 6061 T6 aluminum billet for secure, rattle-free fit. Type 2 Class III hardcoat anodized for added strength and abrasion resistance, with a non-reflective black finish.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. #100-003-557CE KZ Rem 870 Picatinny Forend, 8B59P95... \$ 74.95

FAB DEFENSE REMINGTON 870 PICATINNY RAIL HANDGUARD

Lightweight, One-Piece Construction With Plenty Of Rail Space

Rigid, lightweight reinforced composite handguard directly replaces the Remington 870 factory forend to provide much needed rail space for tactical shotguns. Full length fixed rail on the bottom side accommodates a vertical grip. Compact side rails provide the right amount of space for lights, lasers and other small accessories, and are easily removed with an Allen wrench if not needed. Ribbed texture provides a non-slip surface during 3-gun competition or high-stress tactical maneuvers. Fits 12 gauge only.

SPECS: Reinforced polymer composite, black. 7 1/4" (18.4cm) long x 1 1/16" (4.9cm) wide. 6.7 oz. (190g) weight. Fits Rem. 870, 12 gauge only.

NEW Stocks **BLACKHAWK INDUSTRIES SPECOPS™ RECOIL REDUCING ADJUSTABLE STOCK**

Heavy Duty Recoil Reduction System For Improved Control & Fast Follow-Up Shots

Recoil-reducing, collapsible pistol grip stock improves control and maneuverability for faster target acquisition and more accurate follow-up shots—perfect for tactical use. Unique, dual spring-loaded recoil-reduction system minimizes felt recoil and prevents muzzle rise, allowing you to stay on target after every shot, even when shooting magnum loads. Five-position buttstock allows length of pull adjustment from 11 1/4" to 15 1/4" to fit most shooters in a variety of shooting situations. Comfortable pistol grip helps maintain control and enhances pointability. Allows continued use of factory front bead; includes both sling swivel stud and slot for mounting the sling system of your choice. Models available for Mossberg 500 and Remington 870, both 12 gauge, plus a separate model for Remington 870 20 gauge and 740/750/760/7400/7600/7615 rifles. Includes 1 1/8" LimbSaver recoil pad to further improve comfort and recoil protection. **Rem 870 NRS** model gives you 12 gauge Remington 870 the pistol grip and adjustable buttstock without the recoil-reduction system. Includes a 5/8" rubber recoil pad.

- SPECS:** Molded polymer, black. Installation instructions included. 31 oz. (879g) wt. **Moss 500** fits 12 gauge Mossberg 500. **Rem 870/12** fits 12 gauge Remington 870. **Rem 870/20** fits 20 gauge Rem 870 plus 740, 750, 760, 7400, 7600, and 7615 rifles. **Rem 870 NRS** fits Remington 870, 12 gauge only. 25 oz. (709g) wt.

POWERPAK ACCESSORY SYSTEM - Enhance the tactical effectiveness of shotguns fitted with the SpecOps stock. Includes raised cheekpieces for better cheek weld and improved stability. Use low cheekpiece on guns with standard bead, rifle or ghost ring sights, high cheekpiece for use with optical, holographic, or raised ghost ring sights. Shell holder and spare battery storage compartment mount to either side of the cheekpiece. Snaps firmly in place on SpecOps stock.
SPECS: Injection-molded, high-impact polymer resin, matte black. Kit contains high and low cheek pieces, shellshell holder, battery storage compartment, (12) assembly screws, and Allen wrench. Includes instructions.

- #100-002-810CE PowerPak System 8K39V97 \$49.97

NEW Items **ADVANCED TECHNOLOGY PUMP SHOTGUN TACTICAL SHOTGUN SYSTEM**

Improves Control & Handling Convenience

33% glass-filled nylon with pebble-grain surface, provides secure handling in all weather conditions. Furnished with a complete set of adapters and spacers for installation on 12 ga. Mossberg 500, Maverick 88, Remington 870, and Winchester 1200/1300 pump shotguns. Easy to install, requires no modifications to firearm.

PISTOL GRIP BUTTSTOCK - Full length stock features a slim, finger-groove, pistol grip that's ergonomically designed for maximum firing control. Forward angle comb prevents recoil from battering your cheek. A solid rubber recoil pad cushions against recoil shock. Includes rear sling swivel stud. Uses factory stock bolt.

- SPECS:** Glass filled nylon, black. 14" (35.6cm) length of pull.
 #019-000-001CE Pistol Grip Buttstock, 9A32X67 \$44.99

SHOTFORCE TACTICAL CAR-15 SHOTGUN STOCK - Lightweight, six position stock with a molded pistol grip mounts firmly on your shotgun to provide superior control and comfort in the field or at the range. Installs easily in minutes with no gunsmithing required for a professional looking, smooth fit. Mounts directly on Mossberg 500/590/835 and on Remington 870, Winchester 1200/1300, Norinco 98, and Maverick 88 with the included adapters. Hand-filling pistol grip is ergonomically designed for a solid hold. Sling swivel stud is included for mounting options. Tough, matte black, glass-filled nylon polymer resists scratches and stands up to all weather conditions. Made in the USA.

SPECS: Molded polymer, matte black. 10 1/2" (26.6cm) - 14 1/4" (36.2cm) L.O.P. Complete kit includes Shotforce buttstock, adapter tube plug, Remington and Norinco 98 adapter, Winchester adapter, washer, Mossberg/Maverick 88 bolt, Remington bolt, Winchester bolt and comes with a free Shotforce Buttpad.

- #019-000-013CE Shotforce Tactical Stock, 9A52D33 \$69.99

TACTICAL CAR-15 SHELLHOLDER - Lightweight, elastomeric polymer shellholder keeps extra ammo within easy reach for rapid reloads and is designed to mount easily on pre-drilled Shotforce Collapsible Stocks. Holds five 12 gauge rounds. Mounts securely to either side of stock with two screws.

- SPECS:** Molded elastomeric polymer, matte black. 5" (12.5cm) long.
 #019-000-014CE Shotforce ShellHolder, 9A11D97 \$15.99

ADVANCED TECHNOLOGY-PUMP SHOTGUN FOLDING STOCK

Tactical-black, nylon-resin, folding shotgun stock mounts to the rear of the receiver and quickly flips open/closed to accommodate a variety of situations. Closes for maximum maneuverability and compact transportation; opens easily and latches securely for optimum accuracy. Ultra-comfortable pistol grip provides additional control. Latch can be reversed for right- or left-handed shooters. Includes sling swivel. Drop-in installation.

SPECS: Nylon polymer, black. Pistol grip - 2 5/8" (6cm) wide, 3 1/2" (9cm) tall, 1 3/16" (3cm) thick. Approximately 1334" (35cm) L.O.P. Fits Mossberg 500/590, Maverick 88, Remington 870, Winchester 1200/1300.

- #019-000-010CE Folding Shotgun Stock, 9A52C33 \$69.99

NEW **BLACKHAWK INDUSTRIES KNOXX SPECOPS FOLDER STOCK**

Powerful Recoil Reduction, More Control & Compact Storage For Tactical Shotguns

Folding, pistol-grip stock with built-in recoil-reduction system is designed to provide compact storage and maximum control for fast, accurate shot placement at any range. Weapon can be operated with stock folded—perfect for home defense and CQB situations that require speed and maneuverability in tight spaces like vehicles, doorways, and hallways. Folded position leaves plenty of clearance for ghost ring and other rear sight systems up to 1 1/4" wide. Patented recoil-reducing mechanism in the pistol grip cuts felt recoil by as much as 65% for fast target reacquisition and more precise follow-up shots with even the hardest-kicking magnum buckshot and slug loads. Steel-wire buttstock with synthetic rubber coating locks securely in both open and closed positions; simply squeeze the rods toward each other to unlock and change position. Swivel stud on the back of the receiver extension provides convenient single-point sling attachment. No permanent changes to receiver required; simply remove factory buttstock and attach SpecOps Folder with its captive bolt. For proper clearance of folded stock, shorten the rear of the forend or install a short, combat-style forend like the Hogue® Overmolded, available separately.

SPECS: Polycarbonate grip and rubber-coated steel buttstock, black. 13 3/4" (35cm) length of pull. Grip - 3 1/2" (9cm) high, 2 7/8" (7.3cm) wide, 1 1/8" (2.9cm) thick at palm swells. **Remington** fits Remington 870, 12 gauge only. **Mossberg** fits 12 & 20 gauge Mossberg 500/590/835 and Maverick 88. Do not install on 590DA.

- #100-003-180CE Rem. SpecOps Stock 8K97B45 \$129.95
- #100-003-179CE Mossberg SpecOps Stock 8K97B45 129.95

HOGUE OVERMOLDED FOREND - Rubber-overmolded, shotgun forend eliminates interference problems with SpecOps Folder.

SPECS: Polymer, black, rubber-coated finish. **Remington** fits 12-gauge, Remington 870. **Mossberg** fits the 500, 590, 835, and Maverick 88, 12 gauge models.

- #408-000-066CE Remington Forend 8K14V97 \$24.95

HEAT SHIELD - Formed steel with elongated cooling slots protects your hands from burns. Provides a secure, non-slip, grasping surface, plus maximum heat dissipation. Simply slide over barrel and secure with supplied hardware. Black oxide finish matches most shotgun finishes. No gunsmithing required to fit most popular 12 ga. pump guns.

SPECS: Steel, black oxide, matte finish. 13 3/4" (35cm) long.
 #019-000-004CE Heat Shield 9A19X99 \$24.99

SHOTSHELL HOLDER - Lightweight, polymer shell holder keeps extra ammo handy for fast loading. Provides instant access to five rounds of spare 12 ga. ammo. Carrier attaches to either side of any full length wood or synthetic stock using six screws.

SPECS: Elastomeric polymer, black. 5" (12.5cm) long. Installation requires modification to stock.

- #019-000-005CE Shotshell Holder 9A11X59 \$14.49

HEAT SHIELD W/GHOST RING SIGHT - Self-centering rear ghost ring with large, .122" I.D. aperture for lightning quick target acquisition. Formed steel with elongated cooling slots provides a secure, non-slip, grasping surface, and provides maximum heat dissipation. Front blade with side guards protects the blade and prevents snagging. Simply slide over barrel and secure with supplied hardware. Fits 12/16/20 ga. and .410 pump shotguns. Available in black and marine silver.

SPECS: Shield - Steel, black or satin nickle finish. 13" (35cm) long. Sights - Polymer, matte black. Aperture - .122" (3.1mm) ID. Fits 12/16/20 ga. and .410 pump shotguns.

MESA TACTICAL REMINGTON 870 TELESCOPING STOCK CONVERSION KIT

Gives Your Tactical Shotgun M4 Handling Characteristics; Optional Recoil Reduction System

Bolt-on replacement stock gives your Remington 870 the control and adaptability of a collapsible M4 carbine stock. Telescoping, five position buttstock allows instant length-of-pull adjustment to adapt to body armor and heavy tactical clothing. Aluminum receiver adapter bolts to rear of receiver with included mounting hardware and requires no permanent alterations to your gun. CNC machined to precise dimensions, then mil-spec Type III hardcoat anodized for added strength and wear resistance. Accepts the included M4 SOPMOD buttstock or any aftermarket stock that fits a mil-spec buffer tube. Hogue overmolded soft rubber pistol grip with palm swells and finger grooves bolts solidly to receiver adapter to reduce shock and improve shooter control. **Low Tube** model has receiver extension tube positioned to allow use of iron sights or the original shotgun bead. Length of pull adjusts from 10 1/4" to 13 1/2". White index numbers corresponding to locking positions are visible through a witness hole in the top of the stock. Receiver adapter has mounting holes on sides and top for the included push-button sling swivel. **Recoil Reducing** model offers the low tube position with an Enidine Shot Shock hydraulic energy absorber to reduce felt recoil by as much as 70% and give you better control for faster, more accurate follow-up shots. L.O.P. adjusts from 11 1/2" to 14 1/2". No sling swivel mounts or index numbers.

SPECS: Receiver Adapter & Extension Tube - Aluminum, hardcoat anodized, dark gray. Shot Shock - Steel, matte black finish. Buttstock - Molded polymer, matte black. Pistol Grip - Fiberglass core overmolded with soft rubber. Fits Remington 870 shotguns in 12 and 20 gauge and Remington 7615 rifle. Mounting hardware and installation instructions included.

- #100-003-297CE Low-Tube Stock Conversion Kit, 5A184V00 \$230.00
- #100-003-175CE Recoil Reducing Stock Conversion Kit, 5A277V30 344.99

ENIDINE TACTICAL SHOTGUN SHOT SHOCK RECOIL REDUCER

Hydraulic Action Tames Felt Recoil Of Shotguns With Adjustable AR-15 Stocks

Telescoping, hydraulic energy absorber reduces felt recoil by as much as 70% on a tactical shotgun fitted with an AR-15/M4 collapsible stock. Lower recoil gives you better control for faster sight recovery and faster, more accurate follow-up shots. Self-contained, one-piece assembly replaces the receiver extension tube and provides five locking positions for adjustable buttstock. Fits any aftermarket stock adapter with a 1 1/4"-16 UN thread and accepts any factory or aftermarket buttstock that fits a mil-spec M4 buffer tube. Installs in minutes, using the existing end plate and lock nut.

SPECS: Steel, matte black finish. 8" (20.3cm) long, 1 1/8" (2.9cm) O.D. 13.5 oz. (383g) weight. Requires stock adapter, end plate, and receiver extension lock nut.

SHOTGUN

GG&G SHOTGUN SLING MOUNT

Allows Smooth, Unrestricted Movement

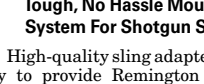

Designed for tactical operations, these mounts place the rear sling attachment point in front of the operator, so you can quickly shoulder your weapon without getting tangled. Allows single point sling attachment, or use with front sling mount for two-point sling installation. Loop accepts slings up to 1 1/4" wide. **Rear Mount** installs directly behind receiver, in front of buttstock. Precision machined from aluminum billet, then hardcoat anodized matte black. Right hand model for Remington 870, 1100, and 11-87 positions sling on left side of stock. Benelli version fits M1, M3, and Super 90 combat shotguns, and can be positioned with the loop on either side of the receiver to accommodate right- or left-handed shooters. Ambidextrous **Front Mount** for Remington and Mossberg shotguns positions the sling to either the left or right side of stock; ball bearing detent locks mount into magazine cap to prevent rotation. Machined from AS-35 Geneva steel, then manganese phosphate finished.  

SPECS: **Rem Rear Mount** - Aluminum, matte black. 1/4" (6.4mm) long, 1 3/16" (4.6cm) wide, 1 7/8" (4.8cm) high. Fits 870/1100/11-87, Right Hand only. **Benelli Rear Mount** - Aluminum, matte black. 3/16" (4.8mm) long, 1 5/16" (4.8cm) wide, 1 3/16" (5cm) high. Fits M1/M3/Super 90, Ambidextrous. **Rem Front Mount** - AS-35 Geneva steel, matte black. 7/64" (2.6mm) long, 2 1/4" (5.6cm) wide, 1 1/2" (3.8cm) high. Fits 870/1100/11-87, Ambidextrous. **Moss Front Mount** - AS-35 Geneva steel, matte black. 7/64" (2.6mm) long, 2" (5.1cm) wide, 1 1/16" (4.1cm) high. Fits Mossberg 500, 590, 500A, 835, 88, 930, 590 A1, 535, Persuader, Cruiser, and Combo shotguns.

SCATTERGUN TECHNOLOGIES TACTICAL RESPONSE® JUMBO HEAD SAFETY

Easy-To-Find, Oversized Button For Remington

Jumbo size head with undercut grooves is drop-in replacement for the small factory button. Makes it easier to find and operate, even with gloves on. 
SPECS: 4140 steel, hardened and blued, right-hand only. Fits Remington: 7600, 7400, 6, 4, 48, 58, 552, 572, 740, 742, 760, 870, 1100, 11-48, 11-87, SPT-10, 12, 74, 76, with or without ISS safety.
#800-100-002CE Jumbo Head Safety 8Z09B00 \$ 12.00

VANG REMINGTON 870/1100/11-87 BIG SPEED SAFETY

Easy-To-Locate, Quick-To-Disengage

Large, dome-shaped button is quick to locate. Just a quick push with the side of your trigger finger will disengage the safety. Round profile does not snag clothing or guncase liner. Drop-in installation, right-hand use only. 
SPECS: Steel, blue, polished finish. .960" (24.4mm) long. Head - .350" tall (8.9mm). .433" (11mm) diameter.
#100-000-569CE Big Speed Safety 6K08P40 \$ 12.00

BROWNELLS MOSSBERG 500/590/835 ENHANCED SAFETY BUTTON

Shaped For Easy, No-Slip Operation; Made From Hardened Steel To Last

Drop-in replacement for plastic factory button offers rugged, all-steel construction and a raised, crisply grooved ridge to give your thumb extra purchase for fast, "can't miss" operation on the first try. Steps in the body are cut deeper than original part for additional grab even with wet hands or when wearing gloves. Reversible design allows shooters with small- to medium-size hands to position the thumb ridge farther back to help them operate the safety without having to break their grip; shooters with large hands can place the ridge forward to give them more room. Precision machined from 4140 steel, heat-treated for extra hardness and wear resistance, with a durable, matte, black oxide finish.
SPECS: 4140 steel, oxide finish, matte black. Fits Mossberg 500/590/835 shotguns.
#080-000-539CE Moss. 500 Safety Button 8K14A95 . . . \$ 19.95

CAVALRY ARMS MOSSBERG 500/590 SST-590 SAFETY

Oversize For Fast, Ambidextrous On/Off Engagement

Rugged, aluminum tang safety is machined oversize to provide plenty of surface area for fast, positive contact in high stress, CQB situations. Contoured side notches, plus a deeply milled thumb pad allow ambidextrous on/off safety engagement with thumb pressure, or index finger as preferred on guns equipped with a pistol grip. Precision machining to extra small tolerances provides a closely fitted installation to help prevent entry of sand and grit for improved reliability. Uses existing factory screw, spring, detent and safety detent plate. Fits Mossberg 500 and 590 only. Gunsmith installation recommended. 
SPECS: Aluminum, anodized, black, matte finish. 1 1/4" (3.2cm) long, 1 1/16" (3.7cm) wide, 3/8" (1cm) high. Fits Mossberg 500 and 590. Gunsmith installation recommended.
#100-003-151CE SST-590 Safety, 2K32X00 \$ 42.00

GG&G BENELLI BOLT RELEASE BUTTON

Oversized For Quick Operation

Oversized, easy to feel bolt release button allows quick access during high stress situations when you need it most. Features a serrated face almost 1 1/4" long for a non-slip grip, with or without gloves. Constructed of 4140 ordnance steel with a black manganese phosphate finish for durability. Fits Benelli M1 Super 90, M3 Super 90, and Model 121 law enforcement shotguns. 
SPECS: Steel, black, matte finish. Button - 1 1/4" (3.2cm) long x 5/8" (1.6cm) high. 1 oz. (28.4g) weight.
#336-000-006CE Bolt Release Button 6C106Y95 . . . \$ 120.00

MOSSBERG 500/590 TRIGGER HOUSING ASSEMBLY

All-Metal Factory Replacement Stands Up To Hard Use

All-metal replacement for factory triggerguard and fire-control system substitutes metal parts for plastic for a more solid feel and extra strength, durability, and reliability to stand up to hard field or tactical use. Self-contained module is precision manufactured to original factory dimensions for an exact fit and easy, drop-in installation. One-piece aluminum housing with integral triggerguard provides exceptional strength, while hardened steel internal parts, including trigger and hammer, ensure years of reliable function. Adds only 1.7 oz. to help preserve your gun's original balance. 
SPECS: Aluminum housing, steel trigger components, black matte finish. Fits Mossberg 500 and 590, 12 ga. only.
#631-000-337CE Mossberg Trigger Assy 1C73A33 . . . \$ 91.95

BROWNELLS MOSSBERG 500 HIGH CAPACITY SHOTGUN KIT

Converts Your Field Gun To A Tactical Workhorse

High quality, OEM components allow you to easily transform your Mossberg 500 into a reliable, high-capacity, self defense weapon. 20" long barrel chambered for 2 3/4" and 3" magnum 12 gauge loads features a fixed cylinder choke for maximum pattern coverage at combat ranges. White bead front with adjustable, U-notch rear sight helps provide rifle-like accuracy when shooting slugs at longer distances. Magazine extension threads solidly into the receiver to provide 8-rounds of firepower; knurled takedown screw retains the tube in the magazine support on the barrel to eliminate the need for a separate barrel clamp. Includes extended-length magazine spring for reliable feeding.
SPECS: Barrel - Steel, blued finish. 20" (51cm) long. Smoothbore, fixed cylinder choke with rifle sights. 2 3/4" & 3" magnum 12 gauge. Extension Tube - Steel, blued finish, 8-round capacity. Magazine Spring - Piano wire, extended length. Kit fits Mossberg 500, 12 gauge receivers only.

KIMBER 1911 AUTO RIMFIRE TARGET CONVERSION KIT

Train With Economical .22 LR Ammo In Your Full-Size Pistol

Blowback-operated sub-caliber conversion unit lets you shoot less expensive .22 LR ammunition in any mil-spec 1911 Government model, so you can afford to practice more. Preserves pistol's weight, balance, and overall feel to help you develop specific skills and "muscle memory" to shoot better with full-power ammo. Simply remove the factory slide and barrel, replace them with the conversion unit, and load up the included .22 magazine with premium-grade high-velocity ammunition. Manufactured to the same rigorous quality standards as Kimber's full-power 1911 pistols; slide is precision machined from aluminum billet, with wide front and rear cocking serrations and Kimber's tough, scratch-resistant, KimPro II™ finish. Comes with plain black target sights installed; rear sight is click adjustable for windage and elevation, with flat, finely serrated rear face and a square notch. Includes ramped, match-grade 5" barrel with a 1:16" left-hand

HOGUE 1911 AUTO PISTOL GRIPS

Hand-Filling, Versatile Designs In Rubber & Wood

Hand-filling grips help absorb recoil by spreading the shock over a wider area of the hand. Finger groove models for semi-autos tighten the grip upward, into the triggerguard for better recoil control. All wood grips are cut from imported, select grades of hardwood. Molded rubber grips cushion recoil. Non-slip, pebble finish. Checkered grips are Double Diamond pattern. 
SPECS: Select model from chart. Model designations abbreviated as follows. Checkered (CH); Finger Grooves (FG); Goncalo Alves (GA); Pau Ferro (PF); Rubber (RU); Slabs (SL); Smooth (SM).

NEW NIGHTHAWK CUSTOM 1911 AUTO GOLFBALL PATTERN G10 GRIPS

Popular "Grippy" Texture Keeps Gun In Your Hand Even When Wet

Tough, long-wearing, all-weather grips of nearly indestructible G10 composite provide an extra secure grip during the draw and tactical maneuvers, and ensure maximum weapon control while firing. Minimizes rotation during recoil for better accuracy and reduced likelihood of having to reposition hand for follow-up shots. Popular golfball pattern, preferred by many shooters, crisply cut into the grip surface ensures a no-slip grip even when hands are sweaty. Hard, non-reflective, glass-fiber reinforced G10 composite is impervious to extremes of heat, cold, moisture, and most solvents. Non-tapered, cut for an ambi safety.

Available in **Black** or **Desert Tan** (similar to U.S. military Flat Dark Earth).

SPECS: G10 fiberglass composite in black or desert tan. Approximately .275" (7mm) thick. Fits 1911 Government and Commander frames.

- #100-003-569CE **Black Golfball G10 Grips**, 2B71Z96 \$ 89.95

STRIDER KNIVES 1911 AUTO SIMONICH GUNNER GRIPS

Extreme Texture For Maximum Weapon Retention In Any Condition

Aggressive, golf-ball-like texture provides maximum grip potential to help you retain your pistol in the most extreme match or tactical situations, even when the grip is wet or oily. Features hundreds of clean-edged dimples that grab like tiny suction cups. You may have seen similar-looking grips elsewhere, but only Strider is producing these high-quality grips to the original specs by agreement with Simonich Knives. Made from tough, maintenance-free, G-10 filament glass cloth/epoxy resin composite matched to

NEW Models SEMI-AUTO DECAL GRIP

Improves Grip In All Types Of Weather

Pre-cut, pre-shaped decals attach to the frame and slide for a superior grip without increasing bulk. Easy-to-use, peel-and-stick design will not harm the surface it's applied to. Stays put under extreme conditions. Resistant to oils and solvents. **SAND** gives very positive, aggressive grip. **RUBBER** has the gripping texture of Sand with a non-slip, rubber coating. **SPECS:** Black, medium texture. Glock Standard frame does not have finger grooves.

NOWLIN TACTICAL LANYARD PLUG for GLOCK®

Positive Weapon Retention Without Additional Bulk & Weight

Molded, nylon plug provides Glock pistols a positive, fail-safe weapon retention loop for attachment of tactical lanyards. Inserts into the grip recess, and secures with an Allen screw. Accepts nominal 1/8" diameter nylon lanyard line. Fits models 17 through 23. **SPECS:** Black nylon with polished stainless steel loop. Fits Glock 17/19/20/21/22/23. Includes Allen wrench. #654-000-050CE **Tactical Lanyard Plug**, 4E14D50 \$ 16.50

the exact colors used by the U.S. armed forces. G-10's superior impact-resistance, low moisture-absorption properties, and dimensional stability over a wide temperature range mean these grips will not fail, even under the worst weather conditions. Non-tapered, cut for ambidextrous safety. **SPECS:** G-10 laminate, Ranger Green, Coyote Brown, or Black. Approximately 1/4" (6.3mm) thick. Fits 1911 Government and Commander frames.

NEW Model PEARCE GRIP GRIP FRAME INSERT for GLOCK®

Fills The Opening In Glock Frames For Smoother Reloading

Installs in the bottom rear cavity of the frame to fill the opening found in Glock pistols. Front "lip" forms a tight, flush bond with the mag well to help make sure the mag goes where it should, smoothly. Keeps dirt and debris from finding its way into the inside of pistols and gives a clean, smooth look. Utilizes the lanyard hole for retention to snap firmly into place. **Glock Plus Zero** fits Models 17 through 25, 31, 32, 34, 35, 37, and 38. **Glock Subcompact** fits Models 26, 27, 33, and 39. Does not add extra rounds. **SPECS:** Impact-resistant plastic, black. One per pack.

- #092-000-009CE **Glock Plus Zero Grip Frame Insert**, 2K04P00 \$ 6.00
- #092-000-011CE **Glock Subcompact Grip Frame Insert**, 2K04A00 6.00

NEW Model SCHERER SLUG PLUG™ for GLOCK®

Aids Grip, Keeps Frame Clean

Fills the opening at the bottom of the frame, keeps dirt out; serves as a mag well for fast, positive magazine changes. Snaps into place; provides a convenient location to locate lead weight on competition guns. **SP-1** fits standard frame Glock in 9mm/.40 S&W/.357 SIG. **SP-2** fits Mini-Glock in the same calibers. Eliminates sharp edge at bottom of grip. **SP-3** fits Models 29 and 30, **SP-4** fits Model 36. **SP-5** fits Model 21 short frame. **SPECS:** Synthetic material, black.

NEW Model JENTRA GRIP PLUGS for GLOCK®

Keeps Dirt Out Of Grip Frame

Snaps into the opening at the rear of the Glock grip frame for a cleaner appearance, plus keeps dust, dirt, snow and water out of the gun. Creates a perfect location for adding extra weight to competition guns or to counter-recoil on light, carry guns. Easily removed, does not alter gun. **SPECS:** Synthetic material, black. **Grip Plug for Glock** fits models 17, 19, 20, 21, 22, 23, 24, 25, 31, 32, 34, 35. **Plug for Mini Glock** fits Models 26, 27 and 33. Does not fit Models 29 and 30.

- #463-100-017CE **Grip Plug for Glock 3F05D00** \$ 6.95
- #463-000-001CE **Grip Plug for Mini Glock 3F05D00** 6.95

SUNSET ENTERPRISES SUNSET INSERT for GLOCK®

Keeps Debris & Dirt Out; Stores One Additional Round

Lightweight, plastic plug with a unique hinged cover design fills the void at the back of your Glock's grip plus provides convenient snap-top storage for one additional round, laser batteries, tools or other small accessories. No gunsmithing required for installation; plug unit is retained in the grip void by snapping the raised bump into the factory lanyard hole. **SPECS:** Plastic, matte finish, black. 1.2" (3.2cm) long. Fits Glock models 22, 23, 24, 31, 32 & 35. #100-002-521CE **Sunset Glock Insert**, 5A05V99 \$ 8.99

LIGHTNING STRIKE RECOIL GUIDE ROD for GLOCK®

Captured & Non-Captured Style; Replaces The Plastic Rod For Improved Cycling

Full-length, solid stainless steel rod offers smooth, reliable cycling, plus gives you the option to easily change spring weights. Fully polished rod prevents spring bind; improves cycling and reliability. Supplied with flat wire spring. **SPECS:** SS, polished. 17/22 fits 17, 17L, 22, 24, 34, 35. #642-105-017CE 17/22 Non-Captured Rod 2D15Y00 \$ 20.99

SCHERER TRIGGER CONNECTOR for GLOCK®

Lightens Trigger Pull For Competition Glock Pistols

Reduces trigger pull to 3.5 pounds and increases trigger control so the pistol is easier to shoot, and more accurate. Provides competitive shooters with the best possible trigger. Installs with no modifications to gun. **SPECS:** Steel, in the white. #861-119-035CE **Trigger Connector** 1F13C50 \$ 18.00

GHOST TRIGGER CONNECTOR for GLOCK®

Lightens & Improves Trigger Feel

Stainless steel connector reduces the length of trigger pull, improves reset, and eliminates accuracy-robbing overtravel. **5.0 Tactical** and **Ghost Rocket 3.5** reduce trigger-pull weight to 5 pounds and 3.5 pounds respectively; both have an extra tab that contacts the trigger bar and prevents overtravel after the striker falls. Each connector requires minor fitting. **SPECS:** Stainless steel, polished finish. Fits all models. #100-000-631CE **Ghost Rocket 3.5 Connector**, 7K18D00 \$ 25.99

#100-000-935CE **5.0 Tactical Connector** 7K18P57 25.00

GHOST 3.5 CONNECTOR - Drop-in, steel connector lowers trigger-pull weight to 3.5 pounds for competition and sporting use and improves trigger reset. Does not have extra overtravel fitting tab. **SPECS:** Stainless steel, polished finish. Fits all models. #100-000-936CE **Ghost 3.5 Connector** 7K10P00 \$ 13.00

ARMORER'S ORANGE SLIDE COVER PLATE - A "must have" for easy, error-free installation of Ghost Rocket 3.5 and Ghost Tactical 5.0 trigger connectors. Plate is sectioned by one-third to permit viewing the sear and firing pin engagement during connector installation. **SPECS:** Orange polymer with grooved face. #100-001-260CE **Armorer's Orange Slide Cover Plate**, 7K03V20 \$ 4.00

GHOST 3.5 & 4.5 CONNECTOR - Reduce trigger pull weight to 3.5 pounds and 4.5 pounds respectively. Debris channel "hole" is self-cleaning and reduces friction for smooth, reliable pulls. **SPECS:** Stainless steel, polished finish. Fits all models. Gunsmith installation recommended for 4.5 Ranger trigger. #100-002-007CE **3.5 Ultimate Trigger** 7K15X60 \$ 22.95

LONEWOLFE DIST. EXTENDED SLIDE RELEASE LEVER for GLOCK®

Easy To Hit For Positive Slide Release On The First Try

Drop-in replacement for factory slide release lever has a much larger finger pad and a trapezoid-shaped bump that help ensure you release the slide fast, on the first try, after a reload. Saves precious seconds that can be lost making multiple swipes to release the slide and chamber the next round. Low profile and smooth contours will not affect holster fit or snag on clothing. Rugged, all-steel construction; matte black finish matches Glock factory finish. Separate models to fit current-production 3-Pin and early 2-Pin pistols, plus G37/38/39 pistols chambered in .45 GAP.

SPECS: Steel, matte black finish. **3-Pin** fits all guns with separate trigger, locking block, and trigger housing pins, including early 2-Pin G19. Does not fit early G17, 17L, and 34 2-Pin guns. **2-Pin** fits G17, 17L, and 34 that do not have a locking block pin, manufactured from 1986 to mid-2002. 37/38/39 fits all G37, 38, and 39 pistols.

- #100-003-802CE 3-Pin Ext. Slide Stop Lever, 3-Pin, 2K12Y49 \$ 15.95
- #100-003-801CE 2-Pin Ext. Slide Stop Lever, 2-Pin, 2K12Y49 15.95
- #100-003-803CE 37/38/39 Ext. Slide Stop Lever, 2K12Y49 15.95

CYLINDER & SLIDE AMBIDEXTROUS MAGAZINE RELEASE for GLOCK®

Positive, Right- Or Left-Hand Operation

Additional length on the strong left side and a small, removable cam lever on the weak side provide positive magazine drops when shooting with either hand. Cam lever will not interfere with grip. Very easy to install and includes the required extra-power magazine catch spring.

SPECS: Nylon, black. 1.4" (35mm) long. Fits small frame Glock pistols.

- #206-000-028CE Ambi. Mag Release 6K34A36 \$ 42.95

GHOST X-MAG RELEASE for GLOCK®

Easy Reach For Faster Mag Changes

Two-piece, teardrop shaped magazine release helps speed up magazine changes. Mag release button is ergonomically shaped and much faster to depress; no need to shift your firing grip or modify your frame. Installs easily, in place of the factory magazine release. Made from a polymer similar to the GLOCK frame.

SPECS: Nylon plastic, black, matte finish. Fits Glock small frame models only.

- #100-002-951CE X-Mag Magazine Release 7K12P95. \$ 19.95

TANGODOWN VICKERS EXTENDED MAG RELEASE for GLOCK®

Easy To Reach For Quick Mag Changes

Extended magazine release is easy to find and operate allowing fast, smooth mag changes that save you precious seconds. Serrated release button is 1/8" longer than original, allowing easy thumb access without repositioning your hand. Replaces factory original without alteration. Constructed of high strength polymer composite.

SPECS: Polymer composite, matte black. Fits Glock Models 17, 19, 22, 23, 24, 26, 27, 31, 32, 33, 34, and 35.

- #100-003-404CE Vickers Mag Release 9B13Z15. \$ 16.43

ARREDONDO EXTENDED BASE PAD for GLOCK®

Provides Extra Capacity For High-Capacity Magazines

Two-piece, synthetic base pad increases the cartridge capacity of pre-ban, Glock magazines without compromising reliability. Impact-resistant pad locks securely to the magazine body; removes quickly and easily with the supplied compression tool. Wolff, 10% extra power spring ensures reliable feeding. Checkered, bottom panel allows positive, non-slip, mag changes. **Plus 5** extends pre-ban magazines to 140mm. Adds +6 rounds to 9mm, +5 to .40 S&W and 10 mm, and +4 to .45 ACP. USPSA Limited legal. **Plus 3** meets the PPSC box rule. Adds +4 rounds to 9mm and +3 rounds to .40 S&W pre-ban mags. Available in black, blue and red.

SPECS: Pad - High-impact, fiberglass-filled nylon. Black, blue, or red. 1 1/2" (3.8cm) long, 1 1/8" (2.9cm) wide, 1 1/2" high for 9mm/.40 S&W, 10mm/.45 ACP is larger. Spring - Tempered music wire, 10% extra power.

- #069-000-006CE Follower for Glock .40 S&W, 9F07D04 \$ 8.80

MAGPUL SPEEDPLATE for GLOCK®

Fast Mag Changes, Easy Retention After Tactical Reloads

Rubber-coated floorplate with finger loop replaces the factory floorplate of your 9mm/.357/.40 Glock pistol magazine to give you the added tactical or competitive edge of faster mag changes. The easy-to-grasp loop aids in quick, positive extraction from tight mag pouches and helps you hang onto a partially expended magazine with just a finger after a tactical reload. Also gives the lower fingers a convenient rest for a more solid grip on sub-compact models like the Glock 26/27/33. Made of polymer resin and no-slip Santoprene® rubber to cushion the magazine from impact when dropped on concrete or other hard surfaces. Available in 3-Paks.

SPECS: Santoprene synthetic rubber over hard polymer, black. Fits Glock 9mm/.357/.40 magazines. 3-pak.

- #100-003-077CE Magpul Speedplate for Glock, 3-pak, 3K09X95 \$ 14.95

Model PEARCE GRIP SEMI AUTO GRIP EXTENSION

Adds Recoil Control For Better Accuracy

Lets you use your entire hand to grip the gun for better recoil control and more consistent shot placement. **Grip Extension** does not increase magazine capacity or weight. Extended "shelf" for the little finger attaches in place of the factory magazine base. Makes shooting these little "handfuls" a lot more comfortable. **Plus One** and **Plus Two** extensions increase magazine capacity by number indicated in chart. **Glock Plus Two*** adds two rounds to 9mm magazines, one round to .40 S&W and .357 SIG magazines. Legal for pre-ban magazines only. **Glock Sub-Compact Plus Extension XL**** adds one round for Model 39, two round for Model 27/33, and three rounds for Model 26. **Glock Plus XL Magazine Extension***** adds one round in .45 GAP magazines, two rounds in .40 S&W and .357 SIG magazines, and 3 rounds for 9mm magazines. **Springfield XD fits 9mm, .40 S&W, .357 Sig, and .45 GAP only. Springfield XD .45 ACP fits .45 ACP caliber only.**

SPECS: Impact-resistant plastic, black. One per pack. Beretta fits Beretta 92 and Browning High Power.

MEC-GAR BERETTA M9/M92 OPTIMUM MAGAZINES

High Capacity With Anti-Friction Coating; The Mags That Really Work

You'll gain reliable, additional round capacity with these high quality replacement magazines that really fit and function like proven factory magazines. Tempered steel body with hardened feed lips is treated with a phosphated anti-friction coating inside and out to ensure drop-free operation and no-jam feeding. Hardened, high tensile music wire spring and supported, self-lubricated nylon follower eliminates follower tilt so every round feeds flawlessly. Flush-fitting, 18-Round magazine features a tough synthetic base pad that removes easily for magazine cleaning. **20-Round** model includes a removable, synthetic "Plus 2" base pad. Witness holes in the rear side on both models provide fast, remaining round count.

SPECS: Body - Hardened carbon steel, black phosphated anti-friction coating. Spring - High tensile music wire. Follower - Nylon, black. Fits Beretta M9 and M92, 9mm caliber.

NEW NIGHTHAWK CUSTOM 1911 AUTO STAINLESS STEEL MAGAZINE

Built To Feed Flawlessly

Extra-thick, stainless steel magazine body is formed to tight tolerances with a smooth-welded seam that's carefully polished to eliminate any rough spots or burrs that could snag the follower. Polished exterior finish eases insertion into the mag well, while the precision-formed feed lips are engineered to resist deformation even after storing the magazine fully loaded for

extended periods. Numbered witness holes let you know exactly how many rounds are loaded. Smooth-moving, polymer/fiber-glass composite follower is specifically contoured to keep the last round from feeding too fast and causing a jam; extra-strong spring delivers consistent force to ensure reliable feeding in all shooting conditions. **Standard** model features a .360" thick, removable, polymer composite base pad that extends .310" below the mag body for added protection when dropped. **Low Profile** version has a carbon steel, removable base pad that extends only .090" below the mag body, perfect for concealed carry. Both versions available for Government and Officers model.

SPECS: Body - Stainless steel, natural finish. Follower - Polymer/fiber-glass composite. Base Pad - Low Profile or steel. **Govt.** - 8-round capacity. OAL - Standard: 5 5/8" (13.1cm); Low Profile: 5" (12.7cm). **Officers** - 7-round capacity. OAL - Standard: 4 7/8" (11.8cm); Low Profile: 4 1/2" (11.4cm).

REPLACEMENT PARTS - Factory replacements for critical components help you keep your Nighthawk Stainless Steel Magazines running flawlessly. Changing the spring and follower on a regular basis ensures your weapon feeds and ejects reliably. All parts are made on the same tooling from the same premium-quality materials as the originals. **Springs & Followers** sold as sets for 7-round Officers and 8-round Govt. Model magazines. Polymer composite **Standard Base Pad** adds .310" to length of magazine; aids in seating mag in gun with extended magwell. Sold in 3-Paks. Carbon steel **Low Profile Base Pad** extends only .090" beyond mag body, perfect for concealed carry.

SPECS: Fits Nighthawk Stainless Steel 1911 Govt magazines. May fit extra-capacity single-stack magazines from other manufacturers. **Spring** - Chrome silicon steel. **Follower** - Polymer composite, black. **Standard Base Pad** - Polymer, black. Adds .310" to length of magazine. Sold in 3-Pak. **Low-Profile Base Pad** - Carbon steel, black finish. Adds .090" to length of magazine. Sold each.

SPRINGFIELD ARMORY SPRINGFIELD XD FACTORY HIGH CAPACITY MAGAZINES

Made The "Factory Way" For Smooth, Reliable Feeding

Long-lasting, stainless steel, high-capacity magazines are made to precise, factory tolerances to ensure maximum firepower and reliability from your Springfield XD pistol. Steel spring and molded polymer follower feed rounds smoothly and reliably to the chamber, every time. Highly polished body won't drag or hang-up during high-speed, tactical reloads. High-impact, polymer, base pad removes easily for cleaning. Numbered witness holes provide quick round count. Magazines fit 4" Service and 5" Tactical model pistols.

SPECS: Body - Highly polished stainless steel. Base Pad & Follower - Polymer, black. Capacity: 9mm - 16-rounds. .40 S&W - 12-rounds. .45 ACP - 10- and 13-round capacities available. Fits Springfield XD Service & Tactical model pistols.

NEW Wilson Combat 1911 Auto Elite Tactical Magazine

Ultra-Reliable, Smooth Feeding Of All The Rounds; Holds One More Round Than Standard Mag

Wilson Combat applied 30 years of experience building high-performance 1911 magazines to develop this completely new, ultra-reliable extra-capacity magazine for combat, competition, or self-defense. Made with state-of-the-art materials using the latest manufacturing technology, these single-stack magazines are built tough to keep running in unforgiving, real-world conditions. The body formed from extra-thick stainless steel, with the radius of each curve engineered to minimize stress points, virtually eliminates feed lip cracking and stress fatigue. Even the position of the witness holes toward the rear is designed to enhance structural integrity. A proprietary welding, deburring, and polishing process provides an unusually strong, super-smooth seam to ensure snag-free follower movement and easy insertion in the mag well. The non-tilt follower of self-lubricating polymer fully supports the ammo stack to prevent nose-dives, double feeds, and other hang-ups. The mag body design puts less tension on the spring than standard magazines, increasing spring life and making it easy to seat a fully loaded magazine with the slide closed. The polymer base pad adds minimal bulk yet ensures a firm purchase even when your hands are wet; removes easily for cleaning. Numbers 1 through 10 stamped on the bottom help you mark each of your magazines to track usage and performance. **.45 ACP** - 8 round capacity; round-count numbers stamped on magazine body next to witness holes. Available in natural Silver or Black Oxide finish. **9mm** - 10 round capacity; no round count numbers. Silver finish only.

SPECS: 17-7 stainless steel, natural silver or black oxide, finish, with black polymer follower and base pad. **.45 ACP** - 8-round capacity, **9mm** - 10-round capacity.

SELECTION • SERVICE • SATISFACTION

NEW Model WILSON COMBAT 1911 AUTO WILSON-ROGERS MAGAZINE

Self-Lubricating, Synthetic Follower; Improves Feeding, Won't Rust

Made from heat-treated, 17-7, aircraft-grade stainless steel to stand up to the demands of competitive and defensive shooting. Precision-formed bodies are built to very close tolerances for excellent, universal fit. Exclusive, molded, self-lubricating follower ensures reliable feeding and slide stop operation. Extra-power Wolff spring resists "spring set". Removable base, spring, and follower for fast, easy cleaning. **Black** models have black, oxide finish and removable steel base pad.

SPECS: 17-7 Stainless steel. **1911 Auto** and **Officers ACP** models have bright, stainless steel finish with black polymer base pad. **8-round Officers ACP** models are 1/8" longer, respectively, than factory magazines. **Black** models have black, oxide finish with steel base pad. Furnished with low profile base pad.

BROWNELLS BERETTA 92 CHROME SILICON 9mm MAGAZINE SPRING

Smooth, Reliable Performance In High-Capacity Magazines

Chrome silicon spring replaces factory spring and provides positive pressure against the follower to ensure that rounds feed smoothly and consistently, even in the worst conditions. Requires dry lubricants only that won't attract grit and sand which can cause misfeeding. Fits high-capacity magazines for Beretta 92 model pistols.

SPECS: Chrome silicon steel wire. Fits Beretta 92 Model high-capacity magazines.

- #078-000-129CE **Chrome Silicon Mag Spring**, each, 8G05Z99 \$ 7.49
- #078-000-130CE **Chrome Silicon Mag Spring**, 3-pak, 8G16Z75 20.99

LOW PROFILE STEEL MAG BASE PAD - Super-tough, steel base pad adds additional protection to magazines in competition and tactical situations. Base quickly slides onto magazine and provides additional weight for clean drops when mag change speed is essential. Fits Wilson-Rogers magazines only.

SPECS: Steel, black manganese finish. .16" (4.1mm) thick.

- #965-047-003CE **Steel Mag Base Pad**, 5F04A88 \$ 5.95

BROWNELLS CHROME SILICON MAGAZINE SPRINGS for GLOCK®

Consistent Delivery Of Every Round

Chrome silicon springs deliver consistent pressure and reliable feeding of every round in high-capacity magazines. Many springs continue to set and weaken over time, eventually failing to feed all the rounds in the mag and require replacement. Quality springs, like our chrome silicon springs, take an initial set (all springs do) then stabilize for long service life. Models for Glock 17/17L - 17 & 19 rds, Glock 19 - 15 & 17 rds, Glock 36 - 6 rds. **SPECS:** Chrome silicon. 7" (17.7cm) long. Models for Glock 17/17L - 17 & 19 rds, Glock 19 - 15 & 17 rds, Glock 36 - 6 rds. Sold individually or in 3-paks

TACTICAL SPRINGS BERETTA 92/M9 RECOIL SPRING

Consistent Performance For High-Stress, High-Volume Shooting

Factory weight 13-lb. recoil spring helps ensure consistent, dependable operation for tens of thousands of compression cycles. Perfect for the high-volume shooter who needs a finely tuned spring that delivers its rated power as reliably on the 50,000th shot as it did on the first. Made from chromium-silicon steel alloy selected specifically for its hardness, heat resistance, and ability to withstand high stresses—the same alloy used for valve springs on automobile engines. Cryogenically treated to relieve internal stress, and surface impregnated with Sprinco's proprietary Plate+ molybdenum disulfide lubricating coating. **SPECS:** Cryo-treated chrome silicon alloy. Fits full-size Beretta 92/M9.

#943-000-016CE Beretta 92/M9 Recoil Spring, 3D05Z95 \$ 795

10-8 PERFORMANCE LLC SIGHT SET for Glock®

U-Notch Provides Fast Alignment & Enhanced Sight Picture

Precision machined U-notch cut eliminates the bottom corners of traditional sights for fast alignment with front sight. Made from hardened steel bar stock to better withstand the wear and tear caused by daily holster carry. 40 lpi serrations on the front ramp and rear sight face reduce glare in sunny conditions. Centrally located setscrew secures rear sight in factory dovetail. Includes wrench and instructions. May require minor fitting.

SPECS: Steel, black, matte, manganese phosphate finish. Rear - .710" (18mm) wide, .252" (6.4mm) high, .125" (3.2mm) wide notch. Front - .125" (3.2mm) wide, .215" (5.5mm) high. Fits Glock 17, 19, 22, 23, 31 & 32.

#100-003-711CE Sight Set 1B54Z95 \$ 69.95

HEINIE SPECIALTY SLANTPRO™ 3-D TRITIUM SIGHT SET

for GLOCK® No-Snag, Low-Profile With Easy-To-See Tritium Dots

Self-illuminating, Trijicon® inserts give your Glock® a fast, easy-to-acquire sight picture in all light conditions. Dual inserts on rear sight are smaller than front sight dot to eliminate confusion during acquisition. Fine line serrations eliminate glare for the best possible sight picture in daylight. Wedge shaped rear sight body has fully rounded edges and fits low in the slide for minimum profile. Offers an exceptionally smooth, snag-free draw for concealed carry and competition guns. Minor fitting required; dovetail is cut .002"-.003" oversized to fit existing sight cuts. **SPECS:** Steel, matte black finish. Body - .725" (18.4mm) long x .71" (18.1mm) wide x .25" (6.4mm) high. Notch - .125" (3.1mm) wide, provided with .215" (5.5mm) high front sight. Fits all Glock models.

NOVAK S&W M&P

EXTREME DUTY SIGHTS

Low-Profile Mounting; Fully Adjustable; Four Styles To Choose From

Rugged, machined steel front and rear sights let you upgrade your M&P with a precise, versatile, windage- and elevation-adjustable sight system that's easy to install because it fits the factory dovetails. Low-profile design similar to Novak's famous Lo-Mount sights has rugged, machined steel construction to stand up to the rigors of tactical operations and daily carry. Smooth, rounded and beveled edges minimize risk of catching or snagging. Set screw allows drift adjustment for windage; elevation screw positively stops and audibly clicks for easy fine-tuning. Rear sights have non-serrated, recessed rear face with .120" wide notch that correctly regulates with front sight. Front sight's gently sloping rear face and rounded front provide a clear sight picture and resists snagging during the draw. Front and rear sights are sold separately, so you can mix and match styles to suit your shooting application. Available in Plain Black, White Dot, Fiber Optic Dot, and Tritium Dot models. Dot styles have a dot on each side of the rear notch and one on the rear face of the front sight. Non-glare matte black finish. **SPECS:** Steel body, blue. Self-luminous lamp. For use with Mepro-light Fixed sights.

MEPROLIGHT DAY/NIGHT SIGHT

FOR POPULAR HANDGUNS Always "On"; No Batteries, No Charging

Really "shines" when other sights are useless. No switch to turn on, no batteries to wear out. Both front and rear blades have their own green tritium gas light source and provide a green/green (gm/grn), 2-dot sight picture. **Glock** models are available as green/green, green/orange (gm/orng) and green/yellow (gm/yl). The front sight is always green for contrast with the rear sight. Unaffected by weather, gun solvents or oils. Used by NATO, U.S., and Israeli armies. Also ideal for law enforcement and others requiring accuracy in low-light conditions. Contains both front and rear sights. All feature **TRU-DOT** inserts. The factory warrantees TRU-DOT sights to the original purchaser for twelve years.

SPECS: Blued steel with tritium inserts. Sights marked Adj, fit guns originally equipped with factory, adjustable sights. Sights marked Fxd, fit guns originally equipped with factory, fixed/non-adjustable sights.

TRUGLO SIGHT SETS for GLOCK®

For All Shooting Conditions, Day & Night

High quality sight systems offer exceptional brightness in a low profile configuration that won't hang up in your holster or slow you down. CNC machined, steel construction provides superior durability for combat or competition. Dovetailed rear with set screw and screw-on front sight makes replacement of Glock factory sights fast and simple.

TRITIUM/FIBER OPTIC BRITE-SITE

T.F.O. technology combines fiber optics with the glowing properties of long-lasting tritium. Machined channels in front and rear sight housings provide maximum, ambient light gathering and protect the rods from damage while concealing them from your target. Two-dot rear and single dot, serrated front sight makes alignment easy so you can concentrate on your target. **131GT1** and **131GT2** use green dot front and rear sight. **131GT1Y** and **131GT2Y** use green dot front and yellow rear sight.

SPECS: Steel, matte black. Fiber optic/Tritium rods, green/yellow. Front - .970" (2.46cm) long, .142" (3.6mm) wide. Rear - .950" (2.4cm) long, .720" (1.8cm) wide. **131GT1/131GT1Y** - Fits Glock 17, 17L, 19, 22, 23, 24, 26, 27, 33, 34, 35, 38 and 39. **131GT2/131GT2Y** - Fits Glock 20, 21, 29, 30, 31, 32 and 37.

#902-000-108CE 131GT2Y T.F.O. Brite-Site, Green Front/Yellow Rear 2K96Z95 ... 121.19

FIBER OPTIC BRITE-SITE - Fiber optic rods produce a brilliant shine in bright and low light conditions without battery power. Contrasting green rear and orange front ensures fast sight recognition and alignment. Rear sight features two individual fibers for maximum surface area to collect ambient light.

SPECS: Steel, matte black. Sight heights same as factory. Front - .720" (18.3mm) long, .142" (3.6mm) wide. Rear - .650" (16.5mm) long, .720" wide. **131G1** - Fits models 17, 17L, 19, 22, 23, 24, 26, 27, 33, 34 and 35. **131G2** - Fits models 20, 21, 29, 30, 31 and 32.

TRUGLO SEMI-AUTO TRITIUM/FIBER OPTIC BRITE-SITE

Gathers Light & Illuminates

Tritium/Fiber Optic technology combines the glowing ability of Tritium with the light gathering properties of fiber optics. CNC machined, steel body provides excellent durability for combat. Dovetailed rear sight includes setscrew for added security on slide. Fits factory dovetails. Models for SIG and Springfield XD pistols. Available with green dot front and rear sight, or green dot front sight and yellow dot rear sight. Sold in pairs.

SPECS: Steel, matte black. Fiber optic/Tritium rods, green/green or green/yellow. Sight heights same as factory. **Sig Sauer 9mm/.357** - #8 Front (F) - .952" (2.4cm) long x .166" (4mm) wide. #8 Rear (R) - .917" (2.3cm) long x .625" (1.6cm) wide. **Sig Sauer .40/.45** - #6 Front (F) - .965" (2.4cm) long x .167" (4mm) wide. #8 Rear (R) - .922" (2.3cm) long x .642" (1.6cm) wide. **Springfield XD** - Front (F) - .970" (2.5cm) long x .163" (4.2mm) wide. Rear (R) - .905" (2.3cm) long x .618" (1.6cm) wide. Fits all Springfield XD models.

NEW Models **WARREN TACTICAL SERIES**
SIGHT SET for GLOCK®

Close-To-The-Slide Design For Fast Presentation; Styles For Carry & Competition

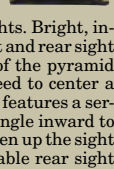

Hardened, steel sight sets fit low on the slide to increase speed of draw from any holster; unique contours for CCW and competition guns provide fast sight recognition and enhanced field-of-view for instant target acquisition. Includes serrated ramp front sight secured with supplied hex screw. Rear sights fit the factory dovetail with minor fitting; include a locking setscrew and are drift-adjustable for windage. **Tactical Sight** features a patent pending, Wave Profile contour on the smooth, rear sight blade for maximum field-of-view and a smooth, snag-free presentation from closely-fitted carry holsters. Proven U-notch cut speeds front sight acquisition. **Tactical Night Sight** features the same contoured sights as the Tactical, plus two yellow tritium dots on the rear sight and a single green tritium dot on the front that combine to provide outstanding sight acquisition in low light. **Sevigny Competition** uses the traditional square-notch cut and incorporates a flat, back-drafted surface to the rear blade; has no distracting points, edges or serrations. Nominal 1/8" radii corners won't snag on clothing or competition holsters. **Sevigny Fiber Optic Competition** includes the same features as the Sevigny Competition, plus the front sight includes bright green or red fiber optic rods that are easily interchanged for fast sight acquisition in all lighting conditions. **Front Fiber Optic Sight** available separately. Gunsmith installation recommended.

SPECS: Hardened steel, black, matte finish. Front - .115" (2.9mm) wide x .215" (5.4mm), 70 lpi serrations. 3/16" hex screw retention. Rear - .714" (18mm) wide x .250" (6.4mm) tall, .150" wide notch. Stainless steel set screw retention. **Tactical Night - Rear:** yellow tritium. **Front:** green tritium. **Sevigny Fiber Optic Competition - Rods:** (1) red, (1) green, 1/16" (3.7cm) x 1mm dia.

NEW **WRENTECH INDUSTRIES**
ADVANTAGE TACTICAL SIGHT SET

Innovative, Pyramid Design Speeds Front Sight Acquisition, Improves Accuracy

Proper alignment of front and rear sight forms a unique pyramid shape that aids the shooter in becoming front sight oriented for maximum speed and accuracy. Rear sight alignment becomes primarily peripheral and unconscious to improve concentration on the target, not the sights. Bright, interchangeable inserts make customizing the front and rear sight colors fast and easy. Front sight forms the top of the pyramid to give precise alignment and eliminates the need to center a traditional front blade in a rear notch. Rear sight features a serrated face for reduced glare. Sides of rear sight angle inward to virtually eliminate snagging and dramatically open up the sight picture. Pistol models feature a windage adjustable rear sight with unique clamping system that locks solidly against the dovetail with setscrew pressure. Front sight includes installation tool and metal shims for elevation adjustment. **S&W** model for K, L, and N frame revolvers installs on guns with factory adjustable sights and adjusts using a screwdriver. 

SPECS: Steel, black sights w/orange, red, green, yellow, and white polymer inserts. Models for Glock, Sig Sauer, Springfield XD pistols. S&W fits Smith & Wesson K, L, and N frame revolvers with factory adjustable sights. Some fitting may be required.

NEW Model **BLACKHAWK INDUSTRIES**
CQC™ CARBON FIBER HOLSTERS

Lightweight, Durable & Fast To Use; Choose Level 1 Or Level 2 Retention

Carbon-Fiber composite holsters are made from the ultimate injection molded material specifically formulated for concealed carry with minimum weight and bulk. CQC Standard (STD) Carbon Fiber features a close friction fit, tension-adjustable, passive retention system for Level 1 requirements. CQC SERPA Carbon Fiber features an index (trigger) finger-actuated, active system that simply won't release the triggerguard until you press on the lock while you draw. SERPA System provides a smooth, transition-free draw that won't have you deviating from your normal drawing motion. Both models include a fully covered trigger guard for added safety; speed cut in front for a fast draw and a slight flare at the gullet to aid reholstering. Cut down body and tapered trailing edge helps keep your pistol concealed under clothing; unique Multi-fit Belt Loop easily adjusts to fit a wide variety of belt widths. Includes both a belt loop and an easy-to-switch paddle attachment that means you won't have to purchase a new holster when your duty and clothing requirements change from day-to-day. Both paddle and belt loop are lock-adjustable for forward and rearward cant. 

SPECS: Injection molded carbon fiber impregnated nylon, matte, black. Approximate weight - 4 oz (113g). Adjusts to fit belts up to 1 1/2" (4.1cm) wide.

TACTICAL SERPA CARBON FIBER HOLSTERS for GLOCK®

Thigh-Mounted For Easy Access; Provides Level 2 Retention

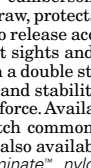

Lightweight, thigh holster attaches to the right leg directly below the waist belt to keep your pistol within easy reach and always at the ready. Features adjustable tension with an index finger-actuated, active system that won't release the triggerguard until you press on the lock while you draw. Adjustable, upper and lower leg straps are constructed from heavy duty, nylon elastic webbing to provide a firm, secure fit around your thigh. Quick-release buckles allow easy removal and installation. Two elastic top straps use hook-and-loop latch for easy installation around the waist belt, and include quick-release pull tabs for fast removal. Polymer swivels allow the holster to pivot when sitting-down, without pinching or binding. Holster triggerguard is fully covered for added safety with a cutout trailing edge for maximum clearance during presentation. Made from advanced carbon fiber and nylon composite for maximum strength and less weight. Adjusts to fit belts up to 1 1/2" (4.1cm) wide.

SPECS: Injection molded carbon fiber impregnated nylon, black. Polymer buckles, nylon elastic webbing. 20.5 oz (581g) weight. Adjusts to fit belts up to 1 1/2" (4.1cm) wide. Fits Model 17, 19, 22, 23, 31, and 32. Right hand only.

NEW Models **SAFARILAND**
6004 TACTICAL HOLSTERS

Lightweight, Rugged, Secure Weapon Retention & Protection

Thermal-molded laminate holster protects pistol from dents and dings, and ensures retention in the most demanding tactical situations. Self Locking System (SLS) releases the weapon when you push down on the thumb lock and rotate hood forward; pulling up on the gun's grip without releasing the lock actually makes weapon more secure. With no cumbersome snaps to release, SLS design allows a smooth draw, protects weapon from attempted seizure, and is less likely to release accidentally. Molded sight track and suede liner protect sights and finish. Attaches to duty belt and secures to leg with a double strap and contoured shroud system for added comfort and stability. Setscrew allows adjustment for optimal retention force. Available in **Black, Dark Earth, and Foliage Green** to match common camo colors on BDUs and gear. Beretta 92/96/M9 also available in **Dark Brown**. 
SPECS: Safari-Laminate™, nylon, ABS plastic, Black, Dark Earth, Foliage Green, or Dark Brown (Beretta only). Fully lined. Right-hand only. Holster must be worn with belt up to 2 1/4" (5.7cm) wide. Models for Glock 17/22, SIG 220/226, and Beretta 92/96/M9.

SPECTER GEAR
TACTICAL THIGH HOLSTER

Multiple Adjustments For Comfort; Securely Retains Your Handgun & Magazine

Heavy-duty pistol holster offers almost infinite adjustability for correct fit and increased wearing comfort. Multiple adjustment points safely and securely retain your handgun at the recommended mid-thigh level for tactical duty applications. Fully adjustable, double leg straps are made with durable, 2" wide nylon webbing with interwoven rubber stitching to prevent shifting during use. Dual, quick-release side buckles with elastic inter-loops evenly distribute weight for less fatigue and expansion of the leg straps during movement. Triple routing channels for the attachment straps provide a perfect fit for all users. Vertical hanger strap with quick-release buckle is constructed of three layers of 2" wide webbing with a full length hook-and-loop pad for up to 6" of vertical drop adjustment. All stitching and seams are sewn with either #69 or #92 mil-spec nylon thread; high stress points are quadruple stitched for added strength. Adjustable hammer retention strap with additional security release flips clear with minimum thumb pressure, yet securely retains your pistol even when low crawling or rappelling. Includes single magazine pouch located at the front of the holster. 
SPECS: Ballistic nylon w/ 1000 denier cordura nylon outer shell, black. Approx. 1 lb. (5 kg) weight, depending on model. Available in right hand (RH) or left hand (LH).

**SUREFIRE AR-15/M16
WEAPON MOUNTED LIGHT SYSTEMS**

High Intensity Lights
Improve Tactical Operation
For The AR-15

Rugged, machined aluminum components with weather resistant seals withstand the rigors of rough, field use. Provides brilliant, target-illuminating light on demand.

M-500A

M-500A - Nitrolon composite, AR-15 handguards have M-4 style, dual heat shield, plus a built-in light and switches - no exposed wires. Provides light for inside and outdoors. High-grade aluminum light components and shock isolated lamp modules withstand the rigors of rapid fire. Disable switch, momentary-on, pressure pad switch, and a constant-on, rocker switch provide total control. Two lamp modules; Mn10 with 125 lumens and Mn11 with 225 lumens. Uses three Lithium batteries.

SPECS: Nitrolon handguard and lamp body, machined aluminum lamp module, black, anodized finish. Includes batteries, instructions. Fits carbine-length barrels with round handguard cap.

**STREAMLIGHT®
TACTICAL WEAPON LIGHTS**

Lightweight, Powerful; Mounts Directly To Gun

TLR-1 WEAPON LIGHT - Powerful weapon-mounted light fully illuminates target with 80 lumens of intense, white light. Ambidextrous, momentary- or constant-on switch let you control light output to match your needs. Super Hi Flux 3 watt Luxeon LED lamp with impact-resistant Borofloat glass lens and deep-dish parabolic reflector produces a uniform beam with peripheral illumination and no hot spots or shadows. Runs on two CR123 lithium batteries for 2.5 hours of continuous runtime. Solid-state current regulation system maintains consistent illumination level through battery life cycle. Lightweight, machined 6000 series aluminum construction adds just 4.2 ounces; doesn't upset weapon balance, yet withstands hard field use. Unique locking bar system clamps directly to Glock-style rails, MIL-STD-1913 Picatinny mounts, and most Weaver-style rails. Fits all holsters designed to accept pistols mounted with the earlier Streamlight M-3/-5/-6 series lights.

SPECS: Machined aluminum, matte black anodized finish. 80 lumens. 3 1/4" (8.3cm) long, 1 1/2" (3.8cm) wide, 1 7/16" (3.7cm) high. 4.2 oz. (119g) weight, including batteries. Uses two CR123 lithium batteries, included.

- #100-003-009CE **TLR-1 Weapon Light**
1K105D00 \$ 129.99

TLR-2 WEAPON LIGHT/LASER SIGHT - Adds a highly visible, red, 650-660 nm aiming laser to the powerful lighting capabilities of the TLR-1 Weapon Light to help you hit your target. Selector switch allows you to choose light only, laser only, or light plus laser illumination. Ambidextrous, momentary- or constant-on, four-position switch lets you apply your selection when you need it. 2.5 hours continuous runtime for light, 45+ hours in laser-only mode. Laser is fully adjustable for windage and elevation, with screws mounted in brass bushings for reliable return to zero. Fits same rails/mounts as TLR-1.

SPECS: Machined aluminum, matte black anodized finish. 80 lumens. 3 1/4" (8.3cm) long, 1 1/2" (3.8cm) wide, 1 3/4" (4.5cm) high. 4.7 oz. (134g) weight, including batteries. Uses two CR123 lithium batteries, included.

**SUREFIRE
X300 WEAPON LIGHT**

Powerful Tactical Illumination
For Rail-Equipped Handguns

Compact, lightweight weapon light provides powerful target illumination for tactical pistols equipped with Picatinny and Universal Standard mounting rails. Solid-state, shock-isolated, electronically controlled LED outputs 110 lumens of clean, white light—more than five times a standard two-D-cell flashlight—for up to 2 1/2 hours runtime. LED is protected by a tempered Pyrex® lens; anti-reflective coating ensures maximum light transmission. Specially engineered Total Internal Reflection focusing lens tightens light beam to project a more focused beam at longer distances, yet provides enough surround beam to support peripheral vision. Ambidextrous constant on/off toggle switch provides fail-safe operation under stress. Push button, spring-loaded mounting clamp allows you to instantly attach or detach light for any situation. O-ring sealed fittings are waterproof to 70 feet. Adapter plates and mounting hardware for Picatinny and Universal Standard rails included.

SPECS: Aluminum body, mil-spec Type III hardcoat anodized, black. 3 3/8" (9.2cm) long, 1 3/8" (3.5cm) wide, approximately 1" (2.5cm) high when mounted. 3.8 oz. (108g) weight, with two, included, SF123A lithium batteries installed.

**SAFARILAND
RLS RAPID LIGHT SYSTEM**

Instant Transition From Handheld To Weapon-Mounted Illumination

Detachable light with modular mounting system is powerful enough to be your primary handheld light, compact enough to mount on any weapon and transitions almost instantly to provide light where you need it, when you need it. Fits most pistol accessory rails, plus Picatinny-type rails on rifles and shotguns. No additional hardware or tools required. Simply slide the RLS mount over the rail, then rotate the light to the left or right, depending on the side of the gun you want it on, until the locking tab clicks into the rail groove. The light unit detaches easily from the mount for quick transition to handheld use. Belt clip on the light lets you carry the light alone or the light plus the mount on your belt—no need for a special holster. The light's Prism Reflector System focuses and projects the intense 65 lumen LED output up to 350 feet in an even pattern free of dark spots or shadows. Uses three inexpensive, easy-to-find AAA batteries; 50 hours battery life. Sealed push-button switch on the end cap has momentary and steady-on modes. When the light is mounted on a gun, the switch is positioned for easy activation by the thumb of the support hand in a two-handed stance. The **RLS Mount** is also available separately and accommodates most compact hand-held flashlights .970" (24.6mm) to 1.060" (26.9mm) in diameter.

SPECS: Light - Aluminum, hardcoat anodized, matte black. 4 1/2" (11.4cm) long, 1" (2.5cm) diameter. 4.6 oz. (129g) weight. 3 AAA batteries included. **Mount** - Reinforced injection molded polymer. 2 3/4" (7cm) long, 2" (5.1cm) wide, 3" (7.6cm) high. 1.2 oz. (35g) weight.

VLTOR SCOUT MOUNT

Turns Handheld Flashlight
Into Compact, Rail-Mounted
Weaponlight

Flashlight not included

All-metal, low-profile mount converts a SureFire or similar handheld tactical flashlight into a compact weaponlight that gives you the versatility of weapon-mounted illumination without the expense of a separate light.

Quick-detach design lets you remove the light from the gun and return it to handheld use in seconds. Triple-function cross-bolt with large, easy-grasp thumbscrew tightens the mount around the light body to prevent slippage under recoil and clamps the mount to any MIL-STD 1913 Picatinny or similar accessory rail. Also serves as a recoil lug to prevent unwanted movement of the mount on the rail. Retaining pin captures cross-bolt so it can't fall off when the mount is removed from the weapon. Models available to fit three flashlight body diameters, listed below.

SPECS: Aluminum, hardcoat anodized, matte black. Steel cross-bolt, black. **SM-E** fits lights with .810" to .826" O.D., including SureFire Executive series. **SM-CK** fits lights with 1.010" to 1.026" O.D., including SureFire Classic series with diamond knurled bodies and Blackhawk Gladius. **SM-G** fits lights with 1.025" to 1.040" O.D., including SureFire Nitrolon G Series.

**CRIMSON TRACE AR-15/M16
LASER GRIPS**

Instant-On Laser Aiming System
For Fast Target Acquisition & Better Accuracy

Integral, grip-mounted laser sighting system gives you an immediate, decisive advantage in almost any light condition. A squeeze of your finger on the instinctively positioned pressure pad activates the laser for an added tactical edge by instantly projecting a bright red aiming dot on the target. Makes a great training tool by providing instant feedback to advanced shooting students learning instinctive aiming, and helps beginners learn how to achieve proper sight alignment, steady trigger pull, and consistent follow through. Ultra-bright laser is the brightest allowed by current federal law; dot diameter is approximately 1/2" at 50 feet. The ergonomically designed outer cover of rugged but soft, overmolded rubber also improves shooting comfort and control. Master on/off switch prevents dead batteries caused by accidental laser activation. Fully adjustable for windage and elevation with the included Allen wrenches. **Vertical Foregrip** model easily attaches to any forend/handguard with a MIL-STD 1913 Picatinny or Weaver-style accessory rail on the underside and also enhances weapon retention, control, and pointability. Frame machined from billet aluminum clamps to the rail with locking bars, two crossbolts, and easy-grasp, grooved thumbscrews to prevent unwanted movement that can change point of aim. Pressure pads on either side of the grip ensure instant, reflexive activation as you grasp the grip; master on/off switch on the lower left side. Over four hours constant-on operation from two 2032 lithium batteries (included), and up to five-year inactive shelf life. **Pistol Grip/Upper Receiver** model fits rifles with A1/A2 carry-handle upper receivers and includes a replacement rubber overmolded pistol grip with the pressure switch located in the upper finger groove. Rugged, shock-resistant polymer grip frame houses one CR123 lithium battery (included), with the master on/off switch in a deep recess on the underside. An armature extends from the pistol grip alongside the rear of the carry handle and positions the laser unit parallel with the top of the handle. Cam-lock system tightly locks the laser housing to the carry handle to prevent loss of zero. Easily used in conjunction with ACOG and other optics, as well as factory and aftermarket "iron" sights. Maximum 20 hours constant-on operation; five year extended shelf life.

Vertical Foregrip

Pistol Grip/Upper Receiver Grip

SPECS: 633nm Class IIIa red laser, 5 mWV peak output. Includes batteries, Allen wrenches, mounting hardware, and instructions. **Vertical Foregrip** - Aluminum frame, anodized, and molded rubber, black. Fits Picatinny and Weaver-style rails. **Pistol Grip/Upper Receiver** - Polymer frame, molded rubber, black. Fits carry-handle rifles with A1/A2 receivers; will not fit A3 flattops.

BADGER ORDNANCE MAXIMIZED SCOPE RAIL

Forward Cant Lets You Zero At Extended Range

Heavy steel base with 20 M.O.A. forward angle increases maximum scope elevation for long range shooting. Machined after hardening to maintain dimensions. Integral recoil lug withstands the hardest kicking calibers. Uses MIL-Std 1913, Picatinny slot pattern for maximum sight mounting possibilities. **Remington 0 Cant**, without 20 M.O.A. forward angle. For use where extra elevation is not required. Fits 700 short action only.

BADGER ORDNANCE REM. 870/1100/11-87 TACTICAL SHOTGUN ACCESSORY RAIL

Expands Sighting Options For Tactical Shotguns

Rigid accessory mounting platform lets you install optics, ghost-rings, red dot sights, and other accessories on your Remington tactical shotgun. Precision milled from pre-hardened 4142 ordnance steel (Rc 28-32) to a true MIL-STD 1913 Picatinny cut with a rugged mil-spec manganese phosphate parkerized finish. Radlused underside fits contour of receiver for positive engagement along the entire length of the rail. Hole spacing matches pre-drilled receiver holes on factory Tactical models; other models may require drilling and tapping. Mounts securely to receiver with the hardened steel #8-40 Torx® screws included in kit.

SPECS: Steel, parkerized finish, matte black. 5¹/₂" (14cm) long, .835" (21.2mm) wide, 3/16" (7.8mm) high. Fits Remington 870, 1100, and 11-87. Hole-spacing fits factory Tactical models; other models may require drilling and tapping of receiver.

BROWNELLS PICATINNY SCOPE BASE

Cross-Slot System Provides Solid, Versatile Mounting On Tactical & Sporting Rifles

Rugged, one piece design provides a rock-solid base for scope rings with greater flexibility than traditional ring-and-base systems. Slots cut to true MIL-STD 1913 specs accept both Picatinny and many Weaver-style rings to increase your scope-mounting options on both tactical and sporting rifles. Easily alter the spacing between the rings to accommodate different-length scope bodies, and adjust eye relief to fit the specific needs of each shooter. Installs quickly using factory drilled scope base holes and screws—no drilling and tapping on most guns. Underside of base is cut out to accommodate receivers with right- or left-hand ejection ports. Choose between models precision machined from 4140 billet steel for superb strength and stability, or aluminum models machined from 6061 T6 billet for maximum weight reduction. Matte, black, anodized finish blends with most factory finishes. Models available for Remington and Winchester short action (SA), long action (LA).

SPECS: Aluminum Models - 6061 T6 aluminum billet, hardcoat anodized matte black. **Steel Models -** 4140 billet steel, matte black oxide finish. Savage fits models with AccuTrigger®. Winchester models fit post-'64 rifles.

BROWNELLS AR-15/M16/AR-STYLE .308 MODULAR FLATTOP RISER MOUNT SYSTEM

Customizable, Quick-Detach Mount Positions Scope At Eye Level

Modular riser mount clamps to flat top Picatinny cut AR-15 receivers in seconds, so you can mount a scope at correct eye level for maximum accuracy. Two, oversized, easy-grip thumbscrews and full-contact clamping along entire length of base provide rock-solid attachment to receiver without permanent modification of gun. Choose the precise rail height and angle to suit your needs; riser is secured to base with three Allen head setscrews. This mount will not shoot loose no matter how many rounds you send downrange. Use angled riser mounts when you need to raise or lower point of impact more than scope's internal elevation adjustment will allow. Entire unit—base, riser, and attached scope—can be removed quickly so you can use your rifle's factory sights. Reinstall unit in seconds without losing scope settings. True, MIL-STD 1913 Picatinny rail accepts both Weaver and Picatinny rings and mounts. CNC machined from 6061 T6 billet aluminum, then hardcoat anodized for outstanding strength and wear resistance.

SPECS: Precision machined 6061 T6 aluminum, hardcoat anodized matte black. 5¹/₂" (14cm) long. Base is 1" (2.5cm) wide, .3" (7.62mm) thick. MOA mounts are .649" (16.5mm) thick at highest point. 3/4" Mount - .700" (1.8cm) high. 1" Mount - 1" high. 1¹/₄" Mount - 1.25" (3.2cm) high.

BROWNELLS AR-15/M16 FLATTOP RISER

Raises Optical Sights To Eye Level For Quick, Precise, Target Acquisition

Machined aluminum riser clamps to flattop AR-15 receiver to position primary optic sights at eye level. Raises mounting height .750" to eliminate the need for extra-high rings in most applications. True, MIL-STD 1913 Picatinny cut accepts both Picatinny and Weaver-style rings. Two, easy-to-grip, slotted hex nuts accept a U.S. quarter for extra tightening leverage; full-length clamping bar locks riser securely to flattop receiver for zero movement even during harsh tactical operations. Precision CNC machined to ensure an exceptionally secure lock on the receiver rail. Smooth, curved front and rear contours on the underside provide a streamlined appearance, reduce weight, and minimize the chance of catching on gear.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. Approximately 5" (12.7cm) long, 1" (2.5cm) wide at the base, .975" (2.45cm) high overall. Adds .75" (1.9cm) to height of flattop. 4.8 oz. (136 g) weight.

HAHN PRECISION AR-15/M16 LOW PROFILE TACTICAL RAILS

Clean, Streamlined Look; Made To Mil-Spec Standards

One-piece rails cut to true, MIL-STD 1913 Picatinny spec match the look and feel of your standard, A4 flattop while adding 1/2" of height for proper cheek weld with optics and tactical sights. Streamlined design encloses the receiver rail for a "built-in" appearance and eliminates protruding hardware that can snag on brush, slings, and clothing. Nylon-tipped, Allen screws, tapped through the top, deliver downward pressure between the receiver rail slots for exceptional holding power. Precision machined from strong, yet lightweight 6061-T651 billet aluminum, then hardcoat anodized with a tough, Teflon-impregnated finish to Mil-A-8625 for extra strength and superior wear resistance.

LOW PROFILE RISER - Adds 1/2" of height along the entire 7 1/4" length of a mil-spec, A4 flattop receiver, so you can use lower rings when mounting scopes and other optical sights. **BUIS Riser** includes an integral, flip-up rear peep sight. If your optical or laser sight fails, deploy the "Back Up Iron Sight" with a flick of your thumb to stay combat effective. BUIS is protected by the sides of the rail when folded down; regulates properly with a standard-issue front sight.

SPECS: Rail - 6061-T651 billet aluminum, hard black anodized. 7 1/4" (18.4 cm) long x 1/2" (1.3 cm) high. 4.2 oz. (119 g) wt. Fits mil-spec flattop receivers. BUIS - Steel, matte gray Parkerized finish. Center of aperture is 1 1/16" (3.65cm) above top of existing flattop.

#100-002-203CE Low Profile Riser 6K48T00 \$ 60.00
#100-002-657CE Low Profile BUIS Riser 6K116D00 \$ 145.00

SCOUT RAIL - Provides 3 1/4" of valuable rail space over M4-style handguards for mounting tactical optics farther forward. **Standard** model provides maximum flexibility in positioning optics. **BUIS Scout Rail -** Chopped, tail section allows attachment of a flip-up, rear sight to the back of your existing flattop rail, so it regulates properly with standard issue front sights. **BUIS Scout Rail w/Flip Up Rear Sight -** Includes the same integral, flip-up rear peep sight used on the Low Profile BUIS Riser.

SPECS: 6061-T651 billet aluminum, hard black anodized. Fits mil-spec flattop receivers. **Scout Rail -** 10 1/2" (26.7cm) long x 1/2" (1.3cm) high. 4.4 oz. (125g) wt. **BUIS Scout Rail -** 8 1/4" (21cm) long x 1/2" (1.3cm) high. 3.3 oz. (94g) wt. **BUIS Scout Rail w/Flip Up Sight -** 10 1/16" (26.5 cm) long x 1/2" (1.3 cm) high. Sight - Steel, matte gray Parkerized finish. Center of aperture is 1 1/16" (3.65cm) above top of existing flattop.

#100-002-204CE Standard Scout Rail 6K72T00 \$ 90.00

QUICK-DETACH OPTIC MOUNTS**Rock Solid, Quick-Detach Mounts With Repeatable Accuracy**

Quick-detach mounts provide a rock-solid platform for a variety of sight systems on Picatinny and Weaver-style flattop rails. Models with innovative Accucam system are tension adjustable to fit solid on even out-of-spec rails; provides quick removal and installation in just seconds while maintaining 1/2" MOA repeatable accuracy. Accucam lever features an extra large finger loop for easy operation when wearing gloves. Models with oversize thumbscrew provide a wide clamping surface for added holding power. All mounts are precision machined from 6061 T6 aluminum and hardcoat anodized for added durability; clamping systems are steel for maximum strength. 

ACCUCAM MOUNT W/INTEGRAL 30MM RINGS - Scope rings designed specifically for the AR weapon platform spaced 4.400" center-to-center for increased holding power and strength. Height from top of dovetail to centerline of ring is 1.400" to ensure the proper cheek weld. Each top ring strap is secured with four Allen head clamping screws for recoil-proof holding power. 

SPECS: Mount - 6061 T6 aluminum, hardcoat anodized, matte black. 5" (12.7cm) long x 2 23/64" (5.6cm) wide. Lever - 4140 steel, matte black. Height from top of dovetail to center of ring is 1.400". Fits scopes with 30mm tube.

#336-000-012CE Accucam Mount w/30mm Rings
6C199T95 \$ 209.95

QUICK-DETACH CANTILEVER MOUNT FOR AIMPOINT - Extra wide ring with integral base and cross-bar attachment system provides a tight, solid fit to the flattop rail.

Over-sized thumb screw with 1" wide clamping bar locks the mount to the rail and prevents recoil induced movement. Mounts to any of the forward rail slots so a night vision monocular can be used behind the Aimpoint and keep the same eye relief. Overbuilt rings with heavy duty top strap secured with six Allen head screws to hold firm during hard tactical use. Built-in, insulated battery compartment is located on the side of the ring for easy access. Lightening holes on the cantilever section reduce weight without sacrificing strength. 

SPECS: Mount - 6061 T6 aluminum, hardcoat anodized, matte black. 4" (10cm) long x 1 3/8" (3.4cm) wide. Crossbar - steel, matte black. Height from top of dovetail to bottom of ring is 1" (2.5mm). Fits 30mm sights.

The 3 1/2" long base is contoured for a snug fit to the scope body and holds firm with two large Allen head screws for a rock-solid attachment. Fits all standard and compact ACOG scopes designed for mounting to a flattop rail. 

SPECS: Base - 6061 T6 aluminum, hardcoat anodized, matte black. 3 1/2" (8.9cm) long x 1 3/8" (3.5cm) wide. Height - .25" (6.3mm). Lever - 4140 steel, matte black. 2 5/8" (6.7cm) long x 1 3/32" (1cm) wide.

#336-000-018CE Accucam Mount For ACOG,
6C112T00 \$ 139.95

ACCUCAM MOUNT FOR REFLEX - Machined base mounts directly to the body of the Reflex and the quick-detach feature allows easy removal and installation on Weaver-style and Picatinny rails. Designed to provide a low-profile and mild cantilever for a mount height that allows co-witnessing with back-up iron sights like the A2 or MAD. The 2 1/2" long mounting platform is contoured for a perfect fit to the Reflex and secures with three, heavy duty Allen head screws for a firm hold during hard tactical use. 

SPECS: Base - 6061 T6 aluminum, hardcoat anodized black, matte. 4" (10cm) long x 1 3/8" (3.5cm) wide. Height - .44" (11.2mm). Lever - 4140 steel black, matte. 2 5/8" (6.7cm) long x 1 3/32" (1cm) wide.

**AIMPOINT AR-15/M16 MOUNTS FOR COMP SERIES SIGHTS****Easy, Fast, Secure Mounting To Flattop Or Carry Handle Receivers**

Single-ring mounts for attaching Aimpoint Comp series red dot optical sights or any similar sight requiring a single 30mm ring to flattop or carry-handle AR-15/M16 receivers. Four, hardened steel hex-head screws securely anchor ring halves together for even ring contact around entire circumference of sight. No gunsmithing, no permanent alterations to gun required. 

QUICK-RELEASE - Low-profile base clamps tightly to rail on flattop receiver, while extra-long scope ring provides ample contact area with scope to prevent slippage of sight under recoil. Oversize thumbscrew with easy-to-grasp knurled head has built-in torque limiter to prevent damage to rail caused by overtightening the screw; allows repeated removal and reinstallation of sight without loss of zero. Machined from strong, lightweight aluminum, hardcoat anodized for added strength and wear resistance, with a matte black finish to match most factory gun finishes. **QRP** model fits rails with slots cut to MIL-STD 1913 Picatinny spec; **QRW** fits Weaver-style rails. 

SPECS: Aluminum, hardcoat anodized, matte black.
#100-003-594CE QRP Quick-Release Picatinny Mount,
7A94V95 \$ 119.95

#100-003-595CE QRW Quick-Release Weaver Mount,
7A97V00 119.95

CARRY-HANDLE MOUNT - Steel bolt and large, knurled knob ensure fast, secure attachment to carry handle, plus quick removal and reattachment without loss of zero. Top half of the ring is machined steel for superior strength and secured by four hex-head screws to the extra long lower half to ensure full contact with the sight body. See-through tunnel in base allows continued use of iron sights on some guns. 

SPECS: Hardcoat anodized aluminum and parkerized steel, matte black. Fits A1/A2 and detachable carry handles.

#100-003-596CE 30mm Carry Handle Mount,
7A135V00 \$ 164.95

QUICK-DETACH STANDARD RING FOR AIMPOINT - Extra wide ring attaches to the rail with a single elliptical thumbnut and square locking cross bar that hold tight under continuous recoil. Mounts to any position on the rail so a night vision monocular can be used behind the Aimpoint and keep the same eye relief. Ring strap is secured with six Allen head screws to ensure it can withstand the tactical environment. Built-in, insulated battery compartment is located on the side of the ring for easy access. 

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. 1 1/8" (2.9cm) long. Base is 1" (2.5cm) wide. Height from top of dovetail to bottom of ring is 1/2". Fits 30mm sights.

#336-000-013CE QD Ring For Aimpoint,
6C139T95 \$ 164.95

ACCUCAM BASE W/PICATINNY RAIL - Precision machined to true MIL-STD 1913 specs, this base rail will accept both Weaver and Picatinny rings for a variety of sight options. Streamlined, shallow profile is low enough to allow the use of iron sights while installed, however optics may have to be removed. Fits Weaver-style and Picatinny receiver rails. 

SPECS: Base - 6061 T6 aluminum, hardcoat anodized, matte black. 5" (12.7cm) long x 1 3/8" (4.1cm) wide. Height - .460" (11.7mm). Lever - 4140 steel black, matte. 2 5/8" (6.7cm) long x 1 3/32" (1cm) wide.

A.R.M.S. AR-15/M16 THROW LEVER OPTIC MOUNTS**For Quick-Detach Mounting Of Popular Optics To Flattop Rifles**

Compact, quick-detach mounts clamp directly to AR-15/M16/M4 flattop receiver rail for solid, ultra-secure attachment of optics and holographic sights. The strong, yet lightweight aluminum base is secured to the rail by steel throw levers and locking feet, while a recoil lug locks into one rail slot to prevent unwanted sight movement under recoil. Quick-release levers close securely against the side of the mount to prevent snagging on other objects, yet release easily when you want to remove the sight and mount as one unit without loss of zero. 

#19/#19S ACOG MOUNT - Adapter-mount lets you easily install a Trijicon® ACOG scope designed for carry-handle rifles on a flattop. Available in Dual Lever and Single Lever models. **#19 Dual Lever** has five mounting holes to allow plenty of flexibility in adjusting eye relief. Adds .440" to height of sight. **#19S Single Lever** model adds less weight and leaves more rail space free without compromising strength or stability. Raises the ACOG .275" above the receiver rail. 

SPECS: Aluminum rail, hardcoat anodized, matte black; steel levers, oxide finish, matte black. **Dual Lever** - 5 3/8" (13.7 cm) long. 3.4 oz. (95 g) wt. **Single Lever** - 3 1/16" (9.4cm). 2.5 oz. (72 g) wt.

AMERICAN DEFENSE AR-15/M16

QUICK-RELEASE OPTICS MOUNTS

Rock-Solid Mounts With Patented Quick-Detach System

Patented quick-release lever-lock system clamps solidly to flattop rail and will not work loose even under heavy recoil—the more force acting on the lever, the tighter it locks. Depress the release tab to swing the lever open, and the mount easily lifts off the rifle. Adjustable with a flat head screwdriver or even a coin for an ultra-secure, no-slip fit on almost any Picatinny or Weaver-style rail, including over- or under-sized commercial rails. Lever may be configured to lock to the front or the rear to suit the operator's preference. Large locking bar on the side of the mount engages the maximum amount of rail area, while the crossbolt and two integral locking lugs ensure rock-solid engagement of rail slots to prevent movement under recoil. Five heavy duty steel hex head screws (three on top, two on bottom) clamp the vertically split ring halves together. Cutouts in the ring sides and in the base reduce weight without sacrificing strength.

AD-68 AIMPOINT MOUNT - Designed for Aimpoint optics or similar aiming devices requiring a single, 30mm ring, including the Comp C3 and M2/ML2/M3/ML3 series. Available in four configurations to suit a variety of mounting needs. **Standard** co-witnesses "iron" sights near the center of the optic when mounted on an AR-15/M16/M4 with standard-height mil-spec sights. **Low** positions the scope as close as possible to the top of the receiver. **High** positions the backup sight picture in the lower 1/3 of the optic viewing area. **Cantilever** provides same co-witness elevation as High mount and positions the Aimpoint 1 1/2" forward to provide room for rear-mounted night-vision device or Aimpoint 3X Magnifier.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. Height measured from top of rail to bottom of scope body. **Standard** - .940" high. **Low** - .520" high. **High** - 1.120" high. **Cantilever** - 1.120" high.

M & A AR-15/M16 FLATTOP SCOPE MOUNT

Integrated Mount & Rings For Rugged Strength

One-piece riser and rings provide a very strong mount that withstands the bumps and knocks of hard tactical use. Each ring is 1 3/8" wide for maximum support, caps have four hex head clamping screws for recoil-proof holding power. Two thumb screws and full-length clamping bar securely lock mount to receiver. Machined aluminum keeps weight to a minimum.

SPECS: Aluminum, black, matte finish. 5 1/8" (13cm) long. 10.7 oz. (304 g) wt. Fits 1" diameter scopes.

- #553-000-005CE **Flat Top Scope Mount,** 3E41T58 \$ 53.60

BOTACHTACTICAL AR-15/M16 KZ QUICK-DETACH MOUNT FOR AIMPOINT MICRO

Lightning Fast Attachment & Removal Of Sight; Allows Co-Witnessing With Iron Sights

Lightweight, quick-on/quick-off mount lets you install and remove your Aimpoint Micro series red dot optical sight in seconds without tools. Replaces sight's factory base and fits any AR-15 flattop carbine or rifle with a Picatinny or Weaver-style receiver rail. Full-length locking bar, hardened steel bolt, and easy-to-grasp spring-loaded wing nut clamp base securely to rail to eliminate unwanted movement under recoil. Provides correct height for co-witnessing with military-style front and rear iron sights, or aftermarket flip-up sights of the same height. Machined from 6061 T6 aluminum billet to precise dimensions for secure fit, then mil-spec Type III, Class II hardcoat anodized for superior strength and wear resistance, with matte black finish that matches most factory rifle finishes.

SPECS: Aluminum, hardcoat anodized, matte black. 2 3/16" (5.5cm) long, 1 3/16" (3.0cm) wide; provides .895" (2.3cm) elevation from top of rail to bottom of sight body. 2.3 oz. (65g) weight. Fits Aimpoint Micro series red dot sights only.

- #100-003-556CE **KZ Quick-Detach Mount** 8B49P95 \$ 59.95

J.P. ENTERPRISES AR-15/M16 FLATTOP OPTICAL MOUNT

Integral Offset Rings For Rock-Solid Mounting

One-piece mount with integral rings is precision machined to true MIL-STD 1913 specs for a tight, secure fit on flattop receiver rails. Ring height and forward offset are ideal for use with long eye relief scopes. Four, Allen head screws secure each top ring strap to the lower ring and hold the optics tight under heavy recoil. Full length base clamps to the receiver with five, equally spaced crossbolts for a rock-solid fit and zero movement. Radiused edges give a streamlined appearance, reduce weight, and prevent snagging. T6 aluminum, hardcoat anodized for durability. Fits true, MIL-STD 1913 Picatinny rails. Models available for 1" and 30mm diameter scope bodies. Allen wrenches included.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. Approximately 5 1/2" (14cm) long, 1 3/4" (4.4cm) wide, 2 1/8" (5.4cm) high. **1" Mount** - 71 oz. (201 g) weight. **30mm Mount** - 6.3 oz. (179 g) weight. Height - 1.45" (3.68cm) measured from top of base to center of ring. Includes 7/64" and 3/32" Allen wrenches.

SMITH ENTERPRISE AR-15/M16

CARRY HANDLE SCOPE MOUNT

Lightweight, Streamlined Quick-Detach Mount Won't Block Iron Sights

Precision-machined aluminum scope mount attaches securely to the carry handle of your AR-15/M16/M4 to provide a solid, lightweight platform for tactical optics. MIL-STD 1913 rail cut accepts Picatinny, STANAG, and Weaver-style mounting systems, while hollow, .335" diameter sight channel offers unobstructed use of standard-issue iron sights without removing mount. Locks tightly in place with hardened steel stud and knurled nut that also allow fast, easy removal and reattachment of mount and attached optics without loss of zero. Positions scope to provide adequate eye relief when wearing a protective chemical/biological mask. Standard issue for Israeli Defense Forces, and deployed with the U.S. Armed

SOG ARMORY AIMPOINT MOUNT

Strong, Lightweight; Standard & Offset Models

Single-ring mounts of strong, lightweight aluminum secure your Aimpoint or similar aiming device on any Picatinny or Weaver-style rail. Extra-large ring surface area ensures zero scope movement under recoil, with six Torx T-15 screws (wrench included) securing the ring halves. A cross-bolt with integral recoil lug and .510" diameter hex nut anchor the mount to the rail. **Standard** model elevates the sight to the correct height to co-witness with a back-up iron sight. Cut-out in the base reduces weight without sacrificing strength. Cantilever-style **Setoff** model provides co-witness elevation and positions sight 1 1/4" forward to make room for a rear-mount night vision device. Both models accept 30mm diameter scope tubes; aluminum reducer included for mounting a 1" tube.

SPECS: Aluminum, hardcoat anodized, matte black. Steel Torx screws cross-bolt, oxide finish, black. Fits 30mm and 1" diameter sights. **Standard Model** - 1" (2.5cm) long, 1" high from top of base to bottom of ring. **Setoff Model** - 3 3/8" (8.6cm) long, 1" high from top of base to bottom of ring.

YANKEE HILL AR-15/M16 EOTECH RISER MOUNT

Keeps Iron Sights From Blocking EO/Tech Reticle, Preserves Co-Witness Capability

Rugged, yet lightweight riser mount positions your EO/Tech holographic sight .300" higher, so your rifle's iron sights are less apt to interfere with the EO/Tech's reticle, while preserving co-witness capability. Also helps you maintain a more comfortable, heads-up shooting form. Clamps to your flattop rifle's Picatinny rail with a single hardened steel setscrew; a securing tab up front locks into one of the rail's slots to ensure a solid, recoil-proof fit. Precision machined from solid aluminum, then mil-spec hardcoat anodized for extra strength and wear resistance.

SPECS: Aluminum, hardcoat anodized, matte black. 5 1/8" (13.5cm) long, 1 1/8" (4.6cm) wide, .525" (1.3cm) overall height. 2.5 oz. (70g) weight. Fits AR-15/M16 with flattop receiver only.

- #100-003-101CE **EO Tech Riser Mount** 9A31C55 ... \$ 42.00

B-SQUARE TACTICAL TRI-RINGS

High Strength Rings With Built-In Rails For Added Mounting Versatility

Heavy duty, Weaver-style scope rings with Picatinny accessory rails provide additional options for mounting backup optics, flashlight/laser combinations, and other essential tactical accessories. Each Tri-ring contains three built-in rails positioned at 9, 12, and 3 o'clock for multiple options. Top straps are held to the lower rings with four Torx® head screws for a secure fit that won't come loose. Base clamps to Weaver-style rails using a steel crossbar and oversized 1/2" nut that holds tight under the heaviest recoil. Precision machined from T-6 aluminum and hardcoat anodized for durability. Fits 30mm scope bodies.

SPECS: T-6 aluminum, black, matte. 30mm I.D. Height - 1 9/16" (4cm) measured from top of base to center of ring. Includes Torx wrench.

- #122-000-048CE **Tactical Tri-Rings** 6K58X80 \$ 73.50

LIGHTFORCE NIGHTFORCE 30mm TACTICAL RINGS

Extra Strong For Police & Military Applications

Milled from barstock, these rings provide the solid strength required for harsh field and tactical use. With four TORX screws per cap, the scope is securely locked into the ring to prevent recoil movement. 1/2" attaching nut lets you torque rings to base, helps achieve a consistent return to zero. Steel cross lug provides additional strength, prevents shifting caused by recoil. Fits Picatinny and some Weaver-style bases.

SPECS: Steel, parkerized, matte finish. 30mm I.D. 5/8" (15.9mm) wide. Height measured from top of base to bottom of scope body: **Low** - .300" (7.6mm), **Medium** - .400" (10.2mm), **High** - .535" (13.6mm). **Extra High** - .782" (19.9mm).

LEUPOLD

MARK 4® 4.5-14X 50mm LR/T™ LONG RANGE TACTICAL SCOPE

30mm Tube For Maximum Light Transmission & Clarity

Variable-power, tactical scope has high resolution optics, repeatable accuracy and rugged, waterproof construction with the durability to withstand harsh operating conditions. 50mm objective and Multi-coat 4" lens coating provide maximum light transmission in low light conditions. Front focus adjustment lets you eliminate parallax and stay in shooting position; your eyes never leave the target. Windage and elevation knobs have 1/4 MOA audible click adjustments and 75 minutes total adjustment. Easy-to-use, target-style knobs reset to zero. Mil-Dot reticle with instructions.

SPECS: Black, matte finish. 30mm tube diameter. 50mm objective lens diameter. 12.5" (31.7cm) long. Weight 22 oz., (624g). 4.5-14X magnification. 100 yd. field of view: 4.5, 20.5" (6.8mm); 14, 76" (2.5m). Requires high rings.

GG&G

EOTECH LENS COVER MODULE

Fast, Flip-Open Design; Protects The Lenses From Weather & Damage

Flexible rubber body with spring-loaded, ABS plastic covers help seal out dirt, dust and moisture to keep the lens

surfaces of your EOTech holographic sight clean, scratch-free, and ready for use in all shooting conditions. Integral tabs on the right and left sides of the covers allow a fast, ambidextrous flip-open action with thumb or finger pressure. Front cover opens to near horizontal position to help block rain or sunlight. Rear cover folds back on top of the EOTech's protective hood for compactness, and to ensure a completely unobstructed view through the sight. Body section installs under the EOTech protective hood, so it can't be lost or damaged. Fits EOTech models 511, 512, 551, and 552. Included, noise-absorbing neoprene pads dampen the sound of the rear lens cover contacting the hood during covert operations.

SPECS: Rubber body, ABS plastic covers, neoprene pads, matte black. 2 3/8" (5.9cm) long, 1 1/8" (4.8cm) wide, 1 1/16" (3.6cm) high. 1 oz. (28.4g) weight. Includes Torx wrenches for installation.

MICHIGUNS

EOTECH ADJUSTMENT DECALS

Elevation & Windage Calibrated Decals For Fast Adjustments

Calibrated decals are placed on the outside of the EOTech protective housing, around the elevation and windage knobs to allow fast, precise sight adjustments on distant targets. Large, easy to see arrows avoid confusion by pointing in the direction of turn to change elevation and windage. Transparent with tan colored lettering and markings that are easy to see. Each calibrated "tic" mark is the equivalent of 1/2" of bullet point-of-impact at 100 yards. Constructed of waterproof, high-strength vinyl, with an adhesive backing that holds tight.

SPECS: Vinyl decal. Calibration - 1/2" @ 100 yards.

EOTECH

HOLOGRAPHIC SIGHT

Provides Extremely Fast, Heads Up Target Engagement For Close Quarters & Long Range Shooting

Weatherproof, shockproof, night vision compatible sight provides competitive, military and law enforcement shooters a versatile, all-weather sighting system. Holographic, variable-intensity reticle is visible in any light. As long as the operator can see through any portion of the window, the entire reticle is visible on target. All models (except 552.XR308) feature a dot-within-a-circle reticle that presents a see-through pattern for lightening-quick target acquisition. Heads-up display eliminates blind spots and tunnel vision. Gives true, both eyes open shooting for instant target identification. Electronics are encapsulated in a shock absorbing resin compound and sealed against dirt and water. Shatterproof lens has an anti-reflective coating. Light signature is not visible from the front. All user controls are flush with the housing, no protruding knobs or mounting rings to snag or block vision. Integral mount fits Weaver-style and Picatinny bases.

Aluminum "roll bar" hood protects display. **Model 553** incorporates the patented ARMS® dual quick-release throw levers for instant on/off capabilities. Zero is repeatable to 1 MOA after re-mounting. Sight body sets 7mm (.275") higher to provide operator with a consistent cheek weld with all other standardized optics. **Model 555** offers the same feature set as the 553 with the added convenience of using two common 1.5 volt AA batteries as a power source. Gives 1,000 hours continuous operation with lithium batteries at nominal setting 12; 600 continuous hours with alkaline. Also compatible with AA rechargeables. **Model 551, 552, 552.XR308, 553, and 555** are night vision compatible with a night vision brightness range of 1,000:1 with NV switch engaged. **Model 552.XR308** has a ballistic drop compensated reticle for .308 caliber with hash marks calibrated for 600, 900, and 1200 meters. **Models 511 and 512** have no provisions for night vision equipment. 511 and 551 use two, Type N batteries; 512, 552, and 555 use two, AA batteries; 553 uses two, CR123A (3v) batteries. All include batteries.

SPECS: Polycarbonate body, aluminum hood, matte, black. Lens 3/16" thick, 3-layer, shatterproof laminate glass. Reticle size: 1 MOA dot and 65 MOA ring. **511 & 551 - 4"** (10.2cm) long, 1 1/16" (4.9cm) wide, 2 3/8" (6cm) high. 9.2 oz. (262 g) wt. **512, 552 & 552.XR308 - 5 3/16"** (13.5cm) long, 1 1/16" wide, 2 3/8" high. 11.5 oz. (326 g) wt. **553 - 4 1/16"** (12.4cm) long, 1 1/16" wide, 2 3/4" (7.1cm) high, 12.2 oz. (345g) wt. **555 - 5 1/16"** (4.9cm) long, 2 3/4" high, 2 3/4" high, 12.5 oz. (354g) wt.

MODELS 516, 556 & 557 - Flush-mounted control buttons positioned on the left side of the unit ensure easy, fast access when back-up iron sight or EOTech Magnifier is installed. Integral mount with knurled cross-bolt locks securely MIL-STD 1913 Picatinny and Weaver-style rails; zero is repeatable to 1 MOA after removing and re-mounting. Front one-third of the base underside is elevated .275" (7mm) for clearance over delta ring and standard military-style plastic handguard. Submersible to 33 ft. depth. **Models 516 and 556** occupy only 3/4" of rail space, leaving adequate room for a backup iron sight. Both have an easy-to-acquire tactical reticle with a 1 MOA dot inside a 65 MOA ring and provide up to 1,100 hours of continuous operation on two (2) 3 volt CR123A lithium batteries, included. **Model 556** is also compatible with Gen I-III+ night vision systems; 1000:1 night vision brightness range with NV switch engaged. **Model 557** employs a ballistic matched reticle calibrated for the M4 carbine, with four vertically aligned 1 MOA aiming dots for target distances of 0-300m, 400m, 500m, and 600m. Fully compatible with Gen I-IV night vision systems; night vision brightness range of 1000:1 with NV

YANKEE HILL

EOTECH REPLACEMENT SCREW

Oversize Head Makes Attaching Your HoloSight Easier

Fully machined, heat-treated thumbscrew with oversize, slotted head protrudes farther out from the side of your EOTech holographic sight. Provides increased surface area for more positive sight retention than the small-headed factory screw. Makes attaching and removing your sight much easier to do, even when wearing gloves.

SPECS: Steel, matte blue. 2 1/8" (5.3cm) long. Head-.562" (14.2mm) diameter, 375" (9.5mm) thick.

#100-002-898CE EOTech Replacement Screw, 9A06Z85..... \$ 9.00

switch engaged. Powered by two (2) common 1.5 volt AA alkaline (included) or lithium batteries; 1,000 hour continuous battery life with lithium or 600 hours with alkaline. Requires 3/4" of rail space.

SPECS: Polycarbonate body, aluminum hood, matte, black. Lens 3/16" thick, 3-layer, shatterproof laminate glass. **516 & 556 - 5 1/8"** (13cm) long, 2 1/8" (5.4cm) wide, 2 3/4" (7cm) high. 11.9 oz. MAGNIFIER - Optic system significantly increases target recognition capability and accuracy of any EOTech Holographic Weapon Sight (HWS) out to 600 meters without compromising CQB effectiveness. Quick-attach, modular system mounts on receiver rail right behind the HWS and requires no adjustments or modifications to the HWS. The Magnifier can be attached and removed as needed without changing the HWS' point of aim, and the center dot remains 1 M.O.A. in size (1.8" at 600m with the 4x magnifier), while the angular size of the target is magnified. Choose between **3x** model with circular field of view and **4x** model with rectangular field. Both models available with two innovative mounting systems. **Fixed Mount (FXD)** lets you remove the Magnifier quickly from the mount simply by flipping the side-locking lever. Mount is fully adjustable for windage and elevation, so the Magnifier can be adjusted to center the HWS reticle image in the Magnifier's window without altering the zero of the sight itself. Steel cross-bolt and locking bars with large surface area provide solid attachment to any MIL-STD 1913 Picatinny rail, with sufficient clearance for most common low-profile flip-up rear sights. Ambidextrous design lets you position the mount with the release lever on the left or right side. **Flip-to-Side Mount (FTS)** adds another, even faster transition option. Hit the quick-flip lever, and the Magnifier immediately flips to the side, out of the HWS field of view, for instantaneous transition from long-range to CQB mode. Can be mounted with the lever and flip path on the left or right side.

3x Magnifier with FTS Mount

SPECS: Aluminum, hardcoat anodized, matte black. Rubber-coated eyepiece. 1.65" (4.2cm) eye relief. Submersible to 33 ft. Fits any model EOTech Holographic Weapon Sight. **3x Magnifier** - 4 1/16" (13.8cm) long, 1 1/16" (4.9cm) diameter at widest point. Total weight: FXD - 10.5 oz. (297g); FTS - 11 oz. (312g). Actual magnification: 3.25x. Field of view: circular, 6 degrees. Operating temperature range: -20° to 140° F. **4x Magnifier** - 4 1/16" (11.7cm) long, 1 1/8" (4.7cm) diameter at widest point. Total weight: FXD - 16 oz. (453g); FTS - 16.5 oz. (468g). Actual magnification: 3.75x. Field of view: rectangular, 6 x 7.5 degrees. Operating temperature range: -40° to 160° F.

MOUNTS & OPTICS

RED DOT OPTICAL SIGHTS

**Rugged, No-Fail Sight Systems
For Hunting, Target Shooting & Tactical Applications**

Parallax-free aiming with a single, bright glowing red dot, proven to be the fastest, most accurate sighting system available. Exclusive Advanced Circuit Efficiency Technology (ACET) greatly improves the useable life of the single 3-volt battery. ACET sights can last nearly 50,000 hours (over five years on setting 7 out of 10) of constant use. AA battery model can last up to 80,000 hours with a single battery. All sight housings are machined, or extruded from 6000 series aluminum for maximum strength. Lens surfaces are optically ground (not cast) for superior clarity. Proprietary housing and lens sealing material keeps electronic and lens surfaces dry, fog-free and fully functional regardless of weather conditions. All models feature non-reflective, Mil-Spec anodized finishes. 

MICRO SERIES - Ultra Compact to reduce weight and bulk. Provides an easy-to-see, bright red LED aiming dot for hunting and tactical applications. All three models include an integral, Weaver-style mount that attaches easily without knobs, and is keyed to the sight body to absorb recoil. Fully adjustable for windage and elevation; adjustment tool is an integral part of the adjustment knob caps. **Micro H-1** with black finish and **Micro R-1** with silver finish are designed for hunting/sporting applications and are submersible to 15 feet. Can be mounted on shotguns, rifles, handguns, and bows, and include 12 daylight settings and one extra-bright setting. **Micro T-1** with black finish is designed for tactical use; includes band pass lens coating with 6 night vision/7 daylight settings, so it's fully compatible with all generations of Night Vision Devices, and submersible to 80 feet. Features integral Picatinny base.

SPECS: Anodized finish, matte black or silver. 2.4" (6.2cm) long x 2.4" wide x 1.6" (3.6mm) high, including mount. 3.7 oz. (105g) wt including mount. 1X magnification. **H-1/T-1:** 4 MOA dot. **R-1:** 4 MOA dot, 1/2" adjustment @ 100 yds (13mm @ 100m). ACET = 50,000 hrs on one battery. Includes lithium battery (3v, DL2032) and rubber flip-up lens covers.

MICRO MOUNTS - Precision machined aluminum and steel components provide more mounting options to increase the versatility of your Aimpoint Micro series red dot sight. **LRP Quick-Release Conversion Kit** converts the mount that came with your Micro to a quick release configuration that allows the sight to be removed from the firearm with the flip of the locking lever. Return sight to gun without loss of zero. **LT660 QD Riser Mount** made for Aimpoint by LaRue Tactical allows mounting on any flattop AR-15/M16/M4 at the ideal height for quick, precise, head-up target acquisition. Lets you retain and co-witness your rifle's factory iron sights through the lower 1/2 of the Micro's field of view, so they won't interfere with the Micro's sight picture. Locking, quick-release lever for fast attachment and removal from rail; machined recoil lug and side rail clamp ensure a rock solid installation. Correct height for use with Aimpoint 3XMag Magnifier. Requires 2 1/8" (5.4cm) of rail space. **Dovetail Mount** replaces the base the came with your Micro sight so you can mount it on any gun with a nominal 3/8" dovetail on the receiver.

SPECS: **LRP** - Steel, matte black finish. **LT660 & Dovetail** - Aluminum, hard anodized, matte black.

COMP2M2/COMP2ML2 SERIES - **CompM2** was the first red dot sight rated rugged enough to be adopted by the U.S. Military. Its band pass coated objective lens is fully compatible with all generations of Night Vision Devices, but built for optimum performance with 3rd generation NV technology. Includes 4 NVD and 6 daylight settings. **CompML2** is designed for law enforcement and other tactical applications where NV capability is not required, but rough handling and extreme weather conditions are encountered. Both models feature a 4 MOA dot for close quarter combat and 9 daylight settings. **CompML2 2X** adds fixed, 2X magnification with a 2MOA dot for more precise aiming at smaller targets. Can be quickly converted to a 6X 2MOA illuminated reticle scope by adding the optional 3XMag magnifying module listed below. All models require an Aimpoint 30mm ring or equivalent for installation, ring not included. 

SPECS: Anodized finish, matte black. **CompM2/CompML2** - 5.1" (130 cm) long x 2.2" (5.5cm) wide. 7.8 oz. (220 g) wt. 1X magnification. **CompML2 2X** - 6.5" (16.5 cm) long x 2.4" (6 cm) wide. 10.3 oz. (280 g) wt. 2X magnification. Windage & Elevation: 1/2" adjustment @ 100 yds. (13mm @ 100m). ACET = 10,000 hrs on one battery on daylight setting, 50,000 hrs on NV setting. Includes lithium battery (3v, DL 1/3N) and rubber flip-up lens covers. All models submersible to 75 feet (25 m).

- #100-002-977CE **CompC3 4MOA** 7A389U00..... 432.00

COMP3M3/COMP3ML3 SERIES - **CompM3** is a fully redesigned version of the CompM2 and provides up to five years of constant power-on usage from a single battery. Band pass coated objective lens is fully compatible with all generations of night vision devices, but works especially well with 3rd generation NV technology used by military and law enforcement personnel. **CompML3** includes multi-layer, anti-reflective lens coatings designed for low light or daylight tactical operations where NV capability is neither required nor practical. Both models are available with 4MOA dot for close combat application or 2MOA dot for improved accuracy at longer distances. Both models include a removable, outer, black rubber armor cover for added protection. All models require an Aimpoint 30mm ring or equivalent for installation. Ring not included. 

SPECS: Anodized finish, matte black. 5.1" (130 cm) long x 2.2" (5.5cm) wide. 7.8 oz. (220 g) wt. 1X magnification. Windage & Elevation: 1/2" adjustment @ 100 yds (13mm @ 100m). ACET = 50,000 hrs on one battery on daylight setting, 500,000 hrs on NV setting. Includes lithium battery (3v, DL 1/3N), rubber flip-up lens covers and rubber sight body shield. Submersible to 150 feet (45m).

COMP4M4/COMP4ML4 - The latest civilian version of the U.S. Army's M68 CCO (Close Combat Optic), and the most advanced sight produced by Aimpoint. Super efficient electronics deliver up to eight years of continuous use from a single AA battery. Optics feature band pass objective lens coating for superb light transmission and optimum 3rd generation NVD compatibility. Newly improved rotary brightness switch provides 7 NVD settings and 9 daylight settings, plus one extra-bright setting for outdoor use with anti-reflective goggles. Excellent choice for varmint hunters needing a rugged red dot optic with low light capabilities. Integral, QRP2 mount (no additional mount ring required) features a single, oversize thumbscrew for fast installation and removal from Picatinny rails. Mount includes a separate vertical spacer for fast adaptation to a wide range of firearms. Available 

with versatile 2MOA dot. Can be quickly converted to a 3X, long-range red dot reticle scope by installing the optional Aimpoint 3XMag magnifying module listed below. **COMP4M4** has the same great operating features as the COMP4, but positions the battery compartment low, on the right side of the unit for less chance of snagging and improved view over the top of the optic. **SPECS:** Anodized finish, matte black. 4.7" (120 cm) long x 2.8" (72mm) wide x 2.8" high. 11.8 oz. (335 g) wt. including mount. 1X magnification. Windage & Elevation: 1/2" adjustment @ 100 yds (13mm @ 100m). ACET = 80,000 hrs on one battery on daylight setting, 500,000 hrs on NV setting. Includes alkaline battery (1.5v, AA). Submersible to 150 feet (45m).

3XMAG MAGNIFIER - Mounts on a Picatinny rail directly behind any Aimpoint red dot optical sight to provide 3X magnification for improved accuracy when engaging small targets at long ranges. Durable rubber housing improves gripping surface and shields the module from damage caused by shock. Mounts to rail using a 30mm scope ring or the quick-detach Aimpoint TwistMount listed below. Mounting or dismounting will not change point-of-impact of your sight. Internal adjustments allow alignment with your pre-zeroed sight. 

SPECS: Aluminum, anodized, dark grey, rubber coated, black. 4.3" (11cm) long x 1.7" (4.4cm) high, 1.6" (4.1cm) diameter. 7.1 oz. (200g) wt. Submersible to 67 feet (20m). Requires 30mm mounting ring for installation.

- #100-002-981CE **3XMAG Magnifier** 7A500U00..... \$ 556.00

TWISTMOUNT FOR 3X MAGNIFIER - Quick-detach mount for Aimpoint 3x Magnifier lets you change instantly from long-range to CQB shooting modes. Simply depress the release lever, twist the Magnifier, and lift it off for an unencumbered close-range sight picture. Low-profile base clamps Picatinny-style rail; extra-long scope ring provides ample surface contact area for a no-slip grasp on the magnifier body. May also be used as a quick-detach mount for other 30mm optics. Extra TwistMount bases sold separately, so you can quickly move your Magnifier from one rifle to another. **Co-Witness Spacer** raises sight axis for proper co-witnessing with factory-height backup iron sights. Blends smoothly into contours of mount for a streamlined one-piece appearance. Comes with four, extra-length hex head screws and Allen wrench.

Model **TRIJICON® AR-15/M16**
ACOG SCOPES

Advanced Combat Optical Gunsight

Ultra strong, lightweight, forged aluminum housing and the compact design make this the strongest, most technically advanced, combat gun sight available. Tremendous light transmission and unbelievable optical clarity rivals many high-quality hunting scopes. Mounts on the AR-15/M16 or AR-10/SR25 carry handle without modifications. **TA01 4x32** - The exclusive Trijicon, self-luminous reticle has a built-in range-finding feature that's ballistically matched to the 5.56 X 45 NATO cartridge and clearly shows "center-of-mass" aiming points for ranges up to 800 yds. Easy-to-see reticle glows red in low-light conditions. Sight tunnel in mount allows use of standard issue sights. **TA01B 4x32** - Features the Trijicon, self-luminous reticle calibrated for 7.62mm NATO ammunition. **TA51 Bracket** converts standard ACOG for easy mounting on flat top receivers and Weaver-style rails. 

SPECS: 7070-T6 alum. housing, black, anodized. 5.8" (14.7cm) long, 9.9 oz. (280 g) wt. 4X magnification, 32mm objective lens.
#892-800-432CE TA01 4x32 2H742P50 \$ 990.00

#892-810-051CE TA51 Bracket 2H54P00 72.00

TA01NSN 4x32 SPECIAL FORCES - Includes integral peep rear with tritium dot front sight for fast, close range sighting; TA51 mounting bracket easily mounts the ACOG Special Forces on flat top receivers; Includes "bikini"-style scope covers and yellow center, range finding reticle to match M4A1 Carbine NSN 1240-01-412-6608. 

SPECS: 7070-T6 alum. housing, black, anodized. 5.8" (14.7cm) long, 9.9 oz. (280 g) wt. 4X magnification, 32mm objective lens.
#892-810-432CE Spec. Forces ACOG 2H843P75 . . . \$ 1,125.00

TA11 3.5x35 - A larger ACOG with the exclusive Bindon Aiming Concept (BAC) for "quick-as-thinking" aiming. Built-in range-finding reticle for ranges up to 800 yds. Mounts on the AR-15/M16 handle without modifications; allows use of standard issue sights. 

SPECS: Forged 7070-T6 aluminum housing, black, anodized, coated lenses. 8" (20cm) long, 14 oz. (396 g) wt. 3.5X magnification, 35mm objective lens. Adjustable for windage and elevation.
#892-800-335CE 3.5x35 ACOG, 2H971P25 \$ 1,295.00

TA47 2.0X20 - Lightweight, Compact ACOG, with the exclusive Bindon Aiming Concept (BAC) for quick, both eyes open, aiming. Mounts on the AR-15 carry handle without modifications; allows use of standard issue sights. Dual illumination; fiber optic rod with glowing amber tritium illuminates the aiming Triangle Dot reticle in bright daylight and low light. 

SPECS: Forged 7070-T6 aluminum housing, black, anodized, coated lenses. 5.3" (13.4cm) long, 5.8 oz. (164 g) wt. 2.0X magnification, 20mm objective lens. Adjustable for windage and elevation.
#892-803-220CE 2.0x20 Triangle ACOG 2H742P50 \$ 990.00

ACOG BIKINI COVER - Flexible rubber lens covers seal out unwanted moisture and debris; comes equipped with a rubber pull tab for fast installation and removal. 

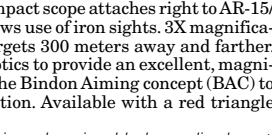

SPECS: Rubber, black. 5 1/2" (14cm) long. Fits 4x32 ACOG scopes only.
#892-801-052CE ACOG Bikini Cover 2H09P00 \$ 12.00

TA33 3x30 - Lightweight, compact ACOG combines ample 3X magnification with Bindon Aiming Concept (BAC) for quick, instinctive, both-eyes-open aiming—perfect for a patrol rifle or military carbine. Battery-free, dual illumination system uses an amber fiber optic rod and glowing tritium lamp to illuminate the reticle in bright daylight and low light. Chevron reticle resembles an upside down "V" and provides the benefits of a triangle reticle while covering less of the target. Mounts to a flattop receiver with the included TA60 Compact ACOG M16 Base Flattop Adapter, which may be removed for installation on carry-handle rifles. Sight tunnel allows use of iron sights with scope on. Available in two models, with bullet drop compensated (BDC) reticles specifically calibrated to the trajectories of .223 and .308 cartridges. 

SPECS: Forged 7075-T6 aluminum housing, matte black anodized; coated lenses. 6 1/8" (15.6cm) long, 7 oz. (198g) weight, scope only. 11.8 oz. (334g) weight including TA60 base. 3x magnification, 30mm objective lens. Adjustable for windage and elevation. **TA33-8** - for .223 AR-15/M16. **TA33-9** - for AR-type .308 rifles.
#892-000-030CE TA33-8, 3x30 Amber Chevron ACOG for .223 2H742U50 \$ 990.00
#892-000-029CE TA33-9, 3x30 Amber Chevron ACOG for .308 2H742U50 990.00

TA45 1.5x24 - Compact, tritium and fiber-optic ACOG mounts easily to your AR-15/M16 carry handle and retains the use of your iron sights. Large, 16mm exit pupil and long eye relief provide great freedom for eye positioning. Bindon Aiming concept (BAC) provides delivers fast acquisition of targets; 1.5X magnification gives a precise sight picture. Available with an amber triangle reticle. 

SPECS: Forged 7075-T6 aluminum housing, black, anodized; coated lenses. Approximately 5.8" (14.7cm) long, 5.9 oz. (167 g) weight. 1.5X magnification, 24mm objective lens. Adjustable for windage and elevation.
#892-000-017CE 1.5x24 Amber Triangle ACOG, 2H742U50 \$ 990.00

TA50 3x24 - Lightweight, compact scope attaches right to AR-15/M16 carry-handle rifles. Allows use of iron sights. 3X magnification power helps identify targets 300 meters away and farther. Includes tritium and fiber optics to provide an excellent, magnified sight picture. Features the Bindon Aiming concept (BAC) to provide rapid target acquisition. Available with a red triangle reticle. 

SPECS: Forged 7075-T6 aluminum housing, black, anodized; coated lenses. Approx. 5" (12.7cm) long, 5.9 oz. (167 g) wt. 3X magnification, 24mm objective lens. Adjusts for windage and elevation.
#892-000-019CE 3x24 Red Triangle ACOG, 2H742U50 \$ 990.00

TA31F 4x32 - Compact, 4X magnification scope features a bright, red Chevron reticle that is lit by both fiber optics and tritium for a vivid sight picture at distances up to 800 meters. Uses the Bindon Aiming concept (BAC) for excellent, both-eyes-open, target acquisition. Chevron reticle looks like an upside down "V"; provides similar benefits of triangle reticles without covering up as much of the target. Sight tunnel retains use of iron sights. Mounts to Colt, military-style, flat top rails. 

SPECS: Forged 7075-T6 aluminum housing, black, anodized; coated lenses. Approximately 5.8" (14.7cm) long, 10 oz. (284 g) weight. 4X magnification, 32mm objective lens. Adjustable for windage and elevation.
#892-000-021CE 4x32 Red Chevron ACOG, 2H950U25 \$ 1,267.00

TA31RCO 4x32 - Currently in service as the Rifle Combat Optic (RCO) of the United States Marine Corps, the TA31RCO is designed specifically for the 14.5" barreled M4 carbine. The bright, red, upside down "V" reticle gives fast, instinctive target acquisition at close range, and is bullet drop compensated (BDC) to the trajectory of military-issue 5.56 NATO ammunition for high hit probability out to 800 meters. Features the original TA31's long eye relief, ample 4x magnification, superior lens clarity, low-light capability, and Bindon Aiming Concept (BAC) for quick, both eyes open, aiming. Mounts to MIL-STD 1913 Picatinny and similar flattop rails; base may be removed to allow installation on carry-handle rifles. Comes with Tenebrae® Killflash® shield to stop reflections from the front lens giving away your position, plus rugged, MOLLE-compatible nylon carry case, slip-on Scopetote for protection during storage and transport, Lenspen, and adjuster cap lanyards. 

SPECS: Forged 7075-T6 aluminum housing, matte black anodized; coated lenses. Approximately 5 7/8" (14.9cm) long, 6 7/8" (17.5cm) with Killflash installed. 15.9 oz. (451 g) weight. 4x magnification, 32mm objective lens. Adjustable for windage and elevation. Includes Kill-FLASH, nylon carrying case, Scopetote, Lenspen, and manual.
#892-000-039CE TA31RCO-M4CP 4x32 Red Chevron ACOG 2H1149A95 \$ 1,450.00

TA648 6x48 - Designed to fulfill the requirements of military and law enforcement precision shooters for outstanding long-range target identification and hit probability. Features ample 6x magnification, superb lens clarity, unbeatable low-light capability, and Bindon Aiming Concept (BAC) for fast, both-eyes-open aiming. Manual override lets you adjust reticle brightness by rotating the sleeve on the rear eyepiece. The bright, red, chevron (upside down "V") reticle aids in fast, instinctive target acquisition, with additional bullet drop compensated (BDC) estimated aiming points marked in 100 meter increments starting at 400 meters. **.223/5.56** model is calibrated for U.S. military M855 cartridge out to 800 meters. **.308/7.62** model is calibrated for U.S. M80 cartridge out to 1,200 meters. Dry nitrogen filled to eliminate fogging, and waterproof to 328 feet (100m). Mounts to MIL-STD 1913 Picatinny and similar flattop rails with the included TA75 base; scope/base may be removed and reinstalled as a unit without loss of zero. 

SPECS: Forged 7075-T6 aluminum housing, matte black anodized; coated lenses. Approximately 9" (22.9cm) long, 36 oz. (1,021 g) weight. 6x magnification, 48mm objective lens. Adjustable for windage and elevation. Includes TA75 rail adapter, Pelican hardshell carrying case, Lenspen, and manual.

RUBBER EYEPIECE FOR ACOG'S - Shades the rear ocular lens for even better definition of the reticle. **SPECS:** Black rubber. Fits 1 1/8" (28.6mm) - 1 1/4" (31.8mm) dia. lens.
#291-060-100CE ACOG Eyepiece 1B13A82 \$ 18.08

Models **TRIJICON**
REDDOT™ SIGHT

Fast, Heads Up Aiming In Any Light Conditions

Low-profile, lightweight red dot reflex sight provides fast, parallax-free, both-eyes-open target acquisition under any light conditions. An excellent alternate sight for close range work when mounted piggyback on a Trijicon ACOG® scope, or use as the primary sight on a pistol, tactical rifle, or combat shotgun; mounts available below. Simple to operate, no switches to fumble with because the sight is always on, ready when you need it. As the high-intensity LED illuminator projects a glowing dot on the lens, a photosensitive detector automatically adjusts the LED's output to the ambient light. Available with easy-to-acquire 8 MOA dot for close-in targeting or smaller 4 MOA dot that is still highly visible but won't obscure more distant targets. Ultra-clear polymer lens provides 98% light transmission, yet withstands recoil shock up to 5,000g; hardcoated to resist scratches. Hardened, glass fiber reinforced nylon polymer housing is stronger and lighter than aluminum, so it stands up to the hard knocks and bumps of tactical operations. Snap-on cover of the same material protects optic from blows and preserves battery life when sight is not in use. Sight is fully adjustable for windage and elevation using the included hex wrench and adjustment dial graduated in increments of 1/4 MOA at 20 yards (1.25 MOA at 100 yards). Runs on one 3 volt CR2032 lithium battery, included, with up to 35,000-hour battery life, depending on use. Waterproof, dustproof, hardshell storage case included. 

SPECS: Hardened composite polymer housing, black. Hardcoated acrylic lens. 1 5/8" (4.1cm) long, 1" (2.5cm) wide, 1 5/16" (2.4cm) high. .8 oz. (22g) weight. Reticle size: 4 MOA or 8 MOA. Includes sight, cover, adjustment dial, hex wrench, one CR2032 battery, case, and complete instructions.

#892-000-031CE 8 MOA RedDot Sight, 2H304A45 \$ 375.00
#892-000-037CE 4 MOA RedDot Sight, 2H310A83 375.00

REDDOT™ SIGHT MOUNTS - Precision machined from strong yet lightweight aluminum and specifically designed to provide a secure, solid platform for the Trijicon RedDot reflex sight. **MS19** fits standard Picatinny and Weaver-style accessory rails. Large, deeply grooved thumbscrew serves as a recoil lug and pulls the steel locking bar tightly against the rail for a zero-movement installation. **MS12** allows secure piggyback mounting on Trijicon ACOG TA01NSN and TA31DOC scopes. **MS13** also fits TA01NSN and TA31DOC and adds protective wings to guard the Reddot from impact during rough tactical operations. 

SPECS: Aluminum, hardcoat anodized, matte black. **MS19** fits Picatinny and Weaver-style rails. **MS12/MS13** fit ACOG TA01NSN and TA31DOC scopes.

TRIJICON®
ACOG REFLEX SIGHT
A Bright, Glowing,
Aiming Dot In All Conditions,
Without Batteries

Uses ambient light reflected through a fiber optic, light gathering system, plus glow-in-the-dark tritium to provide an easy-to-see 6.5 MOA amber-colored dot in all light conditions. No batteries to weaken or wear out, no switches to turn on and off. Combat tested, all-machined, aluminum housing is rugged enough to withstand the toughest conditions without failure. Includes lens cleaning pen. Separate mounts allow one Reflex Sight to be used in several applications. No gunsmithing mounts return to zero after installation and removal.

SPECS: Reflex Sight - Aluminum housing, gray, hard-anodized finish, 4 1/4" (10.7cm) long, 4.2 oz. (119 g) wt. **Mounts** - Aluminum, black, anodized finish. **RX10** - Fits AR-15 carry handle. **RX11** - Fits Weaver-style rails, dual locking screws. **RX14** - Fits Colt flattop **AR-15 receivers, dual locking thumb screws.**

J.P. ENTERPRISES
JPOINT MOUNT FOR ACOG SCOPES

Combines The Close-Range Effectiveness Of A JPoint Sight With The Long Range Capabilities Of The ACOG

Rugged, lightweight, aluminum mount allows the proven JPoint Reflex or Trijicon RedDot sight to be mounted piggyback on the popular Trijicon ACOG series of scopes. Helps you get an effective secondary sight system that delivers fast, both-eyes-open engagement for close range targets. Integral, raised "wings" fully guard and protect the sides and top of your JPoint from blows incurred during combat or competition. **JPA-TANSN** can be installed directly to the TA01NSN model ACOG scope as a standalone mount that replaces the existing rear aperture assembly and utilizes the factory mounting holes. **JPA-TAS** Bottom Strap allows the JPA-TANSN mount to be clamped around the eyepiece on all other models of ACOG scopes.

SPECS: Aluminum, black, matte, anodized finish. **JPA-TANSN Mount** - 1 5/8" (4.13cm) long, 1 3/4" (4.4cm) wide, 1 11/16" (4.3cm) high. Fits TA01NSN model ACOG. Includes wrench, mounting screws, and instructions. **JPA-TAS Bottom Strap** - 5/16" (.79cm) long, 1 3/4" (4.4cm) wide, 7/8" (2.2cm) high. Includes mounting screws. Requires purchase of JPA-TANSN mount to fit all models of ACOG scopes except TA01NSN.

Model
WILSONTACTICAL
FIRST RESPONDER TOOLS

On Duty Or In The Field—
A Knife & A Whole Lot More

COP TOOL - Perfect for anyone who needs a rugged tool that handles chores an ordinary tactical knife can't—law-enforcement officers, EMTs, military personnel, tradesmen. Designed by retired police officer and editor of *American Handgunner* Roy Huntington, the Cop Tool is actually several carefully thought-out tools in one. Use it as a pry bar, scraper, seatbelt/rope cutter, glass breaker, pounding tool, and cutting tool. Made of D2 tool steel for outstanding strength and wear resistance. Hardened to Rc 57-59, the serrated blade takes an exceptionally sharp edge that stays sharp much longer than an ordinary blade. The nylon cord-wrapped handle and thumb dimple above the cutting edge provide a positive grip, so the tool won't slip even when your hand is wet or oily. The included thermoplastic polyvinyl sheath is form-fitted to the tool and designed to be carried on your inner belt, under your duty belt, keeping the tool secure until you need it.

SPECS: D2 tool steel, matte bead-blasted natural finish, nylon cord-wrapped handle, plastic sheath. OAL in sheath - 7" (17.8cm). Tool only - 6 1/4" (15.9cm) OAL, 4 1/2" (10.8cm) long handle, 1 3/4" (4.5cm) long x 3/16" (4.8mm) thick blade. 4 oz. (113.4g) wt.

- #100-002-899CE Cop Tool 5B140Z00 \$ 175.00

SPECIAL RESPONSE TOOL - A larger version of the Cop Tool specifically designed for law enforcement personnel, EMTs, paramedics, firefighters, and other first responders who need a versatile knife of exceptional strength and reliability. Features a seatbelt/rope cutter, oxygen bottle key, chisel edge for prying, exposed tang for breaking glass or pounding, and deep serrations on the 1 1/4" of the blade just ahead of the handle for extra cutting force. Made in the U.S.A. by the master knife makers of Wilson Tactical's custom shop, each blade is hollow ground by hand from high-carbon, high-chromium, D2 tool steel, then heat-treated and air hardened to Rc 58-60, so it will take a "scary sharp" edge and hold it even under extreme use. Non-reflective, dull silver-gray bead-blasted finish. Deep finger notch on underside of handle and thumb serrations on the blade spine prevent slipping when your hand is wet. Remove the two stainless steel, hex-head screws to detach the hand-fitted, black-and-gray Micarta handle for cleaning. Micarta is a pressure-fused, resin-impregnated, linen cloth, impervious to water and an excellent insulator that remains highly grippable even when wet. Tough, woven nylon lanyard included. Form-fitting, heat-molded Kydex® sheath, screw-adjustable for blade retention, with an adjustable Tek-Lok® belt attachment system, ensures the tool is always at your fingertips when you need it. Sheath fits Safariland 6004 Leg Shroud.

SPECS: D2 tool steel, matte bead-blasted natural finish; Micarta handle, black and gray; Kydex sheath, matte black. OAL in sheath - 10 1/2" (26.7cm). Tool only - 9 1/2" (24.1cm) OAL, 4 1/2" (11.4cm) long handle, 4 1/2" long x 1/4" (6.4mm) thick blade. 14.5 oz. (411g) weight, 19.2 oz. (544g) weight with sheath.

NEW
PISTOL LEASH™ UNLIMITED
HANDGUN LANYARD

For Positive Retention & Security

Lanyard coil secures your sidearm to your belt for worry-free retention during demanding tactical operations. Attaches to the lanyard opening with a stainless steel S-clip that's spring loaded closed so it won't release unexpectedly. Tough, Cordura® loop wraps around belts up to 2 3/8" wide and uses an extra large, hook-and-loop attachment setion for superior holding

BROWNELLS
TACTICAL TAPE

Secure Temporary Attachment
Of Tactical Gear To Weapons

A strong, waterproof, nonreflective tape for secure but temporary attachment of pressure switches or as camo to break up your gun's silhouette. Use to tape down zippers, swivels, straps and other sources of noise that could give away your position during stealthy operations. Has a thousand and one other uses in the field, in the army, or on your workbench. This is vinyl-coated, high thread count cloth tape, not cloth reinforced vinyl "duct" tape. Tears off the roll clean and straight. High-tack, synthetic rubber adhesive won't leave behind sticky residue and provides excellent adhesion and conformability over a wide temperature range. 42 lb. per inch tensile strength means this tape won't come loose during stressful tactical operations. Once you've used this stuff, you won't settle for ordinary electrical or duct tape ever again!

SPECS: Vinyl coated cotton cloth, synthetic rubber resin adhesive. 1" (2.5cm) wide, 180' (55m) long, .001" (12 mil) thick. Available in Black and Coyote Brown.

THE WILDERNESS
ORIGINAL INSTRUCTOR BELT

Lateral Stitched
For Vertical Stability;
Won't Flex, Sag or Fail

Because "overkill never fails" this instructor belt is made from dual-thickness, nylon web strap sewn together with five rows of lateral stitching that keeps your holster, ammo, magazine and accessory pouches upright and in their proper position. This pants belt simply won't sag or lose rigidity regardless of conditions or application. Tested to withstand up 8,000 pounds of weight. Solid steel V-ring buckle includes a floating lock bar tensioner that accepts a carabiner for emergency extraction applications. Overlap tongue is retained by nylon hook and loop fastener material; can be worn left or right facing.

SPECS: Nylon webbing, double thickness 1 1/2" (3.8cm) wide. Cast steel buckle, black finish. Available in, black, O.D. green or coyote brown. To find proper size measure the length of a leather belt that fits from the inside edge of the buckle away from the hinge to the hole you currently use; increase to the nearest inch size available in the chart below.

GEMTECH
TACTICAL RETENTION LANYARD

Prevent Loss Of Sidearm
In A Tactical Situation

Coil-cord lanyard keeps your weapon with you in the field. Fully adjustable belt loop plus a side release buckle that's easily removed with one hand. Loop easily attaches to the lanyard loop in the sidearm, including the small loop in SIG weapons. Lanyard has a breaking strength of approximately 85 pounds to prevent serious injury if weapon becomes entangled.

Can also be used on radios, hand-held power tools, cameras, etc.

SPECS: Nylon, polypropylene, plastic. NSN# 8465015225352 Length coiled - 22" (56cm), length extended - 55" (140cm). Black, Coyote (tan) or Army Foliage Green.

BLACKHAWK INDUSTRIES M4
S.W.I.F.T. SLING

Tactical, Front Side
Mount Sling

Durable and quiet, flexible sling mounts to front side sling swivels to give you comfortable, hands free ready control. Constructed of heavy-duty, weatherproof nylon webbing so you can carry your weapon in comfort with the option of slinging the muzzle up, down, strong side, or weak side. Fully adjustable to fit over body armor, packs, and heavy clothing; two slip-proof polymer keepers hold your weapon firmly in place and provide quick, easy adjustments. Attaches without tools.

SPECS: Nylon, black. 1 1/4" (3.1cm) wide, approximately 42" (106.6cm) overall length. Ambidextrous.

BLACKHAWK INDUSTRIES
STORM SINGLE-POINT TACTICAL
SLING

Quiet, Adjustable,
Dependable
Weapon Retention

Adjustable single-point sling is constructed of heavy-duty 1 1/4" nylon webbing and 1" elliptical elastic bungee cord for optimum performance and stealth. High-density bungee allows 4" of flex—just right for weapon agility in CQB maneuvers—and is covered with tough, weather-resistant compressed tubular nylon sheathing that prevents noise, limits bounce, and provides optimum retention. Strong, single-piece, quick attach/detach "mash" clip snaps securely to any single point sling adapter to keep your weapon within easy reach when you need it most. Elastic sleeve slides over clip to prevent rattling against gun. Heavy duty tri-glide nylon buckle allows adjustment to permit wear over bulky tactical vests and gear on all body sizes. A 300-lb test nylon "quick ditch" buckle instantly opens the sling if you need to release your weapon quickly.

SPECS: Nylon and elastic bungee cord, black. Carry strap is 1 1/4" (3.2cm) wide. Adjustable from approximately 27" (68.6cm) to 36" (91.4cm) OAL.

- #100-003-349CE Storm Single-Point Sling, 8K24H95 \$ 32.99

NEW Slings **BLUE FORCE GEAR CAR-15/M4 COMBAT APPLICATIONS SLING** **GSA**

Adjusts Quickly, Won't Tangle Or Twist

Two-point design with front quick adjustment strap lets the operator change sling length without creating loose ends that can tangle with other gear. Allows for a variety of carry and shooting positions based on required tactical response. Fits M4 carbines with side sling swivels with 1 1/4" wide loop. **Vickers** is composed of two, separate sections of Cordura® nylon webbing; 17" forearm end, including quick adjustment loop, and 30" rear buttstock end; joined together with a high strength steel channel. Separate 10" removable, modular quick-release on the buttstock end allows for fast exit from sling and weapon in emergency situations. Can be used with or without modular release feature. Features machined aluminum front buckle, steel mid-section connector and polymer buckles. **Vickers Padded** is the same basic design as the Vickers with the addition of an extra wide shoulder strap with foam core padding for comfort, all day carry without pinching or binding. Modular quick release not included. Composed of two, separate sections of Cordura® nylon webbing; forearm end, including quick adjustment loop, and rear buttstock end with shoulder pad. **Victory** is composed of two, separate sections of filament nylon webbing; 16" forearm end, including quick adjustment loop, and 28" rear buttstock end; joined together with a high strength steel channel. Modular quick-release not included. Advanced polymer non-slip adjustment buckles are resistant to solvents. **USA**

SPECS: Black, coyote, or O.D. green depending on model. **Vickers/Vickers Padded** - Cordura® nylon web. Aluminum front buckle, with steel mid-section connector, other buckles are polymer. 1 1/4" (3.1cm) wide. Adjusts from 46" (117cm) to 55" (140cm) OAL. **Victory** - Filament nylon web. Steel mid-section connector with polymer buckles. 1 1/4" (3.1cm) wide. Adjusts from 34" (86cm) to 44" (112cm) OAL.

BROWNELLS TACTICAL PLUS RIFLE SLING

Urethane-Coated Nylon Wears Like Iron, Flexes Like Leather

Extreme-duty, tactical sling stands up to the rigors of military/law enforcement operations, yet offers the comfort and mobility of leather. Based on the 1907 Military sling that's still one of the finest slings ever invented for carry and shooting. Strong, adjustable, 1 1/4" wide, BioThane® strap won't crack, peel, or stiffen in frigid temperatures. Non-slip, urethane coating flexes like leather and needs no "break-in," yet is impervious to sweat and water. Hardened, steel D-ring and hooks are parkerized for extra strength and corrosion protection. 3/8" wide keepers provide excellent sling retention; will not stretch or lose original shape.

SPECS: Strap/Keepers - BioThane; black, brown, or O.D. green. 1 1/4" (3.2cm) wide. **D-Ring/Hooks** - Steel, parkerized finish w/brass rivets. 108" (2.75mm) thick.

BROWNELLS COMPETITOR PLUS™ RIFLE SLING

- PREMIUM LEATHER • U.S. MADE
- EXTRA HEAVY HOOKS • STITCHED KEEPERS • 100% SATISFACTION GUARANTEED

If you love fine leather, fine craftsmanship and a superbly functional, useful sling, our Competitor Plus is going to make you extremely happy! What you get is a no-compromise reproduction of the original 1907 Military Sling; the one that's become the standard among hi-power service rifle shooters and many knowledgeable hunters; the one that's sought after by collectors and restorers of pre-WWII military firearms and the one that's carried more guns, more miles on more shoulders than darn near any other. Ours has all the good stuff: 1) It's all U.S. made of the finest, oak-tanned, top grain, 9-10 ounce, U.S. steer hide. 2) It's fitted with thick, forged, blued steel hooks. 3) Each extra-thick, steel hook is attached with three rivets. 4) The Keepers are skived at a taper, overlapped and glued; then stitched with 5-cord waxed linen thread. They fit TIGHT!

We're pretty proud of the Competitor Plus. We think you'll love it, too. It's unconditionally guaranteed to satisfy you 100%. If it doesn't, send it back for a full refund.

SPECS: 1 1/4" (3.2cm) wide. 9-10 oz. leather. .108" (2.75mm) thick hooks. Front strap length = 54" (1.37m). Instructions.

CSM GEAR SINGLEPOINT SLING

Singlepoint Attachment Smooths Transition From Rifle To Sidearm

Hailed as a tremendous improvement in rifle or shotgun carry by military and police, because the single attachment point sling actually speeds the shooter's transition from long gun to side arm safely without losing control of his weapon. Provides a secure cross shoulder carry that allows the shooter to easily aim and point rifles and shotguns equipped with a single sling attachment point at or near the pistol grip or balance point. Made from durable 1" wide nylon with flat, all-steel quick-release clip. Includes sewn-in elastic for added comfort. Can be used for either right- or left-hand carry. **USA**

SPECS: Nylon. Black, Coyote Tan, or O.D. Green. 26" (66cm) OAL, 1" (2.5 cm) wide.

BROWNELLS
SIGNATURE SERIES GUN CASES

Mission-Ready; Built To Take The Abuse Of Tactical Operations

Eliminate nicks, dings, and damage that impair the performance and tarnish the appearance of tactical weapons with our Signature Series Gun Cases. We combined the very best materials - 1000 denier Cordura® nylon, YKK zippers, closed-cell foam padding - with your ideas to create what we feel is the ultimate line of gun cases anywhere. Plus, they look amazing... like anything we put our name on, you know these are top-of-the-line. 

TACTICAL WEAPONS CASE - All the structural and performance features to meet and exceed the stringent demands of today's military and law enforcement personnel and civilian AR-15 shooters. Heavy weight shell resists punctures and snags, repels moisture, and blocks micro-fine particles of sand and grit that can cause ejection failures in automatic weapons. Bellow-style construction, with 3" wide zipper margin, accommodates firearms equipped with bipods and high-mount, large diameter optics. Adjustable, 2" wide, carry sling is box-stitched at the correct angle for proper weight distribution across the back and shoulders to ensure maximum mobility and less fatigue. Large, zippered, side pocket holds cleaning supplies, maps, shooting gloves, goggles, and other tactical gear. Tight-weave, friction-reducing, polyester lining makes weapon removal fast and easy in high stress situations. Extra thick, closed-cell, foam-core padding cushions blows and provides complete case floatation. Four, external, magazine pouches accept 30 round, M16 magazines. Available in two sizes.

WEAPONS CASE - 1000 denier, Cordura nylon exterior, black. 38" (96.5cm) or 46" (116.8cm) long, 12" (30.5cm) wide at buttstock, 5" (12.7cm) wide at muzzle, 3" (7.6cm) thick. Pocket - 19½" (49.5cm) long, tapered 3½" (8.9cm) to 8½" (21.6cm) high.

AR-15 CASE - 1000 denier, Cordura nylon exterior, black. 38" (96.5cm) or 46" (116.8cm) long, 12" (30.5cm) wide at buttstock, 5" (12.7cm) wide at muzzle, 3" (7.6cm) thick. Pocket - 19½" (49.5cm) long, tapered 3½" (8.9cm) to 8½" (21.6cm) high.

M4 RIFLE CASE

You need 100% confidence your gear won't fail. That's why Brownells built a case that will protect your rifle in the harshest operating conditions. Three rows of MOLLE-compatible attachment points run the length of the case so you can keep your gear with your rifle. A large, bellows-style front pocket includes a separate magazine pouch with MOLLE-compatible attachment points and three, separate, 30-round magazine compartments with hook-and-loop closures. (Additional pouches available separately.) A water-resistant 1000 denier, Cordura Plus nylon shell stands up to the toughest use. An outer layer of closed-cell foam and an inner layer of open-cell foam protect your rifle. Protective skirt keeps sand and grit out and prevents contact with the zipper. Brushed tricot lining won't snag your rifle, optics, or accessories and allows fast weapon removal. Oversized YKK zippers with leather assists help you get the case open quickly. Heavy-duty D-rings are securely stitched to a nylon reinforcing strip. Swivel snaps securely attach an adjustable carry strap. Reinforced carry handles are double-stitched around the case and will not tear off. **Double Rifle Case** has an additional nylon outer shell with protective pad double-stitched to the main case, providing twice the carrying capacity for extra gear or another M4 rifle. Overbuilt? There's no such thing when equipment failure is not an option.

WEAPONS CASE - 1000 denier Cordura Plus nylon exterior, black, coyote tan, or O.D. green. 35" (89cm) long, 11" (28cm) wide, 2½" (6.4cm) high. Front Pocket - 10½" long, 8" (20.3cm) wide, 2" high. **Double Rifle Case** includes additional outer shell - 33" (84cm) long, 10½" (26.7cm) wide, 2" (5.1cm) high.

BLACKHAWK INDUSTRIES
TACTICAL RIFLE CASE

Added Padding Protects Rifle & Optics

A shell of abrasion- and mildew-resistant, 1000 denier, Nylaneon nylon surrounds ¾" of padding on the top and bottom of the case for snug, no-slip protection of your rifle and its expensive optics. Padding on the bottom of the case covers the zipper tracks to protect your rifle from scratches. A double-stitched, nylon carry handle is attached to the case with multi-reinforced stitching; an adjustable, padded sling offers a tactical-carry option. All cases accept rifles with mounted optics and fully unzip to be used as a shooting mat. **Standard Rifle** case is available in 34", 37", and 41" lengths and features four high-capacity magazine pouches (five on 41" case) with positive-close hook-and-loop patch closures, plus zippered compartments in the front for additional storage. **Scoped Rifle** case provides 51" of length to accept a scoped rifle with longer barrel and includes two, large, outside cargo pouches for ammo, magazines, and supplies instead of separate magazine pouches.

SPECS: 1000 denier, Nylaneon nylon, black.

BLACKHAWK INDUSTRIES
S.T.R.I.K.E. SPEED CLIPS

Easy To Use; Secures Accessories To MOLLE Gear

Flexible, carbon fiber polymer clips allow fast, easy, and secure attachment of tactical accessories to MOLLE platforms. Threads into the PALS webbing with self-locking end tabs for a tight hold that won't shake loose. Replaces the old, cumbersome snap or strap method of attachment, and each clip includes a lanyard hole for secure storage. Available in Paks of six, 5" or 9" long to accommodate a variety of configurations, and in colors to match your existing tactical gear.

- SPECS:** Carbon fiber polymer composite. 5" (12.7cm) or 9" (22.8cm) long x 1" (2.5cm) wide. Black, coyote tan, or O.D. green.

STORM CASE iM3100 GUN CASE

Watertight, Shock Proof & Durable

Premium, watertight case provides exceptional protection from rough handling and abuse. Automatic Vortex® Valve equalizes air pressure inside case for easy opening after air travel.

Closing the valve provides an air tight seal and maximum protection. Outer shell is constructed of textured, impact-resistant polyethylene composite with rubberized handles and wheels for easy transport. Fully padded interior is lined with a solid piece of high-density foam that can be trimmed to fit any shape. Six, press-and-pull latches and two separate locking points for your own padlocks provide extra security. Easily accepts any rifle or shotgun 35" or less in length.

SPECS: Shell - High-impact polyethylene, black. Exterior - 39" x 16" (101cm) long, 16½" (42cm) wide, 6" (15cm) high. Interior - High-density foam, gray. 36½" (93cm) long, 14" (36cm) wide, 6" (15cm) high. 15.2 lbs (6.9kg) weight.

BUTLER CREEK SEMI-AUTO PISTOL
UPLULA UNIVERSAL
MAGAZINE LOADER

Loads Pistol Magazines Fast

Hand-held loader fills standard centerfire pistol magazines quickly and easily. Smooth, positive operation protects fingers and thumbs while you load hundreds of rounds painlessly—as fast as one round per second. Also lengthens magazine life by reducing wear on feed lips. One size fits all; no inserts, spacers, or adjustments needed to change calibers. Hold the magazine upright with the bottom resting on a solid surface. Place the loader over the top of the mag, press down lightly while squeezing the lever to depress the follower, drop in a round, and work the lever quickly to push it into the mag. Repeat the process until the magazine is full. Constructed from tough, reinforced polymer. Locks closed when not in use, so it takes up minimal space in pocket or range bag. Fits single and double stack 9mm, .357, .40, 10mm, and .45 ACP magazines, plus some .380 mags. Will not load Glock 6-round single stack .45 caliber or Smith & Wesson 7-round single stack 9mm, or magazines with less than 8mm between feed lips.

SPECS: Reinforced polymer, black. Approximately 2½" (7.3cm) long, 1¼" (3.2cm) wide, 3¼" (8.3cm) high. Fits single and double stack magazines from 9mm to .45 ACP.

BUTLER CREEK SEMI-AUTO
L.U.L.A. MAGAZINE
LOADER/UNLOADER

Load & Unload Magazines Fast; Saves Overworked Fingers & Thumbs

Tough, lightweight, reinforced, black-polymer loader/unloader saves fingers, thumbs, and wasted time; lengthens magazine life and lessens wear and tear on magazine lips. Staggered, triangular pieces of plastic securely grasp rounds for effortless loading/unloading when you move the lever back and forth. Fits in your pocket. Colt SMG model made in U.S.A. 

SPECS: Reinforced polymer. **AR-15/M16** - Fits 10, 20, 30, 100 rd, .223 caliber magazines. **AK-47/Galil** - Fits all Ak-47 (762mm) and Galil (5.56/223) metal and plastic magazines. **Colt SMG** - Fits Colt SMG 9mm-type metal and polymer magazines. **FN FAL** - Fits 10-, 20- and 30-round FAL metric and inch type magazines. Also fits L4A1 and L1A1 magazines. **M1A/M14** - Fits 10-, 20-, and 30-round M1A/M14 magazines and AR-10 magazine with rear magazine catch. **MP5** - Fits 15- and 30-round 9mm MP5, HK94 and SP89 metal magazines. **Uzi** - Fits 20-, 25-, 32-, and 40-round 9mm Uzi metal magazines.

MAGLULA AR-15/M16
BENCHLOADER

Takes The Pain Out Of Loading All Types Of AR-15/M16 Magazines

Heavy-duty, polymer loader makes it easy for you to load a 10-, 20- or 30-round magazine in less than 30 seconds. Load hundreds of magazines a day without the pain, pinched fingers, or bruises of hand-loading—perfect for military/law enforcement armorers, shooting ranges, and any high-volume AR-15 shooter. **Standard** model accepts USGI-type AR-15/M16 (NATO STANAG 4179) magazines; **Universal** also accepts other AR-style magazines, including HK 416, SAR-80, Beretta AR-70/90, plus Magpul PMAG, Thermold, Orlite, and SIG Sauer polymer mags. Foolproof design, with only one moving part, makes it impossible to load magazines incorrectly and requires no maintenance. Feeds rounds into the magazine without contacting the feed lips, so it prolongs magazine life. Rounds are held securely in the tray and won't fly out when the slider is moved. Numbered indicators show the number of rounds in the tray, so no more guessing how many rounds have been loaded. Convenient carrying handle makes it easy to take to the range; includes heavy duty padded ballistic nylon carrying case.

SPECS: Machined polymer, black. Stainless steel magazine retention bar. 2½" (54.6cm) long x 5½" (14cm) wide. Both models accept 10-, 20-, and 30-round USGI-type AR-15/M16 magazines. **Universal** also accepts HK 416, SAR-80, Beretta AR-70/90, Magpul PMAG, Thermold, Orlite, SIG Sauer, and similar AR-style 5.56/.223 magazines.

Protects Ammo & Supplies During Storage & Transport

Large capacity, impact-resistant, plastic, dry box keeps ammo and precision shooting equipment secure during transport and storage. Lockable, hinged cover features beefy, fold down, carry handle and integral tool compartment. Cam latch pulls cover down for watertight seal between gasket and base. Inside, 13 1/2" x 7 1/4" tray lifts out for easy access to 13 1/4" x 6 3/4" x 5 1/4" base compartment.

SPECS: Impact-resistant plastic, black. Approximately 15" (38cm) long, 8" (20cm) wide, 10" (25cm) high. 2 lb. 13 oz. (822g) wt. #080-000-188CE Ammo Box Plus 3A18P39 \$ 23.33

COMPETITION ELECTRONICS POCKET PRO II

Packed With Upgrades For Ease Of Use & More Versatility

You'll vastly improve your shooting speed, and ultimately your match scores, with this new generation of shot timer that's easily configured for the information you need to know when practicing your shooting. Main screen allows you to set-up the timer to display only the information you want to see. Review four shots at once with shot numbers, times, and splits with the high resolution digital LED screen. Keep track of your shot time with shot number, split and start delay type. You can also adjust shot sensitivity via the display menu and shot dead time to eliminate echoes while shooting. Onboard date/time display allows you to keep complete records as you chart your progress, and internal memory stores up to 100 shots. Long battery life keeps you shooting longer without the aggravation of dead batteries in the middle of your practice session. Sleek, rounded corners won't snag on clothing. Available in Blue or Coyote Tan. Timers made in U.S.A. **SPECS:** Plastic, blue or coyote tan. Powered by one 9 volt battery, not included. Includes detailed instructions.

BROWNELLS AR-15/M16 BRASS CATCHER

No More Scrounging On The Ground For Scattered Brass - Fits All Models Of AR-15 Rifles

Catches your spent brass so you don't have to scrounge around for it in the grass/gravel when you're done shooting. Guarantees you take only your own brass home to reload. Our catcher quickly attaches to the hand-guard, not the receiver, so it fits almost any AR-15-type rifle or carbine, even flattops. Cinches down tight with an extra wide hook-and-loop strap that's easy to install and remove—and won't harm your rifle's finish. Heavy-duty bag, with internal wire frame, is made from the same grade of ballistic nylon used for bulletproof vests and flack jackets to ensure superior wear resistance. Holds up to 40 spent, .223 cases. **SPECS:** 1050 denier Ballistic Nylon, black w/internal wire frame & hook-and-loop strap. Bag measures 6 3/4" (17.2cm) x 8" (20.3cm).

NEW SAFESHELL
FIREARM SAFETY DEVICE

**Internal Safety System
Prevents Unauthorized Weapon
Operation**

Easy-to-use internal safety device protects against unauthorized use of firearm and accidental discharge. Inserts into chamber like a live round or snap cap. When you squeeze the trigger, the impact of the firing pin on the SafeShell causes a spring-loaded extension to project into the barrel, preventing the slide of a semi-auto from racking or the cylinder of a revolver from turning. Insert the reset tool into the muzzle to retract the extension, then cycle the action to eject the SafeShell. May be left in the chamber unactivated; when you need the gun, simply rack the slide or advance the cylinder to clear the SafeShell, so the weapon may be operated normally. An attempt by an unauthorized person to fire the gun will activate SafeShell, making the gun inoperable. Precision machined from aluminum; rugged design allows hundreds of activation/reset cycles. Distinctive yellow and blue markings clearly distinguish SafeShell from live ammo, dummy rounds, or ordinary snap caps.

SPECS: Aluminum, anodized, bright blue and yellow finish. Available in 9mm, .40 S&W, .45 ACP and .38/.357.

BROWNELLS AR-15/M16 SAFE PORT

**Clearly Marks Rifle
As Unloaded; Ejects
When Bolt Is Charged**

Safety orange, plastic flag clearly indicates, either close up or at a distance that there is no ammunition in the chamber. Ideal for range and classroom safety when identifying that a weapon is clear is of utmost importance. SafePort cannot be placed in chamber if there is a round loaded, but can be used when a loaded magazine is in the rifle and will eject from the chamber when the bolt is charged. Safe Port can be marked with serial numbers for ease of identification in storage.

SPECS: Plastic, safety orange. Fits AR-15/M16 rifles.

CHAMBER BLOCKING DEVICE

**High Visibility Confirmation
That Firearm Is Unloaded**

Bright orange chamber blocker fits in the ejection port and physically prevents chambering of a round to provide positive visual confirmation that the firearm is unloaded. Removes instantly by pulling the large, easy-to-grasp ring to clear the chamber and bring the weapon into operation. Use in any situation that requires fast, visual verification of firearm status—law enforcement, military, gun shops, as well as hunting, range, and competition applications. Fits semi- and full-auto rifles and carbines with an extractor enclosed within the bolt, including AR-15/M16/M4 and M14/M1A. Flexible, one-piece, molded polymer construction stands up to years of insertion and removal cycles. Tab on pull ring allows marking with individual weapon identification information.

SPECS: Molded polymer, orange. Fits AR-15/M16, M14/M1A, and other semi- and full-auto rifles and carbines with extractor enclosed within the bolt. Should not be used on any firearm with an extractor that extends forward from the bolt.

NEW Caliber SAFETECH SAF-T-ROUND
Visible Proof That Chamber Is Empty; Firearm Is Safe

Bright, international orange tab gives clear indication of weapon condition. Provides the user, range safety officer and bystander alike with a visual and physical method of determining that a firearm is safe. Machined, brass case head lets you rapidly work the action and eject the Saf-T-Round. Molded from heat-resistant nylon polymer to provide lasting durability; won't deform after repeated use.

SPECS: Polymer, international orange, brass head. Sold as one per pack.

NEW REVISION EYEWEAR
TACTICAL EYEWEAR

**Exceeds Military Standards;
Provides Complete
Eye Protection**

Wrap-around, curved lenses provide unrestricted field-of-view and peripheral vision

along with advanced eye protection for the most demanding tactical environments. Lenses are made from indestructible, optical grade polycarbonate and include a scratch-resistant coating on both sides. Designed especially for Military and Law Enforcement personnel who require superior eye protection. Certified to ANSI Z87.1 for high velocity impacts and exceeds U.S. Military Eyewear Ballistic Impact Resistance standard MIL-V43511C and MIL-PRF-31013. **Sawfly Safety Glasses** with adjustable arms and head strap provide a perfect fit on a wide range of operators. Clear lenses provide maximum visibility during darkness or indoor use. **Desert Locust Goggles** use a cushioned rubber gasket to provide a tight seal against the operators face; includes filtered vents to prevent fogging and keep out dust and debris. Cloth cover is secured to the headband and slides over the lens for protection when not in use. Clear lens helps ensure maximum visibility during darkness or indoor use. Smoke colored lens provides 100% protection from harmful UVA, UV-B, and UV-C rays. Basic Clear model contains clear lens only, does not include storage bag. Smoke & Clear model includes smoke colored lens and clear lens, plus nylon storage bag with hook-and-loop cover and 2 3/4" wide belt loop.

SPECS: Sawfly Safety Glasses - Vinyl frame, adjustable elastic headband, black. Regular - 6" (15cm) wide x 2" (5.1cm) high. 1oz. (29g) wt. Large - 6 1/4" (15.9cm) wide x 2 1/8" (5.4cm) high. Desert Locust Goggles - Vinyl frame, rubber gasket, adjustable elastic headband, black. Protective cloth cover. Basic Clear - clear lens, does not include storage bag. Essential Black - clear lens and smoke lens, nylon storage bag. 8 1/4" (21cm) wide, 3 1/8" (7.9cm) high. 4.4oz. (125g) wt.

PELTOR HEARING PROTECTORS

Excellent Noise Reduction Plus Unique Features

Three styles of hearing protection from an industry leader. All feature replaceable cushions and adjustable top strap.

ULTIMATE 10 - Dual, internal cups separated by a layer of compressed foam cut down resonance within the protector and control high frequency noises. Helps achieve the highest reduction rating possible for muff-style protectors. Plus, the lower resonance makes it easier to understand voices around you. Padded, adjustable, spring-wire top strap is designed for over-the-head wear.

SPECS: Noise Reduction Rating when worn over the head is 29 dB. 9.3 oz (263g). Foam ear cushions.
#284-100-010CE Ult 10 Hearing Protector 4H21T96 \$ 36.60

"6" SHOTGUNNER - Slim, tapered lower half won't interfere with stock comb. Liquid-filled foam cushions increase comfort. Cups tuck under the covered, adjustable, spring-steel top strap.

SPECS: Noise Reduction Rating when worn over the head is 21 dB. 6.5 oz. (184g).
#284-100-106CE "6" Shotgunner Protector, 4H17T56 \$ 29.28

TACTICAL "7" LONG-EAR STEREO - Dual microphones reach out 100 yards to amplify sounds while special circuitry automatically suppresses loud noises to protect hearing. Range commands and game moving through the woods come through loud and clear but anything over 85 dB is silenced. Padded, adjustable, spring-wire top strap for over-the-head wear. Liquid-filled foam cushions provide hours of comfortable wear.

SPECS: Noise Reduction Rating when worn over the head is 21 dB. 13.3 oz (377g).
#284-100-107CE Tactical "7" Stereo Hearing Protector, 4H164T33 \$ 273.89

COMTAC - Electronic sensor instantly suppresses gunfire and harmful impulse noise to a safe 82 dB level. Audio input jack lets you use portable radios and other communication devices. Dual microphones provide stereo sound. Electronic volume control gives three levels of loudness. Lets you hear range commands, conversations and game sounds in the woods. Waterproof, folding design with leather head band and liquid-filled foam ear cups give extra comfort and easy storage.

SPECS: 19 dB noise reduction rating. Green. 12.8 oz (363 g) wt.
#284-000-001CE Contac Hearing Protector, 4H295T27 \$ 492.11

COMTAC II DYNAMIC - Exclusive electronic suppression circuits cut out damaging noise levels, but allow you to hear voice commands. Cutaway at the top of each muff easily fits inside most tactical helmets. Twin microphone, dual pin receptacles allow use with portable radios or other communication gear. Detent switch provides selective volume levels so you clearly hear range commands or conversations at normal voice levels. Includes leather headband and foam-filled ear cups for long-wearing comfort.

SPECS: 19 dB noise reduction. O.D. Green, black leather headband. 12 oz (359g) wt. Uses two, AA alkaline batteries, included.

NEW Models SUREFIRE
EARPRO SONIC DEFENDERS

**Noise Filter Blocks Loud Sounds To
Help Prevent Hearing Damage**

In-the-ear plugs help prevent hearing damage by blocking potentially dangerous noise from entering the ear canal. Patented, Hocks Noise Braker® blocks sounds above 80dB, but allows attenuated sounds below that level to pass, so your ability to hear conversation is not adversely affected. Made from a soft, comfortable, hypoallergenic medical-grade polymer that's ergonomically shaped for a tight seal and secure fit that won't work loose. Where extra sound isolation is desired, insert attached stopper plugs to block low-level sounds as well. Available in standard EP3 model (16dB NRR) and EP4 Plus with enhanced noise reduction (19dB NRR).

SPECS: Soft polymer. One pair, right and left. Both models available in Medium size (fits most ears); EP4 also available in Large.

COMBAT ARMS EARPLUGS - Dual-end, three flange design meets the demands of modern military and law enforcement personnel whose hearing protection needs are duty- or mission-specific. Patented, nonlinear acoustical design of the yellow end provides "hear-through" protection so low level sounds such as normal speech communication, footsteps, rifle bolts, or approaching danger can be detected as quickly as possible to maintain mission safety. Internal filter reacts instantly to dampen, high-level impulse noises like weapon fire and explosions up to 190 dB Peak. During operations around high-level, steady-state noises like running vehicles, generators and aircraft, the olive-colored side delivers up to 22 dB of constant protection—greater than many electronic muffs. Molded polymer is washable and provides a comfortable fit and effective ear canal seal for most adults. Available in pairs. Includes carrying case and instructions.

SPECS: (1) pair. Molded polymer. 1 1/16" (3.3cm) long x 9/16" (1.4cm) dia. NRR 22 dB. Includes case and instructions.
#284-000-006CE Combat Arms Earplugs, 4H10T35 \$ 17.25

RANGE & TRAINING GEAR

ROGERS EAR PROTECTOR BELT KEEPER

Best Danged Gizzie On The Range!

Seems no matter where you try to hang muff-style hearing protectors when you're not shooting (but might be soon), they're uncomfortable. Ingenious clip hangs the muffs on your belt - out of the way, but close at hand. Slickest little shooting gizzie we've seen in a long time.  **USA**
SPECS: Made of black plastic. Fits belts up to 2 1/4" wide.

BROWNELLS AR-15/M16/M4 ARMORER'S KITS

Complete Tool Kits To Service & Repair AR-15/M16 Rifles & M4 Carbines

The RIGHT way to repair and service the AR-15/M16/M4! These kits contain the tools the small arms repair specialist needs to perform full maintenance and repairs of these rifles in the field or shop. Each tool is designed to do its job in the simplest, most effective manner to maintain and repair these guns correctly - and save time doing it. **Standard Kit** contains the tools needed to work on the AR-15 and the M16A1 through A4. **Premium Kit** contains all the tools of the Standard Kit, plus an additional 11 items necessary to repair and maintain the M4 carbine as well. Both kits come in a custom-fitted, hard-side tool box that's made from nearly indestructible molded polymer resin and meets mil-spec MIL-C-4150 and ATA specifications. Built-in wheels and a sturdy, retractable pull handle make this box easy to transport wherever you need it. The Standard kit's foam inserts are pre-cut with spaces for the M4 tools, so you can turn it into a Premium Kit any time simply by adding the Upgrade Kit.

CONTENTS: Standard Kit - 1/2" square drive torque wrench, 10 1/2" long 1/2" square drive handle, 3/8" square drive 40 lb. torque wrench, 3/4" plastic/brass hammer, 12 oz. ballpeen hammer, standard & stubby Magna-Tip® handles, carrier key bit kit, LB bit, RED bit, 445-6 bit, non-marring aluminum vise jaws, snap ring pliers, pivot pin detent depressor, pivot pin detent installation tool, A1 & A2 sight tools, roll pin punch kit, (4) roll pin starter/setter punches, bolt catch pin punch, firing pin protrusion gauge, barrel nut alignment gauge, chamber mirror, 5.56mm (.223) headspace gauge, taper pin starter, Starrett 1/8" & 1/4" punches, Starrett 3/32" center punch, Brownells 5.56mm (.223) broken shell extractor, Brownells Bench Mat, Brownells Shop Apron, (2) parts boxes, 8-36 thread cleaning rod w/8-32 adapter, and combination wrench, in a hard-side, molded polymer resin tool box. **Premium Kit** - Includes the contents of the Standard Kit, plus front sight bench block, upper receiver action block, lower receiver vise block, handguard removal tool, bolt ejector tool, takedown pin removal tool, gas tube wrench, magazine catch installation & removal tool, magazine feed lip tool, buttstock tool, and bolt carrier carbon scraper. In addition, padded Accu-Grip barrel vise jaws are substituted for the Standard Kit's vise jaws.

10-8 PERFORMANCE ARMORER TOOL

Sturdy Non-Marring Tool Has Dozens Of Uses

Handy tool of extremely tough, non-marring glass-reinforced nylon is perfect for prying and pushing applications where a metal tool can damage the part or gun finish. Rigid chisel point on one end is useful for depressing springs and spring-loaded parts—even use to thread MOLLE straps through webbing—while the semi-flexible flat blade on the other end can get into tight spots or serve as a temporary shim. Great to have around during disassembly of semi-auto pistols like the 1911, Glock, or Smith & Wesson M&P or when working on service rifles like the AR-15/M16. Multiple ridges molded into the grasping area in the middle of the tool help prevent slippage when working with oily or greasy hands. Available in **Black, Flat Dark Earth, and Foliage Green.**

SPECS: Glass reinforced nylon, Black, Flat Dark Earth, or Foliage Green. Approximately 5" (12.7cm) long, 1/4" (6.4mm) diameter.

BROWNELLS AR-15/M16/M4 BUTTSTOCK TOOL

One Tool For Disassembling & Reassembling Buttstocks

Unique design combines several tools into one for taking apart the M4 collapsible buttstock on your AR-15 or M16. Features include blade for removing fixed stock screws; 1/2" square torque wrench opening; fixed stock receiver extension remover; receiver extension nut tightener for both old and new model collapsible stock - pins for both styles are included and easily changed by loosening a hex screw in the tool; and a hole for hanging the tool on your peg-board. Fits easily in a range bag or in your pocket for use outside the shop.

SPECS: Steel, black. 7" (17.8cm) long. Includes pins for old- and new-style receiver extension nuts.

#080-000-291CE Buttstock Tool, 8K47B99 \$ 59.95

REPLACEMENT PINS - Keeps your Brownells Buttstock Tool functioning like new. Helps keep the edges of the receiver extension nut slots undamaged and lessens the chance of marring the metal. **Square** fits the newer, M4 style collapsible buttstock receiver extension nuts with .164" wide, square engagement slots. **Round** fits the older style collapsible buttstock extension nuts with 1/8" diameter, round pin engagement recesses.

SPECS: Round - Stainless steel, silver finish. .124" (3mm) diameter. Square - Steel, blue finish. .164" (4mm). Available in 3-Paks.

DPMS AR-15/M16/M4/AR-STYLE .308 STOCK NUT WRENCH

One Tool For Carbines & Rifles

No-fail armorer's tool provides all the leverage you need to tighten and loosen carbine stock nuts. Dual-purpose wrench fits the later M4 receiver extension nuts with .185" wide, slotted relief cuts, plus the additional slot fits the end of rifle buttstock receiver extensions. Includes a convenient hang-up hole drilled on the end for storage.

SPECS: Tool steel, blue. 12" (30 cm) long, 1" (2.5cm) wide handle, 5/16" (7.9mm) thick. Fits AR-15/M16/M4 and AR-Style .308 rifles. Will not fit Colt CAR-15 stock nuts with .160" square relief cuts.

#231-000-229CE AR Stock Nut Wrench, 1C25A64 \$ 27.85

ROCK RIVER ARMS AR-15 M4 STOCK WRENCH

Install M4 Carbine Stocks Without Damage

Steel, dual function wrench lets you easily remove your old extension tube and install a new-style, A4 stock. Spanner has three lugs to fit the A4-style castle nut. Provides a non-slip fit so you can correctly torque the stock to the receiver. Also, the comfortable, rubber coated handle features a cutout to fit the receiver extension tube to remove the A1 or A2 stock.

SPECS: Steel, parkerized finish. 7 7/8" (19.3cm) long.

GSA

BROWNELLS AR-15/M16 MAGAZINE FEED LIPTOOL

Reforms Feed Lips For Improved Magazine Performance

Feeding problems and jams in your AR-15 can often be attributed to bent or malformed magazine feed lips. This easy-to-use tool is designed specifically to bend the feed lips back into place, so they guide the cartridge body like they're supposed to. Trying to straighten the lips with pliers can create rough, unsightly gouges, or worse yet, cracks in the metal that can't be repaired. The machined, steel shank with bevel cut and slot allows you to hook the lips and keep them supported, while you tweak their angle of contact on the cartridge case. Helps you recondition those old magazines, and saves the cost of buying new ones.

SPECS: Handle - Impact-resistant polymer, black. Shank - Steel, blued finish. 5 1/2" (14cm) long.
#080-000-314CE AR-15 Mag Feed Lip Tool 8K09D64 \$ 12.11

MARK BROWN AR-15/M16 TOOLS

CARRIER CARBON SCRAPER - Breaks loose and removes hard-to-get-at carbon buildup without damaging the bolt carrier. Quickly solves AR-15/M16 function-related cycling problems caused by excessive carbon deposits inside the bolt recess. Hardened steel reamer will last indefinitely with proper use.

SPECS: Steel reamer, plastic handle. 6 1/2" (16cm) long.

#133-100-016CE Carrier Carbon Scraper 3C00XCH. \$ 22.45

GAS TUBE WRENCH - Clamps around those fragile, easy-to-bend gas tubes to prevent damage during both removal and installation and adds a convenient "handle".

SPECS: Steel, blued. Approximately 6" (15.2cm) long.

BROWNELLS/PEACE RIVER AR-15/M16 UPPER & LOWER RECEIVER BLOCKS

GSA

Protect Receiver From Damage When Clamping

Heavy-duty blocks allow you to firmly clamp AR-15/M16 receiver halves in a vise without risk of crushing, twisting, or otherwise distorting them when applying vise pressure or torquing the barrel nut. Keeps your rifle secure for safe, effective cleaning, assembly, and repair. 

UPPER RECEIVER ACTION BLOCK - High pressure, solvent resistant, structural Rynite block and insert surround the entire upper receiver and support it inside and out to make rebarreling the AR-15/M16 an easy, one-man job. Lets you tightly clamp a standard or flattop receiver in a large bench vise for barrel removal/installation. Torque generated while tightening the barrel nut is transmitted to the block and insert, not the receiver. Minimizes the possibility of damage to the barrel detent pin and receiver detent notch. Holds securely without marring the finish.

SPECS: Injection-molded Rynite, black. Fits A1, A2, and standard flattop receivers. **Block** - 2.5" (6.3cm) thick, 3.5" (8.8cm) wide, 4.5" (11.4cm) high. **Insert** - 8" (20cm) long, 1" (2.5cm) diameter. Torque tested to 200 ft. lbs.

#702-003-015CE Upper Rec. Action Block 6K40X65 . \$ 52.85

LOWER RECEIVER VISE BLOCK - Unbreakable urethane vise block takes all the clamping force, so your expensive lower receiver won't be damaged or distorted. Insert block into the magazine housing from the top or bottom, then clamp the other end in your bench vise. The magazine catch locks to the block, safely and securely holding the rifle for assembly, disassembly, cleaning, or repair. Will not mar or scratch the finish. 

SPECS: High-density urethane plastic, black. 5" (12cm) high, 2 1/4" (5.7cm) wide, 3/4" (1.9cm) thick.

#702-004-015CE Lower Rec. Vise Block 6K33X95 . . . \$ 50.45

Sinclair AR-15/M16 BOLT VISE

Saves Time During Bolt
Disassembly & Prevents
Lost Parts

Convenient, easy-to-use tool holds the bolt assembly securely while you compress the ejector to remove the spring pin without the risk of the ejector and ejector spring flying out and getting lost. Eliminates the "annoyance factor" of a job that seems to require three hands. The pin drops out of the way through a hole in the vise body, allowing you to slowly back off the pressure on compression screw and capture the ejector and spring. Equally helpful during reassembly. Can also be used to hold the bolt while replacing gas rings and extractor. May be clamped in a bench vise for added support. Tough, yet lightweight aluminum and stainless steel construction for years of reliable service. 

SPECS: Aluminum body, anodized, black. Stainless steel compression screw, natural finish.

BROWNELLS EJECTOR REMOVAL TOOL

Eliminates The "Lost Parts"
Hassle When Working
On Rifle Bolts

Versatile fixture lets you remove plunger-style ejectors from standard .700" and .510" diameter bolts quickly and safely without launching parts across the room. Works for a variety of popular rifles, including AR-15, AR-style, 308 rifles, Remington 700, Winchester 70, Savage, and Sako. Rugged, lightweight body machined from 6061 billet aluminum securely holds bolt while threaded, tool steel shank compresses and captures ejector spring and aligns the roll pin for easy removal with a punch. Gradually loosen the shank to relieve spring tension. 

SPECS: Anodized 6061 aluminum body, dark green, steel shank. 3 1/8" (9.7cm) long with shank fully screwed in, 2 1/4" (5.7cm) wide, 1 1/4" (4.5cm) high. Fits AR-15, AR-style, .308 rifles, Remington 700, Winchester 70, Savage, and Sako rifles.

Sinclair REMINGTON 700 BOLT DISASSEMBLY TOOLS

For Safe, Easy Bolt
Assembly & Disassembly

Precision made tools for safe, easy bolt disassembly and assembly without scraped knuckles and lost parts. Fits all Rem. 700, Stolle Panda, and other Remington style bolts. **Firing Pin Removal Tool** removes the entire firing pin assembly from the bolt body. The thick, polymer cylinder slides over the bolt shroud to prevent scrapes or gouges. Polymer knob easily turns the steel lead screw and slowly pulls the cocking piece clear of the small detent for easy removal. **Ejector Compressor Tool** compresses ejector spring, so you can push out the pin and safely remove the spring. Includes fittings for both small (.223) and large bolt faces (.308 and Magnum). **Mainspring Changing Tool** is used for both mainspring and firing pin removal. Hand-filling, polymer knob effortlessly turns steel lead screw and compresses mainspring for easy cross pin removal. 

SPECS: Firing Pin Removal Tool - Polymer cylinder/knob, matte black. Steel hook/lead screw. Body - 3 1/4" (8.2cm) long x 1 1/4" (3.2cm) wide. **Ejector Compressor Tool** - Aluminum, anodized, blue. Steel screw, polymer bushings, matte black. Body - 1 1/8" (1.7cm) long x 2" (5.1cm) wide. **Mainspring Changing Tool** - Aluminum, anodized, green. Steel lead screw. Polymer knob, matte black. BROWNELLS BROKEN SHELL EXTRACTOR

Easily Removes Broken Cases
Without Field Stripping

Case head separation from over-fired or out of spec brass won't ruin your shooting experience if you keep one of these handy tools in your pocket or field kit. Hardened, steel tool reliably and easily removes broken cases from AR-type or any other firearm chambered for the .223/5.56 NATO or .308/7.62 NATO cartridges. Exclusive, threaded, two-piece design is adjustable for overall length, so the tool completely engages the rim of the case mouth; cannot slip through or strip out. Very simple to use, drop the broken shell extractor into the chamber directly inside the broken case. Allow the bolt to close so the extractor engages the rim of the tool and draw back the bolt to open the chamber. The broken case will eject along with the broken shell extractor. 

SPECS: Steel, blue. Models for .223 Remington/5.56 NATO or .308 Winchester/7.62 NATO cartridges.

ACTION PROVING DUMMIES

Inert, Factory Spec Dummies For Safe Function Testing

Manufactured to exact specifications, including diameter and length dimensions, weight and balance of factory loaded ammo, these dummies have the proper functioning characteristics to reliably check magazine feeding, action timing, extraction, and ejection of all guns. The only professionally accepted and safe way to check gun functioning; live ammo should never be used except for actual test-firing on the range - after you have checked the gun with dummies. The very reasonable cost per dummy is an added incentive to use them regularly. The blackened case makes them distinct, and instantly recognizable as dummies. Especially useful when demonstrating how a particular gun functions. They absolutely eliminate the chance of an accidental discharge.

SITE-LITE LASER BORESIGHTER

Gets You Close To Point Of Aim Without Firing A Shot

Saves range time and ammo; highly accurate laser system lets you zero your scope to point-of-aim at 100 yards, before you go to the range. Quick and easy to use, just place the special laser target 25 feet away and aim the laser at it, then adjust the scope till the crosshairs align with the target. Works equally well with red dot scopes and iron sights. Laser is mounted to a cone shaped, aluminum spud. An O-ring and a powerful magnet hold the spud centered in the bore. No special adapters to buy and no metal contacts the rifling. A system of adapters and O-rings lets one unit fit all firearms from .22 to .50 caliber, plus 12 and 20 gauge shotguns. Also includes the SRL-100 adapter that slips over the Boresighter's lens to convert it into a highly accurate Scope Reticle Leveler by refocusing the laser to a horizontal beam for precise crosshair alignment. SRL-100 also available separately. **SL-100 Standard Model** for use indoors, where you have control over ambient lighting. **SL-150 Ultra-Mag** has an ultra-bright 635mm laser for better visibility in bright, ambient light conditions. Choose this model if you plan to use your Boresighter outdoors.

SPECS: Aluminum. Includes (2) adapters, (9) O-rings, (2) cardboard target cards, SRL-100 adapter, instructions, and plastic storage case. **SL-100** - 6 1/8" (15.6cm) OAL without adapter, 4 1/8" (10.5cm) long spud. BROWNELLS TOOLS FOR REMINGTON 870, 1100 & 11-87

The Right Factory-Type Tools For 870 Work; Add-Ons Available For 1100 & 11-87

With the help of the fine folks at Remington, the Armorer and Gunsmith can now have a Kit with tools we have adapted from factory designs for repairing and maintaining what has probably become the world's most popular pump shotgun . . . the Remington 870. Special thanks has to go to the entire Remington organization for recognizing the importance of proper tools to everybody who repairs and maintains these workhorse guns. The end result is a 21-piece Tool Kit that makes it easier for the Armorer or gunsmith to repair the 870 at the bench or in the field. Even though some of the tools may seem like overkill, keep in mind that the designs are based on the factory's years of experience and are intended to stand up to constant use. If an 870 is in need of repair, you'll have the right, factory-type tools to take it apart, make the repairs, and put it back together. Your satisfaction is guaranteed.

BROWNELLS 870/1100 PIN PUSHER

Pocket-Sized; Prevents Scarring Action

Fitted punch removes trigger group pins quickly and easily with no chance of slipping off and gouging the receiver as with ordinary flat punches. Tough, black plastic handle won't mark or mar either. Convenient, pocket-size.

- #080-870-110CE **Pin Pusher** 8K13X99 \$ 19.99

BROWNELLS REMINGTON/MOSSBERG FOREND WRENCH

Piloted To Prevent Stock Or Nut Damage

Wrench adapted from Remington factory design, with pilot that keeps "teeth" square to the forend nut, virtually eliminating damage to wrench, forend or forend nut. But, if one of the wrench teeth should ever break, turn the "sleeve" around, there's another set. Models for Remington 870 or Mossberg 500.

SPECS: Steel. **12 Gauge** - 6 3/4" (17.1cm) long overall, 5" (12.7cm) long handle. **20 Gauge** - 7 1/8" (20cm) long overall, 5" (12.7cm) long handle. Replacement Sleeve; sold 1 each.

BROWNELLS 1911 AUTO ANODIZED BUSHING WRENCH

Non-Marring Aluminum Gets The Tightest Bushings Loose

The perfect tool for every 1911 owner's range bag or cleaning kit. Precision machined for a close fit to Government Model and Officers ACP bushings. The extra thick, contoured handle fits comfortably in your hand; has plenty of heft for a good, solid grip. Turns the tightest bushings without slipping.

- #080-045-200CE **Anodized Bushing Wrench**, 8K15X58 \$ 19.49

BROWNELLS CAN'T MAR™ 1911 AUTO BUSHING WRENCH

Can't Damage Finishes • Virtually Unbreakable
Pocket-Sized • Versatile, Double-Ended Design

Every 1911 owner and gun shop needs a wrench to remove the barrel bushing from the 1911 Autos. Ours fits all the calibers and variations; Colt-made (including factory Officers ACP), plus copies. Made from super tough ABS "T" grade polymers, Brownells Can't Mar™ wrench has more thickness and heft than other synthetic wrenches. It gets out even the most tightly fitted, match-grade bushing WITHOUT scarring or marring the finish of the gun's bushing or slide. Virtually unbreakable, the Can't Mar™ wrench carries easily in pocket or field kit.

SPECS: 5 1/2" (14cm) long. 1 1/4" (3.2cm) wide. .187" (4.75mm) thick. Weighs 1 oz. (28 g).

- #080-045-045CE **Can't Mar™ Bushing Wrench**, 8K02U75 \$ 5.75

BROWNELLS MAINSPRING HOUSING PINTOOL

Pops This Stubborn Pin Out Easily

Makes removing the 1911 Auto mainspring housing pin (it's held in by a detent) a snap. Round, plastic handle fits your palm nicely, one "rap" and the pin is out. Speeds any disassembly/reassembly job, whether doing repairs or using the "stone and try" method for trigger pull work. Fits all 1911 Autos.

- #080-850-000CE **Mainspring Housing Tool**, 8K16Y42 \$ 24.97

GLOKBLOK THE GLOCK BLOK for GLOCK®

Holds Pistol Securely For Easy Cleaning & Maintenance Using Both Hands

Solid, high-strength vise block holds Glock pistols securely for easy cleaning and maintenance. Keeps both hands free for detailed, precision work and helps eliminate the chance of dropping the pistol and causing damage. Slides into the mag well and locks tight using the factory latch without marring or scratching. Durable, polymer composite construction is resistant to most solvents. Fits all 9mm and .40 cal. Glock pistols.

- #100-003-691CE **Glok Blok** 6B29X95 \$ 39.95

GLEND ARMS TAC RAC™ ARMORER'S TOOL for GLOCK®

Handy, Field Expedient, Combo Tool

Black Delrin® grip plug includes a steel pin punch and ejector removal punch to detail-strip your Glock. Snaps into the grip recess.

- #350-000-002CE **Armorer's Tool**, for Glock 5C18P97. \$ 23.95

LONE WOLF DIST.

ULTIMATE ARMORER'S TOOL for GLOCK®

Just One Tool For Complete Maintenance, Disassembly

Multi-function tool lets you do a complete disassembly, change sights, replace parts, even give your favorite Glock a quick brushing off. Features a 3/32" pin punch, 3/16" flat blade for connector removal, 3/16" sight nut driver and a cleanup brush. Pocket clip for handy carry.

SPECS: Brass body, flat blade. 4 3/4" lg. Stainless Steel pin punch.
#100-000-774CE Ultimate Armorer's Tool, 2K15V95 \$ 19.95

COMBINATION TOOL for GLOCK®

Handy Tool Makes Glock Sight Changes Easier

Easy-to-use tool helps you remove factory front sights and install aftermarket sights. The punch is just the right size for depressing front sight center spreader; hex wrench holds and tightens the small retaining nut for the replacement sight. Non-slip knurled grip.

SPECS: Delrin® handle. Steel punch and wrench. Black. 3/32" (2.3mm) punch. 5 1/4" (13.3cm) long. Will not work for models 17L, 34, 35, 24 and 24C

#694-301-100CE Combination Sight Tool for Glock, 4F16H33 \$ 20.42

P500 UNIVERSAL SIGHT TOOL

Safely Removes & Installs Dovetail Front & Rear Sights; Works On Shallow, Cross-Dovetails

Precision-machined, steel tool safely removes, installs and adjusts front and rear sights on handguns. Clamp your slide into the tool and line up the sights with unit's pusher tip for removal. Mobile jaw customizes to the height of your slide and can be used from the right or left side. Delrin® liner protects slide from scratches. Includes three sight pushers that attach to the end of the sight-pushing bolt. 1/4", square tip works perfectly on shallow, cross-dovetail sights. Install and adjust sights by aligning the sight with the pusher and slowly press it on.

SPECS: Steel, black, powder-coat finish. Approximately 5" (12.5cm) long, 2" (5cm) wide, 1" (2.54cm) high. Instructions included.

#694-000-001CE P-500 Sight Rmoval Tool, 4F104T00 \$ 130.00

⑧ 1/2" BRASS DRIFT PUNCH - A harder-than-nylon but softer-than-steel punch for drifting fixed sights without damage.

BROWNELLS

MGW SEMI-AUTO SIGHT MOVER

Adjusts, Removes & Installs Sights Without Damage

Safely moves fixed sights right or left in their dovetails without deforming slide or sight. Specifically designed for use with factory and aftermarket Tritium night sights, which are too fragile for the traditional hammer-and-punch sight installation method; works equally well with iron sights. Thumbscrew securely locks the slide so it's fully supported in the rigid, machined aluminum body. Separate slots in the screw mechanism engage the sight and firmly, yet gently, concentrate screw force to loosen sights from even extremely tight dovetails. Hardened steel handle provides plenty of leverage, while self-lubricating, oil-impregnated Oilite® bronze bearings and extra-fine threads ensure smooth, precise movement.

Beretta/Glock fit rear sights only. **SIG** fits rear sights on all SIGs except SIG-PRO. **Smith & Wesson M&P** fit both and front and rear sights. **Springfield XD** fits both front and rear sights on all XD models except front sight on 5" barrel Tactical model.

SPECS: Aluminum body, anodized. Steel cross carriage bolt and thumbscrew, black oxide finish. **Beretta/Glock** - 4 3/4" (12.1cm) wide, 3" (7.6cm) high, 3/4" (19mm) thick. **SIG** - 4 3/4" (12.1cm) wide, 5" (12.7cm) high, 1" (2.5cm) thick. **Smith & Wesson M&P** and **Springfield XD** - 4 3/4" (12.1cm) wide, 3 5/8" (9.2cm) high, 1 5/8" (4.1cm) thick; fits front and rear sights.

MAGNA-TIP® RATCHET HANDLE

Contoured For Maximum Comfort & Leverage; Compatible With All Magna-Tip Bits

Ratcheting driver provides extra leverage for maximum torque transfer to quickly tighten or loosen any gun screw that accepts a Magna-Tip bit. Ergonomically designed T-shaped handgrip of high-impact plastic is contoured to ensure maximum comfort and control. Stainless steel shank keeps bit precisely centered, while a powerful magnet prevents slipping or falling out. Heavy duty ratcheting mechanism provides smooth, dependable three-way operation in Clockwise, Counter-Clockwise, and Locked modes. The large control dial allows fast mode changes, yet is positioned on the underside of handle to prevent accidental change of direction. Fits in the Magna-Tip Master Storage Block, available separately.

SPECS: High-impact plastic handle, stainless steel shank. 5 1/2" (14cm) long overall. 3 5/8" (9.2cm) long shank. Handle is 3" (7.6cm) wide at widest point. Accepts 1/4" hex bits, including all Magna-Tip bits.

NEW **BROWNELLS MAGNA-TIP® PROFESSIONAL SUPER SET**

Available with Adjustable Torque Handle or Ratchet Handle

Ultimate Gunsmith Screwdriver Set – 120 Bits & 7 Handles For Maximum Versatility – Any Driver Configuration You Need At Your Fingertips

Brownells is proud to introduce the ultimate Magna-Tip screwdriver set for the professional gunsmith or serious hobbyist. The Professional Super Set contains almost every Magna-Tip bit we sell, a total of 120 bits, minus a handful of the rarest sizes. Custom grinding bits for a proper fit, or having to put a crucial project on hold while you wait for a specialty screwdriver to arrive are worries of the past, because you'll always have at your fingertips the correct bit for almost any gun screw. Proper-fitting bits prevent damage to screw slots, so when you're done the screws are in pristine condition—a sure sign of truly professional gunsmithing work. Made from the same hardened tool steel used in high-speed industrial impact drivers, these bits are hollow-ground for a no-slip seat in the screw slot and precision-balanced to transmit maximum torque smoothly and evenly to the screw. The set includes 75 straight, 5 Phillips, 17 hex (Allen), 11 Torx®, and 10 specialty bits for sights, scope mounts, grip bushings, Ruger ejectors, and other unique applications, plus the handy Magna-Tip Choke Tube Wrench and a hex-to-square adapter that lets you use your Magna-Tip handles to drive 1/4" drive sockets. The kit's seven driver handles ensure you have the handle best suited to give the correct amount of torque in any situation. You get the full-size #81 Handle, #84 Hollow Handle, magnetic Law Enforcement Handle, Law Enforcement Hollow Handle, Compact Law Enforcement Handle, and the popular Stubby, plus your choice of either our Magna-Tip Ratchet Handle or Adjustable Torque Handle. The heavy duty, three-way Ratchet Handle provides extra leverage for maximum torque transfer to tighten or loosen stubborn screws. The Adjustable Torque Handle ensures you apply the exact amount of required torque in 1-in.-lb. increments from 10 to 70 in.-lb. to eliminate guesswork and prevent over- or under-tightening critical screws. The set also includes a sturdy benchtop storage block to organize and store all the bits and handles, including the Ratchet Handle (hard-side plastic carry case is supplied for Torque Handle). Machined from a solid block of nearly indestructible Delrin®, this block won't warp, crack, chip, or peel and resists oil, grease, and most solvents. The Professional Super Set is truly the most versatile screwdriver system you'll ever use—and quite possibly the last one you'll ever have to buy!

- SPECS:** Hardened tool steel bits, high-density plastic handles, Delrin bench block. Torque Handle – Steel, aluminum housing with synthetic rubber cover, and high-impact plastic handle. Ratchet Handle – Stainless steel shank, plastic handle.

ALLEN & PHILLIPS BITS - All are our standard 1" (2.5cm) long, 1/4" (6.3mm) hex shank bits. Phillips bits are NOT anti-cam. **SPECS:** Allen Bit Set contains ten bits: 185-00, 185-0, 185-1, 185-2, 185-3, 185-4, 185-5, 185-6, 185-9, and 185-10.

Phillips Bit Set contains #0, #1 and #2 Phillips Bits. **#080-185-185CE Allen Bit Set, 8K13D72** \$ 16.14

- #080-440-000CE Phillips Bit Set, 8K03U00 3.68

BROWNELLS LAW ENFORCEMENT HANDLES

Short Shank; Precise Control

Originally requested by police armorers who do a lot of assembly/disassembly and want their hands close to the work but with a longer handle than our stubby one. Choose magnetic version for fast bit changes or Clip-Tip-to minimize bit wobble and prevent magnetizing bits. A perfect addition to the bench, range box, or field tool kit. **Standard LE Handle** is about 20% shorter and smaller diameter than our full-size MAGNA-TIP® handle. **Compact LE Handle** provides an even more compact package that lets you access all but the most hard-to-reach spots. Comfortable, small-diameter grip is longer and slimmer than our Stubby Handle to give you the extra grasping area you need to loosen stubborn screws. **LE Hollow Handle** - Lets you assemble a gun-specific, go-anywhere, pocket screwdriver kit. Combines the internal bit storage compartment and extra gripping area of our full-size #84 Handle with the LE Handle's short shank, so your hand still stays close to the work for plenty of leverage and control. Available with magnetic socket only.

SPECS: Standard LE Handle - 5 1/2" (14cm) overall. 1 3/4" (4.4cm) long shank. 1" (2.5cm) diameter x 3 3/4" (9.5cm) long handle. Compact LE Handle - 3 3/4" (9.5cm) overall. 1" (2.5cm) long shank. 7/8" (2.2cm) diameter x 2 3/4" long handle. LE Hollow Handle - 6 3/16" (15.7cm) overall, 1 3/4" (4.5cm) long shank, 1 1/4" (3.2cm) diameter grip.

BROWNELLS FIXED-BLADE GUNSMITH'S SCREWDRIVERS™

New, Crisp, Hollow-Ground Radius Gives Much More Strength • True, Precision-Ground, Hollow-Ground Blades • Sizes To Fit Nearly Every Gunsmith • Excellent Fit - Superb Control • The New Standard By Which To Judge All Others

Our Fixed-Blade, Gunsmith's Screwdriver Set designed and developed by gunsmiths for those gunsmiths who love solid, fixed-blade screwdrivers that fit their gun screws correctly, and simply won't have it any other way!

We've packaged the Screwdrivers four ways: the Starter Set™ has the 10 Screwdrivers highlighted in gray in the chart. The Completer Set™ adds the remaining 10 and turns a Starter Set™ into the Master Set™. The Master Set™ has all 20 Screwdrivers, plus the properly radiused Bit Shaping Stone, and a bottle of Brownells Best Penetrating Oil™. To create the The Super Master Set™ we took the Master Set and added 6 Allen head fixed blade screwdrivers and 3 Phillips "Anti-Cam" screwdrivers. NONE of the four sets include the Bench Block - It's sold as a separate item and makes a great addition to your set, now or later. As with all our tools and supplies, they are guaranteed to please you, the most demanding craftsman in the world - the working gunsmith. **SPECS:** 2 1/2" (6.3cm) long shanks. 3 3/4" (9.5cm) long x 1" (2.5cm) dia. handle. Each screwdriver packed in individual plastic tube.

BROWNELLS 1" NYLON/BRASS HAMMER

Our Most Popular Gunsmith No-Mar Hammer

This combo is so perfect for so many jobs around the gun shop and on the range, it's impossible to list 'em all. Nylon head resists breaking, won't mar metal. Solid brass is the Basic for gunsmith use with punches and more. **SPECS:** 1" (2.5cm) diameter faces. 11 1/2" (29.2cm) hickory handle. Weighs approximately 6 oz. (170 g).

- #818-600-100CE 1" Nylon/Brass Hammer, 8A00PUA \$ 19.38

Stock numbers shown in red indicate the product is made in the U.S.A. This information is not available for all products at time of catalog production, but will be regularly updated on our website.

BROWNELLS EXTRA-LARGE BENCH BLOCKS

Large, 4" Diameter, Useable Surface Will Not Embed Or Mar

Extra size and weight helps keep these blocks where you put them and the big face eliminates much of the "balancing act" when you're driving pins. Cannot mar even the most highly polished surface. Two different models. **Green** - For rifles and shotguns; drilled with four through holes for easier pin removal and disassembly. Convenient, center "V" holds cylindrically shaped parts steady so they won't roll. **Blue** - For revolvers and pistols. Larger through holes and partial "V" holds pistol barrels for easier link pin installation and removal. Can be drilled or modified with hand tools; will not melt when machined. **SPECS:** Polyethylene, green or blue. 4" (10cm) diameter, 1 1/2" (2.8cm) high.

- #080-000-492CE Rifle Bench Block, 8D00ZAY \$ 16.16
- #080-000-493CE Pistol Bench Block, 8D00PUA 16.55

BROWNELLS BENCH/FIELD GUN MAT

Soft Face Prevents Scratches & Dings; Rolls Up Easily; Absorbs Liquid

Soft, flexible, liquid-absorbing bench mat features a non-slip EVA backing that will not take a set, so it rolls out flat and ready to protect the finish on your favorite firearm. Absorbs ten times its own weight in liquid, shielding the surface of your work bench or vehicle cargo area from spills while it protects your firearm from damage. Completely reusable, wash with warm water and mild detergent. Larger sizes make the perfect, protective cover for tailgates or range benches. **SPECS:** Polypropylene fiber, brown, expanded, vinyl acetate backing. .100" (2.5mm) thick. **Sizes; #1** - 12" (30cm) x 24" (60cm), **#2** - 24" x 36" (90cm), **#3** - 18" (45cm) x 48" (121cm).

BROWNELLS PROFESSIONAL ASSEMBLY/DISASSEMBLY MAT

Don't Scratch Up Those Parts While Working On Guns

Heavy, neoprene, rubber mat provides a large, padded surface for all kinds of gun servicing. Slightly "grained", hard enough to keep dirt from embedding; cleans up easily with soap and water. Resists most solvents and oils. Rolls up easily so you can add it to your range kit and have a "no-scratch" surface available for those emergency repairs. **SPECS: Small Mat:** 17 1/2" (44.4cm) long. 12" (30.5cm) wide. 3/16" (4.7mm) thick. **Large Mat:** 36" (91.4cm) long, 24" (60.9cm) wide. 1/8" (3.1mm) thick. Weighs 1 1/2 lbs. (680 g).

- #358-128-316CE Small Mat, 8E17A97 \$ 21.98
- #358-128-416CE Large Mat, 8E41A80 49.77

BROWNELLS PREMIUM SHOP APRONS

Top Quality, Custom-Made For The Professional Gunsmith

Made from the best grade, tightly woven, 2-ply yarn, all-cotton duck - the same stuff they make top quality, insulated coveralls from. Solvent- and oil-proof nylon thread used throughout. Seams rolled, double stitched and finished, all corners and stress points bar-tacked for strength. Everything heavily reinforced. Machine washes/dries perfectly.

LONG SHOP APRON - Covers from shoulders to below the knees to keep dirt/crud off your clothes. Three pockets - centered upper one with sewn-in pencil slot; large lower one on left side. Neck and tie straps are double thickness; everything heavily reinforced. Machine washes and dries without edges curling or losing shape. **SPECS:** 39 1/2" (100.3cm) long, 30 1/2" (77.5cm) wide. Pockets: Upper - 4 7/8" (12.4cm) wide by 4 3/4" (12cm) high with pencil slot. Lower - 7 3/4" (19.7cm) wide by 6 3/4" (17.1cm) high. Ties: each 27 1/2" (69.8cm) long. Neck strap: 21 3/4" (55.2cm) long.

- #084-071-000CE Brownells Long Shop Apron, 4A22D97 \$ 32.80

SHORT SHOP APRON - Top-quality, custom-made, above-the-knees apron. Unique, continuous loop, "D" ring, double-thickness strap system automatically adjusts the "bib" for maximum coverage and the length to match wearer's height. Centered top pocket is sewn solidly to the apron so it can't swing and is divided to hold pencils/pens and mike. Roomy, double, lower pockets. **SPECS:** 28 1/2" (72.4cm) long. 2" (63.5cm) wide. Pockets: Top, 4 1/2" (10.5cm) wide x 4 1/4" (12cm) high (inside). Lower (x2), 6 1/4" (17.1cm) wide x 6 1/4" (15.9cm) high (inside). Straps: 53" (13.5cm) overall. 40" (101.6cm) after cross joint.

- #084-071-050CE Brownells Short Shop Apron, 4A21D00 \$ 29.98

BROWNELLS NYLON/BRASS DRIFT PUNCH

6 Indispensable Mar-Proof Punches

Great combination punch for gunsmith, machinist and tool-maker. Hi-impact steel handle with knurled grip for easy holding and accurate control. Built to withstand maximum impact with a minimum of distortion. Interchangeable and replaceable tips are available in: **Nylon** with steel reinforcing pin to prevent bending or breakage while giving completely mar-free punching action; **Brass** for a harder-than-nylon but softer-than-steel impact where slight discoloration is acceptable. **Remington Shotgun Punch Tip** for removing trigger plate pins from 870, 1100 and 1187. Supplied as: **Basic Set** with two 3/16" diameter tips (one Nylon, one Brass) and one Handle. **4-Way Set** includes four Handles, one 3/16" Nylon Tip; plus one each, 3/16", 1/4" and 3/16" diameter Brass Tips. **6-Way Set** adds 1/4" and 3/16" diameter, Aluminum Tips and 2 more handles to the 4-Way Set. **SPECS: Handle** 3" (7.6cm) long x 3/8" (9.5mm) diameter. **Tips** are 1 1/4" (3.2cm) long.

BROWNELLS MULTI-VISE™

Easily Adaptable & Versatile, Quality Construction That Lasts and Lasts

Don't adjust jobs to your vise; adjust your Multi-Vise™ to the job. Multi-Vise adjusts in every direction a job can take you... position it horizontally, vertically, and rotate it 360° in a horizontal plane. Multi-Vise adapts to nearly any job; drilling, filing, stock work, soldering, sanding, and the holding of darn near anything.

The highest quality U.S. materials and craftsmanship go into producing the Multi-Vise. The body is constructed of tough, 50,000 psi tensile strength, ductile, iron, which makes it last and last. You won't have to tighten or loosen extra clamps when you turn Multi-Vise on its side or rotate it back and forth, because the convenient cam locking system automatically locks Multi-Vise in position when you tighten the jaws. Precision-machined, smooth, jaw faces combine firm pressure with a gentle finesse to securely hold metal, wood, or plastic. The 4140, chrome-moly-steel, nickel-plated, rust-resistant lead screw turns effortlessly.

Multi-Vise, the most versatile vise ever offered to professional gunsmiths and home hobbyists, is also backed by Brownells 100% satisfaction guarantee. Upgrade to the Multi-Vise today... your jobs will be easier tomorrow!

SPECS: Cast iron body, precision-machined, green paint. Jaws are 3 1/2" (9.0cm) x 2 1/2" (6.3cm), opens to 5" (12.7cm). 1 3/4" (4.4cm) square anvil. 18 lb. (8kg) wt.

TOOLS

BROWNELLS
ALUMA-HYDE® II
 Durable Epoxy Base Paint
 Withstands Bore Cleaners & Solvents

The special feature of **Aluma-Hyde II** (and the reason for its development) is its increased resistance to bore cleaners, solvents and other cleaning chemicals, even trichloroethylene. Today's new family of fast, aggressive bore cleaners really do a terrific job getting dirty gun bores sparkling clean, but they can wreak particular havoc with any other finish they contact. After full cure, **Aluma-Hyde II** proved solvent-proof to all but the most aggressive, copper-removing bore solvents. **Aluma-Hyde II** is formulated with a hard-curing epoxy base that contains additional, high-density pigment for a durable finish that sticks to all properly prepared aluminum and alloy surfaces, steel and plastics - it's great on synthetic stocks. **Aluma-Hyde II** is available in a variety of colors to help the gunsmith match the vast number of applications found in the average gunshop. Matte finishes are available in **Parkerizing Gray** (medium gray), **Dark Gray Parkerizing** (medium dark), **Stainless Steel Gray** (light), **Matte Ruger Gray** closely matches the factory color but reduces reflections, **Earth Brown**, **Matte Clear**, **O.D. Green** for creating camo pattern stocks, **Desert Tan** (light, desert-tan sand), **Coyote** (light, gray-brown) and the original favorite, **Matte Black**. To compliment the matte finishes, **Semi-Gloss Black**, **Gloss Ruger Gray** closely matches the factory color and shine. **Gloss Clear** help expand the overall applications of this time- and money-saving product. We like the **Matte Black** color for refinishing those used AR-15 buttstocks and handguards you pick up when building a parts gun, knock-around truck guns and of course, anodized parts. **Aluma-Hyde II** dries to the touch in only minutes and reaches full cure in about a week. Here's the way we apply it: Warm the part and the **Aluma-Hyde II** to about 90° F.; spend a couple of minutes shaking the daylight out of the **Aluma-Hyde II** and apply a medium coat for good coverage. You can recoat in a few minutes but don't wait more than thirty minutes. Once **Aluma-Hyde II** starts curing, you must wait until it's fully cured to recoat. You can cut the cure time to approximately two days by circulating warm air (90° F. works fine) past the part. Absolutely no primer coat is required for a tough, durable, abrasion-resistant, rust-proof finish that blends beautifully and compliments all gun finishing applications.

SPECS: 12 oz. (340 g) aerosol can.

REPLACEMENT NOZZLES - Nozzles can get clogged if you forget to clear them after each spraying session or, if you don't shake well, the pickup tube inside the can gets plugged. We have three nozzles that solve these problems. Replace clogged nozzles with either of these two options: **Replacement Nozzle B, Round Pattern** provides a broad, round pattern; **Fan Pattern Replacement Nozzle** provides a narrow, verticle pattern, similar to professional spray guns. **Clean Out Nozzle** - Lets full pressure blow through a plugged pickup tube to clean it out. Once clear, install a Replacement Nozzle to continue spraying.

SPECS: Pak of 12. Clean Out Nozzle not intended for spraying. These are the correct nozzles for Aluma-Hyde II.

BROWNELLS
FORMULA 44/40®
 Fast, Easy, Wipe-On, Wipe-Off Application
 • Original High-Speed Formula
 • Deep Penetrating

44/40's bluing action is almost magic; simply dampen a patch with **44/40**, wipe it on and wipe it off immediately with a dry one. The coloring action happens instantly and the color penetrates deep into the metal for a long-lasting finish. There's no need to soak or rub for long periods. Just clean and degrease and apply **44/40**.
SPECS: 2 oz. (59 ml).

082-440-002CE 2 oz. 44/40, 6K07H10 \$ 10.65

Cannot ship outside Continental U. S. Ship UPS or FedEx Ground only within U.S.

BROWNELLS
44/40® CREME
 Instant & Aggressive; Stays Where You Want It

Our legendary, deep-penetrating, fast-action cold blue now comes in a stay-put creme that gives you remarkable control for touch-up application. The simple, wipe-on, wipe-off method works great on a wide variety of steels and provides the solid-black coloring you need to match gun bluing. Surface preparation is simple and quick. A life saver around the house and the garage as well; try it on any steel you want to give a blue/black finish.
SPECS: 4 fl. oz. (118 ml).

CREST ULTRASONICS
FIREARMS
CLEANING & LUBRICATING SYSTEM
 Powerfully Removes Gun Powder, Carbon Dirt & Oil
 In Just Minutes; Leaves Entire Firearm Clean & Lubricated

A real time saver for the busy shop or department armorer with lots of guns to clean. Advanced technology uses a combination of heated cleaning solution and ultrasonic frequency vibrations to "scrub" firearms clean, providing a quick and easy alternative to hand cleaning. Exclusive **Tru-Sweep™** frequency sweeping penetrates and cleans even the smallest crevices leaving heavily-fouled, field-stripped firearms restored to factory new cleanliness and ready for lubrication or refinishing. Complete systems with large capacity tanks allow multiple firearms to be cleaned at one time.

F1200HT - Benchtop system simultaneously cleans four handguns or one sub machine gun. Constant power generator with ceramic enhanced transducers produces higher frequencies than was previously possible, resulting in superior contaminant removal while reducing damage to sensitive parts. Complete kit includes adjustable temperature control with on/off switch, stainless steel heated tank, 30 minute timer, rear drain with pinch valve, two full-length heavy duty mesh baskets with handles, lube pan, two tank covers, 1 gallon of cleaner concentrate and 2 gallons of lubricant. Cleans approximately 500 guns per gallon of cleaner.
SPECS: Tank - 316L annealed stainless steel. 19 1/2" (50cm) long, 5 1/2" (14cm) wide, 6" (15cm) high. 2 1/2 gal. (9.5 L) capacity. Current Draw - 8 amps @ 115 VAC. Shipping weight 65 pounds.

NIC INDUSTRIES
CERAKOTE™ CERAMIC COATINGS
 Tough, Durable Coatings
 For Maximum Protection

State-of-the-art, Cerakote™ Firearm Coatings provide a durable, weather- and corrosion-proof, ceramic-based protective finish that resists scratching, chipping, and abrasive cleaning solvents. Hardener and paint chemically bond into an ultra-thin coating that applies onto almost any surface for a clean, professional finish. Apply with your airbrush or HVLP touch-up gun for a smooth finish. Oven bake for 2 hours at 250° for optimal cure or 1 hour at 300° for quick cure. For heat-sensitive materials such as plastics, a 2 hour cure at 200° is adequate. Available in Graphite Black, O.D. Green, Coyote Tan, Stainless, and Sniper Gray.
SPECS: Kit includes 4 fl. oz. (118 ml) Cerakote, .17 fl. oz. (5ml) hardener, 3.4 fl. oz. (100 ml) graduated cylinder, (4) funnel filters, and instructions. Finishes up to 6 handguns or 2 to 3 long guns.

F636HT - Designed for fast turnaround on large volume cleaning - up to 10 handguns or 4 long guns at once. A real time saver for the busy shop or department armorer with lots of guns to clean. Exclusive **Tru-Sweep™**, ultrasonic technology is powerful enough to thoroughly clean heavily-fouled, field-stripped firearms in just minutes; leaves them ready for lubrication or refinishing. For multiple firearm cleaning operations, actual output is increased many times over hand cleaning; parts are restored to a uniform standard of factory new cleanliness. Industrial-quality stainless steel tank includes drip-proof flange, built-in carry handles and full width V-bottom oil pan with anti-splash dampers. Standard 2,000 watt adjustable tank heater plus sound/thermal insulation maintains water temperatures up to 200° F without dead or hot spots for fast, uniform cleaning end to end; lets you vary lube pan, two heavy-duty, weapon racks with five removable compartments, lube pan cover, tank cover, 2 gallons CC235 cleaning concentrate, and 6 gallons of CC400L lubricant; enough to clean and lubricate up to 1,000 guns.
SPECS: Tank - 14 ga. 316L annealed stainless steel, bright finish. 36" (91cm) x 6" (15cm) x 8" (20cm). 5 3/4 gal. (21 L) capacity. Racks (2) and Lube Pan - Stainless steel 35 1/2" (90cm) long, 6" (15cm) wide. Heater-16 amps @ 120 VAC, requires 20 amp dedicated circuit. Generator-8 amps @ 120 VAC. Shipping weight 240 pounds.

NEW BROWNELLS ULTRASONIC CLEANING SOLUTION & OIL

Advanced Formulas
Power Away Dirt & Fouling;
Lubricates, Fights Corrosion

Powerful, fast-acting cleaning and lubricating solutions are specially formulated for today's ultrasonic gun cleaning systems to thoroughly clean, condition, and protect your firearms. Safe for all metal surfaces, including carbon steel, aluminum, titanium, and stainless steel. Won't harm bluing, parkerizing, anodizing, or most paints. Environmentally safe, non-toxic, ammonia-free, and biodegradable with minimal odor, so both products can be safely used right in the shop. **Cleaning Solution** penetrates petroleum-based greases and oils and removes carbon fouling, dirt, grime, and powder residue to leave the metal completely clean. Gets into nooks and crannies for thorough, deep-down, "in the pores" cleaning without completely disassembling firearm. Economical, concentrated formula: mix 1 gallon of solution with 9 gallons of water to produce 10 gallons of cleaner. Water-displacing **Oil** with "Thin Coat" technology drains quickly from parts without puddling and leaves a microscopic layer of long-lasting corrosion protection. Ultra-low friction coefficient helps minimize wear on moving parts for smooth firearm operation and improved reliability.

SPECS: 1 gal. (128 fl. oz./3.8 liters) plastic jug.

L&R HCS-200 ULTRASONIC HANDGUN CLEANING SYSTEM

Gets Dirty Guns Clean In Minutes;
Perfect For Small Shops Or The Hobbyist

Clean and lubricate up to two semi-automatics, or one 6" revolver, in less than 20 minutes with powerful, ultrasonic cleaning action. Billions of tiny, scrubbing bubbles get cleaning solution into the nooks and crannies that are hard to reach by hand. Field strip the firearm, place it in the wire basket, turn on the Ultrasonic Cleaner and you're free to do other things while the cavitating action gets everything super-clean! An ideal solution for the small shop where only a few firearms need to be cleaned and for hobbyists who want to give their guns a professional cleaning. Also great for cleaning powder residue from empty cases before reloading.

Input: 117V **Dimensions:** 12½"(31.75cm) x 6¾"(17.14cm)
Peak Output: 95 Watts **Tank Dimensions:** 11¾"(29.8cm) x 6"(15.2cm) x 4"(10.2cm) **Tank Capacity:** 4¾ Quarts
Output Frequency: 43 KHz

SPECS: Tanks, lid, auxiliary pan and wire basket are stainless steel. System includes: (1) HCS-200 Ultrasonic Cleaner, (1) Auxiliary pan, (1) Wire basket, (1) lid, (1) Gallon (3.80l) Handgun Lubricating Solution, (2) 8 oz. (0.23kg) Concentrated Handgun Cleaning Solution, (1) pair latex gloves, (1) 0.4 oz. (11.8ml) tube Synthetic Gun Oil, (1) Cleaning Brush, (1) cotton cleaning pad.

NEW Break-Free CLEANING PRODUCTS

Powerful, Effective Cleaning, Lubrication
& Preservation Without The Hard Work

CLP - A super cleaner, lubricant, preservative containing Teflon and other specialized chemicals. Penetrates and displaces corrosion, dirt, firing residue and water better than ordinary solvents. Keeps on working after application as a fantastic lubricant that grit can't adhere to; coated parts actually become self-cleaning. Eliminates solvent cleaning. Guns and parts treated and cleaned with it are never "degreased" - so no chance of rust or corrosion forming. In lab tests, Break-Free removed 98% of all firing residue and withstood over 100 hours in a 5% salt spray test with no evidence of rust or corrosion. Provides lubrication at temperatures from -65° F. to +475° F., without gumming up or breaking down. Can even be used on the contacts of electronic triggers. The ideal single product for cleaning, lubricating and protecting all gun, fishing and shop equipment. Break-Free CLP, manufactured by the Break-Free Division of San/Bar Corp., has been assigned Mil Specification MIL-L-63460.

SPECS: ½ fl. oz. (19 ml) or 4 fl. oz. (118 ml) bottles, 4 oz. (113 g) or 12 oz. (340 g) aerosol, 16 oz. size w/pump sprayer, 1 gallon (128 fl. oz./3.8 L).

#102-100-012CE Break-Free, 12 oz. aerosol, 6K07A76 12.07

#102-100-128CE Break-Free, 1 Gallon Jug 6K62Y15 96.67

Cannot ship outside Continental U.S. Shipped UPS or FedEx Ground only within U.S.

LP - Lubricant and preservative prevents corrosion and gives smooth, consistent cycling of autoloading weapons. Originally developed to keep heavy automatic weapons functioning during sustained fire. Won't break down under high temperature and pressure. Reduces friction and prevents galling on stainless steel. Penetrates firing residue to stop fouling build-up, inhibits rust and corrosion.

SPECS: 4 fl. (118 ml) bottle.

#102-000-001CE Break-Free LP, 6K05A28 \$8.21

BORE CLEANING FOAM - Effective, non-toxic, bore cleaner chemically breaks down copper, brass, powder and more from your bore with the push of a button. Just insert the tube into the chamber, spray the aerosol cleaner, and let your barrel sit for 15 minutes. Thick foam expands to fill the inside of the bore for maximum surface contact. Plus, the cleaner leaves a protective film to decrease future fouling each time you use it.

SPECS: 3.06 fl. oz. (90.5 mL) aerosol can.

#102-000-005CE Bore Cleaning Foam, 6K07A45 \$11.58

Cannot ship outside Continental U.S. Shipped UPS or FedEx Ground only within U.S.

BREAK-FREE CLOTH - Cotton-flannel cloth treated with CLP provides a handy, final wipe down for all firearms. Removes rust-causing fingerprints. Provides a weather-proof shield against corrosion.

SPECS: Cotton-flannel cloth, 12" (30cm) x 12".

#102-000-002CE Break-Free Cloth, 6K03A11 \$4.84

WEAPON WIPES - Non-woven, absorbent cloth wipes are presaturated with CLP for fast, effective, one-step cleaning, lubrication, and corrosion protection. Great on knives, fishing gear, and outdoor equipment. 20 tear-off wipes per snap-closure container. Exceeds MIL-L-63460.

SPECS: 20 wipes, 6.75" (17.1cm) x 3" (7.6cm).

#102-000-006CE Weapon Wipes, 6K03A10 \$4.82

NEW PANTHEON CHEMICAL M-PRO 7® PRODUCTS

Technologically-Advanced Formulas
Give High-Performance Results

A great selection of military-grade gun care products to completely clean, lubricate, and protect your entire gun.

M-PRO 7 GUN CLEANER - Gets gun bores squeaky clean and shining but is harmless to all metal surfaces, including titanium, aluminum and stainless steel. Actually breaks down carbon so copper and lead fouling float free; completely odorless, non-flammable, non-toxic, biodegradable and environmentally safe to use. Penetrates hydrocarbon-based greases, oils (will remove oil-based stock finishes) and gun powder residues; strips the metal completely clean with no oily feel. Heat and agitation will accelerate the cleaning action. Can be used as a tank solvent. Not a lubricant.

SPECS: 4 fl. oz. (118 ml), 8 fl. oz. (237 ml) pump spray bottle, 32 fl. oz. (939 mL), spray bottle, 1 gal. (128 fl. oz./3.8 L) bottle, or 5 gal. (18.9 L) container.

GSA **BROWNELLS J-B®**
NON-EMBEDDING
BORE CLEANING COMPOUND

Cuts Through The Toughest Bullet Jacket & Powder Fouling

J-B has been getting burned-on, caked-in powder residue and copper jacket fouling out of gun barrels since the 1960's, and hasn't damaged an inch of rifling yet. Today, J-B once again proves itself a champion by easily cleaning the dirtiest, moly-fouled barrels.

A unique combination of ingredients and a one-of-kind, multi-step mixing process give J-B its special characteristics. They work together to cushion the abrasive action; the soft paste liquifies as you use it, then wipes out of the bore easily. The non-embedding feature means there's no residue left behind to keep "cutting" after you've finished cleaning.

SPECS: 2 oz. (57 g) net contents jar, or 1/4 oz. (7 g) net contents jar. Carton contains 12, 2 oz. jars.

- #083-065-025CE 1/4 oz. J-B Compound, 3H02Y64 \$ 3.96

GSA **BROWNELLS**
J-B® BORE BRIGHT™
The Final Finish For Your Barrel,
Improves Accuracy,
Reduces Cleaning Effort

A micro-fine bore cleaning and finishing compound that works as both a cleaner and a final polish to help keep barrels free of fouling and shooting their absolute best. Regular use gives your barrel a mirror-like finish that helps prevent the build-up of accuracy robbing copper fouling, plus greatly reduces cleaning effort. Clean your barrel as you normally would, then after cleaning with J-B Compound, follow with J-B Bore Bright to achieve a super clean, final polish. At the range, regular use of J-B Bore Bright between strings of fire minimizes the accumulation of jacket fouling to help maintain consistent accuracy. As a bore cleaner, the soft, oil-paste formula liquifies as you use it to quickly remove fouling, copper, lead, and powder residue in rifles and handguns, plus plastic deposits in shotgun bores. Because J-B Bore Bright is absolutely non-embedding it wipes easily from the barrel with a dry patch. You never need to worry about Bore Bright harming your barrel.

- SPECS: 2 oz. (57 g) jar. Carton contains 12, 2 oz. jars.
- #083-065-100CE 2 oz. J-B Bore Bright, 3H07Y45 \$ 12.20

FRICION DEFENSE®
GUN CLEANING PRODUCTS

The Latest Technology For
The Most Effective Gun Cleaning & Maintenance

FRICION DEFENSE GUN OIL - This superb, synthetic oil works on all firearms: full-auto, semi-auto, single-shot, pistols, rifles, and shotguns. It contains not one, but two of the finest lubricants available - Teflon and Moly (molybdenum disulfide) - and lubricates effectively from -75° F to +425° F. Unique heat transfer properties actually pull heat away from friction points, and extreme pressure additives keep Friction Defense on the parts, even in the hardest cycling semi-auto pistols and rifles, including full-auto military weapons. We call it "slicky." You can feel the slick lubrication, plus the sticky quality that helps Friction Defense Gun Oil stay on metal parts between cleanings. As the gun cycles, some of the moly actually gets worked into the pores of the metal for long-lasting lubrication. Water displacing additives help prevent rust from moisture and fingerprints. Available in three convenient sizes. Two larger sizes in flip open, dropper-top bottles that help you get just the amount you want, where you want it, and a tiny 1/4 oz. squeeze bottle for easy transport.

- SPECS: 1/4 oz. (7.4 ml), 2 oz. (59ml) or 4 oz. (118ml) bottle.
- #083-000-025CE 1/4 oz. Friction Def. Oil 3H01B99 . . . \$ 4.99

FRICION DEFENSE WAD SOLVENT - So strong it has to come in a glass bottle because it softens wad fouling by breaking down the plastic base material, while it also attacks powder fouling. A real time saver for removing burned-in wad residue from the little ports of barrels and choke tubes. Evaporates slowly so you can douse the barrel and let it sit for a bit to get the maximum dissolving action. Caution: May remove some stock finishes.

- SPECS: 4 oz. (118 ml) bottle.
- #083-000-024CE 4 oz. FD Wad Solvent 6K07B71 \$ 9.97

GSA **BROWNELLS EZ-SOAK**
Cleans Shotgun Gas Pistons,
Choke Tubes & More

Speeds up the time-consuming, labor-intensive job of cleaning automatic gas piston parts and choke tubes. All you do is soak, rinse, and wipe clean; it only takes 15 minutes or less! Plus, EZ-SOAK makes short work of carbon, copper, powder, and plastic wad fouling. Use it on barrels, bores, chambers, cylinder faces, bolt faces, and other hard-to-clean areas. For parts that are too big to fit in the jar to soak, just apply EZ-SOAK to the part with a nylon brush or rag. This is a non-caustic, non-petroleum product and requires thorough application of a rust-preventing oil after use.

- SPECS: 16 fl. oz. (473 mL) glass bottle.
- #083-000-008CE EZ-SOAK 3H11T94 \$ 14.04

BROWNELLS
TCE CLEANER DEGREASER
Powerful Cleaner-Degreaser In A Big Spray Can
Ozone-Safe Replacement
For Trichloroethane

Cuts through grease, wax, gunk, even silicones; lifts them away and dries clean with little to no residue. Extra-large can with low-pressure, high-volume stream - the easiest way to get the cleaning power into recesses and corners with minimum disassembly time. Will damage some stock finishes

GSA **BROWNELLS**
d'Solve™ GUN CLEANER

Dissolves Grime Fast; Non-Hazardous, Biodegradable
Spray-On & Bench-Top Soaking Formulas

Replaces harsh solvents to remove built-up powder residue, carbon, and other crud inside your gun's action and bore, plus sparkles up exterior metal surfaces as well. Brush on to rid actions and chambers of crusted dirt and grime fast. An excellent pre-cleaner for touch-up bluing; cleans tools and equipments, too. Applied with a small brush, it's unsurpassed for cleaning gummed-up checkering and removing caked-on grime from gunstocks. Make sure to oil metal surfaces after cleaning. Non-hazardous, non-flammable, biodegradable, and odor-free - and 100% guaranteed to do the job for you!

- SPECS: 4 oz. (118ml) plastic, pump spray bottle.
- #082-010-004CE d'Solve Gun Cleaner, 5L08V98 \$ 11.24

GUNSMITH'S CLEANING SOLUTION - Concentrated d'Solve formula is perfect as a fast, efficient, economical soak-cleaner for guns and parts. Soak the grimmest parts in a bench tray of d'Solve while you're doing other work on the gun, and they'll come out clean, ready to dry, oil, and assemble. One gallon of concentrate makes five gallons of bench cleaner. Mix it stronger for tougher jobs, lighter for less demanding cleaning operations. A stronger mix removes road tar from finished surfaces and even gets grease and oil stains out of clothes - rub some full-strength d'Solve into the spots before tossing into the wash.

- SPECS: 1 gal. (128 fl. oz./3.8 L) in plastic container or 5 gal. (640 fl. oz./19 L) in bulk container. Includes full instructions.
- #082-010-128CE 1 Gallon d'Solve™ Concentrate, 5L29B80 \$ 42.25

BROWNELLS
RUST PREVENTIVE No. 2™
Neutralizes Fingerprints,
Displaces Moisture, Prevents Rust

The gun oil that's a rust proofer too! Proven in over 40 years of all-weather performance to prevent rust in the worst possible hunting and shooting weather and locations. Definitely not a space age chemical that raises hob with gun finishes and bluing, but a blend of petroleum distillates specially formulated for use on guns, tools and machinery. Penetrates pores to get down under fingerprints and moisture, then leaves an invisible film to protect and lubricate. Unlike general purpose water displacing rust proofers, RP2 won't gum-up in the nooks and crannies. Pints are supplied in a handy, pump spray bottle.

- SPECS: 1 Pint (16 fl. oz./473 ml), Quart (32 fl. oz./946 ml) or Gallon (128 fl. oz./3.8 L)

NEW **BROWNELLS**
RUST VETO

NEW

Powerful Rust Preventer
Does The Job Of Cosmoline®

When the manufacturer of Cosmoline® discontinued the product, we were shocked because we know it the best thing around for protecting guns from rust during long-term storage. Fortunately, we now have a substitute that works every bit as well as the original. Brownells Rust Veto is a soft, medium dark industrial-grade grease with a powerful combination of highly refined petroleum oils and waxes, plus corrosion and oxidation inhibitors, that preserves and protects stored firearms from rust and corrosion for years. The application and effectiveness of Rust Veto are the same as Cosmoline. It liquefies when heated to 140°-170° F., so you can immerse parts for complete penetration and coverage of intricate shapes and recesses. Melted Rust Veto can also be brushed or swabbed into/onto the metal to be protected.

- SPECS: Available in 1 lb. (16 oz./.45kg) or 4 lb. (64 oz./1.8kg) cans.
- #083-000-034CE Brownells Rust Veto, 1 lb., 3H11Z56 \$ 14.45
 - #083-000-035CE Brownells Rust Veto, 4 lb. 3H27Z95 . . . 34.95

GSA **BROWNELLS ACTION LUBE PLUS®**
Slicks Up & Protects
A Lot More Than Just Triggers

A small amount applied to the face of sears and triggers dramatically decreases pull weight and smooths trigger feel. On high friction points, just a dab eliminates wear and helps assure reliable functioning. Synthetic-based, semi-solid lube actually exceeds the mil spec of standard, moly grease.

- SPECS: 2 oz. (56 g) net wt.
- #083-050-002CE Action Lube Plus 5L11T49 \$ 14.99

GSA **BROWNELLS ACTION MAGIC II®**
Increased Lubricity For All Moving
Metal Parts; Dry Formula Will Not Trap
Water, Dust, Sand Or Contaminants

Not a quick-spray, "wonder oil," but a two-step, lubrication treatment with a natural affinity for metal that bonds to any metal surface at the molecular level. Easy-to-apply, use AM II inside bores, on semi-auto pistol slides, frames, triggers and sears, rifle bolts and raceways to greatly reduce friction, wear and fouling accumulation.

- SPECS: Kit contains 5/8 oz. (18 ml) liquid and 1/2 oz. (14 g) wt. dry powder in convenient needle oiler bottles and instructions.

RATCHET CHAMBER BRUSH

Proven Military Design For Cleaning Semi-Auto Rifles

Offset, ratchet design gives easier, more thorough chamber cleaning for any semi-auto rifle with a closed-end receiver. Premium-quality, bronze wire, twisted steel loops; soldered at the tip for extra strength.
SPECS: Plastic ratchet, bronze wire. 4" (10cm) long. Fits .308 chambers only.

- 084-140-486CE Ratchet Chamber Brush, 4H04D91** \$ 6.32

BROWNELLS
M60 RECEIVER BRUSH

Square Profile Gets Into The Tight Spots

Ultra-fine, steel bristles in a unique, square shape get into tight corners to remove stubborn receiver fouling fast, without damaging the firearm. Originally designed for the M60 machine gun; works equally well to scrub out baked-on carbon deposits from inside AR-15 and other firearm receivers. Heavy-duty, looped and wound, steel shank provides extra strength and rigidity. Threaded brass coupling won't mar lightweight, aluminum receivers.
SPECS: 8-32 thread. Bristles - 3" (7.6cm) long, 1" (2.5cm) wide. 4 1/2" (11.4cm) overall length.

- 084-000-128CE M60 Receiver Brush, 2A09U56** \$ 11.95

RECORD BOOK

Revised To Include The Latest Information About NICS

Required by every business that buys or sells firearms. And, now updated with the latest information about the National Instant Criminal Background Check System (NICS). Describes specifically how to enroll in and comply with NICS, plus gives a correct, permanent record of all purchases and sales of firearms as required under the Gun Control Act of 1968. The format used has been approved by the Bureau of Alcohol, Tobacco and Firearms of the U.S. Department of the Treasury. The book contains 48 pages; has 440 entry lines; and a reprint of ATF P 5300.15 (1/89) detailing FFL rules and regulations; plus a guide, with examples, to filling out the record entries correctly. Punched for any 2 or 3 hole, or post binder.
SPECS: 48 pages. 8 1/2" (21.6cm) x 11" (27.9cm).

BUSHMASTER AR-15/M16 CARBON 15 FLATTOP UPPER RECEIVER ASSEMBLY

Lightweight, Tough Aerospace Composite; Build A Fast-Handling Tactical Carbine

Low-profile, flattop upper receiver made from carbon fiber reinforced polymer composite keeps weight to a minimum. Originally developed for the aerospace industry, this chemical- and heat-resistant composite is as strong as milled aluminum. Machined aluminum Picatinny-style rail gives maximum accessory-mounting flexibility. M4-profile, 16" chrome-lined barrel is button rifled with 1:9" right-hand twist for optimal accuracy with a wide variety of commercial .223/5.56mm ammunition. Includes A2 front sight with square, elevation-adjustable post, bayonet lug, and front sling swivel. High-quality Bushmaster bolt and carrier fit receiver precisely to ensure smooth, reliable cycling. Bushmaster's "Izzy" compensator diverts gases through three longitudinal gas ports to minimize muzzle flash and help control muzzle rise; closed bottom prevents kicking up dust during prone shooting. Steel components are manganese phosphate parkerized with a uniform matte black finish. Charging handle is precision machined from 7075 T6 aluminum forging and hardcoat anodized matte black to match other components. Military type carbine-length ribbed handguard included. **SPECS:** Receiver - Carbon fiber reinforced polymer, black. Barrel, Bolt/Carrier, Front Sight - Steel, parkerized, matte black. Charging Handle - 7075 T6 aluminum. Handguard - Plastic, black. **#100-003-602CE Carbon 15 Receiver, 9B00VBX... \$ 645.00**

CMMG AR-15 MOD4SA LOWER RECEIVER

Stripped Or Fully Assembled With Precision Trigger Group & Ambi Safety

Rugged, semi-auto receiver made from a high-quality forging is built to handle the hard use and abuse of tactical and competitive shooting. Forged from 7075 T6 aluminum alloy, for an extra margin of strength

and rigidity over standard 6061 alloy receivers, before precision machining to final mil-spec dimensions. Hardcoat anodized for added strength, then Teflon® coated for outstanding resistance to scuffs, scratches, surface abrasion, and discoloration from gun oils. Available as a **Stripped** lower receiver ready for a full custom build, or **Complete** and fully assembled with pistol grip, ambi safety, and trigger group. CMMG's engineers designed custom fixtures for final grinding of 10 separate contact surfaces on the trigger, disconnector, and hammer to ensure a crisp, precise release. Proprietary bronze bushings on trigger and hammer pins reduce friction for a consistent, ultra-smooth pull and exceptionally fast locktime. Rounded, low-mass hammer further speeds locktime and reduces wear on contact surfaces. Trigger is function tested before lower leaves factory; compatible with .22 LR conversions. Receiver also includes bolt release lever, mag release button, aluminum trigger guard, and A2 pistol grip already installed. A2-style pistol grip of nearly indestructible polymer has molded-in checkering for a secure grip and is impervious to humidity, temperature extremes, and most cleaning chemicals and lubricants. **SPECS:** Receiver - Forged 7075 T6 aluminum, hardcoat anodized, Teflon coated, matte black. ".223/5.56mm" stamped on side of magwell. Pistol Grip - High-impact polymer, black. ".154" hammer/trigger pin holes. ".250" pivot pin holes. **FFL required for purchase.** **#100-004-098CE MOD4SA AR-15 Lower Receiver, Complete 3B00TPU... \$ 359.95** **#100-004-106CE MOD4SA AR-15 Lower Receiver, Stripped 3B113V43... 139.99**

CMMG AR-15/M16 GAS PISTON CONVERSION KIT

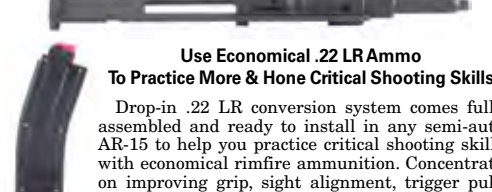

Makes Rifle Run Cooler, Cleaner, Smoother For Improved Function, Reduced Recoil & Less Frequent Cleaning

Drop-in conversion kit contains everything you need to replace the standard gas system on your AR-15 carbine with a reliable, positive cycling direct impingement gas piston system. Updates your AR to the type of operating system used on advanced weapons like the FN SCAR, Heckler & Koch G36, and HK416, as well as the highly reliable, classic FAL and AK-series rifles. Makes your gun run cooler, smoother, and more reliably, with less wear and easier maintenance. Because the gas no longer vents inside the receiver, fouling and carbon buildup are greatly reduced, making maintenance easier with less frequent disassembly of the receiver for cleaning. Less fouling and lower operating temperatures mean substantially reduced wear on bolt, carrier, and receiver interior for fewer malfunctions caused by worn parts. The cushioning effect of the piston reduces felt recoil to help you stay on target for fast, more accurate follow-up shots. "Straight-line" design of the replacement gas block further ensures reliable operation by venting gas pressure directly on the operating rod. Rod transmits the force directly to a lug on the top side of the one-piece bolt carrier redesigned specifically to work with the piston system. Carrier and lug are machined from a solid billet of steel to eliminate breakage that can occur with a standard carrier modified for use with a gas piston system. Requires no permanent alterations to barrel or upper receiver. You can remove the piston system any time and reinstall the original parts. **SPECS:** Piston Tube, Bolt Carrier, Handguard Retainer Cap - Steel, black oxide finish. Piston - Stainless steel. Gas Block - Aluminum, hardcoat anodized, matte black. Handguard - Reinforced polymer composite, black. Kit contains preassembled piston assembly, gas block, bolt carrier, handguard, handguard retainer, mounting hardware, and installation instructions. Fits rifles with carbine-length gas system only. Gunsmith installation recommended. **#100-003-961CE AR-15/M16 Gas Piston Upgrade Kit, 3B435X00... \$ 450.00**

CMMG AR-15/M16 .22 LR CONVERSION KIT

Use Economical .22 LR Ammo To Practice More & Hone Critical Shooting Skills

Drop-in .22 LR conversion system comes fully assembled and ready to install in any semi-auto AR-15 to help you practice critical shooting skills with economical rimfire ammunition. Concentrate on improving grip, sight alignment, trigger pull, and other skills without burning up expensive, centerfire ammo. Installs in seconds and requires no gunsmithing or permanent alterations to your rifle. Uses your gun's factory upper receiver, barrel, fire control system, buffer, and spring. Simply replace the bolt and carrier with the conversion unit, load up the included magazine with high-velocity round-nose .22 LR ammo, and you're ready to shoot. Precision machined from high-grade steel to the highest standards of workmanship for proper function in any mil-spec .223/5.56mm rifle or carbine. Every unit is test fired by the manufacturer before leaving the factory to ensure correct fit and function. Comes with one 26-round or one 10-round full-body magazine; conversion unit also available alone, without mag. Magazines molded from impact-resistant, "smoke" gray translucent polycarbonate that lets you see how many rounds are in the mag. Self-lubricating anti-tilt follower and constant-force spring help ensure reliable feeding. Follow-

BROWNELLS AR-15/M16 LOW-PROFILE GAS BLOCK

Lightweight, Minimal Profile To Fit Under Tactical Handguards & Free-Float Tubes

Low-profile gas block fits under just about any extended handguard while ensuring proper gas flow to keep your rifle cycling reliably. Precision machined from lightweight, yet tough 6061 T6 aluminum, so it weighs less than one ounce and won't add unwanted forward weight to rifles equipped with handguard-mounted accessories. Slide over the barrel and anchor in position by tightening the three, flush-mounted steel hex screws on the underside to ensure it won't shift even under sustained full-auto fire. For installations where the gas block is exposed, rounded edges give a "melted" profile that won't snag on foliage or other gear. Hardcoat anodized for additional strength and resistance to surface wear; matte black finish blends with most factory gun finishes. **SPECS:** 6061 T6 aluminum, hardcoat anodized, matte black. 1.25" (3.2cm) long. 1.35" (3.4cm) overall height. .8 oz. (23g) weight. Fits M16A2/A3/A4-style rifle or M4-style carbine with .750" O.D. barrel at gas block mounting position. Includes (3) hex-head setscrews and instructions. **#800-000-528CE Low-Profile Gas Block 8K24Z95... \$ 34.95**

DREADNAUGHT INDUSTRIES AR-15/M16 F2 COMPENSATOR

Reduce Muzzle Climb & Stay On Target

Three large expansion chambers, asymmetric baffles along with four unique top ports redirect muzzle gases to reduce muzzle rise and allow you to stay on target. CNC machined from 416-series stainless steel and black oxide coated for durability. Fits 5.56 NATO (.223) caliber, ½"-28 tpi threaded barrels only. **SPECS:** Stainless steel, matte black. For 5.56 NATO (.223) caliber. ½"-28 tpi. 3" (76mm) long x 1" (2.5cm) dia. 4.1 oz. (116g) weight. **#100-003-655CE F2 Compensator 7B74P95... \$ 99.95**

er also acts as a bolt stop after last round is fired. Additional magazines available separately, including short-body 15-round magazines that are same size as most .223/5.56mm 20-round magazines for shooters who prefer a shorter magazine. **SPECS:** Receiver Insert - Steel, Parkerized, matte black finish. Designed for high-velocity, round nose .22 LR ammunition only. For semi-auto AR-15 rifles and carbines only. Magazine - Injection-molded polycarbonate, Smoke. 26- or 10-round capacity. Additional 26-round magazines available in Smoke, Black, and Clear; additional 10-round magazines in Smoke only; 15-round magazine available in Smoke and Black.

NEW PRACTICAL SOLUTIONS AR-15/M16
CARLSON FLASH .223

COMPENSATOR
Directs Gases Upwards
To Counteract Muzzle Rise
& Help You Stay On Target

Machined steel compensator employs a simple, open-topped design that directs combustion gases upward to virtually eliminate muzzle rise and felt recoil. Allows fast, accurate follow-up shots in semi-auto mode and superb control in full auto. Based on an original design by Greg Carlson, a dedicated Class 3 shooter, for use on machine pistols, the Flash .223 is exceptionally effective on carbines and short-barreled AR-15/M16 rifles. Two large, longitudinal ports vent gas upward at roughly 45° angles to counteract upward force on the muzzle without directing concussion and noise back at the shooter, so a rifle equipped with the Flash .223 is no louder than one with a standard A2 flash hider. Solid bottom prevents kicking up dust signature when shooting prone. **SPECS:** Steel, Parkerized, matte black. 2" (5.1cm) long, .906" (2.3cm) O.D. Fits AR-15/M16 rifles and carbines in .223/5.56mm with 1/2-28 tpi threaded muzzle. **#100-004-043CE Carlson Flash .223 Comp 3B47Z95 \$ 60.00**

NEW CMMG AR-15/M16
DROP-IN ADJUSTABLE TRIGGER

Easy-To-Install, Two-Stage
Trigger For A Precise,
Match-Grade Pull

Drop-in, two-stage trigger/hammer system requires no gunsmithing to give you small-pin AR-15 a rugged, reliable trigger with a smooth, consistent pull. Ready to install as-is, straight from the package, or add two optional set-screws (included) that let you adjust takeup and overtravel for a precise, match-grade pull. Setscrews are accessible from above for adjustment, and can be installed after the trigger is installed in the receiver. Grinding fixtures custom designed by CMMG engineers are used for final grinding of 10 separate contact surfaces on the trigger, disconnect, and hammer for a crisp, precise, consistent hammer release. Bronze bushings reduce friction to help ensure an ultra-smooth pull and exceptionally fast locktime. Rounded, low-mass hammer further speeds locktime and reduces wear on contact surfaces. Each trigger is function tested before it leaves the factory to ensure correct operation. Standard-weight trigger and hammer springs included; will work with aftermarket reduced-power springs. **SPECS:** Steel, black oxide finish. Brass bushings. Kit includes pre-assembled trigger/sear unit, hammer, trigger spring, hammer spring, (2) adjustment screws, hex wrench, thread locking compound, and instructions. Fits AR-15 with .154" trigger and hammer pins. **#100-003-469CE Adj. Two-Stage Trigger 3B139A95 \$ 169.95**

NEW AFM AR-15/M16
HEAVY DUTY EXTRACTOR SPRING

For Positive, Consistent Extraction
Even On Carbines & SBRs

Extra-strong extractor spring increases extractor's grip on case groove and helps ensure reliable, complete extraction. Especially effective for improving reliability of an AR-15 style carbine, pistol, or short barreled rifle (SBR) where a weak extractor spring can cause extractor lift, leading to failure to fully extract the spent case before the fresh round is fed from the magazine, resulting in a stoppage. Heavy-grade, high-quality spring steel and a proprietary heat-treating process ensure long service life with less weakening over time than ordinary springs. **SPECS:** Tempered spring steel. Fits all AR-15/M16/M4-style rifles, carbines, and pistols. **#100-004-041CE Heavy Duty Ext. Spring 2C02Z79. . \$ 3.95**

NEW VLTOR AR-15/M16
BASIC CARBINE MODSTOCK

Body-Armor Friendly
Tactical Stock With
Detachable Cheek Supports
For Superior Cheekweld

Rugged, tactical carbine stock combines ergonomic benefits from other Modstock models with the simplicity and traditional contours of the standard M4 carbine buttstock. Slightly shorter than M4 stock for easier deployment with body armor or heavy clothing, with a textured buttplate that angles forward more at the toe to ensure a secure hold in the "ready" and heads-up positions. Two, detachable, full-length storage compartments provide extra support for an exceptionally solid cheekweld to enhance stability and weapon control. Each waterproof compartment holds up to 3 AA or 4 CR123 batteries. Two, molded-in sling loops accept military-style, nylon web slings; socket accepts a quick-detach, push-button swivel for ambidextrous single-point sling attachment. Fits mil-spec (1.14" O.D.) receiver extension tubes only. **SPECS:** Molded polymer, black or dark earth. 6 1/4" (15.9cm) long. Fits mil-spec 1.14" O.D. carbine receiver extension only. Includes buttstock and two (2) detachable storage compartments. **#100-003-992CE Basic Carbine Modstock, Black, 3A79X49 \$ 99.95**
#100-003-993CE Basic Carbine Modstock, Dark Earth, 3A79X49 99.95

NEW WHIDDEN GUNWORKS AR-15/M16
STINGER MONOPOD

For Consistent Accuracy
Without Rear Sandbags

Compact, height adjustable monopod eliminates the need for cumbersome rear sandbags and provides a rock-solid rest for shot-to-shot consistency. Features a 4140 steel, adjustable leg that extends up to 4" vertically for coarse elevation adjustments and a micro-adjustable foot for fine-tuning. Extra long, polycarbonate lever provides plenty of leverage to lock the monopod leg in position. Lightweight, 6061 aluminum buttplate is hardcoat anodized for durability. Large, horizontal serrations provide a non-slip grip against the shoulder. Fits fixed, mil-spec buttstocks on AR-15 and AR-10 rifles (A1 and A2 variants). Includes new bottom mounting screw. Requires use of original top mounting screw. **SPECS:** 6061 aluminum buttplate, 4140 steel leg and foot, polycarbonate lever, black, matte finish. 5 7/16" (13.2cm) long, 1 3/8" (4.1cm) wide, 5/8" (1.6cm) thick. 10.2 oz. (289g) weight. Fits mil-spec fixed buttstock on AR-15 and AR-10 rifles (A1 and A2). **#100-004-038CE Stinger Monopod 3B109Z49. \$ 134.95**

NEW MAKO AR-15/M16
T-GRIP VERTICAL FOREND GRIP

Allows Mounting Of Light

Improves weapon pointability and recoil control and allows mounting of a handheld flashlight for use as a weaponlight. Grip is narrow at the top, with a comfortable palm swell, finger grooves, and stippled texturing for a solid and comfortable grasp. Trapdoor in bottom allows access to storage compartment. Screw-tightened collar securely retains any handheld flashlight with a 1" diameter body for weapon-mounted illumination. For an added tactical advantage, a convenient trigger mechanism operates most push-button end cap switches, so the operator can activate the light without breaking grip. Master on/off switch locks out the trigger to prevent accidental activation. T-Grip clamps securely to any Picatinny or Weaver-style rail; quick-release pushbutton lock allows fast installation and removal. Includes an additional locking bolt for extra-secure mounting. Molded polymer composite

NEW TANGODOWN AR-15/M16
QUICK DETACH BATTLEGRIP™

Rock-Solid Vertical Grip
With Patented Quick-Release Lever

Adds quick-detach locking system to the original, combat-tested Battlegrip. As rock-solid as the original mounting interface, yet releases with the flick of a finger. Patented design will not work loose under stress or heavy recoil—the more force acting on the lever, the tighter it locks. Depress the release tab to swing the lever open, and the grip easily detaches from the rail. Adjustable with a flathead screwdriver or even a coin for an ultra-secure, no-slip fit on Picatinny and Weaver-style rails, including over- or under-sized commercial rails. Lever may be configured to lock to the front or the rear to suit the operator's preference. Grip body of tough, injection-molded fiberglass-reinforced polymer resin stands up to the harshest operating environments, even mounting on a belt-fed 7.62mm SAW. **SPECS:** Injection-molded, fiberglass-reinforced polymer resin grip, black, dark earth, or foliage green. Aluminum and steel locking mechanism, matte black. **Standard - 4 3/4" (11.2cm) long. Stubby - 3 3/8" (8.6cm) long.**

NEW LANCER SYSTEMS AR-15/M16
L5 POLYMER MAGAZINES

Rugged See-Through Polymer Body Lets You
See How Many Rounds Are Available

Cartridges
not included

Full-capacity, 30-round magazine features a translucent polymer body with molded-in 20- and 30-round-count markers to give the operator instant visual feedback on ammo status. Makes pre- and post-combat ammo checks easy; improve training safety and range efficiency. Tough, lightweight molded polymer stands up to rough handling and extreme conditions of tactical operations, including heat and impact of sustained full-auto fire. Tested to withstand temperature extremes of -50° F to +180° F and 5-foot drop, fully loaded, to hard concrete surface without impairment of function. Impervious to cleaning solvents, oils, and many other chemicals. Non-reflective exterior has molded-in ridges that enhance structural strength and provide a solid grasping surface for inserting and removing from weapon. Drops free from mil-spec magwells, and can be inserted into weapon with bolt closed and a full 30 rounds loaded. Fits mag pouches designed for standard USGI-spec magazines. Constant-radius curve of the body helps ensure smooth, snag-free follower/spring operation and consistent movement of the round stack for reliable feeding. Feed lips are hardened steel inserts with a corrosion-resistant PTFE coating that also promotes smooth ammo movement. Lips will not deform when the magazine is stored fully loaded over a long period of time, even in an extremely hot environment like a locked vehicle. Hard polymer base plate has a rubberized exterior to provide a positive gripping surface for extracting mag from tight-fitting pouches and secure seating in weapon. Prevents damage when mag is ejected on a hard surface, and removes easily for cleaning. **SPECS:** Molded polymer, translucent smoke gray. Fits AR-15/M16/M4 and clones chambered for .223/5.56mm. 30-round capacity. **#100-004-105CE L5 Translucent 30-Rd Mag 1C18V99 \$ 25.00**

construction stands up to hard tactical operations. **SPECS:** Reinforced polymer composite, black. Grip height approximately 3 7/8" (9.8cm). 5 5/8" (14.3cm) O.A.L., 1 1/2" (3.8cm) wide. **#100-003-846CE T-Grip Vertical Foregrip 2B69C95 \$ 89.95**

NEW FUSIL USA AR-15/M16
30-ROUND STEEL MAGAZINE

All-Steel Construction With Robust
One-Piece Body To Handle Extreme
Tactical Conditions

Newly designed, 30-round magazine features a strong one-piece steel body built to handle the roughest combat and tactical operations. Precision manufactured to ISO 9001:2000 quality management standards to exceed DoD specs for USGI magazines. Advanced features include a tilt-resistant steel follower and stainless steel spring that ensure even pressure on the round stack for smooth, jam-free feeding. Two-part floorplate with integral lanyard loop removes easily without tools for cleaning and maintenance; floorplate and follower are designed so they can't be reinstalled the wrong way. Fits minimum-dimension magwells and guaranteed to drop free from mil-spec magwells under its own weight, even when empty. Fits any mag pouch designed to hold standard USGI-spec magazines. Body is precision formed on an 18-stage progressive die system from a single piece of .021" thick 1050 sheet steel and robotically MIG welded for strength and dimensional consistency. Crush resistant to 1,000 lbs. (500 lbs. side load) fully loaded, and impact tested to withstand dropping 1.5m onto a flat concrete surface. Function tested to ensure operation at temperatures from -67° F to +329° F. Body is nitride heat-treated to Rc 60 surface hardness, then pickled to remove the oxide layer before application of the heavy duty manganese phosphate Parkerized finish (MIL-DTL-16232G Type M) for maximum abrasion resistance. After nitride hardening, follower, floorplate, and retainer receive a dry-lube-impregnated powder coating to aid in smooth follower movement. Both finishes resist continuous salt fog exposure for 96 hours without developing corrosion, and also resist bore cleaners, solvents, oils, gasoline, diesel fuel, hydraulic fluid, insect repellents (including DEET), and other harsh chemicals likely to be encountered in a military environment. **SPECS:** 1050 steel, Parkerized/powder coated, matte dark gray, with 17-7 stainless steel spring. 5.8 oz. (165g) weight empty. Fits AR-15/M16/M4 and clones chambered for .223/5.56mm. 30-round capacity. **#100-004-151CE 30-Round Steel Magazine, 3Z24H95 \$ 29.95**

NEW MAKO
**TACTICAL RIFLE
MAGAZINE COUPLER**

Clamps A Spare Mag To The One
In The Gun For Ultra-Fast Mag Changes

Magazines
not included

Lightweight, minimal-profile coupling system securely clamps two tactical rifle magazines together so the backup mag is right next to the one in the gun for exceptionally fast mag changes under stress. Universal design works with mags for a variety of .223/5.56mm and 7.62 x 39 weapons, including AR-15/M16, AK-47, Galil, H&K 93, Ruger® Mini 14®, and SIG 556. Durable, reinforced molded polymer clamps resist the rigors of tactical operations, including heat, cold, and impact, while steel bolts provide tensioning force for secure, non-slip, rattle-free grasp of the mag body. Smooth surface and rounded edges prevent snagging on BDUs, sling, foliage, or other gear. Installs in seconds with a standard slot-head screwdriver; no permanent alterations to magazines. Sold in 2-Paks. For an ultra-secure installation, use both couplers on one pair of mags; for less strenuous operations, one clamp may be used. **SPECS:** Reinforced molded polymer composite, black, steel bolts. Fits USGI-style metal AR-15/M16 magazines, AK-47/AKM, Galil 762x39 and 5.54x39, H&K 33/53/93, Ruger Mini 14, and SIG 540/543/550/551/552/553/556. Sold in 2 paks. **#100-003-844CE Universal Mag Coupler, 2-pak, 2B09C95 \$ 14.95**

NEW **BROWNELLS CAR-15/M4 FLIP-UP TRITIUM REAR SIGHT**

Fast Deploying Backup Sight For Emergencies In All Light Conditions

Rugged flip-up sight features self-illuminating, Trijicon® Tritium inserts that glow in low light to help you quickly align the sight with a Tritium front sight post in all light conditions. Provides instant backup when primary sight fails, with a versatile .108" diameter aperture that gives an excellent field of view for both short- and long-range targets. Regulates with mil-spec A2 carbine front sight or same-height aftermarket sight—perfect for co-witnessing with non-magnifying red dot and holographic optical sights. A2 windage knob provides precise ½ MOA adjustment. Deep grooves on the sides ensure positive grip for quick deployment, while ball detent lock resists accidental folding down during strenuous maneuvers. Clean, low profile design won't snag on other gear when folded down. Robust cross-bolt with oversized, slotted hex nut locks clamping block tightly to Picatinny receiver rail for zero sight movement. Precision machined from hardcoat anodized 6061 T6 aluminum and heat-treated 4140 steel for repeatable settings and the strength to handle the rigors of combat.

SPECS: 6061 T6 aluminum and 4140 steel, matte black. 1 3/8" (3.5cm) overall length, 1 1/8" (4.8cm) high (extended), 7/8" (2.2cm) high (folded).

#080-000-523CE Tritium Rear Sight 8K79Z95 \$ 99.95

NEW **EGW AR-15/M16 EXTENDARISER 20 MOA FLATTOP MOUNT**

Elevates Optics For Fast Target Acquisition; Extra Length For More Eye Relief

Precision-machined aluminum riser mount adds approximately .600" to height of flattop so primary optics can be positioned higher for a more comfortable, heads-up shooting stance and faster target acquisition. Eliminates the need for extra-high rings in most installations. Top of mount is angled 20 MOA to compensate for added height and minimize effect on point-of-impact. Provides a full 7" of usable mounting length, 1 1/2" more than receiver rail; underside of extension is relieved to provide clearance over handguard. Precision CNC machined from lightweight, 6061 T6 aluminum billet, with MIL-STD 1913 Picatinny slot-and-rail spacing that allows fast and simple adjustment of eye relief, plus greater flexibility in choice of optics. Clamps securely to receiver rail with three heavy duty steel cross-bolts to prevent movement under recoil, and matches receiver profile for a smooth, seamless look. Accepts Picatinny and Weaver-style scope rings.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black. 8.875" (22.5cm) long, 1.125" (2.9cm) wide at base. Adds .600" (1.5cm) to height of flattop at rear, .570" (1.4cm) at front. 7.7 oz. (219g) weight.

#296-000-103CE Ext. Flattop Mnt 6B104D49 \$ 129.95

NEW **TAPCO AK-47 30-ROUND DETACHABLE MAGAZINE**

Reliable, Easy Loading, Hi-Capacity 7.62 x 39mm Mags

Rugged, 7.62 x 39mm AK magazine gives you reliable, 30-round capacity using the latest in magazine technology. Lightweight, one-piece body of reinforced polymer is rust-proof and self-lubricating to ensure smooth, snag-free movement of the follower. Anti-tilt, polycarbonate follower with heavy duty, heat-treated spring provides reliable feeding. Horizontal exterior ribbing allows an easy grasp. Removable steel base plate allows easy disassembly for cleaning. Counts as three parts for compliance with U.S. Code Title 18 Section 922(r) part-source requirements. Available in black, flat dark earth, and O.D. green.

SPECS: Molded polymer, black, flat dark earth, O.D. green. Approximately 9" (22.8cm) high, 2 3/4" (7cm) wide, 1 1/4" (3.2cm) thick. Fits AK-47, holds 30-rounds 7.62 x 39mm.

NEW **SMITH ENTERPRISE M14/M1A SOCOM 16 KIT**

Allow Easy Interchangeability Of Flash Hider & Compensator

Threaded gas lock allows fast interchangeability of the included Vortex flash hider and Compensator so weapon meets changing mission requirements. Vortex flash hider features four, specially angled flutes to reduce muzzle flash and preserve night vision, even during full-auto fire. Dissipates gas and retains unburned powder for increased residual burn. Compensator controls muzzle flip and felt recoil for improved accuracy and fast follow-up shots. Special internal blast chamber with side-facing ports deliver superior gas dispersion to help stabilize the muzzle during periods of sustained fire. Flash hider and compensator are precision machined from 8620 bar stock, then heat-treated to provide a high-strength core and tough outer shell. Gas lock is made from 1144 Stressproof® steel to survive heavy recoil. Height of the gas lock dovetail deck allows the use of standard issue USGI front sights or the Smith Enterprise Match or Close Combat Tritium front sights. Kit installation requires no permanent alterations to rifle.

SPECS: Parkerized, black, matte finish. Gas Lock - 1144 Stressproof® steel. 1 1/8" (3.3cm) long, 1 3/16" (2.1cm) wide, 1 13/16" (4.6cm) high. 5.6 oz (158g) wt. 9/16"-24 tpi O.D. threads. Vortex & Compensator - 8620 steel. 3 3/4" (9.5cm) long x .900" (23mm) dia. 5.6 oz (158g) wt. 9/16"-24 tpi I.D. threads. Fits M14 and M1A. Gas lock wrench recommended for installation.

#851-000-079CE SOCOM 16 Kit 1E229C49 \$ 289.95

NEW **XS SIGHT SYSTEMS AR-15/M16 CSAT COMBAT SIGHT**

Switch From CQB Mode To Long-Range Targeting Without Changing The Aperture

Easy-to-use replacement for standard A2 rear aperture allows the shooter to engage targets at ranges up to 300 yards without changing the aperture, eliminating the need to reposition your head or take hands off weapon. The .095" wide notch at the top of the dual-function aperture face provides point-of-impact zero that lets the operator engage close-range targets with ease by simply shooting to the point of aim like a pistol. Takes the thinking out of the equation for fast, instinctive target acquisition. Use the .070" diameter aperture below the notch for precise long-range target engagement. Flip the CSAT face down to reveal a standard, A2-style .200" diameter peep for close-range only operations. CSAT is easy to zero; even easier to train shooters to use. Zero the notch at 7 yards by aligning the front sight in the notch like a handgun sight, then move back to 100 yards and zero the aperture. Fire test shots sighted through the notch in 5-yard intervals, starting at 10-yards to determine where offset sets in; that's the range where you should transition to the peep hole. Precision machined from steel, with a serrated rear face that minimizes glare, and a dish area around the peep hole that helps the eye acquire the front sight quickly. Adjusts for windage and elevation just like a standard A2 peep. Developed by Paul Howe, combat shooting trainer and retired U.S. Army assault team leader, sniper, and senior instructor.

SPECS: Steel, matte black finish. Fits A2-style AR-15/M16 rear sights.

#006-000-163CE CSAT Combat Rear Sight, 6K24P95 \$ 35.00

NEW **DANIEL DEFENSE AR-15/M16 ONE O'CLOCK OFFSET RAIL**

For Convenient Mounting Of Auxiliary Optics, Lights & Other Accessories

Lightweight, low-profile, rail clamps to handguard side rail to allow easy off-axis mounting of red dot sights in the 1:00 or 11:00 position. Lets operator transition almost instantly from long-range primary optic to non-magnified CQB sight without breaking cheekweild. Viewing tunnel through the mount helps minimize obstruction of operator's view of area around the target. Plenty of other uses, too; clamps to any MIL-STD 1913 Picatinny rail. Install on underside of handguard to position a laser or weaponlight close to vertical forend grip for easy operation of controls with support hand. Precision machined from 6061-T6 aluminum billet, then mil-spec Type III hardcoat anodized for added strength. Side bar and crossbolt locking system ensures secure, zero-movement attachment to primary rail, yet allows removal and reinstallation of backup sight without loss of zero.

SPECS: 6061-T6 aluminum, hardcoat anodized, matte black. 1.2 oz. (34g) weight.

#100-003-943CE One O'Clock Offset Rail 8K35V95. \$ 44.95

NEW **LIBERTY SUPPRESSORS AK-47 PHOENIX FLASH HIDER**

Reduces Muzzle Flash To Preserve Night Vision

Bi-directional, slanted ports along with a tapered bore provide better combustion of gases to reduce muzzle flash and preserve your night vision. CNC machined, external grooves help reduce barrel vibrations for improved bullet stability and accuracy. Flat, rounded, muzzle face prevents catching or snagging muzzle tip during deployment. 2 1/4" length allows a 14 1/2" long barrel meet legal requirements when permanently installed. Wrench flats directly over the internal threads help ensure easy installation.

SPECS: Steel, black, matte finish. Includes washer. Fits AK-47 (7.62 x 39mm). 2 1/4" (5.7cm) long x 7/8" (22mm) diameter. 1.9 oz. (54g) wt. 14"-1 tpi LH thread.

#100-004-079CE Phoenix Flash Hider, 3Z35Y49 \$ 44.95

NEW **MAGLULA RUGER® MINI-14® STRIPLULA™**

Easy, Painless Way To Load Mini-14 Magazines In The Field

Thumb-saving, lightweight magazine loader provides fast, painless, 20-round magazine loading in less than 8 seconds. Accepts 10-round stripper clips or loose rounds for easy loading of 20-round magazines, and is capable of unloading a 20-round magazine in 10 seconds. Ambidextrous, grooved thumb slide provides a non-slip grip for right- or left-hand loading. Constructed of durable, reinforced polymer for dependable operation under extreme field conditions. Designed to load factory Ruger .223 Mini-14 magazines.

SPECS: Polymer, black. 5 7/8" (13.6cm) long, 1 1/8" (2.8cm) wide, 1 1/4" (3.2cm) high. 1.2 oz. (34g) weight. Accepts 10-round stripper clips or loose rounds. Fits factory Ruger .223 Mini-14 magazines. May fit some aftermarket magazines.

NEW **RED, WHITE, & BLUE, LLC. M14/M1A OPERATING ROD**

Restore Full Function & Reliability With New-Manufactured Replacement Op Rod

New-manufactured replacement for a worn, damaged, or bent op rod gets your M14/M1A back into action and running reliably. RWB uses advanced manufacturing technology to build a tough rod that meets and exceeds original USGI specs to provide years of trouble-free service. Hammer-forged from a single piece of high-grade steel barstock, not welded from multiple pieces, then precision CNC machined to original U.S. Military dimensions for a drop-in fit on mil-spec M14s and clones. Heat treated to Rc 42-43, exceeding original military specification (Rc 32-42), for an exceptionally hard, wear-resistant outer surface. Parkerized for added strength and corrosion protection, with a matte black finish to match most military rifle finishes.

SPECS: Steel, Parkerized, matte black. Fits mil-spec M14 and Springfield M1A rifles. Gunsmith fitting may be required on non-mil-spec rifles.

#100-003-825CE M14/M1A Op Rod 7B189X95 \$ 239.95

NEW **MIDWEST INDUSTRIES SIG 556 FOLDING FRONT SIGHT**

Allows Use Of AR-15 Rear Sights On Your Sig; Fits Factory Sight Dovetail

Flip-up front sight deploys fast finger for instant back-up if your Sig 556's primary optics or laser sight fails. Fits factory dovetail on the gas block, and is the correct height to allow use of any Midwest Industries AR-15 flip-up rear sight. Uses standard A2 front sight post to ensure correct sight picture and easy adjustment using an A2 front sight tool. Super-smooth pivot mechanism with sturdy ball-bearing detent locks positively in the raised position and stays locked until you hit the pushbutton release.

SPECS: 6061 T6 aluminum, hardcoat anodized, matte black.

#100-004-065CE Sig 556 Front Sight 2A79Y95 \$ 89.99

NEW SADLAK INDUSTRIES M14/M1A
TACTICAL SCOPE MOUNT

Maximum Support, Superior Strength-To-Weight Ratio

Scope mount keeps the weight down when adding heavy tactical optics to your M14/M1A. Three-point design clamps down solidly, without alteration, to the side receiver ring, charger guide dovetail and receiver mount lug. Precision-cut rail accepts Picatinny and Weaver-style, tactical rings. Open sight channel gives unobstructed view of back-up iron sights. **Titanium Scope Mount** - Made from high quality, hot-forged billet, not a casting. Heat-treated to Rc. 34. Black nitride hardcoat resists abrasion and corrosion. **Aluminum Scope Mount** - Machined from 7075 bar stock aluminum for even less weight than titanium and is hard coat anodized black. **SPECS:** Titanium - Black, nitride finish. Base hardness Rc 34, surface hardness Rc 85. 5 1/16" (13.8cm) long. 1 3/4" (4.4cm) high. Weighs 7.3 oz. (207g). Aluminum - Machined from 7075 aircraft aluminum bar stock. Hard coat anodized, black. 5 1/16" long. 1 3/4" high. Weighs 4.3 oz. (123g). Allen wrenches and complete instructions included.

NEW BERETTA BERETTA 92
FACTORY HIGH CAPACITY MAGAZINES

Dependable, Factory Magazines For Superior Performance

Factory, double stack 9mm magazines prove ultra-reliable during combat and competition. High-tech manufacturing techniques allow seamless construction for snag-free follower movement and smooth insertion into the mag well. Self-lubricating follower and synthetic base pad are injection molded from high-strength polymer for durability. Numbered witness holes on the backside allow easy viewing of remaining ammunition. Built from high carbon, heat-treated steel for maximum strength; includes a high tensile music wire spring that resists memory and won't weaken over time. Removable base pad allows easy cleaning. **15-Round** magazine features a special dark gray, high-lubricity coating for improved reliability in desert environments. Adopted for use by the USMC. **17-Round** comes with an attractive, high-gloss blued finish. **20-Round** magazine available with a blued, matte finish. **SPECS:** Body - Carbon steel, heat treated. Spring - Music wire. Follower/Pad - Polymer, black. **15-Round** - Dark gray, high-lubricity coating. Fits all Model 92's, except Type-M and old Model 92/92S that use a single stack magazine. **17-Round** - Blued, gloss finish. Fits all Model 92 pistols, except Type M and early model 92/92S that use a single stack magazine. **20-Round** - Blued, matte finish. Fits all Model 92 pistols, except Type-M and early model 92/92S that use a single stack magazine, also fits 9mm CX4 Storm carbines that currently accept 92 FS magazine.

NEW NOVAK S&W M&P
LO-MOUNT FIBER OPTIC SIGHTS

Fixed Combat Sights Maximize Available Light For Fast Targeting In All Light Conditions

Low-profile fixed sights for Smith & Wesson M&P pistol use glowing fiber optic rods to help you get on target fast, even in low-light or high-stress situations. Makes maximum use of available light so sights stand out against dark targets and backgrounds. Same height as original factory sights, and cut for drop-in fit to factory dovetails—no milling of slide required. Precision-machined, all-steel construction, with non-glare matte black finish, handles the rigors of tactical operations and daily carry. Sloping tops, rounded corners, and beveled edges won't snag on clothing or holster. Front sights have one red dot and are available in .170" and .190" heights. Rear sights have a green dot on each side of the notch; setscrew allows drift adjustment for windage. Wide, .145" notch aids fast acquisition of front sight. **Standard Rear** - Exceptionally low profile—only .236" above slide at the highest point. Recessed rear face helps draw the eye quickly to the front sight. **X-Model Rear** - Flat, unserrated rear face angles toward the shooter at the top to prevent glare. Raised front edge aids in one-handed slide racking and gives your pistol a uniquely aggressive appearance. **SPECS:** Machined steel, matte black finish, with fiber optic inserts. Fits factory dovetails on S&W M&P pistols; minor fitting may be needed. **Front** - Red insert. .425" (10.8mm) long, .125" (3.2mm) wide. Available in .170" (4.3mm) and .180" (4.6mm) heights. **Std Rear** - Green insert. .905" (2.3cm) long, .750" (1.9cm) wide, .236" (6mm) height above slide. .145" (3.7mm) wide notch. **X-Model Rear** - Green insert. .940" (2.4cm) long, .750" wide, .275" (7mm) height above slide. .145" wide notch.

NEW PSI
TTF ADJUSTABLE FIBER OPTIC SIGHT SET

Easy-To-See Sight Picture In All Light Conditions; Click Adjust For Windage & Elevation; Drop-In Installation

Drop-in replacements for factory front and rear sights use true fiber optic technology to give the shooter maximum sight illumination for easy target acquisition in full daylight or low-light conditions. Models available for Glock, SIG, and Springfield XD pistols. Three-dot system, with two green dots on the rear sight and red dot on the front, helps ensure a fast, accurate, no-fail sight picture in competition or combat shooting. Rear sight click adjusts for windage and elevation using the handy adjustment tool or slot-tip screwdrivers to turn the hardened steel adjustment screws. Bright, white index markings on the top of the sight aid in selecting accurate windage setting. Sleek, practical, low-profile design with chamfered and radiused edges won't snag on clothing or other gear. Precision machined to exact dimensions from solid steel billet for strength and durability. A tapered dovetail helps ensure a solid, secure fit into the existing factory slide cuts to prevent unwanted movement or shifting of zero under recoil. Glock model uses standard screw for attachment of front sight.

SAFARILAND
6005 QUICK-DETACH LEG STRAP

Easy, Fast Attachment & Removal Of 6000-Series Tactical Holsters

Upgraded, replacement leg strap with quick-release buckle allows easy, fast attachment and removal of Safariland's 6000-series tactical holsters without having to remove duty belt. Secure, positive-locking buckle of tough molded-polymer has an extra lock button that must be depressed while squeezing the side prongs to release the buckle. Virtually eliminates the danger of accidentally opening the buckle and dropping the holster. Strap made of the same super-tough nylon webbing as the original strap that came with your holster.

SPECS: Molded polymer, nylon webbing, black. Approx. 1 1/2" (36.8cm) long. Fits Safariland leg-shroud holsters with T-shaped 3-hole screw pattern, including 6004, 6074, 6274, 6304, and 6305.

NEW SIG ARMS
STL-900L TACTICAL WEAPON LIGHT/LASER

Powerful, Dual-Mode Illumination & Precise Aiming Laser

Low-profile combination weapon light and laser sight clamps securely to pistol or rifle accessory rail to provide powerful illumination and precise aiming in any light conditions from daylight to total darkness. High-output LED gives an intensely bright 130 lumens of steady, white light, or optional strobe function for disorienting a perpetrator. Advanced integrated circuits provide "smart" power management to maximize battery life while ensuring a steady, consistent beam. Up to 80 minutes constant light output from one CR123A lithium battery. Laser projects a steady, bright, red aiming dot that's visible even when target is illuminated by the light. Sealed push-button switches on left side of body allow operator to select laser only, steady light only, strobe light only, or laser plus light. Large, easy-to-find, ambidextrous buttons mounted on rear panel give operator instant choice of continuous-on or momentary light operation. Integral, quick-release mount clamps securely to MIL-STD 1913 Picatinny and similar accessory rails. Spring-loaded latch allows temporary installation; lockdown feature may be activated (no tools required) for extra security. Streamlined, high-impact polymer housing and anodized aluminum bezel handle bumps and knobs of rigorous tactical operations. Crystal-clear 4mm thick tempered glass lens ensures a uniform, ultra-clear light beam free of dark spots. Includes hex wrench for adjusting windage and elevation; wrench stores securely on the light/laser body, so it's always available when adjustments are needed. Removable rubber plugs in adjustment ports seal out moisture and dust. **SPECS:** Molded polymer, tempered glass, anodized aluminum, matte black. 3 1/2" (8.9cm) O.A.L., approximately 1 1/2" (3.8cm) wide. Extends 1 1/4" (3.2cm) below rail. 3.7 oz. (104g) weight. (1) CR123 battery and hex wrench included, plus instructions.

- #732-000-445CE **STL-900L Tactical Weapon Light/Laser, 2C209H49** \$ 269.95

SPECS: Steel, matte blue finish. Set includes front and rear sights, adjustment tool, Allen wrench, spare fiber optic rods, and instructions. **Glock** fits Glock 17, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, and 32 pistols. **SIG** fits model 220, 225, 226, and 228 pistols. **SIG/Springfield** fits SIG 229 and Springfield XD (all models).

BURRIS FASTFIRE™ RED DOT REFLEX SIGHT

Fast, Precise Heads-Up Sighting;
Ultra-Robust Design Handles
Magnum-Power Recoil

Shown with Picatinny/
Weaver Mount

Extremely compact and light-weight, yet rugged, red dot sight provides fast, accurate, both-eyes-open sighting on handguns, rifles, and tactical shotguns. Stainless steel and aluminum housing built to handle the recoil of magnum shotgun loads and installed weight under 2 ounces allow mounting on a semi-auto pistol slide. Originally developed for military and law enforcement use, FastFire's panoramic field of view and unlimited eye relief simplify shooting with an unobstructed view of the area around the target for fast target acquisition and precise shot placement. Won't interfere with peripheral vision, so the operator can maintain better situational awareness. Equally effective for sporting applications, including turkey guns, slug guns, muzzleloaders, brush rifles, and bird shotguns. A high-intensity LED projects a 4 MOA red sighting dot on the heads-up display, while a light sensor and integrated control circuitry adjust the dot's brightness to match the light around the target. Coated, dual-layer, optic-quality lens resists scratches and scuffs and is parallax-free to 50 yards. Mild, 1.07x magnification aids in acquiring long-range targets, without compromising close-in effectiveness. Set the point-of-impact with two flush-mounted screws that provide 3° (190" at 100 yards) windage and elevation adjustments using the included scale disc and adjustment tool. Low-profile control switch conveniently positioned on the left side, resists accidental activation and has positive clicks for on/off positions. Powered by one 3-volt CR 2032 lithium battery, included; up to 5-year battery life when used in Battery Saver mode. Comes with a mount that allows installation on most rifles, carbines, shotguns, and handguns that accept MIL-STD 1913 Picatinny and Weaver-style mounts. For other installations, sight and mounts are available separately, listed below.

SPECS: **Sight** - Steel, aluminum, optic-grade glass. 1 3/4" (4.5cm) long, 1" (2.5cm) wide, 1" high. Includes snap-on cover, CR 2032 lithium battery, windage/elevation scale disc and adjustment tool, instructions. **Mounts** - Aluminum, matte black. Mounting screws included.

PICATINNY PROTECTOR MOUNT - Light-weight, aluminum mount with integral, raised "wings" shield and protect the sides and top of your FastFire sight from impact damage during combat or competition. Mount separately or as an effective secondary sight system for fast, both-eyes-open target acquisition during CQB. Mounting platform is contoured for a perfect fit to the FastFire sight and attaches with two, Allen head screws for a rock-solid hold during heavy recoil. Extra-large, steel cross-bolt and clamping bar provide a tight, positive lock on Picatinny and Weaver-style rails. Precision machined and hardcoat anodized for durability.

SPECS: 6061 T6 aluminum, black, matte, anodized finish. 2" (10cm) long, 1 3/8" (3.5cm) wide, 1 1/4" (3.2cm) high. 1.3 oz. (36.8g) weight.
#118-000-016CE **Picatinny Protector Mount**, 8A74P95 . . . \$ 99.95

GG&G B-COMP 30mm RING SYSTEM

Allows Red Dot Sights As Backup Optics

One-piece ring clamps around your existing scope tube and provides a platform for mounting a red dot sight as a backup for close range work. Ambidextrous mounting platform is angled 45° from center and only requires a slight roll of the rifle to acquire a close range target. Top ring strap is secured with four Allen head clamping screws for recoil proof holding power. Removable waterproof battery compartment provides easy access to spare battery. Precision machined from 6061 T6 aluminum and hardcoat anodized for durability. Fits mini red dot sights like the J Point™, the Docter® and the Trijicon RedDot™.

SPECS: 6061 T6 aluminum, black, matte. 30mm I.D. 2 3/4" (6.8cm) long x 1 1/2" (3.8cm) wide. Height from top of platform to centerline of ring is 1" (2.5cm).

BULLDOG ARMS CAMOUFLAGE STENCILS

Apply Perfect, Custom Camo Patterns
On Any Firearm Easily & Affordably

Mistake-proof, pre-cut stencils conform to any contour, so you can paint professional-looking camouflage patterns on any weapon platform. Simply peel and stick the stencils to the contours of your gun and apply your choice of paint type and color. No freehand painting is necessary. **Digital** is based on the current U.S. Military small pixel digital patterns like MARPAT and ACUPAT, and the Canadian CADPAT camouflage scheme. **Extreme Digital** is a digital tiger-stripe pattern with some additional shapes for contrast and blending. **Flectar** is modeled after the original German Flectar pattern and has many small, rounded, irregular shapes mixed with a few large irregular shapes. **GAP** is a simple, modified woodland pattern featuring large, rounded irregular shapes. **DPM Woodland** is patterned after the original British DPM pattern and features large irregular shapes with small branch-like accents.

SPECS: Adhesive-backed vinyl. Each package contains enough templates to paint one long gun or several handguns.

HOWTO BUILD AN AR-15

Produced by Brownells, this easy-to-follow, step-by-step video guide is your ticket to the custom AR-15 you've always wanted. Tim Dillon, Brownells Military/Law Enforcement Manager and a former U.S. Army small arms repair specialist, shows you how to build your own AR with features and accessories that'll help you shoot your best. You don't need to be an expert riflesmith or armorer because Tim walks you through each step in plain English and crystal-clear video. He explains AR-15 models and variations, laws and regulation, specifications, operation, deciding what rifle to build, selecting and ordering parts, tools, step-by-step assembly, function testing,

OTIS PROFESSIONAL PISTOL CLEANING SYSTEM

Pocket-Size Kit Cleans
Duty Pistols & Subguns

Everything you need to clean a duty pistol or submachine gun in standard law enforcement calibers from 9mm to .45, in a handy, pocket-sized case. Non-scratch, plastic-coated Memory Flex cleaning cables with interchangeable handle roll up for storage and allow correct

breach-to-muzzle cleaning without disassembling the weapon. Kit includes 8" (with built-in patch loop), 12", and 20" cables to ensure you have the best length for any weapon. Universal-caliber, woven-cotton patches thoroughly strip crud and gunk from bores and can be repositioned on the brass slotted tip to present fresh cleaning surfaces for six separate passes. Kit also contains heavy-duty 9mm/.357 and .40/.45 bronze bore brushes, Otis O85 Ultra Bore all-in-one cleaner/lubricant/protectant, brass scraper, multi-purpose cleaning brush, and pin punch. Straight and angled picks, fiber optic bore reflector/safety flag, and a NATO rod accessory adapter complete this multi-weapon, all-in-one cleaning system. Each component fits into its own slot in the zippered, soft-side nylon carrying case with exterior loop for attachment to belts up to 2 1/2" wide.

SPECS: Kit includes 9mm & .45 brass brushes; brass patch loop; brass universal tool handle; 1/2 oz. (1.4ml) tube O85 Ultra Bore cleaning solvent/lubricant; ten (10) cotton patches; 8" (20.3cm), 12" (30.5cm), and 20" (50.8cm) plastic-coated, steel cable rods; pin punch; brass scraper; two (2) cleaning picks; nylon multi-purpose brush; fiber optic bore reflector/safety flag; NATO rod adapter; zippered nylon carrying case, black.

HISTORY OF THE M16

A comprehensive, historical record of the design and development of the M16 battle rifle, including the behind-the-scenes politics. Follows the rifle from the beginning, tracing its development and detailing the calibers, accessories, sights, various models and much more. Well-written, eye-witness accounts of the actual events provide a narrative that's hard to put down. A must-have for shooters and collectors alike. Two volume set, available separately.

THE BLACK RIFLE. M16 RETROSPECTIVE - R. Blake Stevens. Edward C. Ezell. 416 pages. 8 3/4" x 11 1/4". Hardbound. Over 441 B&W photographs. Second printing of the original, 1987 1st edition. The standard reference source for anyone interested in researching the complex history of the M16 development.

#158-000-001CE **The Black Rifle 8E49Z49** . . . \$ 59.95

BLACK RIFLE II. THE M16 INTO THE 21ST CENTURY - Christopher R. Bartocci. 408 pages. 8 3/4" x 11 1/4". Hardbound. Over 626 B&W photographs. Volume II begins where the original book leaves off, and starts with an in-depth discussion on the M16A2 previously unavailable. Continues with a fascinating, concise history that covers the Advanced Combat Rifle (ACR), Mk12 SOCOM, Colt 9mm SMG, Fourth-Generation M16, 6.8 SPC variants, and finishes up with the H&K M16.

#158-000-002CE **Black Rifle II 8E56Z49** . . . \$ 69.95

safety checking, cleaning, and maintenance. The presentation is divided into a series of short segments, each devoted to a specific subassembly or variation of one. Watch only the segments that apply to the rifle you want to build. If you decide to modify your rifle later, go back and just watch the segments that cover your planned changes. A big help taking apart subassemblies like the bolt and gas system for cleaning or trouble-shooting, too. 1 DVD. 2 hours 10 minutes.

COMING SOON!

AR15Builder is an exciting, new, online utility that lets you create a virtual build of your own, personal, AR-15 rifle or carbine. Its easy-to-use, drag-and-drop feature lets you fully "assemble" a virtual model of your custom rifle using high resolution images of the components you want to see. With a selection of more than 600 AR-15 components to choose from, your combinations are almost endless. And, you'll know exactly how your rifle looks before you ever order the parts.

Modify one of the available sample guns, or begin from scratch with the basic components and build from there. AR15Builder shows you only those parts that are compatible. When you're done, submit your order online, or save your build and log in anytime later to update, modify, or re-use it. AR15Builder is yet another way Brownells provides the very best *Selection, Service, and Satisfaction*. AR15Builder.com is coming soon!

SATISFACTION GUARANTEED SINCE 1939

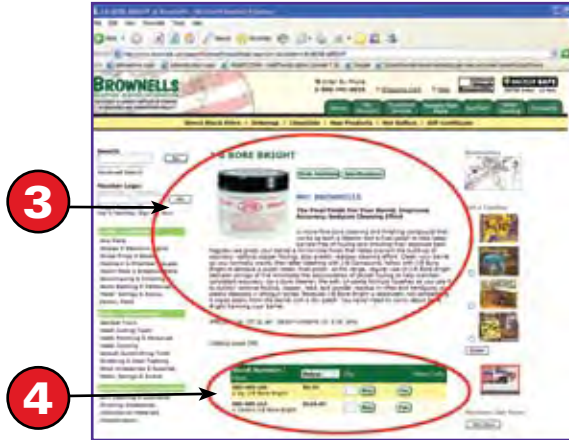

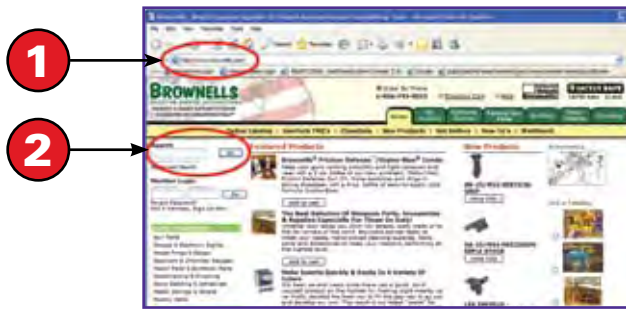

Requires: ● FFL ▼ FFL Per Factory ◆ Gunsmith install per factory ★ Law Enforcement only ■ NFA Lic. per Brownells

Shop online at
brownells.com
It's simple, and 100% secure.
Here's how:

Ordering an item from the Brownells Online Store is fast and easy. For example, let's say you are looking for a jar of J-B® Bore Bright.

- 1 Open your web browser and type **brownells.com** in the address box to access the Brownells website homepage.
- 2 In the **Search** box, type the product name or 9-digit stock number (from your Brownells catalog) of the item you wish to find. Click the **Go** button.
- 3 You will enter the **Online Store** and the J-B Bore Bright product page will appear.
- 4 Scroll to the bottom of the product page to view the **Stock Number**, **Description**, **Quantity**, **Price**, and **Buy** button. If there are specific shipping restrictions for the product, these will also appear. If you wish to purchase the product, click the **Buy** button. The merchandise will automatically be added to your Shopping Cart.
- 5 When you are finished shopping, click the **Shopping Cart** link at the top of the screen to begin the Checkout process.
- 6 The Checkout screen allows you to view all selected merchandise in your Shopping Cart, modify your order, if needed, and confirm your order total. When you are ready to checkout, click the **Checkout** button.

Just **\$10.50** to ship your order anywhere in the United States including Hawaii, Alaska, Puerto Rico and U.S. Virgin Islands. Fill your order up with as many items as you can, it's still just \$10.50.

- With our **One-Rate Shipping Program**, our Order Takers can give you your complete total at the end of your call. No guessing at total shipping charges. **It's \$10.50**
- Back Order Shipping Charges are **FREE!** Back Ordered items will be shipped by **Standard** service.

You also have three more great options for delivery:

- **2nd Day Shipping** - For just \$12.00 more (total of \$22.50) you can upgrade to 2nd Day Shipping for faster service at a low, low price.
- **Next Day Air** - If you really need your order in a hurry, it's just \$37.50 total to get your order there the very next day.
- **Special Small Package Rate** - For only \$4.85 you can ship any order that weighs 13 ounces or less.

From our total 30,000+ products, there are a few items that are just too heavy to fit into this program. You'll find these products listed in the Yellow Index section of this Catalog.

CUSTOMER PRIVACY & SECURITY POLICY

When you do business with Brownells you don't have to worry that your personal information will become common knowledge because we value your trust above all. Our privacy and security policy is very simple. **We do not sell, distribute or give out customers' names or other private information to anyone at any time.** It has always been our policy to hold all customer information in the strictest confidence.

When you decide to use your credit card to pay for any purchase, your credit card and personal information are completely safe, and private, with us. Credit card security for our Website is handled by VeriSign, Inc., the world's leading provider of digital trust services. We make use of the latest 128-bit security encryption technology any time we ask for your name, address, e-mail address, credit card info or telephone number. Our servers are equipped with the latest dual application firewalls, hack detection and anti-virus technology to make certain your private information stays private and secure.

Because "Close" Only Counts In Horseshoes & Hand Grenades

Timeouts don't apply in competition or combat – so when batteries die or poor weather conditions make primary optics obsolete, you need fast-deploying iron sights to put accuracy back on your side. Brownells Flip-Up Tactical Sights provide this added security and much more. With two choices of rear aperture sights, plus a compact, gas block-mounted front sight, you get reliable, repeatable accuracy close in and well beyond normal shooting distances.

Each ruggedly constructed sight is precision machined from tough, 6061 T6 aluminum with a robust, 4140 steel clamping nut and crossbar for zero movement on Picatinny rail platforms. Correct dimensions allow them to regulate properly with all mil-spec, A2 carbine sights or aftermarket sights of the same height – making them perfect for added long range accuracy when co-witnessing with non-magnifying red dot and holographic optics.

Keep it simple with our Standard flip-up aperture sight or obtain maximum long range accuracy from the ultra-versatile, 360 Series model featuring a HK-style rotating turret with close range peep, plus three other apertures calibrated for 100, 200, and 300 yard ranges.
