

BROWNELLS TOOLS FOR SMITH & WESSON REVOLVERS

41 Tools - And More - Specifically For Servicing Smith & Wessons

Here it is! A tool Kit designed specifically for the armorer gunsmith, shop or department servicing Smith and Wesson Revolvers. You get everything needed to perform virtually any internal repair or rebuilding chore on the innumerable Smiths found in police departments and law enforcement agencies throughout the U.S. and the world. To put together this Kit, filled with many one-of-a-kind tools, we drew on the knowledge of many good friends (to whom we are forever indebted) who work on these guns every day. Special Thanks to Gene Thompson, Brunswick, Georgia who not only pushed us hard to put the Kit together but also lent us many of his personal tools to use as patterns. What you get is a 41-piece Kit of first quality, professional tools to help you service Smiths faster, more efficiently and without the errors often caused by "pick-up" or "make-do" equipment. Although designed primarily for the "K" frame, many of the tools work on other Smith frame sizes and other makes of revolvers too.

Although designed primarily for the "K" frame, many of the tools work on other Smith frame sizes and other makes of revolvers too.

- #080-722-010 Armorer's Service Kit, All Tools Plus Box 8K426H99 \$ 535.95
