

BROWNELLS[®]
SELECTION. SERVICE. SATISFACTION.

1911

800-741-0015 brownells.com

World's Largest Supplier of Firearms Accessories and Gunsmithing Tools™

Dear Folks,

Welcome to our newest 1911 Catalog, #5! Packed with over 120 new 1911 products we've found since the last catalog. We love putting these specialty Catalogs together because we can showcase an amazing assortment of the very best products available in the industry in a particular area. And, for the 1911 Auto, it's all here – tools, frames and slides, sights, hammers, springs, and grips – everything you need to maintain and build this famous, long-time favorite handgun. To be able to add as many 1911-specific new products as possible and still keep the catalog at a manageable size, we've left out some of the general range gear and cleaning accessories shown in past issues. We still carry all these great products and many more, so please see the new **brownells.com** or our new "Big Book" (Catalog #62) for everything... including the kitchen sink.

We now have over 20 products that have received the American Pistolsmiths Guild "Seal of Approval." This means these products have passed a rigorous test of function and quality by the American Pistolsmiths Guild. Many of these are in this Catalog and are marked with a symbol representing the seal of approval.

There are also new "Dream Guns" for you to enjoy, including some great custom work from our own Gun Techs, plus big names in the industry like Cylinder & Slide, Ed Brown, Nighthawk Custom and Wilson Combat. These are exceptionally beautiful guns and were built using parts and products available in this Catalog. They give you an example of just how far you can go with your 1911 projects...there really is no limit to what you can do. Having the coolest 1911 at your range or gun club is well within your reach!

Our brand-new, updated, and completely customer-friendly website has been up and running for a couple of months now...a HUGE improvement over the old site. Finally a fully functional and useful search engine!! Pete and I are awfully pleased with it and we know you're going to enjoy using it.

It is a confusing time in our industry right now - but remember one thing you can always count on no matter what - our long-standing commitment to you is something that won't ever change. It's who we are and what we're about: giving you **Selection, Service and Satisfaction**. And a 100% Guarantee of that satisfaction forever. Pete and I and the rest of our Gang hope you enjoy this new Catalog as much as we do. We look forward to hearing from you soon!

Very best,

Frank & Pete

Frank & Pete Brownnell

Old John Still Has The Right Idea

"It's unwise to pay too much . . . but it's worse to pay too little. When you pay too much, you lose a little money . . . that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do.

The common law of business balance prohibits paying a little and getting a lot. It can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better." – JOHN RUSKIN

At BROWNELLS, The Customer Is Always

#1

Your Satisfaction Guaranteed-Period! - Here's our pledge to you - which has never changed: If you aren't completely, 100% satisfied with any purchase you receive from Brownells, for any reason, at any time, return it for a full refund or exchange. No hassle, no problem. We don't bog you down in endless paperwork. Your complete satisfaction with each and every product we sell is what's most important to us.

We do not artificially mark up our prices to cover potential increases from the manufacturers. When notified of a price adjustment, we change our price at that time. As a result, prices are subject to change without notice.

Products marked with this symbol have passed a rigorous test of function and quality, and have been awarded the American Pistolsmiths Guild "Seal of Approval."

GSA pricing available on products marked with the star. Contract #: GS-07F-0139T

Stock numbers shown in red indicate the product is made in the U.S.A.

This information is not available for all items at time of catalog production; nor does it imply that foreign merchandise is of lesser quality. We will continue to gather this information to assist our customers in making informed buying decisions, and will keep our website current with the latest information.

1911 CATALOG #5 2009-2010

© 2009, BROWNELLS

live without. Purchase that item and we'll send you our Big Catalog #62 – a five dollar value – absolutely FREE! #077-100-000DE

Full-color catalog features everything you need to build, maintain, customize, and accurize an AR-15/M16 to suit your specific needs, plus parts and extras for larger-caliber AR-type variants. The folks here just can't resist the AR platform's unlimited possibilities, so we've included photos of "dream builds" by Brownells staff showing you how much customization you can do with the products we offer. Whether you use your AR for tactical shooting, precision target shooting, or just keeping down the varmint population on the Back 40, this catalog is for you. #077-100-008DE

For over 70 years, since Bob Brownell started working on firearms and got the company started in '39, we have worked with our military and law enforcement to support their weapons and their efforts. We've picked the best Military/Law Enforcement items from our Big Catalog and added a few new ones. If you're one of our brave folks in uniform, you need this catalog! #077-000-005DE

CASPIAN 1911 AUTO RECEIVER

Choose The Built-In Custom Features You Need; Save Time & Money

Build an outstanding, custom 1911 with one of these top-quality, single-stack receivers as the foundation. Models and features available to suit the needs of any custom 1911 project. Precision cast from 4140 carbon steel and fully CNC machined to tight tolerances. Heat treated to Rc 22-24 for optimum performance and durability. Oversize frame rails allow the gunsmith to achieve an exceptionally tight slide-to-frame fit for more consistent accuracy. Available with smooth front strap or with 20 lpi CNC machine-cut checking. Front strap on all models except Standard is undercut at the trigger guard to ensure the shooter an extra-secure, high-grip hold. **Standard** model offers a robust, economical foundation for a great, all-around shooter. **Race-Ready** features integral, flared magazine well for lightning fast magazine changes. Smooth contours and absence of unsightly seams give your pistol a streamlined look. A mainspring housing is included. **Recon** model has the strength and compactness that combat and action shooters require, with an integral accessory rail that accepts laser sights and tactical lights; mainspring housing not included. **Race-Ready Recon** model includes all the features of the Recon with the addition of an integral, flared, 360° magazine well for high speed reloads, and includes a mainspring housing. **SPECS:** 4140 carbon steel, in-the-white. **Race-Ready** and **Race-Ready Recon** models include mainspring housing. Gunsmith fitting required. **FFL required for purchase.**

CASPIAN 1911 AUTO HIGH CAPACITY RECEIVER KIT

Build Your Own, Custom, High Capacity Competition Pistol

Kit includes everything you need to convert an existing 1911 to a high capacity 9mm, .38 Super, or .40 S&W 1911 pistol—or build a new one from the ground up with additional parts available separately. Receiver has integral plunger tube, squared trigger guard, and flared, 360° magazine well. Precision cast from 4140 carbon steel and fully CNC machined to tight tolerances for highly accurate rail specs and pin hole locations. Heat treated to Rc 22-24 for optimum performance and durability. Oversize frame rails allow the gunsmith to achieve an exceptionally tight slide-to-frame fit for more consistent accuracy. Grip safety, mainspring housing, magazine catch, and ambidextrous safety are CNC-machined from carbon steel castings. Gunsmith fitting required. Magazines available below. **US**

CASPIAN 1911 AUTO SLIDES

Superb Strength & Precise Tolerance For The Ultimate Combat Pistol

Custom-quality slide from Caspian, ready to be fitted to the Government model frame of your choice. They start as high-quality forgings for extra strength, then are heat-treated to Rc 38-41 before machining for exceptional dimensional stability. Sides are polished, while the rest of the surface is bead-blasted for non-glare, matte finish. Deep-cut, forward-angled rear cocking serrations prevent slippage when racking, even with a wet hand. Available in 4340 carbon steel (**CS**) and 416 stainless steel (**SS**) with .45 ACP, .40 S&W, and 9mm breechfaces. Choose a slide without sight cuts (**NC**), or between two pre-cut dovetail options: a **Novak Standard Low Mount** or **Bo-Mar BMCS** rear cut, both coupled with a Novak front cut. All slides require the use of a 9mm/.38 Super firing pin. **US**

ESSEX ARMS 1911 AUTO SELECT RECEIVER

Most Often Requested Custom Features Saves Machine Time & Hand Fitting

High quality 1911A1 Government receivers (frames), with additional custom features that save you hours of work. Features an extra high front strap cut, beveled mag well and a .250" radius beavertail cut. Slide "way" tolerances are machined with slightly oversized dimensions for a more precise slide/frame fit. Investment cast from 4140 carbon or 416 stainless steel, each receiver is heat treated to increase hardness, then fully inspected to ensure consistent quality. Precision, CNC machined after heat treating so spacing and tolerances of slide "ways", frame holes, spring guides and recesses on each and every frame are identical. **Accessory Rail** model includes an integral rail ready to accept any laser sight or tactical light that uses a Picatinny or Weaver-style mount. **SPECS:** Available as a stripped receiver only. **Blue:** 4140 steel, blue, heavy matte finish. **Stainless:** 416 stainless steel, heavy matte finish. All receivers will require gunsmith fitting. **FFL required for purchase.**

ESSEX ARMS 1911 AUTO RECEIVER

From G.I. Restoration To Full House IPSC; Build The 1911 Auto That Meets Your Customer's Exact Needs

High quality reproductions of the famous 1911 A-1 Govt. and Commander receiver (frame), ready to fit and finish to fulfill your customer's individual needs and dreams. All receivers are investment cast from 4140 carbon or 416 stainless steel, heat treated for increased hardness and fully inspected to ensure consistent quality. Slide "ways", frame holes, spring guides and recesses are precision CNC machined after heat treating, so spacing and tolerances on each and every frame are identical to provide reliable fit and function. Slide "way" tolerances are machined to minimum G.I. specs to let the gunsmith achieve a tight, reliable fit with **most** slides.

SPECS: Furnished with plunger tube and .45 ACP ejector installed. **Blue:** 4140 steel, blue, heavy matte finish. **Parkerized:** 4140 steel. **Stainless:** 416 stainless steel, heavy matte finish. Commander is same as Govt. with shortened dust cover. All receivers will require gunsmith fitting. **FFL required for purchase.**

KIMBER 1911 AUTO RIMFIRE TARGET CONVERSION KIT

Train With
Economic .22 LR
Ammo In Your
Full-Size Pistol

Blowback-operated sub-caliber conversion unit lets you shoot less expensive .22 LR ammunition in any mil-spec 1911 Government model, so you can afford to practice more. Preserves pistol's weight, balance, and overall feel to help you develop specific skills and "muscle memory" to shoot better with full-power ammo. Simply remove the factory slide and barrel, replace them with the conversion unit, and load up the included .22 magazine with premium-grade high-velocity ammunition. Manufactured to the same rigorous quality standards as Kimber's full-power 1911 pistols; slide is precision machined from aluminum billet, with wide front and rear cocking serrations and Kimber's tough, scratch-resistant, KimPro II™ finish. Comes with plain black target sights installed; rear sight is click adjustable for windage and elevation, with flat, finely serrated rear face and a square notch. Includes ramped, match-grade 5" barrel with a 1:16" left-hand twist and stainless steel match-grade bushing. Reinforced polymer 10-round magazine is designed for a secure fit in a standard .45 ACP mag well, and has an anti-tilt polymer follower to ensure smooth feeding of rounds. Slide does not lock open after last shot; pistol may be dry fired with kit installed.

SPECS: Aluminum slide, steel barrel, polymer magazine. Available with matte black or silver slide. Fits 1911 Govt model pistols chambered in .45 ACP with 4" or 5" non-ramped barrels and dimensional tolerances that meet U.S. Government specs, including Series 70 and 80 Colt pistols and clones. Requires high-velocity ammunition for proper operation.

TACTICAL SOLUTIONS 1911 AUTO 2211 CONVERSION KIT

Hone Critical Shooting
Skills Using
Economic .22 LR
Ammo

Complete .22 LR conversion system comes fully assembled and ready to install on your 1911 Government model or Commander to help you practice critical shooting skills with economical rimfire ammo. Concentrate on improving grip, sight alignment, trigger pull, breath control, and other skills without burning up expensive, full-power ammo. Simply remove the slide as if you're field stripping, and replace with the 2211 slide/barrel assembly and 10-round rimfire magazine. With the 2211 installed, the gun functions normally—the slide even locks open after the last round is fired. Precision machined entirely from high-grade steel to the same high standards of workmanship as a custom-quality competition pistol, with a lustrous, matte blued finish. Custom features include wide, crisply milled front and rear cocking serrations, 4¼" bull barrel with integral feed ramp, full-length steel guide rod, and a "flattop" sight rail with front and rear competition sights already installed. Champion rear target sight is fully click adjustable for windage and elevation, with an easy-to-acquire .110" wide square notch and flat, serrated rear face. Plain black front sight has glare-inhibiting serrations on front and rear faces. Lightweight milled aluminum 10-round magazine has flared baseplate to aid positive seating in oversized magwells; base removes easily for cleaning.

SPECS: Slide/Barrel – Steel, blued, matte finish. Magazine – Aluminum, black. 7¼" (18.4cm) overall length. 23.1 oz. (655g) total weight. Fits centerfire single-stack 1911 Govt/Commander and clones chambered in .45 ACP, .40 S&W, .38 Super, and 9mm. Conversion kit's ejector may require fitting to ensure proper clearance of frame-mounted ejector on some pistols.

STI 1911 AUTO 2011 MODULAR FRAME

Composite & Steel Frame Kit For Building Lightweight Pistols

Ready-to-build, high-tech, double stack frame can be fashioned into your customer's dream, competition or self-defense pistol. The 2011's

modular grip frame is made from fiber-filled, nylon composite that's married to a CNC machined, 4140 steel upper, for the very best combination of durability, precision fit and lighter weight. Features: 20 lpi checkering on the front strap and triggerguard; heavy-duty dust cover for scope mounting; pre-contoured to accept aftermarket grip safeties with .250" radius; integral magazine well, oversized rails. Ready for gunsmith fitting. Frames are available in two models: **Standard** - Features a Govt. length dust cover. **Long/Wide** - Dust cover is approximately the same width and length as a Govt. length slide for increased weight. Both models are available either **Non-Ramp** - with standard, non-caliber-specific feed ramp or **Ramped** - pre-machined to accept the Nowlin/Wilson-style ramped barrels.

SPECS: Grip Frame - fiber-filled polymer composite, black. **Upper Frame** - 4140 steel, in-the-white, matte finish. Kit includes checkered, nylon mainspring housing and pin; titanium/composite trigger (long) and blued mag catch (complete). Frames accept most 1911 auto slide, barrel assemblies. **FFL required for purchase.**

STI 1911 AUTO 2011 SLIDE & FRAME KIT

Pre-Fit For Accuracy

Full contact, slide rails matched to the nylon and steel composite grip frame for superior fit. All are non-ramped, double-stack with checkered front strap, triggerguard and mainspring housing, plus EDM-cut breech face, lowered and scalloped ejection port and rear cocking serrations. Includes composite/titanium match trigger and magazine catch. **.38 Super** has standard length dust cover and no sight cuts. **.40 S&W** and **.45 ACP** have long and wide dust cover; cut for Bo-Mar BMCS rear and 60°x.300" dovetail front sight.

SPECS: Frame: 4130 steel, in-the-white. Fiber-filled polymer, black. Slide: 4140 steel, in-the-white. 75" (19cm) long. Accepts 5" barrel and collar style reverse plugs. **FFL required for purchase.**

STI 1911 AUTO 2011 LONG SLIDE & FRAME

Stable Sighting Platform; Enhanced Recoil Reduction

6 inch Slide/Frame combination adds 3.5 oz. of forward weight to help reduce recoil and muzzle rise. Bar stock slide has full contact rails, lowered ejection port, matte finished top, front and rear cocking serrations and no sight cuts. Gunsmith fitting is required. Lightweight, nylon polymer, composite double

stack grip frame is checkered for a secure grip with an undercut triggerguard.

SPECS: Slide and rails, 4140 steel, in-the-white. Grip, fiber-filled nylon polymer. Frame includes nylon mainspring housing, titanium composite trigger and mag catch. Slide is 8 1/2" (21.5 cm) long, accepts 6" (15.2cm) long, Nowlin/Wilson ramped barrels. Frame: **FFL required for purchase.**

STI 1911 AUTO PRE-FIT SLIDE & FRAME COMBO

Precise, Match-Grade Fit For Superb Accuracy

Pre-fit combo eliminates one of the most tedious jobs of building a top-quality, custom 1911 Auto—getting a tight, smooth, slide-to-frame fit free of side-to-side or vertical play. Forged frame of 4140 carbon steel is precision machined and heat-treated to Rc 28-32, before mating with the slide fully machined from 4140 bar stock. Serial number of the frame is stamped inside the slide at the factory to make sure the two stay together. 30 lpi front strap checkering helps you maintain a firm grip, and tang is cut with a .250" radius for a beaver tail grip safety. Slide has EDM wire cut breech face for precise angle, lowered and flared ejection port, and deep-cut, extra-wide rear cocking serrations. Choose a slide without sight cuts or with Bo-Mar BMCS or Novak rear, both with a 60° x .300" front sight dovetail. Accepts 5" non-ramped .45 ACP barrels.

SPECS: 4140 carbon steel, in-the-white. For use with .45 ACP non-ramped, 5" barrels only. **FFL required for purchase.**

#791-000-069DF	Slide/Frame w/o sight cuts, 1F510A81	\$ 613.00

STI 1911 AUTO 2011 BAR STOCK SLIDE

CNC Machined From Bar Stock With Most Wanted Custom Features

Ready-to-fit, premium-grade slides improve function, reliability and accuracy on any 1911 Auto. Precision CNC machined from solid 4140 steel bar stock, featuring an ultra-smooth wire EDM cut breech face for improved feeding, a lowered and flared ejection port, full-contact rails, and a pre-smoothed barrel bore. These slides are machined for collar reverse plugs and all edges are radiused. All models must be used with a .38 Super/9mm firing pin and require gunsmith fitting. **Classic Slides** feature relief cuts above the recoil spring plug housing and either rear (R) or front and rear (F/R) serrations. Also available in Commander (.45 ACP only) and extended 6" (.38 Super/9mm only) lengths, both with smooth sides (NS) ready for milling custom cocking serrations. **Classic Flat Top Slides** feature a .400" wide, flat, sighting plane along the top of the slide. **Unique** slides are straight cut with 1/2 oz. more weight forward for better recoil control, and have rear cocking serrations only. Also available in extended 6" length, no serrations, .38 Super/9mm only.

SPECS: 4140 steel, in the white. Semi-polished sides, matte finish top. 7 1/2" (19cm) long, accepts 5" barrels, unless otherwise indicated, and collar reverse plugs. All models must be used with .38 Super/9mm firing pin. Available with no sight cuts (NC) or with a 60° x .300" x .060" front dovetail and Bo-Mar BMCS (BMC) rear cut. **Flat-top Classic** also available with 60° x .300" x .060" front dovetail and Novak (NVK) rear cut. **Commander Classic** - 6 1/8" (17cm) long. Accepts 4.25" barrel. .45 ACP only. **6" Extended Classic/Unique** - 8 1/8" (24cm) long. Accepts 6" barrel .38 Super/9mm only.

STI 2011 SHORT BLOCK KIT

Pre-Fitted Slide,
Frame & Barrel
For Zero-Tolerance Fit

STI does the major component fitting, you add the fire control parts, sights and final finish. CNC machined slide has full contact, parallel rails that are carefully matched to the grip frame for superior fit and reliability. Air gauged, stainless steel, button-ripped bull barrel, with link, pin and slide stop is carefully fitted to ensure consistent lockup. Short chambered. Full-length recoil spring guide improves reliability. Double-stack frames feature Wilson/Nowlin ramp cut, checkered front strap, triggerguard and mainspring housing. Includes composite/titanium match trigger and complete magazine catch. Slides feature EDM-cut breech face, lowered, scalloped ejection port, front and rear cocking serrations. Includes 10-round magazine. **5.5 .38 Super Kit** - Supplied with installed, 5-port compensator blended to slide. Standard length dust cover on frame; classic slide with no sight cuts. **.40 S&W/.45 ACP Kit** - Long and wide dust cover on frame. Unique slide cut for Bo-Mar BMCS rear and 60° x .300" dovetail front sight.

SPECS: **Frame & Rails** - 4130 steel, in-the-white, matte finish. **Grip** - Fiber-filled nylon polymer, black. **Slide** - 4140 steel, in-the-white, matte finish. 7.5" (19cm) long. **Barrel** - 416 Stainless Steel. **Compensator** - 3 top ports, 2 side ports. 2 3/8" (6cm) long. 2 3/8" (6cm) long. **FFL required for purchase.**

WILSON COMBAT 1911 AUTO SLIDE

Comes With Popular Custom Features To Save Time & Money;
Available In Carbon Or Stainless Steel

The same premium-quality slide used in Wilson's legendary custom 1911s now available separately to form the top end of your own custom tactical, self-defense, or competition pistol. Precision machined using the latest CNC equipment from hardened steel forgings for superb strength and precise dimensions that allow a slide-to-frame fit of as little as .004". Available in unfinished carbon steel or stainless steel, these unmarked, round-top slides come with deep-cut, diagonal front and rear cocking serrations, plus a lowered, flared ejection port to minimize risk of stovepiping or other jams and help ensure spent cases are completely ejected. Also includes .300" x 60° dovetail cut for front sight; rear of slide is plain, without dovetail, so you can install the rear sight that best suits your requirements. Requires use with .38 Super/9mm firing pin, not included.

SPECS: Carbon steel (**CS**), in the white, or stainless steel (**SS**), natural finish. Fits full-size .45 ACP Government model frame and 5" barrel. Accepts .38 Super/9mm firing pin only.

CLARK CUSTOM MATCH-GRADE BARREL

Superb Clark Accuracy In Both Ramped & Standard

Hardened, heat-treated and fully machined from long-wearing, solid billet, chrome-moly steel. (Jimmy's favorite for continuous, long-wearing accuracy from full power and mid-range ammo). These are the same barrels the Clarks use to build super accurate bullseye and full-house IPSC pistols for top shooters everywhere. **Ramped** models feature an extended, integral ramp that fully supports the case head to end head separations and bulged cases. Rounds feed directly onto the ramp, no frame-to-barrel gap for bullet noses to hang up on. **Item**
SPECS: 4150 CM steel, blued, Rc 34-38. 6" (15.2cm) long can be cut to fit most slide lengths. Available **Threaded and Plain**, Ramped (**R**) and Non-Ramped (**NR**). Threaded .575"-40 tpi to a length of 2 1/2" from tip of muzzle to fit most cone-style compensators and bushings. Oversized hood, top lugs and bottom feet require gunsmith fitting.

CLARK CUSTOM 1911 AUTO DROP-IN COMP KIT

Drop Right In & It's Ready To Work

No fitting or gunsmithing required to get the increased muzzle control and accuracy of Clark's dual-port compensators and match-grade barrel. Comp helps control recoil and muzzle flip for improved accuracy and a faster follow-up shot. Match-grade, button-rifled barrel and pre-fit bushing provide a close fit on most slides for increased accuracy, function and reliability. **Item**
SPECS: Steel, blued. **Kit** includes: 5 1/2" (14cm) barrel, threaded .580"-40 tpi, .45 ACP; blued comp; barrel bushing; .278" c-to-c link and pin. Increases pistol length by 1 1/2" (3.8cm). Fully chambered.
 #181-165-000DF .45 Comp Kit 1H223U99 \$ 281.99

ED BROWN DROP-IN MATCH BARREL & BUSHING

Delivers
Match-Grade
Accuracy

CNC machined with slightly oversized dimensions for tighter barrel lockup and a "Match Quality" drop-in fit. Premium stainless steel bar stock is machined, heat treated and cryo stress relieved before final rifling to improve accuracy and barrel life. Precision, broach cut rifling gives outstanding accuracy with all bullet types, including lead. Complete kit includes pre-fit, match-grade barrel, bushing, link and pin for fast installation. May require minor fitting. **Item**
SPECS: T-416 SS, Cut Rifled, Rc 38-42. 3.5" (8.89 cm), Commander (CO), 4.25" (10.8cm), Government Model (GM), 5" (12.7cm) long.

EFK FIRE DRAGON 1911 AUTO PORTED PISTOL BARRELS

Integral Comp Cuts Muzzle Flip

Stainless steel barrels offer drop-in fit and improved accuracy. Forward-angled comp ports direct muzzle blast away from shooter and reduce muzzle rise. Broached rifling and polished feed ramp handle both lead and jacketed bullets. Extends approximately one inch past front of slide. Includes bushing, link and pin, pre-fitted bushing. **Item**
SPECS: 416 stainless steel. 6" (15.2cm) long.
 #503-101-911DF 1911 Govt Bbl, .45 ACP 3K166A67. \$ 205.00

KART 1911 AUTO PRECISION QUALITY BARREL

Uncompromising Quality For Added Performance & Better Accuracy

Forged from ordnance steel to strict, national match specs; rifled by a proprietary technique that holds lands and grooves to exceptionally close tolerances and leaves the surface finish mirror smooth. Air gauged to maintain .0002" tolerance through the bore. Feed ramps are throated for wadcutter ammo. **Standard Barrel** - Non-ramped, oversized hood, top and bottom lugs to achieve an exact fit for optimum match accuracy. **Ramped Barrel** - Fully supports the case head; gives direct feeding from magazine to chamber. **Item**
SPECS: 4150 ordnance steel, in-the-white. Available in 5" (12.7cm), 6" (15.2cm), or Commander 4.25" (10.8cm) lengths. **Std** - Standard barrel, non-ramped. **W/N** - Wilson/Nowlin ramp. **C/P** - Clark/Para Ordnance ramp. Ramped barrels require machining of frame. Gunsmith fitting required.

KART 1911 AUTO EASY FIT BARREL KIT

Achieve A Match Quality Barrel Installation Using Only Hand Tools

Install a precision quality barrel using just four small hand tools. The only fitting required is to adjust lockup with the two raised pads located on either side of the rear locking groove, cut the barrel hood to correct length and fit the bushing to the slide. A national match bushing is pre-fit to the barrel; has oversize O.D. for precise fitting to slide. Bottom lugs are fully finished and the correct length link installed to save hours of work. **Item**
SPECS: 4150 ordnance steel. In-the-white. Available in 5" (12.7cm) or 6" (15.2cm) long. (**N/R**) Non-ramped. (**W/N**) Wilson/Nowlin ramp. (**C/P**) Clark/Para ramp. Ramped barrels require machining of frame. Requires gunsmith fitting. Includes instructions.

NIGHTHAWK CUSTOM 1911 AUTO MATCH GRADE BARREL & BUSHING

Custom-Quality Set Ready For Fitting To Deliver Outstanding Accuracy

Premium-quality, .45 ACP barrel is precision machined from solid 416 stainless steel barstock to tolerances +/- .001" or less in critical areas. Heat treated to Rc 40-42 to maintain those dimensions, even under the battering of hard competition. These unramped barrels are broach rifled with a left-hand 1-16" twist. Some fitting required, so you can produce a tight, no-play fit for maximum accuracy from your gun. The match grade bushing is machined from the same premium-grade stainless steel, with I.D. and O.D. left slightly oversized to allow custom fitting to your barrel, further ensuring precise lockup and excellent accuracy. **Item**
SPECS: 416 stainless steel. Rc 40-42. .45 ACP 1-16" twist, left hand. **Govt** - Barrel: 5" (12.7cm) long. Bushing: .829" long (21.1mm) long, .573" (14.6mm) I.D., .698" (17.7mm) O.D. **Commander** - 4 1/2" (10.8cm). Bushing: .515" (13.1mm) long, .573" I.D., .698" O.D. Gunsmith fitting required.

NOWLIN MFG. 1911 AUTO MATCH-GRADE ECM BARREL

Ultra-Smooth Rifling Gives Superb Accuracy

Triple heat treated, highest quality, super match-grade barrels deliver maximum accuracy. Groove and bore tolerances held to an amazing .0002" by electro-discharge cathode machining (ECM). Unique, pre-cut design of the top lugs requires only minor fitting to achieve maximum lug engagement. Rifling is ultra-smooth, uniform, and precise. Smoother bore boosts velocity with all barrel lengths. Angled edge on the driving band increases gas seal for reduced fouling with all types of bullets, plus longer barrel life. Short chambered, requires reaming to achieve correct headspace. Reamer pilot diameters: 9mm/.38S - .3445"; .40 S&W, 10mm - .3895"; .45 ACP - .4405". **Threaded** barrels fit tapered sleeve or cone-style bushings and compensators only. **Item**
SPECS: 416 stainless steel, hardened to Rc 40. Over-size hood and feet require gunsmith fitting. Available in 5" (12.7cm) and 6" (15.2cm) lengths. All models .581" (14.7mm) O.D. **Plain 5"** - .45 ACP only. Unramped. **Plain 6"** in calibers listed below. Ramped. **Threaded 6"** has .575"-40 threads extending 1.810" (4.5cm) back from tip of muzzle to accept most cone-style compensators and bushings. 9mm and .38 Super only. Ramped.

CLARK CUSTOM 1911 AUTO BARREL BUSHING

Improve Accuracy, Eliminate Excess Play

Two sizes: **Standard** fits most barrels with only minor polishing/fitting; **Enlarge** especially made to give you enough metal to custom-fit it to a barrel that is undersized due to wear, G.I. barrel, etc. Fully machined. Favorite bushing of experienced pistolsmiths. Requires gunsmith fitting.

SPECS: .875" (22.22mm) long, .714" (18.13mm) O.D. **Std** - .575" (14.55mm) I.D., **Enlarge** - .553" (14.05mm) I.D. Blued steel.

BRILEY SPHERICAL BUSHING

Maximum Accuracy;
Drop-In Convenience

Separate, ultra-hard, spherical, internal ring pivots on its horizontal axis inside the unique, precision-machined bushing. Absolutely prevents barrel spring. Provides the easiest, longest wearing, closest fitting barrel bushing setup available. Models available to fit full-size Government or Commander pistols, in two configurations: **Drop-in Bushing/Ring** requires no fitting on the O.D. **Oversized Bushing/Ring** has an oversized skirt that requires turning to fit most slides. I.D.'s of Govt. Oversize Bushing skirts are threaded to accept the exclusive Briley **Bushing Mandrel** that makes turning the O.D. in a lathe simple and fast. Comm. Oversize Bushings are not threaded for use with the mandrel. **SPECS:** Bushing - 17-4 stainless steel. **Ring** - 17-4 stainless steel, titanium nitrided to Rc 60. Drop-in - .698" (17mm) O.D. **Oversized** - .703" (17.8mm) O.D. **Bushing Mandrel** - Stainless steel, 2" (5cm) long. To select correct bushing, measure barrel O.D. and select **Bushing/Ring** .001" larger than barrel O.D.

BEDELL CUSTOM 1911 AUTO PROGRESSIVE 7-PORT COMP

More Efficient Recoil Reduction
& No More Scope Hazing

Progressive 7-port design virtually eliminates muzzle flip. Each port decreases in size gradually, offering balanced pressure release, and is angled 7° forward to eliminate scope lens hazing. Plenty of room for a relief cut on the bottom to allow a government-length guide rod and reverse plug on commander-length guns. Precision CNC machined from high-grade steel, stainless steel, and titanium.

SPECS: Available in steel (in-the-white), stainless steel, and titanium. Threaded .685"40 tpi for bull or hybrid threaded barrels only. Measures 2.295" (5.83cm) long, .995" (2.53cm) in dia., and .930" (2.36cm) wide from flat-to-flat. Through hole must be aligned to .368" (9.35mm) minimum for 9mm, .355", and .356" dia. bullets.

NIGHTHAWK CUSTOM 1911 AUTO TACTICAL SLIDE STOP

Fast, No-Slip
Engagement & Low-Profile

Standard-length replacement for factory slide stop gives you the benefit of an oversized stop without the added bulk. The low, deeply serrated thumb pad sits at a 90° angle to the frame for fast, solid, fumble-free engagement. Rounded edges won't snag on holster or clothing during a fast draw. Cut from a solid, carbon steel forging, then precision machined to exact dimensions and hardened for maximum strength before receiving Nighthawk's tough Perma Kote™ finish for outstanding wear resistance. Pin is machined to maximum .200" (5.1mm) diameter to give a tight barrel-to-slide lockup for better accuracy.

SPECS: Steel, blued, matte finish. Thumb pad is .650" (16.5mm) long, .125" (3.2mm) wide.

#100-003-239DF Tactical Slide Stop, 2B42C36 \$ 52.95

STI 1911 AUTO SLIDE STOP

Hardened Steel For Durability;
Factory Original Part For STI Pistols

Standard-length slide stop of high-grade 4140 carbon steel is heat-treated to Rc 38-42 for exceptional durability and long service life, even in hard-running competition pistols. Factory original part for STI 1911 and 2011 pistols. Hard, black oxide finish adds surface strength to resist wear and corrosion.

SPECS: 4140 steel, matte black oxide finish. Thumb pad is .600" (15.2mm) long x .200" (5.1mm) wide. Pin diameter. 199" (5.1mm). Fits STI 1911 and 2011 pistols in all calibers; stop tab may require minor trimming for proper function in .45 ACP pistols. May be installed on non-STI frames with additional fitting.

#791-000-085DF Slide Stop, 1G20U83 \$ 24.99

WILSON COMBAT 1911 AUTO BULLET PROOF™ SLIDE STOP

Reinforced In Critical Areas For
Improved Function & Durability

Fully-machined from bar stock, then heat treated and hardened for fail-proof durability. Radiused corners won't catch on holsters or clothing. Thumb pad extends slightly at a 90° angle for increased leverage and faster, more positive engagement. Maximum-diameter pin increases barrel lockup.

SPECS: Steel, blue or stainless steel (SS), matte finish. Models for .45 ACP or .38 Super/9mm.

MICHIGUNS 1911 AUTO HEAVY DUTY PLUNGERTUBE

Thick Walls & Extra Mounting Stakes
To Protect Plunger From Damage Or Misalignment

Replacement for factory plunger tube is designed to stand up to the harshest operating environments to ensure unhindered plunger function critical for reliable, positive operation of the thumb safety and correct retention of slide stop. Precision machined from solid steel barstock, with extra-thick walls for added strength, with two additional staking studs to ensure a rock-solid attachment to the frame that won't work loose under the most extreme combat or competition conditions. Smooth internal finish and exacting tolerances help guarantee reliable operation of both plungers without snagging or grittiness. Rounded exterior and radiused edges won't snag on clothing or holster—perfect for carry, combat, or competition. Easy to install using the Installation Jig available separately.

SPECS: Steel, blued, matte finish.

#100-003-822DF Heavy Duty Plunger Tube, 3Z34X95 \$ 39.95

INSTALLATION JIG - Use to install the Michiguns Heavy Duty Plunger. Includes drilling guide that fits into existing plunger tube holes on frame, carbide drill for properly drilling additional holes, and a tube guard that lets you install your Michiguns plunger tube without risk of crushing or deforming it when staking.

SPECS: Steel and aluminum. Includes drill guide, 2 roll pins, drill bit, and plunger tube guard.

EGW 1911 AUTO HEAVY DUTY EXTRACTOR

Updated Design For Reliable Extraction & Long Service Life

Redesigned, ruggedly built extractor uses the tighter tolerances and improved geometry possible with 21st century materials and manufacturing technology to deliver outstanding reliability, strength, and durability. Proprietary steel alloy is precision machined with the latest CNC equipment, then vacuum heat-treated to Rc 49-51 for superb strength and tension-retaining properties. All inside corners are radiused to eliminate the sharp 90° corners where failures often occur. Claw is wider than factory specification and undercut and positioned closer to the bolt face for a tighter grip on the case rim. Body is longer, so it can be custom fitted to your slide, and nearly three times as thick as factory original for greater strength. **SPECS:** Steel, heat-treated, blued. Fits .45 ACP 1911 Auto pistols. **#296-000-092DF** 1911 Auto HD Extractor 6B32Y00 . \$ 39.99

MILLENNIUM CUSTOM 1911 AUTO ADVANCED COMPETITION EXTRACTOR

Dual Coil Springs End Extractor Failure

No-fail extractor operates with long-lasting coil springs for increased service life; provides enhanced, reliable performance for self-defense and competition. Machined from super strong, alloy steel; specially hardened and heat treated to last indefinitely. Installs easily in Series 70 1911 Autos without slide modifications. **SPECS:** Steel, in-the-white, heat treated. Includes two sets of springs, complete instructions. **NOTE on 9mm:** If your slide has a true, 9mm breech face (like the SVI interchangeable, some Caspians and Nowlins, order extractor #466-001-038. If your 9mm is built on a .38 Super Slide (most are) order extractor #466-001-009.

ED BROWN 1911 AUTO TACTICAL SAFETY

Slender, Trimmed-Down Thumb Pads For Carry Guns

Thinner thumb pads with the famous Ed Brown angle and slope. Works with the natural, sweeping motion of the thumb for a faster, easier safety release. Trimmed down style is lighter and more comfortable when used on concealed carry guns or with full coverage holsters. Meets all requirements for U.S.P.S.A. Limited Class.

SPECS: Available in **Blue** and stainless steel (**SS**), **Single** and ambidextrous (**Ambi**). Contact area: .150" (3.8mm) wide, 1" (2.5cm) long. Gunsmith fitting required.

- #087-245-890DF Blue Single Tact Safety 7H25D56... \$34.99
- #087-245-891DF SS Single Tactical Safety 7H27D26... \$34.99
- #087-245-892DF Blue Ambidextrous Tactical Safety, 7H46D81... 59.99
- #087-245-893DF SS Ambidextrous Tactical Safety, 7H49D36... 64.99

ED BROWN 1911 AUTO WIDE EXTENDED SAFETY

Easy-To-Hit, Extra-Wide Pad Matches Natural Thumb Angle

Big, wide, extended thumb surface slopes down and away from the gun - made to work with the natural sweeping motion used to release the safety. **Extended** model replaces "left side only", adds minimum weight and bulk. **Ambi** model is great in "weak hand" matches and for both right- and left-handers.

SPECS: Blued or SS .986" (25mm) long x .276" (7mm) wide contact surface. Gunsmith fitting required.

GUNSITE 1911 AUTO LOW MOUNT THUMB SAFETY

Easier To Reach, Faster To Snap On & Off

Places the thumb closer to the centerline of the bore; gives greater leverage and recoil control for shooters that use a high thumb hold. For shooters with smaller hands, the lower position is easier to reach and deactivate. Serrations on thumb pad help ensure positive thumb engagement.

SPECS: Steel, blued or stainless steel, matte as-cast finish. Contact pad, 1.9" (2.8cm) long, .314" (8mm) wide. Installation requires gunsmith fitting.

- #340-100-044DF Low Mount Safety, Blue 7D33B55... \$41.90
- #340-100-045DF Low Mount Safety, SS 7D33B55... 41.90

LES BAER CUSTOM 1911 AUTO AMBIDEXTROUS SAFETY

Designed To Clear Thumb Guards & Scope Mounts

Left-side thumb pad sets slightly out from the frame to move your thumb away from most popular thumb guards and scope mounts. Large, gracefully-contoured shape with serrated top surface provides an easy-to-reach support for shooters that use a high-thumb hold. Thinner, right-side thumb pad gives true, ambidextrous operation and is less likely to snag.

SPECS: Steel, **Blue**, matte finish or stainless steel (**SS**) polished finish. **Contact Areas:** Left Side - .960" (24mm) long x .400" (10mm) wide. Right Side - .960" long x .150" (3.8mm) wide.

NIGHTHAWK CUSTOM 1911 AUTO EXTENDED THUMB SAFETY

Generous Thumb Pad For Easy Engagement

Extended safety lever has a curved, serrated thumb pad with plenty of surface area that ensures positive operation. Pad is positioned to provide maximum leverage. All edges are beveled or rounded to eliminate sharp spots that could snag on clothing or other gear. The side plate is thicker at the front to prevent the safety lock plunger from riding over it, and tapers toward the rear to reduce bulk. Finished in Nighthawk's proprietary ceramic-based, self-lubricating Perma Kote™ finish that has been tested to stay rust-free even after 5,000 hours in a salt spray.

SPECS: Steel, matte black finish. Contact pad 7/32" (5.6mm) wide, 1 1/16" (2.38cm) long. Some fitting required.

- #100-003-240DF Extended Thumb Safety 2B34C80... \$43.50

STI EXTENDED SAFETY

Serrated Pads Give Positive Disengagement

Contoured, serrated thumb pads feature a slight downward angle that lets your thumb contact the pad in a natural, sweeping motion. Provides a comfortable thumb position for shooters using a high-thumb hold. Rounded edges resist snagging and give minimal bulk on carry guns.

SPECS: CM steel, blue, or stainless steel (**SS**), Single and Ambidextrous (**Ambi**). Thumb pad: .976" (24.8mm) long, .223" (5.6mm) wide. Gunsmith fitting required.

WILSON COMBAT 1911 AUTO EXTENDED THUMB SAFETY

Wide Or Narrow For Fast,
Positive Disengagement

Single side design with serrated surface provides fast, positive disengagement and comfortable thumb position with minimum bulk for easier carry. **Wide** - Extra large, full-length thumb pad can be used full size for maximum thumb engagement or custom contoured to meet special requirements. **Narrow** - Shorter, slimmer thumb pad won't snag on holster or clothing; helps prevent accidental disengagement during the draw. Minimum size; best for concealed carry or tactical use.

SPECS: Steel, blued or stainless, matte finish. Gunsmith fitting required. Pad Size; **Wide** - 1" (2.5cm) long, 3/16" (4.8mm) wide. **Narrow** - .750" (19mm) long, 1/8" (3.1mm) wide. Pin diameter .002" oversize.

WILSON COMBAT 1911 AUTO EXTENDED AMBI SAFETY

Blued Or Stainless; Elegant, Classy;
Works With Either Hand;
The Choice Of Professional
Shooters & Pistolsmiths

Gracefully curved, grooved, extended safety for the 1911 and its copies makes this fine gun even better. Left and right handers benefit from the extra length - it's easier to find and release - while the ambidextrous feature makes "weak hand" shooting simpler. Beautifully contoured and finished, a first class addition to any 1911. Slightly oversized sear stud allows precise gunsmith fitting.

SPECS: Blued or stainless steel. 3/16" (4.8mm) wide x 1" (2.5cm) long left side contact area, 1/8" (3.2mm) wide x 1" (2.5cm) long right side contact area.

ED BROWN 1911 AUTO MEMORY GROOVE BEAVERTAIL GRIP SAFETY

Helps Promote A Consistent, Positive Grip

Now your hand can "feel" when your grip is correct. Ed's exclusive, deep-hold grip safety drops the gun farther into the hand plus, the three memory grooves on the lower portion guide the web of the hand into the correct grip position. Raised surface area helps depress the safety and ensure positive disengagement, even for a shooter who uses a high-thumb hold.

SPECS: Matte finish. .878" (22.3mm) from rear of hole to tip. Clearanced for Commander hammer. Available in blue and stainless steel (SS) to fit series 70 or 80. .250" (6.3mm) radius, requires alteration of frame.

WILSON COMBAT 1911 AUTO BULLET PROOF® GRIP SAFETY

Allows High Grip For Better
Control & Prevents Hammer Bite;
Machined For Precise Fit

Generously proportioned beavertail safety is machined from high-grade steel barstock for an exceptionally precise fit and positive, consistent operation. Builds on Wilson's popular High Ride design with a wide, heavily upswept beavertail that allows the shooter to maintain a high, straight grip, with total protection from painful hammer bite. Distributes recoil over a large area of the hand for excellent control and fast follow-up shots. Raised palm pad with a pronounced ridge helps ensure complete safety disengagement and gives positive, tactile feedback for consistent hand placement every time you draw your pistol, so you'll be ready to take the shot as soon as a target is acquired. All exposed edges are rounded to prevent snagging. Flowing Wilson/Clark compound radius blends smoothly into the frame; installation requires alteration of frame. Available in carbon steel with a uniform, matte blued finish or stainless steel natural finish.

SPECS: Carbon steel, blued, matte finish, or stainless steel, satin finish. Fits Colt Series 70, 80, and 90 pistols and clones. Wilson/Clark compound radius requires alteration of frame; also matches Caspian radius.

NEW CYLINDER & SLIDE 1911 AUTO MIL-SPEC RECOIL SPRING PLUG

Screws Onto Recoil Spring To Prevent Loss Of Plug During Disassembly

Machined steel recoil plug has mil-spec flange punched into the side so the recoil spring can be wound into the plug before seating in the slide. Prevents the plug from flying off spring during field stripping and getting lost or hitting the operator, possibly causing injury. Precision-turned for proper fit in full-size Government model pistols, with flat, diamond-pattern knurling on the front. If you lose the plug, your gun can't operate, and you're done for the day. Keep one or two of these in your range box or field maintenance kit for backup.

SPECS: Steel, blued. 1 1/2" (3.8cm) long, .495" (12.6mm) O.D. Fits mil-spec Government model.

#206-000-042DF Mil-Spec Recoil Spring Plug, 6K08Y29 \$ 9.99

NIGHTHAWK CUSTOM 1911 AUTO FULL-SHOULDER REVERSE PLUG

Retains Recoil Spring On Guns With Bull & Tapered Barrels

Precision-turned, carbon steel reverse plug securely retains the recoil spring on pistols with barrel configurations that don't use a bushing, including bull and tapered (coned) barrels. A generous 3/8" long, full-circumference shoulder provides abundant surface area to stand up to years of hard shooting. **Government and Commander** sizes available.

SPECS: Steel, in-the-white. Use only with full-length guide rod; some machining of slide required.

COMINOLLI 1911 AUTO TUNGSTEN GUIDE ROD

Heavyweight Rod Fights Recoil; Drop-In Installation

Adds over three ounces of recoil-killing weight directly beneath the barrel for improved muzzle control and a faster follow-up shot. Machined tungsten rod includes cushioned "Frame Saver" rod head that helps prevent frame damage. One-piece rod fits all Govt. length slides with 5" barrels without modification.

SPECS: Tungsten, silver finish. 3.2 oz. (92 g) wt. Includes extra Frame Saver cushions.

#213-103-100DF Tungsten Guide Rod 3A65Z88 \$ 86.99

TUNGSTEN GUIDE ROD PLUGS - Put additional weight right where you need it to diminish recoil by simply replacing the guide rod plug. Fully machined plugs come in two models. **Standard** fits 5", Govt. length slides. **Reverse** fits STI/SVI factory slides and other slides modified to accept collar reverse plugs.

SPECS: Tungsten, silver finish. **Standard** - 1.4" (3.6cm) long .7 oz. (20 g) wt. **Reverse** 1.6" (4.2cm) long, .9 oz. (26 g) wt.

EFK FIRE DRAGON 1911 AUTO DUAL ACTION BUFFER SPRING SYSTEM

Softens Felt
Recoil, Tames
Muzzle Rise
& Reduces
Frame Wear

Dual action, captive-spring system cushions the recoil impulse to reduce gun wear and tame muzzle jump for fast follow-up shots and accurate shot placement. Full-length, stainless steel guide rod fully supports the recoil spring through the entire compression/expansion cycle to provide smoother cycling and improved function. A second, fully enclosed spring in the guide rod acts like a car shock absorber to slow slide velocity and reduce frame impact. Prolongs the life of frame and slide without compromising reliability. Available with recoil springs calibrated for Government model in .45 ACP, .38 Super/9mm, and .40 S&W/10mm. Easy, drop-in installation requires no alterations to gun.

SPECS: 416 stainless steel, natural matte finish. Fits full-size Government model with 5" barrel and clones. Instructions included.

EGW 1911 AUTO GUIDE ROD SYSTEM

Weight-Adding Tungsten Or Tough Stainless Steel

Heavy, tungsten guide rod adds muzzle-steadying weight to help counter recoil. Stainless steel model improves functioning without adding weight. **Two-piece** - full-length, centerless ground construction simplifies disassembly. **One-piece** - gives extra weight, plus superior support to recoil spring for smoother function.

SPECS: .326" (8.2mm) diameter. Fits 1911 Auto, or STI, Govt. length slides with 5" (12.7cm) barrels. **Tungsten** 3.1 oz. (88 g). **Stainless Steel** 2 oz. (57 g). All models supplied with stainless steel, standard spring plug.

EGW 1911 AUTO ONE-PIECE GUIDE ROD

Simple, Robust Design For
Smooth Function & Reliability

Simple, strong, one-piece guide rods provide smooth function and outstanding reliability on competition and carry guns. Machined from solid bar stock without through hole for extra strength and resistance to battering. Additional weight up front improves recoil control, and flat face helps recoil buffers fit securely. Short, **G.I. Style** has rounded front end that resists snagging the recoil spring. Available in Government and Commander sizes in stainless and blued carbon steel. **Full Length** stainless steel rod guards against recoil spring bind for improved feeding and extraction. True, one-piece design with takedown hole has no threads to loosen or wear. Fits Government models with 5" barrels. **SPECS:** **G.I. Style** - Carbon steel, blued (**BL**), or stainless, natural finish (**SS**). Government: 1 3/4" (4.6cm) long. Commander: 1 1/4" (3.2cm) long. **Full Length** - Stainless steel, natural finish. 4" (10.2cm) long.

SPRINCO 1911 AUTO RECOIL MANAGEMENT SYSTEM

Reduces Felt Recoil, Muzzle Climb & Frame Damage

Drop-in system provides significant reduction in felt recoil and grip fatigue. Plus, it keeps the gun "flat" so your sights stay on target to help you shoot faster. Bright polished, stainless steel guide rod fitted with a chrome silicon, secondary spring that reduces slide-to-frame impact with no loss of reliable cycling. Softens the recoil impulse by gradually slowing the slide to prevent frame battering; helps extend your pistol's service life. Drop-in installation requires no modifications to your pistol.

SPECS: 17-4 stainless steel (**SS**), heat treated to Rc 38-42. Polished finish. Select Bushing Plug (**BP**) or Reverse Plug (**RP**). Includes instructions.

STI 1911 AUTO RECOIL MASTER

Softens Felt Recoil For Smooth Cycling,
Reliable Feeding, Fast Sight Recovery

Dual-spring, guide rod system gives smooth, gentle slide movement to significantly reduce muzzle flip and felt recoil. Proprietary, tuned springs help control muzzle rise to get you back on target faster. Primary recoil spring absorbs initial slide movement as the secondary spring gently slows and stops the slide. Softens initial chambering impulse to gently strip rounds from magazine. Improves feeding reliability, reduces sensitivity to magazine lip style. **Twin-Pack** contains one light system and one heavy system. Shooter preference and experience will help determine choice of heavy or light system.

SPECS: Steel, blue finish. Fits 5" barrel guns. Includes full length guide rod, main and secondary springs, recoil plug and take down tool. **Light** - Comp guns and 9mm, plus guns with lightened slides require light system. **.40/.45** caliber guns, with a loose-fit slide, can use the light system. **Heavy** - New, tightly-fitted guns and .40/.45 caliber use heavy system. Factory recommends not trimming or replacing springs.

WILSON COMBAT 1911 AUTO SHOK-BUFF RECOIL SYSTEM

Improves Accuracy, Functioning; Eliminates Frame Cracking From Recoil

Easy-to-install kit instantly improves cycling, reliability and accuracy without modifying the frame or the slide. Exclusive, injection-molded, polyfiber buffers slip onto the guide rod between the head and spring and keep the slide from hitting the frame. Prevents expensive frame damage and softens the felt recoil of high power competition loads. Full-length guide rod keeps the recoil spring straight for smoother functioning and longer spring life. Together they provide consistent barrel lockup and increased accuracy.

SPECS: Kit includes stainless steel full length guide rod and plug, 6 Shok-Buff washers, 1 light recoil spring, 1 heavy recoil spring, 1 extra power firing pin return spring. Fits 1911 Auto models and calibers listed only.

BUFFERTECHNOLOGIES 1911 AUTO RECOIL BUFFER™

Softens Felt Recoil,
Stops Frame Battering

Polyurethane spacer fits on the recoil spring guide to cushion slide impact against the frame. Gently slows the slide; helps prevent the constant frame battering that causes premature wear or cracking. Extends the service life of competition and carry pistols. Softens felt recoil, reduces muzzle rise for faster follow-up shots. Change every 1000 rounds for best results.

SPECS: Polyurethane, gray. 1 per pack. **1911 Auto**, polyurethane, yellow. 8 per pack.

#071-000-005DF 1911 Auto Recoil Buffer,
1G06P97 \$ 9.95

CP BULLETS 1911 AUTO SUPERTUFF RECOIL BUFFERS

Eliminates Frame Damage From Recoil

Prevents the slide from contacting the frame and causing serious damage during recoil. An absolute must for any shooter using major power factor ammunition in their 1911 Auto. Long-wearing, hard, nylon washers absorb the shock but won't flatten out and cause cycling problems as they begin to wear. Fits easily over full length or short, factory guide rods. Replace every 1,000 rounds for best results.

SPECS: Hard nylon, clear. Fits 1911 Auto only. 5 per pak.

#169-001-000DF CP Super Tuff Recoil Buffers,
9F03B91 \$ 6.95

ED BROWN 1911 AUTO SLIDE BUFFERS

Prevent Slide-To-Frame
Contact & Damage

Eliminates frame damage caused by slide/frame battering during the recoil cycle. A single, extra-defense, polyurethane buffer fits between the guide rod head and the recoil spring; completely prevents the slide from contacting the frame. Precisely molded so they won't drag on the frame and cause malfunctions. For best results, change every 1,000 rounds.

SPECS: Polyurethane. Fits 1911 Auto only. 6 per pak.

#087-805-006DF Slide Buffers,
7H05Z06 \$ 6.33

WILSON COMBAT 1911 AUTO SHOK-BUFFS®

Softens The Blow Of Recoil;
Helps Prevent Frame Damage

Prevents expensive frame damage when shooting high-pressure, major power factor loads. Replaceable, poly-fiber washer installs behind the recoil spring on any length guide rod. The shock absorbing action stops the slide from battering the frame. Injection molded for the optimum balance between shock absorption and longevity. Replace every 1,000 rounds.

SPECS: Poly-fiber, blue. 6 Shok-Buffs per pak. Not for use in Officer's ACP Models.

NEW CYLINDER & SLIDE 1911 AUTO SAFETY FAST SHOOTING SYSTEM

Get Your Pistol
Into Action Faster
Without
Compromising Safety

Easy-to-install kit replaces some of your 1911's fire control components to allow cocked-and-locked Condition 1 carry with the hammer lowered. Makes pistol function like a decocker-equipped double-action pistol without altering single-action function, trigger pull, reliability, or speed from draw to first shot. Two-part hammer system leaves an internal hammer cocked while the traditional-looking external hammer rests in the "down" position. Reduces risk of hammer snagging on clothing when drawing from concealment, and eliminates visual distraction for bystanders caused by a "dangerous"-looking cocked weapon carried by uniformed law enforcement officers or other personnel authorized for visible carry. Minimal retraining required; weapon deployment from holster is the same as a non-SFS 1911. To operate SFS, insert a loaded magazine and rack the slide. Then push the hammer forward toward the traditional hammer down position. The ambi safety levers will pop up into "safe" position. The gun is completely safe. Slide is locked closed, trigger will not depress, internal hammer is physically blocked from reaching the firing pin, and the external hammer cannot be pulled back. Grip safety and passive Series 80 firing pin block (if your pistol has one) function normally. To shoot, simply depress the thumb safety, and the external hammer springs back to the visibly cocked position, ready to fire. If a live round remains in the chamber after shooting, the slide must be released and hammer pressed forward to render the pistol safe again. Trained personnel who can detail strip and reassemble a standard 1911 can install SFS with ease. No fitting, drilling, or gunsmithing required. Available in blued steel or with externally visible parts hard chromed to match stainless pistols.

SPECS: Carbon steel, blued or hard-chromed, matte finish. Kit contains ambi safety, complete hammer assembly, hammer strut, slide stop, mainspring, and plunger spring, plus plunger lever and trigger bar lever for Series 80 Colt. Installation instructions included. Fits Series 70 and 80 Colt 1911 Government pistols and clones.

CYLINDER & SLIDE 1911 AUTO 1911 AUTO TRIGGER PULL KIT

Match Quality Trigger Pull
In A Drop-In Kit

Kits are tested on a Series 70-style frame to make certain they will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Each kit contains a hammer, sear, disconnector, sear spring and hammer spring. Professional kit has 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations.

SPECS: Billet alloy steel, in-the-white. Hammer, Rc 50-54, .5 oz. (14.1 g) weight. Sear, .2 oz. (5.6 g) weight. Disconnector, .2 oz. (5.6 g) weight. 23 lb. hammer spring, tactical sear spring included.

NEW CLYINDER & SLIDE 1911 AUTO 3-PIECE DROP-IN TRIGGER PULL SET

Available In Two
Configurations To Fit
Your Specific Shooting Needs

Commander-style hammer, Tactical sear, and Ultra Match disconnector drop-in to deliver reliable ignition and improved trigger function on any 1911 auto. Each component is precision EDM cut to ±.0005" tolerances from Cylinder & Slide's Special Tool Steel. All parts are honed and polished, then heat-treated to Rc 50-53 for long service life. **Tactical II Set** features the popular Tactical II chamfered hammer in-the-white with standard .018" long hammer hooks for a match-grade trigger pull. **MARSOC Set** includes a blued Tactical II-style hammer with longer .023" hammer hooks for added sear engagement and maximum reliability. Used in the U.S. Marine Corps MARSOC service pistols. Added material on the hooks allows fitting by the pistolsmith to achieve a truly custom trigger pull.

SPECS: Special billet alloy steel. Hardened to Rc 50-53. Includes hammer, sear, and disconnector. **Tactical II** - All parts in-the-white. .018" long hammer hooks. **MARSOC** - Hammer blued, disconnector and sear in-the-white. .023" long hammer hooks.

CYLINDER & SLIDE ULTRA LITE, ULTRA MATCH & SUPER MATCH COMPONENTS

Premium-Quality Parts
To Produce A Long-Wearing,
Match-Quality Trigger Pull

Super Match and **Ultra Lite** components are CNC machined from aerospace-quality, maraging alloy tool steel that's age-hardened to prevent stress, warpage and tolerance loss. All profiles are mechanically correct, through-holes are properly aligned so they function the first time without time consuming fitting. Exposed hammer edges are chamfered to minimize slide drag and clothing wear. **Sets** contain either the **Ultra Lite** or the **Super Match Hammer** plus matching **Sear** and **Disconnector**.

SPECS: Hammer and Sear Special die steel, matte silver finish. Rc 50-53. **Disconnector** - Special tool steel. Rc 50-53.

ULTRA LITE HAMMER - Skeletonized for low mass and faster lock time without sacrificing long wearability and strength. 2 lb. trigger pulls can be achieved without shortening the hooks below .018". All engagement surfaces are highly polished and ready for installation.

#206-104-101DF Ultra Lite Hammer 6K78T60 \$ 98.25
#206-104-000DF Ultra Lite Set 6K134T87 \$ 160.99

SUPER MATCH HAMMER - All the great features of the **Ultra-Lite Hammer** in a conventional "commander" design that's best for assuring ignition on carry or personal defense pistols.

#206-103-001DF Super Match Hammer 6K66T40 .. \$ 83.00
#206-103-000DF Super Match Set 6K116T80 \$ 146.00

ULTRA MATCH SEAR - Highly contoured so all excess weight is trimmed away for the absolutely lowest mass and lowest inertia. Gives reliable, positive sear engagement with lighter spring weights.

#206-103-010DF Ultra Match Sear 6K39T60 \$ 49.50

ULTRA MATCH DISCONNECTOR - Machined with the correct lengths, both above and below the sear pin cutout, so you get reliable functioning without a lot of fitting or scraping.

#206-103-020DF Ultra Match Disconnector,
6K20T12 \$ 25.15

CYLINDER & SLIDE 1911 AUTO TRIGGER PULL KIT

Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on **Ultra-Lite**, **Super Match** and **Tactical II** are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnector, sear spring and hammer spring. **ULTRA LIGHT KIT** - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnector. Lightened sear spring, 18 lb. hammer spring. **ULTRA LIGHT SPEED II KIT** - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. **SUPER MATCH KIT** - 3.5 lb. pull weight. Ultra match, lightened hammer. Relieved to prevent frame rub. Ultra light match sear and disconnector. Light pull sear spring, 18 lb. hammer spring. **TACTICAL II KIT** - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnector, light sear spring, 18 lb. hammer spring. **TACTICAL MATCH KIT** - 4.5 lb. pull weight. Tactical hammer, sear, disconnector, light pull sear spring, 18 lb. hammer spring. Great for carry guns. **WARP SPEED KIT** - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnector, 18 lb. hammer spring, light pull sear spring. **PROFESSIONAL KIT** - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnector, 23 lb. hammer spring and tactical sear spring.

SPECS: **Ultra Light Kit:** Special die steel, in-the-white. Hammer: Rc 50-53. .39 oz. (11.1 g) weight. Sear: .07 oz. (1.9 g) weight. **Ultra Light Speed II:** Tool steel, in-the-white. CYLINDER & SLIDE 1911 AUTO TACTICAL HAMMER & SEAR

**Hardened-Alloy Steel
For Durability & Long Life**

EDM, wire cut, then CNC, finish machined from tool steel and hardened to Rc 50-53 so they hold a finely-stoned edge for thousands of rounds. Pre-prepped hooks and sear face require only final stoning to achieve a clean, crisp trigger pull. Plus, the sear features the proper relief cut so the hammer resets firmly during cycling. **Tactical II** hammer features relieved sides and chamfered edges to reduce slide drag and clothing wear. **SPECS:** Special tool steel, in-the-white, Rc 50-53.

EMC 1911 AUTO WIDE SPUR HAMMER

Gives Pistol A Classic Look

Tool steel hammer gives your pistol the look of early production military and contract style 1911's. Heat-treated to RC 46-52 and machined to dimensions traceable to National Bureau of Standards specifications. Top of hammer is checkered for a positive grip and sides are tapered for clearance. **SPECS:** Tool steel, heat-treated to RC 46-52. Pad: 3/8" (9.5mm) wide x 3/4" (19mm) long. Gunsmith installation recommended.

#100-001-777DF Wide Spur Hammer 7A20T95 \$ 25.95

ED BROWN 1911 AUTO BARSTOCK HARDCORE® HAMMER

Extra Tough & Long Wearing

Machined-from-barstock with the sear hooks cut to height, requiring only a light stoning to achieve a crisp, clean pull. Half-cock notch is narrowed and a lowered strut pin hole reduces full-cock spring pressure. Narrowed spur minimizes drag; a big opening reduces weight. **SPECS:** 4140 alloy steel, blue, or 420 stainless steel, SS. Rc 52-54, .020"-.022" hook height, Gunsmith installation recommended.

#087-000-009DF Blue Barstock Hammer 7H43X03 \$ 53.99

EGW 1911 AUTO FIRING PIN

Durable Stainless Steel;
Available In Three Diameters For Precise Clearance

Tough, durable firing pins are precision machined from extra-hard stainless steel to fit in the slide with .001" clearance to help eliminate "primer flow" with hot loads. Helps prevent jams and misfires caused by the primer backing out. Available in three diameters; select the diameter that provides just enough clearance through the hole in the firing pin stop of your gun. **.068** normally fits Colt and Caspian 9mm/.38 Super/.40/10mm. **.075** fits Springfield Armory 9mm/.38 Super/10mm/current-production .45 ACP. **.093** fits most .45 ACP, including older-production Springfield. Fit may vary; measure your gun to be sure you select the correct size pin. **USA**
SPECS: Stainless steel. Available in .068", .075", and .093" diameters.

ED BROWN 1911 AUTO MAINSRING HOUSING

Traditional Shapes, Plus
Different Surfaces Let Every
Shooter Get

Their Favorite Grip Feel

Both classic and contemporary looking mainspring housings combine form and function, so there is no compromise in grip control even though they look great. Flat shaped housings are available with popular 25 lpi checkering preferred by many shooters, as well the latest Snakeskin and Chainlink patterns that provide a secure gripping surface without the "sharpness" of machine cut checkering. Because they won't abrade your hand or clothing, they make the perfect addition to competition and carry guns. Traditional, Arched shaped mainspring housing rides high in the heel of the hand to keep it close to the bore for minimal muzzle rise and excellent recoil control, and is available with a Grooved surface to provide a firm grip with little drag on clothing. Blank models are completely smooth to allow custom checkering or engraving, and are available in both flat and arched shapes. 

SPECS: Steel, blued or stainless steel (SS) natural finish. Fits Govt./Comm./Para-Ordnance P14, P15, P16.

NIGHTHAWK CUSTOM 1911 AUTO MAINSPRING HOUSINGS

Fully Checkered For A Firm, Nonslip Grip

Get a solid grip on your Govt. or Officers Model with the crisp, clean 25 lpi machine-cut checkering on these all-steel mainspring housings. Helps improved accuracy by keeping the pistol correctly positioned in the shooting hand for a consistent hold and improves recoil control. Great for combat or competition pistols. **Flat (FL)** model offers a clean, low profile that lets you get a good, solid grip. **Arch (AR)** has the bump or rounded swell toward the bottom of the housing that aids in maintaining a higher grip. **Magwell (MW)** model combines the flat housing with a separate, enlarged magazine well that helps speed magazine changes. Magwell removes easily for carry or other times when a low profile is required. Ball bearing detent eliminates play for solid contact between magwell and housing.

VZ GRIPS 1911 AUTO LIGHTWEIGHT MAINSPRING HOUSING

Shaves Weight For A Fast Handling, Easy-To-Carry Pistol

Flat mainspring housing machined from 6082-T6 aluminum helps achieve maximum weight reduction for shooters who want the advantages of a light, custom carry or competition gun. Weighs only 17 grams — over 2½ times lighter than similar flat housings made of steel. **Checkered** model is bead-blasted, then treated with a proprietary, black or silver hardcoat anodized finish that's denser and more abrasion-resistant than traditional sulfuric anodizing; 20 lpi checkering improves grip and is less prone to snagging on clothing than extra-fine line patterns. **Plain** model is smooth without anodizing to allow custom checkering and finishing by the gunsmith.

SPECS: 6082-T6 aluminum, **Checkered** - hardcoat anodized, matte Black or Silver. **Plain** - in-the-white, unanodized. **Govt** - Fits Government and Commander models. **Off** - Fits Officers model.

ED BROWN 1911 AUTO DROP-IN MAXI-WELL

Easier, Faster Reloads; Improves The Grip; No Gunsmithing Required

Drops right onto 1911 Auto frames without gunsmithing, and the separate magazine well can be removed without disassembling the pistol. Enlarged magwell greatly increases frame opening for

faster and easier magazine changes. Flat housing increases grip surface area to help keep the pistol from riding up during rapid fire. Available in blue or stainless steel with 25 lpi machined checkering that helps keep the pistol centered in your grip. Also available with the exclusive **Snakeskin** and **Chainlink** designs. Both machined-in patterns provide a very secure, non-slip gripping surface, without the "sharpness" of conventional checkering that can sometimes abrade your hand or grab at your clothing during a concealed carry draw.

SPECS: Steel, blued (BL) or stainless steel (SS). Available with 25 lpi checkering or with snakeskin or chainlink patterns. Fits Government or Commander length frames.

SMITH & ALEXANDER MAG GUIDE

Extra-Wide For Fast Reloads; No Alterations To Frame

Drop-in, one-piece mag well and mainspring housing makes the mag well opening 100% bigger for easier magazine insertion and faster, "can't-miss" mag changes. Increases grip length by 1/4" for additional leverage and greater recoil control. For a no-slip, no-shift grip, mainspring housing features extra-defined, 20 lpi checkering, unless otherwise noted. **Smooth** models have uncheckered mainspring housing. **Grooved** model has full-length vertical grooves on the mainspring housing.

SPECS: Steel. Available blued (BL) or stainless steel (SS) with flat (FL) or arched (AR) mainspring housing to fit: 1911 Govt./Commander (GM); Officers Model (OM); Para-Ordnance P-14/P-16 (PO). Para-Ordnance models require minor modification of frame with hand tools; instructions included.

10-8 PERFORMANCE 1911 AUTO
EXTENDED MAGAZINE CATCHFast, Positive Release
Without Extra Bulk

Drop-in replacement for factory magazine catch has a unique, convex button surface to ensure positive finger contact for fast magazine changes under pressure. Crisp, 30 lpi serrations further aid in fumble-free engagement; .045" longer than factory part for extra leverage without creating an unwanted protrusion that snags on clothing, holster, or other gear. Tumbled and bead-blasted for a uniform, matte finish with rounded "dehorned" edges. Interior of the catch is relieved to enable instant magazine free-fall when you hit the button. Available in **Carbon Steel** with black manganese phosphate finish or natural finish **Stainless Steel**.

SPECS: Carbon steel, black, or stainless steel, natural silver, both matte finish. Gunsmith fitting may be required.

TECHWELL USA 1911 AUTO

EXTENDED MAGWELL/GRIP KITS

Lightning-Fast Mag Changes;
Drop-In Installation;
No Permanent Alterations To Pistol

Rugged, machined aluminum components enhance shooter's grip and aid in fast, positive magazine changes for an edge in competition or combat. IDPA- and USPSA-legal extended magwell helps guide the magazine for fumble-free changes when seconds count, and requires no permanent alterations to pistol frame. The key is the full-length grips that provide secure retention of the magwell, yet allow you to return your pistol to stock configuration simply by reinstalling the original grips. Grips have precision-cut 16 lpi full-surface checkering to help you maintain a firm hold even in the heat of competition. Excess metal has been machined away from the panel interior to reduce weight without sacrificing strength. Cut for ambi safeties; panels conceal the mainspring housing pin. Three models available, all designed to allow the pistol to fit into the USPSA/IDPA "Box"; pistols with oversized frames or unusually high sights may need a small amount of material removed from the magwell or magazine base pad. **SP** - Designed for an 8-round magazine with standard or extended base pad and 10-round magazines. **Carry** - Highly versatile, designed for carry or competition, with smoothly flowing exterior contours to minimize bulk and risk of snagging on clothing during the draw. Accepts same magazines as **SP, XT** - Wide, smooth opening is designed to give the competitor maximum advantage in making fast mag changes with 10-round or extended-pad 8-round magazines. Used by USPSA champion Rob Leatham in 2007 Limited 10 National Championship.

SPECS: Machined aluminum, anodized, black. Fits full-size Government Model and Commander pistols.

ED BROWN 1911 AUTO MAGAZINE

Precision Engineered With Premium Materials
For Exceptional Reliability

Premium-quality magazines is engineered and manufactured to the highest standards to deliver outstanding reliability and smoothness in competition or combat. Virtually seamless body of heat-treated stainless steel and rounded, self-leveling all-steel follower and heavy duty spring further enhance reliability. **7-Round** - Has six witness holes, natural matte gray finish, and extended bumper pad that protects magazine if dropped on a hard surface and increases overall length to ensure positive seating. **8-Round** - Full-featured, "8-Pack"™ model has extended body designed to provide sufficient room for the extra round and maintain proper spring compression. Seven witness holes, with extra-large, easy-to-see round count numbers are crisply laser etched on both sides. Hydro-finish process gives body and follower an extra-slick surface that repels dirt, dust, and burned powder to eliminate unnecessary friction against the follower for consistent feeding and easier seating in magwell. Flared bumper pad of tough, impact-absorbing polymer gives a secure grip during mag changes and protects the magazine when dropped. "88" number template—like numbers on a digital clock—on the bottom of the pad lets you create any number from 00 to 99 with a dab of paint to track usage history of individual magazines. Depress the large, easy-to-operate release button to remove the pad for cleaning. 

INFINITY MAGAZINE COMPONENTS

Replacement Tube Gives Original Capacity

TIG welded, stainless steel, flat-panel wall design gives long-wearing durability. Replacement tube allows you to repair or refurbish an existing .38/9mm high-capacity magazine. Base pad, spring and follower not included. *It is a violation of the law in some states to use replacement tubes to assemble a new, high-cap magazine.* 
SPECS: 124mm long. 17-round capacity. For .38/9mm caliber.

McCORMICK 1911 AUTO POWER MAGAZINE

Premium, No-Fail Features
Plus Additional Rounds

Built to the very highest standards for the no-fail performance competitive and self-defense shooters demand. Feed lips are roll-formed and polished, not die cut, for added strength, and Chip's patented follower design provides flawless feeding with semi-wadcutters and hollow points. Powerful spring of proprietary, heat-treated Rocket Wire further ensures reliable feeding, even when left fully loaded and seated in a pistol for extended periods. Removable plastic base pad with full, front-to-back engagement, is built to withstand continual use, and numbered witness holes on both sides of the body provide a fast, visible round count. Available in 8-round capacity with slightly extended base pad that adds about ¼" to magazine length; long-body 10-round model has base pad that wraps around exposed portion of magazine that extends beyond mag well. **Power Plus** models have an advanced anti-tilt follower for even more stable support of the round stack—extra insurance that every round feeds, first to last. Replacement **Power Mag Followers** (standard model only) and **Springs** available. 
SPECS: Stainless body and follower, plastic base pad. Available in 8- and 10-round capacities. Fits .45ACP 1911 Auto single stack only.

POWER MAG BASE PAD - Rugged, high-impact plastic pads attach to Power Mag magazines to adapt for specific uses. **Officers/Compact** pad is shorter for concealability and to properly control the overinsertion problems that occur when full-length magazines are used in shorter frames. **Extended** pad is ¼" longer than standard Power Mag base pad so it extends beyond the mag well to aid in positive seating for combat specialists or IDPA and IPSC competitors. **Concealment** pad shortens the top-to-bottom length of 8-round Power Mags to reduce "printing" in carry applications. Pads work with McCormick Power Mag magazines only.

SPECS: Plastic, black. For use with Power Mag magazines only.

METALFORM MAGAZINE

Traditional & Increased-Capacity Magazines
For 1911 Colts & Copies

Robust, high-quality U.S. made magazines in blued carbon steel and stainless steel for 1911 Auto pistols chambered in a variety of calibers. Choose from round or flat steel followers, both designed to give positive last-round feeding with all bullet types, including wadcutters. Safety orange nylon follower is concave to hold an additional round. Three floorplate configurations available: **Welded** - Flat, steel plate permanently welded to magazine body, with screw holes to accept Metalform Bumper Pads (available below). **Removable** - Steel plate detaches for easy internal cleaning of mag; also accepts Bumper Pads. **Ultramag** - Removable base pad of tough Delrin® polymer is contoured for a neat, flush fit in extended magwells. Officers ACP marked **Shoe** are standard magazines equipped with an oversized, rubber shoe that covers the exposed body, adds a finger rest and gives a finished look. Shoe is available separately to retrofit existing mags. **.40 S&W/Govt. 10-Round Magazine** meets the 140mm, practical-shooting regulations. **SPECS:** Blued carbon steel (**Blue**) or natural-finish stainless steel (**Stnls**). Approximately 5" (12.7cm) long. **.40 S&W/Govt. 10-Round Magazine** - 5.4" (136mm) meets 140mm practical shooting regulations. Followers - Stainless steel, natural silver or black finish, flat or round contour. Some magazines have concave safety orange nylon follower.

NIGHTHAWK CUSTOM 1911 AUTO
MAGAZINESPrecision Mags Exceed Factory Specs
For Correct Fit & Superb Reliability

Premium-quality, magazine is produced using state-of-the-art manufacturing techniques to run as flawlessly as the best custom-tuned pistol. Extra-thick, tempered steel mag body is formed to small tolerances, with a smooth-welded seam carefully polished to eliminate any rough spots or burrs that might snag the rigid, stainless steel follower. The hard, high-polish finish eases insertion into the mag well and resists attracting dust and dirt. Precision-formed feed lips are engineered to resist deforming, even when the magazine is stored fully loaded for extended periods. An extra-strong spring provides the additional force necessary to ensure reliable feeding under any conditions. A shock-resistant, polymer composite floorplate protects magazine when dropped on a hard surface, and detaches easily to disassemble the mag for cleaning. Separate, numbered witness holes let you know exactly how full your mag is.

SPECS: Steel, blued, high gloss finish. Polymer composite floorplate. **Govt.** - 5" (12.7cm) long. 8-round capacity. **Officers** - 4 1/2" (11.4cm) long. 7-round capacity.

NIGHTHAWK CUSTOM 1911 AUTO
STAINLESS STEEL MAGAZINE

Built To Feed Flawlessly

Extra-thick, stainless steel magazine body is formed to tight tolerances with a smooth-welded seam that's carefully polished to eliminate any rough spots or burrs that could snag the follower. Polished exterior finish eases insertion into the mag well, while the precision-formed feed lips are engineered to resist deformation even after storing the magazine fully loaded for extended periods.

Numbered witness holes let you know exactly how many rounds are loaded. Smooth-moving, polymer/fiberglass composite follower is specifically contoured to keep the last round from feeding too fast and causing a jam; extra-strong spring delivers consistent force to ensure reliable feeding in all shooting conditions. **Standard** model features a .360" thick, removable, polymer composite base pad that extends .310" below the mag body for added protection when dropped. **Low Profile** version has a carbon steel, removable base pad that extends only .090" below the mag body, perfect for concealed carry. Both versions available for Government and Officers model.

SPECS: Body - Stainless steel, natural finish. Follower - Polymer/fiberglass composite. Base Pad - Polymer or steel. **Govt.** - 8-round capacity. OAL - Standard: 5 5/8" (13.1cm); Low Profile: 5" (12.7cm). **Officers** - 7-round capacity. OAL - Standard: 4 2 1/2" (11.8cm); Low Profile: 4 1/2" (11.4cm).

WILSON COMBAT 1911 AUTO "BUREAUCRAT"

10-ROUND MAGAZINE

+ 2 Rounds Of .45 ACP

Wilson's outstanding quality, 47 Series magazine, lengthened to accept two additional rounds of .45 ACP. Gives increased firepower with fewer mag changes for the limited class shooter. All stainless steel construction, tempered steel spring, removable base pad for easy cleaning; welded stop prevents over-insertion.

SPECS: Stainless steel, nylon follower and base plate.

#965-047-110DF "Bureaucrat" Magazine 5F32X38 . . \$ 37.99

WILSON COMBAT 1911 AUTO ELITE TACTICAL MAGAZINE

Ultra-Reliable, Smooth Feeding; Holds One More
Round Than Standard Mag

Wilson Combat applied 30 years of experience building high-performance 1911 magazines to develop this completely new, ultra-reliable extra-capacity magazine. Made with state-of-the-art materials using the latest manufacturing technology, these single-stack magazines are built tough to keep running in unforgiving, real-world conditions. Extra-thick stainless steel body has the radius of each curve engineered to minimize stress points. Even the position of the witness holes toward the rear is designed to enhance structural integrity. A proprietary welding, deburring, and polishing process provides an unusually strong, super-smooth seam to ensure snag-free follower movement and easy insertion in the mag well. The non-tilt follower of self-lubricating polymer fully supports the ammo stack to prevent nose-dives, double feeds, and other hang-ups. The mag body design puts less tension on the spring than standard magazines, increasing spring life and making it easy to seat a fully loaded magazine with the slide closed. The polymer base pad adds minimal bulk yet ensures a firm purchase even when your hands are wet; removes easily for cleaning. Numbers 1 through 10 stamped on the bottom help you mark each of your magazines to track usage and performance. **.45 ACP** - 8 round capacity; round-count numbers stamped on magazine body next to witness holes. Available in natural Silver or Black Oxide finish. **9mm** - 10 round capacity; no round count numbers. Silver finish only.

SPECS: 17-7 stainless steel, natural silver or black oxide, finish, with black polymer follower and base pad. **.45 ACP** - 8-round capacity. **9mm** - 10-round capacity.

WILSON COMBAT 1911 AUTO WILSON-ROGERS MAGAZINE

Self-Lubricating, Synthetic Follower;
Improves Feeding, Won't Rust

Made from heat-treated, 17-7, aircraft-grade stainless steel to stand up to the demands of competitive and defensive shooting. Precision-formed bodies are built to very close tolerances for excellent, universal fit. Exclusive, molded, self-lubricating follower ensures reliable feeding and slide stop operation. Extra-power Wolff spring resists "spring set". Removable base, spring, and follower for fast, easy cleaning. **Black** models have black, oxide finish and removable steel base pad. **■**

SPECS: 17-7 Stainless steel. **1911 Auto** and **Officers ACP** models have bright, stainless steel finish with black polymer base pad. 8-round **Officers ACP** models are $\frac{1}{8}$ " longer, respectively, than factory magazines. **Black** models have black, oxide finish with steel base pad. Furnished with low profile base pad.

FREED DESIGNS 1911 AUTO X-GRIP™ MAGAZINE ADAPTER

Adapts Full-Size 8-Round Magazines To Officers Model For Increased Firepower

Snap-on adapter converts 8-round Government model Novak and Act-Mag magazines for use in an Officers model pistol. Gives your Officers model the capacity of a full-size pistol, so you have more ammo available when you need it. Two-piece, closed-bottom unit snaps tightly around the floorplate, but it removes easily if you want to use the magazine with a full-size grip frame. Streamlined contours provide a nearly seamless mate to the grip frame. Gives added support for your little finger to improve weapon control, and offers extra cushion to protect the floorplate when dropping the mag during reloads. Made of rugged, impact-resistant polymer, so it takes a beating, yet weighs only half an ounce.

SPECS: Polymer, matte black. 2 1/2" (6.4cm) long, 1 1/4" (3cm) wide, 1 1/8" (2.1cm) high, 1/2 oz. (14g) weight. Adapts Novak and Act-Mag 8-round, .45 ACP Govt. model magazines for use in Officers ACP.

CYLINDER & SLIDE 1911 AUTO SERIES 80 TRIGGER PULL REDUCTION KIT

Super-Slick Parts Lighten Series 80 Pull

Titanium-nitrided parts, with an exclusive moly-disulfide coating, reduce trigger pull weight without risky modifications to Series 80 Colt's firing pin safety system. Reduces the creep and jump in the takeup that's inherent in these guns.

When used with custom, after-market parts, trigger pulls as low as 2 1/2 lbs. can be safely achieved. **USA**
SPECS: Steel, TiN and moly coated, gold color. Kit includes hammer pin, sear pin, trigger lever, plunger lever, firing pin plunger.

#206-080-000DF Trigger Pull Reduction Kit, 6K38H40 ... \$ 48.00

10-8 PERFORMANCE 1911 AUTO FLAT TRIGGER

Delivers Consistent Length-Of-Pull Regardless Of Finger Placement

Lightweight, aluminum trigger shoe features a flat, serrated face for uniform length-of-pull regardless of index finger placement. Full width, stainless steel bow eliminates flex and is permanently staked to the shoe for added strength, making this trigger a top choice for duty and self defense guns. Stainless steel overtravel stop screw is mounted in the rear of the shoe and requires no staking or threadlocker to keep it in place - once it's set, it won't shoot loose. **USA**

SPECS: Bow - Stainless steel, polished finish. Shoe - Aluminum, silver, anodized finish. 2.2" (5.6cm) OAL. .3 oz. (8.6g) wt.

#100-003-159DF 10-8 Flat Trigger, 1B19Z95 ... \$ 24.75

10-8 PERFORMANCE LLC SPRINGFIELD EMP EMP TRIGGER

Staked Bow For High Strength & Reliable Performance

Full width, stainless steel bow eliminates flex and is permanently staked to the trigger shoe for added strength, making this trigger a top choice for carry guns. Stainless steel overtravel stop screw is mounted in the rear of the shoe and requires no staking or threadlocker to keep it in place - once it's set, it won't shoot loose. Aluminum, serrated shoe provides a non-slip grip and positive control. Over-sized shoe and overtravel stop require gunsmith fitting. **Long Curved** allows a different length-of-pull depending on index finger position; ideal for larger hands. **Long Flat** trigger features a flat, square face for uniform length-of-pull regardless of index finger position. Length-of-pull is equal to the shortest point on a traditional, "long" curved trigger.

SPECS: Bow - Stainless steel, polished finish. Shoe - Aluminum, silver, anodized finish. **Long Curved** - 2.28" (5.8cm) OAL. **Flat** - 2.13" (5.4cm) OAL. .3 oz. (8.6g) wt. Fits Springfield EMP in 9mm and .40 S&W.

#100-003-712DF Long Curved Trigger, 1B19V95 ... \$ 24.95

#100-003-713DF Long Flat Trigger, 1B19V95 ... 24.95

GSA CASTILLO'S 1911 AUTO BALL BEARING TRIGGER

Gives A Smooth-Gliding Trigger Pull Without Fitting

Smooth, roller bearing design and drop-in installation allows the do-it-yourselfer to achieve a light, crisp, match-grade trigger pull without special tools or complicated fitting operations. Permanently installed, .010" diameter ball bearings at top and bottom of trigger shoe adjust automatically for positive contact in standard and oversize trigger tracks. Responsive, anti-flex, stainless steel bow is drilled for less weight; prevents sponginess for a consistent pull that helps improve accuracy. Lightweight, aluminum shoe features swaged construction, plus a grooved face for excellent control. Stop screw helps eliminate overtravel. For a really slick pull, polish the trigger track with Brownells Trigger Track Stone (#080-721-230). Then lubricate the track and bearings, and install the trigger. **USA**
SPECS: Stainless steel bow, aluminum shoe. Silver anodized finish. 2 3/8" (6cm) OAL. .3 oz. (8.5 g) wt.

#100-001-837DF Ball Bearing Trigger, 2A80V00 ... \$ 100.00

#080-721-230DF Trigger Track Stone, 8K12V18 ... 15.99

CYLINDER & SLIDE 1911 AUTO SOLID ALUMINUM MATCH TRIGGER

Replaces Sloppy-Fitting Factory Trigger; Smooth, Rounded Face For Comfort

Match-grade replacement trigger improves control and increases shooting comfort for greater accuracy. Solid, aluminum alloy trigger shoe is oversized for precise fitting to your frame. Smooth, rounded face eliminates "tender finger" caused by abrasions from sharply serrated trigger faces during long shooting sessions. Transmits the actual trigger action more effectively for a better "feel" of actual pull weight and improved control of letoff. Stainless steel trigger bow is longer than factory length to reduce take up. Overtravel screw helps eliminate trigger overtravel. Available with **Short, Medium, and Long** trigger shoe. Gunsmith fitting required. **USA**

SPECS: Aluminum shoe, stainless steel bow. **Short** - 2.25" (5.72cm), **Medium** - 2.35" (5.97cm), **Long** - 2.40" (6.1cm).

#206-000-024DF Alum. Match Trigger, Short, 6K20H80 ... \$ 26.00

GSA CLYINDER & SLIDE 1911 AUTO LONG ALUMINUM TRIGGER

Helps Ensure Correct Finger Placement For Best Accuracy

Long, aluminum, trigger shoe helps ensure proper placement of the index finger so pull force is directed straight rearward, preventing disturbance to sight alignment for improved accuracy. Shoe is permanently staked and drilled in a 3-hole configuration to keep weight to a minimum. Fine line serrations on the face provide a positive "feel" and help improve overall trigger control. Highly polished, stainless steel bow prevents trigger-flex and eliminates drag. Overtravel stop screw allows adjustments for creep. Gunsmith fitting required. **USA**
SPECS: Shoe - Aluminum, silver, anodized finish. Bow - Stainless steel, polished finish. 2.40" (6.1cm) OAL.

#206-000-033DF Long Aluminum Trigger, 6K21Z08 ... \$ 26.99

DLASKARMS ULTRA-LIGHT TRIGGER

Magnesium & Titanium For Strength; Adjustable For Take-Up & Overtravel; Para-Ord., STI Models, Too

Titanium stirrup, magnesium shoe and two-way adjustability provide the best combination of strength, lower weight and crisp feeling response for an ultra-light, match quality trigger pull without flex, take-up or overtravel.

SPECS: Magnesium shoe, titanium stirrup, silver finish. Available in **Short** - 2.124" (5.4cm), **Med.** - 2.187" (5.6cm), **Long** - 2.335" (5.9cm), **Shoe:** **1911 and Para.** - .245" (6.2cm) wide, **Gold Cup**, 352" (8.9mm) wide, .2 oz. (6 g) weight. Lightening holes not available on *Short* models.

ED BROWN 1911 AUTO NATIONAL MATCH TRIGGER

Stainless-Steel Bow Eliminates Flex

Drilled aluminum, three-hole shoe lightens trigger pull to help you hit where you aim. Long shoe length and finely serrated surface provides good feel and trigger control. Shoe height is slightly oversized for precise fitting. Stainless steel bow gives, no-flex trigger movement. Overtravel stop screw prevents creep.

SPECS: Aluminum, silver anodized shoe; stainless steel bow. ¼"(6.3mm) wide, 1⅞" (23.8 mm) high; .3 oz (7g) wt. Gunsmith fitting required.

#087-000-012DF National Match Trigger 7H17X19. \$ 21.99

GREIDER PRECISION 1911 AUTO V-SERIES MATCH TRIGGER

Proven, Videki Design For Match-Winning Performance

Lightweight, competition trigger minimizes drag and reduces pull weight for extra smooth engagement and faster return. Features the same, proven design that made the "Videki Speed Trigger" the industry standard.

Extra-stiff, high-strength bow is machined using the original Class A, Videki tooling and 400 series stainless steel. Shoe is CNC-machined from top-quality, aluminum billet and left slightly oversize for custom fitting. Stop screw helps eliminate overtravel; grooved face gives excellent control. Three sizes provide the correct length-of-pull (LOP) for most shooters. **3-Hole** shoe features three holes to help keep pistol weight to a minimum.

SPECS: Bow - 400 Series S, polished finish. **Shoe** - Aluminum, silver. **Long** - 2¼" (5.7cm) long. **Medium** - 2⅝" (5.4cm) long. **Short** - 2" (5.1cm) long.

GUN CRAFT PARA-ORDNANCE ALUMINUM TRIGGER

Two Lengths Fit Large & Small Hands

Lightweight, aluminum triggers give shooters with different-sized hands the proper index finger placement for easier, smoother trigger engagement. **Short** trigger helps shooters with smaller hands reach around the Para-Ordnance frame. **Long** trigger gets the placement right for shooters with larger hands. **Square** trigger is extra long and features a gentle 4" radius along the length of the face that increases surface area and gives a lighter perceived pull so the gun is easier to "double-tap". All models feature grooved face, steel bows with fitting pads and overtravel adjustment.

SPECS: Aluminum body, steel bow. **Body:** .240" (6mm) wide. **Short;** 2.3" (5.8cm) long overall, **Long;** 2.40" (6cm) long overall. **Square;** 2.40" overall length. Fits Para-Ordnance frames only, requires gunsmith fitting.

WILSON COMBAT 1911 AUTO ULTRALIGHT MATCH TRIGGER

Light Weight For A Smooth Pull
& Ultra-Crisp Letoff;
Shoes To Fit Any Finger Size

The same high-quality match-grade trigger used by the Wilson Custom Shop in its famous custom 1911 autos. Weighs a mere .2 oz. (6g) to help ensure a consistent trigger pull and ultra-crisp letoff for competition or tactical pistols. Solid shoe is precision machined from high-grade aluminum alloy, with clean, well-defined serrations on the face for positive finger contact and neatly radiused edges that won't abrade finger; attractive, low-luster finish. Three-hole **Skeletonized** model has long shoe with curved face; **Solid** model available with **Curved** face in Short, Medium, and Long lengths or **Flat** face. Customize overtravel to your pistol with the adjustable overtravel screw (hex wrench included). Stirrup is made of heat-treated stainless steel to minimize unwanted flex; polished, high-gloss finish ensures minimal friction with frame. Minor fitting may be required. 

SPECS: Aluminum shoe, stainless steel stirrup, natural finish.

CLARK CUSTOM 1911 AUTO CUSTOM SEAR SPRING

Effective, Easy-To-Install Cure - Saves Carefully
Stoned Sear & Hammer Notches

Exclusive, "split" center leg of spring keeps constant forward pressure on trigger to prevent hammer/sear notch damage (which can cause dangerous "hammer follow") on guns equipped with lightened or "traditional", custom trigger jobs. Allows hammer to be cocked under most normal conditions and will not affect trigger break or pull. Can be used with lightweight triggers or Gold Cup-style hammers.
SPECS: Blued steel, 2¹³/₁₆" (7.1cm) long, 1/2" (12.7mm) wide. Fits all models of Colt-style 1911 Auto pistols.

#181-130-001DF Custom Sear Spring 1H05U19 \$ 6.99
#181-130-003DF 3 Custom Sear Springs 1H14U24 ... 18.99

INFINITY 1911 AUTO TRI-GLIDE TITANIUM SEAR SPRING

Smooth, Reliable Pull With Light Triggers

Reduced tension rate compared to steel makes pull weights as low as 1 1/2 pounds possible. Non-stacking, linear movement reduces sear loading to allow a 1 pound reset weight without sear bounce. Steel ball bearing, inset into center leaf, reduces contact area with disconnector; provides a very smooth trigger takeup. 
SPECS: Titanium. Both springs require minor fitting. 1911 fits single stack, 1911 autos. **Hi-Cap** fits STV/Infinity and Para-Ordnance.
#823-111-000DF 1911 Tri-Glide Sear Spring, 3B23Z73 \$ 29.99
#823-000-005DF Hi-Cap Tri-Glide Sear Spring, 3B23X57 29.47

OTHER SEAR SPRINGS

ED BROWN HARDCORE™ - Longer center leg allows precise spring tuning; helps prevent disconnector failure and provides more positive sear engagement. Specially heat treated, spring, tool steel will never fail under normal use. Includes Ed's **LIFETIME GUARANTEE**. 
SPECS: Spring steel, blue.
#087-825-100DF Hardcore Sear Spring 7H05Y91 \$ 740

ED BROWN SEAR SPRINGS - Assures positive sear engagement and helps prevent disconnector failure. High-quality, tempered spring features extra length on the center leg that allows precise tuning of the disconnector. 
SPECS: Steel, blue, tempered.

ED BROWN 1911 AUTO COMPETITION MAINSPRING

Lighter Mainspring For Match-Quality Triggers

Top-quality springs assure consistent, reliable ignition plus dependable performance. Provides the lower weight necessary to achieve the clean-breaking, light trigger sought after by 1911 aficionados everywhere. 
SPECS: Steel, pak of 5. 19 lb. weight, factory is 23 lb.
#087-045-919DF Mainspring, 5-pak, 7H05D91 \$ 740

ED BROWN COMMANDER RECOIL SPRING

Constant Rate Design
For Improved Ejection & Dependable Cycling

Premium-quality replacement for old, tired factory recoil springs in the 1911 Commander improves function and reliability. Constant rate design along the entire length to help keep the slide closed longer when shooting heavy loads. Reduces wear from battering and shortens the distance spent casing are ejected. High tensile strength, round wire, spring steel ensures years of reliable service. **18 lb.** is the correct, factory weight and an excellent choice for restoring your pistol to its original specs. **20 lb.** Extra power spring holds the slide closed a little longer to help solve the problem of brass ejecting too far (more than 15 feet). 
SPECS: Round-wire spring steel. Approximately 5 1/8" (13cm) long uncompressed. Fits Commander-length 1911 pistols.
#087-000-045DF 18 lb. Commander Recoil Spring, 7H08D46 \$ 10.60
#087-000-046DF 20 lb. Commander Recoil Spring, 7H08D46 10.60

ISMI CERTIFIED SPRING

Designed For Maximum
Consistency & Reliability

CAD designed and built to Aerospace specifications from chrome silicon, corrosion resistant, stainless steel or chrome vanadium for maximum durability, consistency and reliable performance. Built to aerospace specifications; heat treated, shot peened and fully stress relieved to minimize spring set. 
SPECS: Chrome silicon or stainless steel round wire, chrome vanadium flat wire.

1911 GOVT. AUTO RECOIL SPRINGS - Chrome silicon (CS), standard wound.

NIGHTHAWK CUSTOM 1911 AUTO SPRING KITS

High Quality Springs
For Smooth,
Reliable Function

High-quality replacement springs ensure reliable performance from your pistol, including proper feeding, positive ejection, and minimal battering of frame and slide. Replace fatigued springs to return a gun to consistent, dependable function or use as components in a custom build. Pistolsmiths recommend changing springs regularly as part of a positive preventive maintenance program. Kits include two standard weight recoil springs, an extra power recoil spring for hot or +P loads, extra power firing pin spring for positive ignition, and reduced power hammer spring. 
SPECS: Spring steel. **Govt.** contains two 17 lb. recoil springs, 20 lb. extra power recoil spring, reduced power hammer spring, and an extra power firing pin spring. **Commander** contains two 20 lb. recoil springs, 22 lb. extra power recoil spring, 21 lb. reduced power hammer spring, and an extra power firing pin spring.

TACTICAL SPRINGS 1911 AUTO RECOIL SPRINGS

**Consistent Performance For High-Stress,
High-Volume Shooting**

Premium-quality recoil spring helps ensure consistent, dependable operation for tens of thousands of compression cycles. Perfect for the high-volume tactical or competition shooter who needs a finely tuned spring that delivers its rated power as reliably on the 50,000th shot as it did on the first. Made from chromium-silicon steel alloy selected specifically for its hardness, heat resistance, and ability to withstand high stresses—the same alloy used for valve springs on automobile engines. Cryogenically treated to relieve internal stress, and surface impregnated with Sprinco's proprietary Plate+ molybdenum disulfide lubricating coating. Available in factory standard 16-lb. weight, as well as extra-power 17- and 18-lb. weights to reduce slide and frame battering with hot loads and shorten the distance spent brass is ejected from gun.

SPECS: Cryo-treated chrome silicon alloy. Fits full-size 1911 Auto Govt. Model.

WOLFF RECOIL SPRING

Fine Tune For Light, Standard Or Heavy Loads

Like all Wolff springs, these for the 1911 Auto in .45, .38 Super or 9mm are the finest, most reliable, longest lasting ones available. The springs of choice for most of the nation's top builders. Except where noted, all recoil springs are supplied with an extra power firing pin spring that keeps the firing pin stop in place and prevents firing pin "float"; an addition recommended by pistolsmith Bill Wilson. 

TYPE A - FORTARGET (SOFTBALL) LOADS - These were originally recommended to us by Major F. B. Conway, U.S.A. - M.T.U. Whenever lighter than standard bullets or powder charges are being used, a lighter recoil spring is a must for correct functioning; however, they **MUST NOT BE USED WITH STANDARD (HARDBALL) LOADS.** The 10lb. Type A spring is the old favorite (for reduced loads) and for that reason we also make it available as a single item (without the extra power firing pin spring).

BROWNELLS 1911 AUTO MAINSPRING HOUSING REBUILD KIT

Helps Keep Your Pistol Running Reliably

Handy kit contains all the parts you need to mount a new mainspring housing on your 1911, or reburish the internal components to factory-new condition. Includes standard, factory weight (23 lb.) hammer spring to help ensure positive ignition and restore your pistol's reliability by replacing an old, weak spring. Also includes mainspring cap, cap pin, and retaining pin, so you don't ruin a good-looking new housing's appearance with old, dinged hardware. Kit available with blued or stainless external components to match your pistol's finish. Installation instructions included. 

SPECS: Kit contains factory weight hammer spring, mainspring cap, cap pin, mainspring housing retainer pin, and instructions. Fits full-size 1911 Government Model, Commander, and clones.

#080-000-549DF Mainspring Housing Rebuild Kit, Blued, 8K06A62 \$ 7.99

K & J ACCESSORIES 1911 AUTO DELUXE COMPLETION KIT

Every Pin & Spring You Need
For Building A 1911 Auto

Complete and convenient kit has every pin and spring you need when building, or rebuilding, a 1911 Auto pistol. All are made from premium, heat-treated carbon or stainless steels. Oversized hammer and sear pin are ground to maximum diameter on the 1911 print for a close fit in worn, frame-pin holes.

SPECS: Carbon steel, blued (**Bl**) or natural stainless steel (**SS**). Contains one each: link pin, ejector pin, hammer strut pin, mainspring (m/s) cap, m/s cap pin, m/s housing pin retainer, m/s housing pin, detent plunger assembly, sear pin, hammer pin, mag catch lock, mag catch spring, sear spring, 19lb. mainspring, xp firing pin spring, hammer strut, and long disconnecter.

WILSON COMBAT 1911 AUTO FRAME PARTS KIT

AllThe
Parts To Turn
A Bare Frame Into
A Complete
"Lower Half"

Convenient kit contains all the parts needed to complete a stripped, full-size, .45 ACP Government Model frame so it's fully functional and ready to receive the slide of your choice. Saves time and money—no need to hunt down each item individually—and the Wilson name ensures superb fit, finish, and reliability. Perfect for a custom build, or rebuild an old frame to like-new condition. Available in matte blued **Carbon Steel (CS)** or natural finish **Stainless Steel (SS)**. Kit contains: mainspring housing, mainspring, mainspring cap, mainspring retainer, trigger, hammer, hammer strut, sear, sear spring, disconnecter, grip safety, thumb safety, magazine catch, magazine catch lock, slide stop, plunger tube, safety lock plunger, slide stop plunger, grip bushings and screws, and all the other necessary retaining pins. Includes many performance features preferred by experienced tactical pistol shooters. Skeletonized, ultralight hammer and trigger deliver exceptionally quick lock time and reset. Low-profile hammer spur minimizes risk of snagging during carry or draw from concealment, and match-grade trigger features machined aluminum shoe with deeply serrated face and hardened stainless steel bow that's brightly polished to minimize friction on frame. Deluxe sear is wire-EDM cut from S-7 tool steel bar stock and heat treated for maximum hardness before contact surfaces are precision ground for ultra-crisp letoff. Narrow-profile thumb safety's deeply grooved pad is contoured for natural thumb placement to ensure quick, instinctive disengagement, yet is low enough to resist accidental release. High-ride beavertail grip safety allows a high hand position close to the bore axis for better recoil control. Raised "Posi-Release" tab at the base helps you locate your hand properly for positive safety disengagement, while hammer pocket surrounds the hammer spur when cocked to protect against hammer bite. Mainspring housing is fully machined from steel bar stock with deeply cut 30 lpi checking for a secure grip and maximum recoil control. Extended, tactical magazine release with deeply serrated face extends an extra 1/8" farther than factory release to aid in fast, positive magazine changes.

WILSON COMBAT 1911 AUTO SLIDE PARTS KIT

NEW

AllThe Parts
To Complete
A Stripped Slide

Convenient kit contains all the parts needed to complete a full-size Government Model slide so it's fully functional and ready to install on the frame of your choice. Saves time

and money—no need to hunt down each item individually—and the Wilson name ensures superb fit, finish, and reliability. Perfect for custom builds, or use to rebuild an old slide and return it to like-new condition. Kit contains 5" long, unramped, .45 caliber stainless steel barrel, barrel bushing, barrel link, link pin, recoil spring, recoil spring plug, guide rod, .38 Super/9mm firing pin, firing pin spring, and firing pin stop. Available with extractor, firing pin stop, and recoil spring plug of **Carbon Steel (CS)** to match blued slide or **Stainless Steel (SS)** to match natural finish stainless slide. Internal parts not visible when slide is assembled are a combination of carbon steel and stainless steel.

SPECS: Carbon steel and stainless steel. Fits full-size .45 ACP 1911 Auto slide. Included firing pin fits slides that accept .38S/9mm firing pin only.

AHREND'S 1911 AUTO EXOTIC WOOD GRIPS

Handsome & Functional, For Combat, Carry, Or Display

Handsome, distinctive, exotic wood 1911 Auto grip panels, precision shaped, hand checkered, and carefully matched. Top quality hardwoods become even more beautiful with age, and these slabs are aged for more than a year before shaping. Inletted for ambi safeties, with cutouts for mainspring housing pin, and beveled bottom edges give a neat, finished appearance. Durable polyurethane finish. **Cocobolo** is an overall reddish-brown with distinct grain stripes of dark red-brown. Dense-grained **Gaboon Ebony** is some of the finest, almost pure black ebony we've seen and just plain feels "right." Traditional **Iowa Black Walnut** is a light to medium brown with soft contrast, slightly darker brown grain stripes. Choose from four attractive styles: **Smooth** - Grain patterns show up best on smooth grips. **Combat Checkered** has full coverage, 18 lpi checkering for superb grip and control. **Diamond Checkered**, 18 lpi checkering, broken by smooth diamonds at the grip screw holes. **Skip Checkered** features a pattern of smooth diamonds separated by 18 lpi checkering. 
SPECS: Approximately 1/4" (6.4mm) thick. Weigh 1 1/2 oz. (42g) per pair. Natural wood color and grain patterns will vary.

STOCK #	STYLE	PRICE
#052-003-102DF	Cocobolo Smooth	2E25V00 \$ 36.00
#052-001-102DF	Cocobolo Combat	2E25A00 \$ 36.00

#052-002-109DF	Walnut Diamond	2E34V95 \$ 50.00

TACTICAL GRIPS - Dual-purpose grips with a unique, highly functional, combination checkered/smooth surface. Smooth top section allows your hand to slide into place for a fast, unimpeded grip and a smoother draw. Hand checkered, 18 lpi, bottom section provides a solid, secure grip the instant your fingers curve around the front strap. Available in **Cocobolo**, **Gaboon Ebony**, and **Rosewood**. 
SPECS: Approximately 1/4" (6.4mm) thick. Weigh 1 1/2 oz. (42g) per pair. Notched for ambi safety. Natural wood color and grain patterns will vary.

STOCK #	STYLE	PRICE
#052-004-102DF	Cocobolo Tactical Grips	2E34B95 \$ 50.00
#052-004-107DF	Rosewood Tactical Grips	2E34B95 \$ 50.00
#052-004-104DF	Ebony Tactical Grips	2E43B50 \$ 60.00

SQUARE BOTTOM GRIPS - Squared bottom edge looks "right" on guns equipped with add-on magwells. Covers the unsightly gap between the bottom edge of the frame and the magwell, so the magwell looks like it's part of the frame. Hardwood panels are thicker than factory slabs to provide a hand-filling grip and better recoil control for more comfortable combat-style shooting. Available in **Cocobolo**, **Gaboon Ebony**, and **Rosewood**. **Combat Checkered** has hand-cut, full coverage 18 lpi checkering. **Diamond Checkered** has 18 lpi hand-cut checkering broken by smooth diamonds at the grip screw holes. **Pin Covered (PC)** models do not have cutout for mainspring housing pin. 
SPECS: Approximately 9/32" (7.1mm) thick. Weight 1.7oz. (46g) per pair. Notched for ambi safety. Natural wood color and grain patterns will vary.

STOCK #	STYLE	PRICE

#052-040-102DF	Cocobolo Combat PC	2E31C95 \$ 46.00

BROWNELLS PREMIER WOOD GRIPS

Traditional Elegance Of Beautiful Hardwoods, Three Distinct Styles

Beautifully crafted, hardwood grip panels enhance the appearance of any 1911 Auto. Premium-grade woods are carefully selected for their natural grain patterns, then properly kiln dried for superior stability, precision shaped, expertly checkered, and carefully paired. All models are inletted for ambi safeties, with cutouts for the mainspring housing pin and crisply beveled bottom edges. A clear, semi-gloss protective finish seals the pores and protects the grip from moisture and scratches. Choose from one of four distinctive woods: **Cocobolo** is an extremely dense, reddish-brown wood tinged with orange and distinct grain stripes of dark red-brown. **Rosewood** is a richly hued medium dark brown with contrasting, almost black, grain stripes. Strong and heavy, it takes a smooth, even polish. **Walnut**, the traditional American stock wood, is light/medium brown with softly contrasting, slightly darker grain patterns. **Black Dymondwood** is an extremely hard, strong, durable, resin-impregnated laminate with a rich, black color like natural ebony. Dense grain with fine texture holds checkering exceptionally well. Three styles are available: **Double Diamond** - traditional style with 16 lpi checkering, broken by smooth diamonds at the grip screw holes. **Combat** - full-coverage, 16 lpi checkering, for maximum gripping texture when hands are wet or sweaty. **Smooth** - non-abrasive, no snag surface shows off the grain pattern best. 
SPECS: Approximately 1/4" (6.4mm) thick. Natural wood color and figure will vary.

Feel Like Genuine Ivory

Handcrafted and polished from a man-made, state-of-the-art, ivory substitute that looks and feels so much like genuine elephant ivory that only an expert can tell the difference. Available in two natural shade variations with authentic grain layering throughout the full cross-sectional density. **Natural White (NW)** mimics un-aged, virgin ivory with a beautiful off white grain pattern. **Slightly Aged (SA)** is a subtle shade darker with a hint of yellowing and natural scarring. Can be carved and checkered like natural, elephant ivory. Available in standard, 1911, A-1 configuration or with square bottom (S/B) for proper fit to frames equipped with add-on magazine wells. **SPECS:** Manmade ivory substitute. Natural White (NW) or Slightly Aged (SA).

CRIMSONTRACE 1911 AUTO
LASER GRIPS

Instant On-Off Aiming Without The Bulk
Of An Accessory Laser Unit

Laser Grips give you an immediate, decisive advantage because 80% of self-defensive shootings occur in low light conditions or complete darkness. Provides an added defensive edge in any light condition. With just a squeeze of your shooting hand the laser grip unit instantly projects a bright red aiming dot on your intended target; even in broad daylight. Makes a great training tool; provides instant feedback to shooting students learning how to achieve a steady trigger pull, consistent follow through, proper sight alignment and instinctive aiming. Grips are made from a rugged but soft, over molded rubber for increased shooting comfort. Laser units are located in the top of the grip. Laser unit on Wrap Around (W/A) models are activated from the pressure sensitive finger pads located on either side. The pressure switch located in the lower front finger groove activates laser unit on Front Activated (F/A) models. Both models include a manually activated on/off switch on the lower left side helps prevent dead batteries and accidental laser activation. **SPECS:** Injection molded rubber, black, matte. Front Activated 1911 Auto models require shortening of right side thumb safety lever. Includes batteries, installation instructions and training manual.

NEW Items **FALCON INDUSTRIES 1911 AUTO XT GRIPS**

Extremely Tough, Textured Grip Surface

Strong, lightweight, and extremely tough, heavily textured grips provide excellent handling and stability in all conditions. Cut for ambidextrous safeties. Install easily with standard grip screws and bushings. Models available for Government/Commander grip frame, as well as Officers Model. **Beveled** has a neatly beveled bottom edge that allows fast hand clearance during draw and minimizes "printing" through clothing on concealed carry pistols. **Square Bottom** gives a flush, tight fit against magazine guides and chutes that attach to the 1911.

SPECS: Injection molded nylon-based rigid polymer. **Govt/Comm** available with beveled bottom edge (**BB**) or square bottom (**SB**) in black, coyote brown, O.D. green. **Officers** in beveled black only.

HOGUE 1911 AUTO EXTREME ALUMINUM GRIPS

Comfortable, Good-Looking; Machined From Solid Aluminum For Strength & Durability

Extreme-duty grips precision machined from solid 6061 T6 aluminum billet help you maintain a firm, comfortable, no-slip grasp on your pistol in combat or competition, even when your hands are wet. These grips weigh only a few tenths of an ounce more than traditional wood grips, yet stand up to the harsh wear and tear of tactical operations. The crisp, precision-cut diamond pattern, broken by smooth diamonds at the grip screw holes, replicates fine 18 lpi checkering and provides a superior gripping surface that won't bite into your hand. Custom-quality features include cutouts for mainspring housing pin, neatly beveled bottom edges, and a left panel inletted for an ambi safety.

SPECS: Machined 6061 T6 aluminum, Type III hard anodized, matte black finish. Approximately 1/4" (6.4mm) thick. Fits 1911 Govt Model & Commander.

MCCORMICK 1911 AUTO SLIM CARRY GRIPS

40% Narrower For Carry & Concealment Comfort

Thinner-than-stock, Slim Carry grips reduce overall width to better fit shooters with small hands, and make pistol more concealable for any shooter. Exhibition grade rosewood has a reddish brown color with contrasting black grain. Right panel is relieved for ambidextrous thumb safety. Hand cut, 18 lpi checkered models feature the popular, double diamond pattern to provide a positive grip. Smooth, unchecked models really show off the beauty of the wood and work great for concealed carry; won't catch or drag on clothing.

SPECS: Rosewood. Double diamond checkered (**Chk**), or **Smooth**. Fits 1911 Auto and Officers Model (**Off**). Approximately 1/2" (4mm) thick. Includes shorter bushings and screws.

HOGUE 1911 AUTO SQUARE BOTTOM GRIPS

Additional Length Fits Pistols Equipped With Add-On Mag Wells

Extra-long grip panels, cut square at the bottom, fit flush and look great on guns equipped with add-on mag wells. Does away with the unsightly gap left by standard length grip panels. Cut slightly fuller than factory grips for extra shooting comfort and recoil

NEW Grips **MIL-TAC KNIVES & TOOLS 1911 AUTO TACTICAL GRIPS**

Made From Nearly Indestructible G10 & Micarta Laminates

Fully CNC-machined from G10 fiberglass and Micarta laminates, these grips are impervious to impact, solvents, heat, sweat, and moisture for non-degrading dimensional stability in all conditions. Government Beveled (**GB**) grips are machined from G10 to the standard 1911A1 configuration with beveled bottom and an aggressive diamond pattern that forms an aggressively textured gripping surface. Features a notched thumb ramp on the left panel for fast reach to the magazine release. Cutout allows access to mainspring housing pin without removing the whole grip panel. Tactical Flat Bottom (**TFB**) grips are machined from G10 with a traditional diamond checkering pattern that provides an outstanding gripping surface. Square bottom provides a proper fit for guns equipped with add-on magazine wells; covers mainspring housing pin. Includes notched thumb ramp on left panel. Government Flat Bottom (**GFB**) Micarta grips have square bottom for guns with add-on mag wells, with a cutout notch allowing access to mainspring housing pin. Wide, pronounced vertical grooves and underlying linen-like texture provide a superb grip even with wet hands, yet won't abrade the skin. No thumb ramp.

SPECS: G10 laminate or Micarta, black, black/gray speckled, desert tan, desert camo, or woodland camo. Fits 1911 Govt. and Commander. **GB** - G10 laminate. A1 configuration. Desert tan and woodland camo cut for ambi safety. **TFB** - G10 laminate. Square bottom. All colors cut for ambi safety. **GFB** - Micarta. Square bottom, cutout for mainspring housing pin. Desert tan cut for ambi safety.

NAVIDREX CUSTOM GRIPS

Handcrafted From Genuine Westinghouse Micarta® & Laminated Dymondwood

Long-wearing comfortable grips hand crafted and checkered from two of the best handgun grip materials ever invented; genuine Micarta and laminated Dymondwood. The Micarta is available in jet **Black** that's close to ebony, or **Ivory** that has the looks and warmth of real tusk. The resin-impregnated Dymondwood looks like real **Rosewood** but its synthetic compound is much harder; it never wears, and resists gun solvents and bore cleaners. Double diamond pattern features hand cut, 18 lpi checkering and models to fit either Government/Commander length (**STD**) 1911 Auto or Officers ACP-length frames. Grips marked (**S&A**) are cut longer to fit flush on guns equipped with Smith & Alexander mag guides.

SPECS: Approximately .246" (6.3mm) thick.

NAVIDREX PARA P-14 DOUBLE DIAMOND CHECKERED GRIPS

Extra-Thin Design For Extra Comfort

Cut much thinner than the factory grips to provide increased comfort. Beautiful, hand-cut, 18 lpi double-diamond checkering enhances the grip for a solid, no-slip feel. Direct replacement for both the old- and new-style P-14 factory grip. Available in two different materials: **Micarta** - genuine, jet-black, Westinghouse Micarta has superior wearability and strength. **Dymondwood** (DW) - resin-impregnated laminated hardwood that has the look and color of genuine rosewood, plus withstands solvents and wears much longer than natural wood.

SPECS: Available for **P-14 Old**- or **New**-style, full size Para-Ordinance frames. May require minor fitting.

ROCO FIREARMTECHNOLOGY 1911 AUTO WALNUT GRIPS

Ergonomically Designed
For Shooting Comfort & Accuracy

Solid walnut grips enhance your hold with their contoured swell that fills and supports the palm for increased shooting comfort. Helps accommodate differences in finger length for a more consistent trigger pull and accuracy. Stippled surface allows secure, non-slip contact with the hand without abrading the skin during recoil. Made from fancy Turkish Walnut hardened for extra strength, then beautifully finished and sealed with urethane resin.

SPECS: Turkish Walnut. Fits Government length grip only.

#100-002-551DF **1911 Grip** 3A33V03 \$ 39.90

1911 MASTER GRIP - Ergonomic, wrap-around shape and formed palm swell helps ensure a consistent, optimum hold. Stippled surface in the palm area helps prevent slipping. Designed for either left or right hand shooting; increased length provides ample space for a stronger, two-hand hold.

SPECS: Turkish Walnut. Fits Govt. length grip frame only. Will not fit guns with add-on Mag wells or Springfield 1911s built before 2004.

#100-002-552DF **1911 Master Grip** 3A73V13 \$ 97.50

STRIDER KNIVES 1911 AUTO SIMONICH GUNNER GRIPS

Extreme Texture For Maximum
Weapon Retention In Any Condition

Aggressive, golf-ball-like texture provides maximum grip potential to help you retain your pistol in the most extreme match or tactical situations, even when the grip is wet or oily. Features hundreds of clean-edged dimples that grab like tiny suction cups. You may have seen similar-looking grips elsewhere, but only Strider

is producing these high-quality grips to the original specs by agreement with Simonich Knives. Made from tough, maintenance-free, G-10 filament glass cloth/epoxy resin composite matched to the exact colors used by the U.S. armed forces. G-10's superior impact-resistance, low moisture-absorption properties, and dimensional stability over a wide temperature range mean these grips will not fail, even under the worst weather conditions. Non-tapered, cut for ambidextrous safety.

SPECS: G-10 laminate, Ranger Green, Coyote Brown, or Black. Approximately 1/4" (6.3mm) thick. Fits 1911 Govt. and Commander.

#100-002-450DF **Gunner Grip**, Ranger Green, 4A48Z00 \$ 60.00

#100-002-829DF **Gunner Grip**, Black 4A48X00 60.00

VZ GRIPS 1911 AUTO VZ OPERATOR'S GRIPS

Aggressive Texture Improves Control

Durable, tactical style grips provide improved pistol control during peak shooting action. Dimensionally stable, CNC machined, square bottom panels feature moderately coarse checkering and diagonal grooving for improved grip traction. Ball-cut grooves increase the available surface area to help you resist grip rotation during recoil. Hard G10 fiberglass composite is non-reflective and meets select military requirements. **Paper Micarta** has a semi-gloss finish. Both models available in black only and are not relieved for ambidextrous safety.

SPECS: Approximately 1/4" (6.3mm) thick. Fit 1911 Auto Govt. and Commander. **G10** - Fiberglass composite, black, matte finish. **Paper Micarta** - Micarta, black, semi-gloss finish.

VZ GRIPS 1911 AUTO VZ 320 GRIPS

Extremely Stable In All Weather
Conditions; Superior Gripping Texture
That Won't Snag On Clothing

Attractive, square bottom warp-proof panels of lightweight canvas Micarta laminate provide an excellent gripping surface that will not abrade or catch on clothing, making these grips the perfect addition to any carry gun. Micro CNC milling, plus a unique texturing process creates a grip texture similar to fine, 320 grit sandpaper. Laminate construction forms a resilient, solvent-resistant panel that's completely stable in all temperature and humidity extremes to maintain a custom fit indefinitely.

Grips are not relieved for ambidextrous safety. **Blasted Black Canvas** is a versatile, medium gray color overall, highlighted with light gray strands of canvas. **Desert Blonde Canvas** is a medium tan color with contrasting strands of light tan canvas that matches well with desert camo gear.

SPECS: Canvas Micarta laminate, Blasted Black or Desert Blonde. 3/16" (5mm) thick. Fits 1911 Government and Commander.

NEW

VZ GRIPS 1911 AUTO DOUBLE DIAMOND GRIPS

Traditional Checkering
Pattern; Sharp Texture
For Excellent Hold
& Weapon Control

Rugged grip panels made from tough G10 fiberglass are cut with a traditional double-diamond checkering pattern to give your 1911 a classic look with the durability and superior gripping texture of modern composite materials. Prevents hand from shifting and helps maintain strong recoil control for fast, accurate followup shots. Advanced G10 laminate won't absorb moisture, resists impact, and won't expand or contract due to temperature fluctuation—perfect for all-weather operations and extreme conditions. Crisp, 20 lpi checkering and smooth, diamond-shaped raised areas around screw holes are CNC machined into the laminate, then hand-finished to ensure uniform pattern depth. The laminate's hard surface allows the checkering to be cut a little sharper to give more "bite" than traditional checkered wood grips. Features a square-bottom with cutouts to allow access to mainspring housing pin. Not inletted for ambi safeties.

SPECS: G10 fiberglass composite, Tactical Black, Black/Desert Sand, or Brown/Black Tiger Stripe Approximately .275" (7mm) thick. Fits 1911 Auto Govt. and Commander.

VZ GRIPS 1911 AUTO "GATOR-BACK" GRIPS

Comfortable, Non-Slip
MICARTA® Grip

Durable Micarta® panels provide a custom look to your 1911. Available in three Micarta® types: **Paper**, which is dense in color and very decorative; **Linen**, medium grade in toughness and durability;

Canvas, thickest of the three with canvas threads in the milled finish for additional grip texture. All resist temperature changes and have length-wise ridges that resemble alligator back hide for a distinct look and a comfortable, non-slip grip. Models available for Government & Officers standard, slim, and Bobtail.
SPECS: Standard is approximately .25" (6.3mm) thick, Slim is approximately .175" (4mm) thick.

BROWNELLS 1911 AUTO STOCK BUSHINGS, SCREWS & TAPS

Made to Original
Factory Specs For Easy
Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that at least one of the stock screws will need replacing, or worse yet, the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings.

STANDARD STOCK BUSHING & SCREWS

Nicely made and finished, these special-sized, blued screws and bushings are packed in sets of 4 Screws or 4 Bushings. We've also had the proper sized taps made up as well.

SPECS: Blued steel. Screws - .150"-50. Bushings - .236"-60. Taps - High speed steel. .150"-50 (screws), .236"-60 (bushings). Use 1/32" tap drill for bushing; #31 tap drill for .150"-50 screw.

10-8 PERFORMANCE 1911 AUTO U-NOTCH REAR SIGHT

Rugged Construction
For Daily Carry; Offers A Clear,
Easy-To-See Sight Picture

Fixed rear sight is precision machined from heat-hardened 4140 steel bar stock, so it withstands the wear and tear of daily carry, yet delivers a clear, precise sight picture. Perfect for concealed carry, duty, or combat pistols where a rugged, reliable rear sight is mission critical. Fully "dehorned," with rounded and chamfered edges to prevent snagging on holster, clothing, or other gear that could impede draw. Easy-to-acquire, .125" high U-shaped notch aligns quickly with a wide variety of factory-height front sights, including fiber optic, tritium dot, and gold beads. Rear face of the plain black blade has 40 lpi serrations for a glare-free sight picture under almost any light conditions; front of the blade has ledge contour to aid in one-hand cocking. A hard, manganese phosphate parkerized finish that matches many tactical pistol finishes adds strength and surface wear resistance. Anchors securely in the popular Novak Lo-Mount-style dovetail with a centrally located setscrew. Includes wrench and instructions. May require minor fitting. **SPECS:** Steel, matte black finish. Fits Novak-style 65° x .500" dovetail. **Standard** - .325" high, available with .125", .140", and .156" wide notches. **Tall** - .375" high, with .125" wide notch, for Officers model and other short-barrel 1911s; a direct replacement for Springfield Armory factory rear sight.

CASPIAN ADJUSTABLE SIGHT

3 Styles Improve Sight Picture,
Target Acquisition, Visibility

Low profile body with rounded corners helps eliminate snagging. Serrated rear blade prevents glare and helps guide your eye to the sight. **Target** - narrow notch provides precise, open sighting for Bullseye or target competition. **Round Ghost Ring** - gives quick sight alignment for fast target acquisition. **Diamond Ghost Ring** - combines speed and accuracy in bright lighting conditions when used with fiber optic front sights. Fits the BM-1 sight cut or the LPA sight cut found on Springfield, Para-Ord and others. Fully adjustable for windage and elevation.

SPECS: Steel, black, matte finish. Rear blade .423" (10.7mm) high. .900" (22.8mm) wide. Target notch .128" (3.27mm) wide. Installation requires machining of slide.

ED BROWN 1911 AUTO ADJUSTABLE REAR SIGHT

Ultra-Low Mount,
Fully-Adjustable,
Classic Bo-Mar Style

Low-profile rear sight replicates the dimensions and function of the proven Bo-Mar adjustable sight. Rugged design withstands the shock of full-power service ammunition—perfect for combat applications—yet provides fine adjustability to meet the needs of the target shooter. Minimal-height sight body hugs the top of the slide for faster sighting and increased accuracy. Precise click detents provide full adjustment for both windage and elevation. Combat-style blade with fine-line serrations on the rear face angles backward from the top to help deflect the light for a clear, easy-to-acquire sight picture in all light conditions. Deep, square-cut notch further enhances sight picture; dog-ear cuts on top corners help reduce snagging during draw. Installation requires machining, drilling and tapping of slide. **SPECS:** Steel, blued. Body - 1.435" (3.6cm). Blade - .765" (19mm) x .425" (11mm) with .110" (2.8mm) wide notch. Fits pistols with 60° x .359" x .100" rear sight dovetail.

EGW FIBER OPTIC FRONT SIGHT

Enhanced Sight Picture In Bright Or Low Light

Interchangeable, red or green, fiber optic insert glows brightly, drawing your eye to the sight for fast pickup and improved shooting performance. Open center gathers lots of light for a bright dot. Three heights match most rear sights. **Kimber** and **Para-Ord** replace factory height blades. Fits factory dovetails. **SPECS:** Steel, black, matte finish. Blade - .125" (3.2mm) wide. Models for 65° x .330" x .070", 60° x .330" x .070" dovetails, plus Kimber Classic, and Para-Ord Limited.

ENTREPRISE ARMS 1911 AUTO GHOST RING NIGHT SIGHT

Easy-to-See, Day or Night

Low, trim design positions the aperture close to the slide for minimum bulk, maximum speed and accuracy. Large ring and post-style front sight with green Tritium inserts help you quickly acquire targets using the eye's natural ability to center objects in a circle. A fast, accurate sighting system. Great for self-defense pistols. **SPECS:** 4140 steel, blue, matte finish. Rear Aperture - (2) Tritium inserts. .193" (4.9mm) diameter ghost ring. Front Sight - (1) Tritium insert, wide tenon, 65° x .330" x .075" dovetail, installation requires modification to slide.

HARRISON DESIGN & CONSULTING 1911 AUTO HD-001 REAR SIGHT

Smooth, No-Snag Combat Sight Fits
Standard Bo-Mar Slide Cut

Rugged, solid steel fixed rear sight fits the Bo-Mar BMCS slide cut. Fully radiused edges and corners help eliminate snagging during draw, and front of blade is squared off to aid slide racking. Deep, .135" wide notch produces a clear sight picture with more light around the front blade. Fine, 50 lpi horizontal serrations on rear face eliminate glare. Precision machined from steel bar stock, unique two-piece design has separate base that allows mounting in both standard open BMCS cut and the "Deluxe" pocket cut. Two, hardened steel screws and a hidden lug join the body to the base for a rock-solid installation that will not shoot loose. Drift adjustable .030" left or right for windage, allowing correction of approximately 3" of error at 20 yards. Installed height is same as many popular aftermarket rear sights, so you may not need to replace your pistol's front sight. Gunsmith installation recommended. **SPECS:** Steel, blued, matte finish. Body - 1.420" (3.6cm) OAL, .690" (1.8cm) wide, .500" (1.3cm) high. Notch - .135" wide x .115" high. Fits Bo-Mar BMCS (BM #1) 60 x .359" x .100" slide cut.

- #100-003-572DF** HD-001 1911 Rear Sight 9B72D00. \$90.00

HEINIE SPECIALTY 1911 AUTO

SLANTPRO™ NIGHT SIGHTS

No-Snag, Low-Profile With Tritium Dots
For Enhanced Visibility In Low Light

The ultimate marriage of quality and function, Trijicon® self-illuminating tritium inserts provide a fast, easy-to-acquire sight picture in all light conditions. Wedge shaped body has fully rounded edges and sets low in the slide for minimum profile and a smooth, snag-free draw for concealed carry and competition guns. Fine line serrations on rear of blades eliminate glare for the best possible sight picture. Dovetails are cut .002"-.003" oversized to fit existing sight cuts; gunsmith fitting may be required. Straight Eight model is supplied as a set of front and rear sights. All other models are rear sight only. **Straight Eight** - One tritium dot on the front sight and one on the rear align vertically for exceptionally fast acquisition. **Ultra Low Mount** provides an even more compact profile; fits pistols with Novak-type .500" x 65° dovetail in slide. "T" suffix on model number indicates rear sight is .050" taller to provide correct sight picture on smaller short-slide pistols. **Ultra Low Mount Ledge** - Front edge of the rear sight blade has been cut square to provide adequate purchase for one-handed racking of the slide. Available in standard and T models, with one centered Trijicon insert for "Straight Eight" sight picture or with two side-by-side inserts for a more traditional, three-dot horizontal sight picture. **SPECS:** Steel, matte blue finish. **Straight Eight** - Rear notch is .125" wide. **1911 Auto** fits .375" x 65° rear dovetail and .300" x 60° front dovetail. May require milling of slide to install. Instructions included. **Kimber** and **S&W** fit factory dovetails. May require minor fitting. **Ultra Low Mount**, including **Ledge**, fits Novak-type .500" x 65° dovetail. "T" suffix on model number indicates .050" taller height for short-slide compact pistols. May require minor fitting.

HIVIZ KIMBER 1911 AUTO INTERCHANGEABLE FIBER OPTIC FRONT SIGHT

Improves Visibility
With Interchangeable Red,
Green & White Rods

Advanced fiber optic sight maintains perfect sight/target contrast in all shooting conditions by allowing you to easily interchange fiber optic rods at any time from red to green, or to a solid white color as lighting conditions change. Innovative sight base uses a locking spring to keep the LitePipe secure, while allowing interchangeability in the field with the provided key. Streamlined, no snag design helps prevent holster catch that can slow down your draw. Fits Kimber 1911 dovetail and regulates with the original factory rear sight. Includes rods, carrying case, and key for interchanging the rods. Gunsmith fitting is recommended. **SPECS:** Steel, black, matte finish. Includes (3) red, (2) green, (1) white rod, carrying case, and key. Overall Sight Dimensions - 3/4" (19.1cm) long, 1/8" (3.2mm) wide, .186" (4.72mm) high from top of slide. **LitePipe** - .092" (2.3mm) diameter. Requires 60° x .330" x .075" dovetail. Will not fit Kimber .22 rimfire.

#638-000-082DF **Kimber Interchangeable Sight**, 8C23A86 \$ 37.75

-INNOVATIVE WEAPONRY PT NIGHT SIGHT

Speeds Low-Light Aiming

Green front and colored rear, tritium lamps provide fast sight recognition in all low-light situations. Optically clear lamp lenses and high-density, shock-absorbing housings make these fixed sights a great choice for self-defense and law enforcement. **Factory** guarantees tritium elements for 15 years. **SPECS:** Steel housing, matte finish, blued. **1911 Auto, Colt Govt, Officers Models Enhanced** have stake-on front sight. **Colt Enhanced Dovetail** fits Colt Enhanced Slides and old model Colt Defender with dovetail front sight cut; does not fit current production Defender.

KENSIGHT 1911 AUTO ADJUSTABLE NIGHT SIGHT

Glowing Tritium Lamps Maximize
Sight Visibility In Low Light

Genuine, Trijicon, green Tritium lamps feature polished quartz lenses for improved sight recognition in low light, plus appear as white dots for enhanced sight acquisition in bright sunlight as well. Sight bodies are EDM machined from 4140 steel, then heat-treated to Rc 38-40 and vacuum tempered to retain the extra-tight tolerances. Features precise click-adjustments for consistent changes in windage and elevation. Fine line serrations on rear blade surface cuts light reflection to enhance sight pickup. **SPECS:** 4140 steel, blue, matte finish. .076" (1.9mm) diameter Tritium lamps. **BM #1** retrofits pistols modified to accept the Bo-Mar BMCS rear sight. **LPA** fits Springfield Armory, Para-Ordnance, and Charles Daly 1911 Autos using the LPA TRT dovetail. **Kimber Adjustable** fits Kimber models with adjustable factory rear sight. **Elliason** fits Colt Gold Cup, Officer's Model Match, Ace, and others originally fitted with either Accro or Elliason sights.

KENSIGHT 1911 AUTO CLASSIC TARGET SIGHT

Wire EDM Produced For Precision
Fit & Function

Provides consistent accuracy through better production methods. Electro-discharge machined from 4140 steel, heat-treated to Rc 38-40, then vacuum tempered to help retain these tolerances for many years to come. One-piece blade is cut from solid steel barstock, so it won't fly apart when your shot matters most. Consistent, click-adjustable detents for windage and elevation give precise repeatability. All models except **Accro** feature a full-serrated, square corner blade for better target recognition and a rebated square notch for improved, "shadowless" front sight definition. **BM #1 Deep Notch** features a .020" deeper sight notch and finer surface serrations than standard model for easier front sight acquisition. **White Dot** model has rounded corners like the old Bo-Mar combat style adjustable sight, and features two, white, .070" (1.8mm) diameter dots, one on each side of rear notch.

SPECS: 4140 steel, blue, matte finish. **Blade** - .750" (19mm) wide, .433" (11mm) thick. **Notch** - .100" (2.5mm) deep (except **BM #1 Deep Notch**), .134" (3.3mm) wide.

KENSIGHT COMBAT CARRY ADJUSTABLE REAR SIGHT

Rounded Blade Edges Won't Snag On
Clothing Or Holsters

Enjoy the accuracy of a fully adjustable, competition-style rear sight in a package suitable for daily carry. Beveled edges on sight body and radiused corners on blade minimize chances of snagging on clothing or holster. Blade, sight body, and base are EDM-wire machined from high-grade, 4140 billet steel, then heat-treated to Rc 28-32 to retain the extra-tight tolerances. Front hinge pin is hardened to Rc 60 for reliable, long-lasting service without breakage. Fine serrations EDM machined on the rear sight blade surface reduce light reflection to enhance sight pick up in all light conditions. Consistent, click adjustable detents for windage and elevation provide precise, repeatable settings.

SPECS: 4140 steel, blued, matte finish. **BM#1** - Fits pistols with the Bo-Mar BMCS rear sight dovetail. **Spgrfld 1911** - Fits Springfield Armory, Para-Ordinance, Nowlin, High Standard, Olympic Arms, and Charles Daly 1911 auto slides cut for adjustable sights.

KENSIGHT DEFENSIVE SIGHTS

Low Profile,
No-Snag Design
For Self Defense Pistols

No sharp edges to drag on holsters or snag clothing because these low profile sights are designed specifically for concealed carry. EDM machined from 4140 steel, then heat-treated to Rc 38-40 and vacuum tempered. Fully Adjustable (**Adj.**) models are click-adjustable for windage and elevation. Elevation Adjustable (**Elev.**) model provides the consistency of click adjustment for elevation only. Fixed (**Fxd.**) models feature no adjustments for maximum reliability and simplicity preferred by many shooters. White Dot (**WD**) model features two white, ABS plastic .070" (1.8mm) diameter dots, one on each side of rear notch. Tritium (**Trit.**) versions feature dual, self-luminous, .076" (1.9mm) diameter, green Tritium dots on both sides of the rear notch for improved sighting in low light conditions. Serrated (**Sert.**) models feature fine line serrations on the rear surface of the sight. Available to fit Novak-style dovetail and Kimber pistols equipped with factory fixed sights.

SPECS: 4140 steel, blue, matte finish. **Lo-Mount** - fits Novak-style 65° x .495" dovetail cut. **Kimber** - fits Kimber models with factory-equipped fixed sights.

MEPROLIGHT DAY/NIGHT SIGHT

FOR POPULAR HANDGUNS

Always "On"; No Batteries, No Charging

Really "shines" when other sights are useless. No switch to turn on, no batteries to wear out. Both front and rear blades have their own green tritium gas light source and provide a green/green, 3-dot sight picture. Unaffected by weather, gun solvents or oils. Used by NATO, U.S., and Israeli armies. Also ideal for law enforcement and others requiring accuracy in low-light conditions. Contains both front and rear sights. Rear sights replace the original rear entirely. Front sights replace the original. The factory warrantees TRU-DOT sights to the original purchaser for twelve years.

SPECS: Blued steel with tritium inserts. Sights marked **Adj.** fit guns originally equipped with factory, adjustable sights. Sights marked **Fxd.** fit guns originally equipped with factory, fixed/non-adjustable sights. S&W models will NOT fit guns originally equipped with plastic sights.

STOCK #	FITS	PRICE

#387-000-038DF Tritium Night Sight, 7H75Z00 \$ 109.00

MEPROLIGHT® ADJUSTABLE SIGHT

Adjustable, Illuminated Sights
For Handguns

Rugged, all-steel bodies surround a highly visible TRU-DOT tritium lamp for sight definition in dark and low-light conditions. Fully adjustable for both windage and elevation

with positive, all-steel detents built to withstand the rigors of duty use and rough, inclement hunting conditions.

SPECS: Blued steel with tritium inserts. Includes front and rear sights. Sights marked **Adj.** fit guns originally equipped with factory adjustable sights. Sights marked **Fxd.** fit guns originally equipped with factory fixed sights. Factory warranties illumination of **TRU-DOT** to the original purchaser for twelve years.

MGW SEMI-AUTO DOVETAIL FRONT SIGHT BLANK

Strong & Ready-To-Shape
For Custom Applications

Long enough and high enough for most custom pistol applications. Dovetail installation is much stronger than staking, so the front sight stays put under heavy recoil or extreme use. Drilled for 1/16" diameter roll pin for more "hold". Blues easily.

SPECS: Steel, blued. **Blade** - .268" (6.8mm) high, .128" (3.2mm) wide, .640" (16mm) long. **Dovetail** - 65° x .330" x .075".

MMC ADJUSTABLE PISTOL SIGHT

Low Mount, Tactical Carry Sights

Low-mount, no-snag design is adjustable for windage and elevation, plus the fully-protected rear blade won't catch on holsters or clothing.

ADJUSTABLE REAR SIGHT - All steel combat-style design features adjustable blade protected by steel ears. Black, matte finish prevents glare; blends well with most duty-style applications. **Standard** sight available in Plain target, white outline and white dot. **Tritium** models include, double bar, single bar and box bar in green; 2-dot in green, red, orange and yellow. **1911 Auto** requires machining slide for Novak Lo-Mount cut. **Kimber** fits models originally equipped with fixed sights.

SPECS: Steel, blue, matte finish.

MILLETT ADJUSTABLE SIGHT

Complete Assortment Of Fully Adjustable Pistol Sights

Fully adjustable, all-steel sights for semi-autos and revolvers to replace the often less-than-adequate factory fixed and adjustable sights. All the features demanded by top shooters, usually with

no modifications to the gun. Carefully manufactured, fitted and finished in a deep, blue/black that blends well with any gun finish. **Millett Rears:** Blades are angled toward the shooter with grooved faces for positive glare prevention. Deep, positive notches and spring-loaded detent balls give crisp, clean windage and elevation adjustments. Anti-backlash feature in windage screw eliminates slop. Semi-auto models have a locking feature that compensates for dovetail variations. **High Profile** fits most existing dovetails and can be used with the existing factory front sight where indicated in the table. For all others, use the appropriate Millett Front Sight. **Custom Combat Low Profile** mounts low in

Colt and Browning autos requiring milling of the slide, cutting of a new sight dovetail and replacing the front sight with one of the Millett fronts. Both style rear sights are available with a square cornered, **Target** or rounded corner, white outline, **Combat** rear blade. Some are also carried in a **3-dot** rear. Also available on some is a **Marksmen Speed** variation which has a taller, Target-style rear blade with an oversized .100" x .125" notch for even faster pickup of the front sight. **Millett Front** is lightweight steel to hold up under the heavy recoil of magnum and full power loads and resist "flyoff." Available in ramp style with Orange Bar. Front sights are available in two basic styles. **PinOn/StakeOn/ScrewOn/Dovetail** models match the original factory-style mounting. Some are not pre-drilled for the pins to allow precise positioning on individual guns. **Dual Crimp** models are Millett's own design and install without soldering using the Millett Dual Crimp installation tool listed elsewhere in catalog. **SPECS:** Steel, matte black finish. 1" (25.4mm) long, .72" (18.3mm) wide, .45" (11.4cm) high. Blade is .720" (18.3mm) x .450" (11.4mm) with .140" (3.6mm) wide notch. Use with front sights .175"-200" (4.5-5mm) high. Requires milling of slide; use 65° x .495" dovetail cutter.

- *1 - Use Factory Front or .185" Dual Crimp. Fits late adjustable sight models only.
- *2 - Must use Millett Front Sight.
- *3 - Narrow Tenon - Wide Tenon Front sights are listed elsewhere in the Millett section.

NOVAK 1911 AUTO

LO-MOUNT WIDE NOTCH REAR SIGHT

Clear Sight Picture, Fast Target Acquisition

.140" wide notch provides more light around the front sight than standard .125" notches for a clear sight picture and fast target acquisition. Helps aging eyes see front sight more easily, and aids in engaging targets swiftly in combat or competition. Lo-Mount design has angled top surface with mitered edges that won't snag on holsters or clothing. Rebated blade fights glare. Three styles available to fit your specific needs: plain black, white dot, and 2-dot Tritium for superior, low-light visibility. **SPECS:** Steel, matte black finish. 1" (25.4mm) long, .72" (18.3mm) wide, .45" (11.4cm) high. Blade is .720" (18.3mm) x .450" (11.4mm) with .140" (3.6mm) wide notch. Use with front sights .175"-200" (4.5-5mm) high. Requires milling of slide; use 65° x .495" dovetail cutter.

NOVAK 1911 AUTO TRITIUM SIGHT

No-Snap Shape, Low-Light Visibility

Competition

Lo-Mount

Competition plain, target-style, undercut blade with protected notch. Hangs over the rear of the slide and extends sight radius for quicker, more precise sighting. **Lo-Mount** has an angled top surface with mitered edges that won't snag on holsters or clothes. Rebated blade fights glare. **Wide Notch (WN)** has enlarged, .140" notch to provide more light around the front sight for a clearer sight picture and faster target acquisition. Helps aging eyes see front sight more easily. **SPECS:** Machined steel, matte blue finish. .125" (3.1mm) wide notch. Available with two tritium dots (**2-Dot**) or horizontal tritium bar (**Bar**). **Wide Notch (WN)** has .140" (3.6mm) notch. **Competition - 1911** fits in factory dovetail. All Competition rear sight blades are .735" (18.7mm) wide x .425" (10.8mm) high. **Lo-Mount - 1911** requires milling of slide, use 65° x .495" dovetail cutter.

NOVAK 1911 AUTO ADJUSTABLE EXTREME DUTY SIGHTS

Low-Profile Mounting; Fully Adjustable

CNC-machined, steel, rear sight with Novak's famous, low-profile design and the added versatility of elevation and windage adjustments. Set screw allows drift adjustment for windage; elevation screw positively stops and audibly clicks for easy fine-tuning. Smooth, contoured edges have less chance of catching or snagging. Front sights are CNC-machined, steel and mount in factory dovetail. Available in Plain Black, White Dot, and Tritium Dot for Colt and clones, Kimber, and SW1911 pistols. **SPECS:** CNC-machined steel, black, matte finish. Front (F) and Rear (R) sights available in Plain Black (PB), 2-Dot White (WD), and 2-Dot Tritium (TR). Rear Dimensions: 1" (2.54cm) long, 1/2" (13mm) high, 3/4" (19mm) wide. Requires matching of slide. Colt and Kimber rear sights regulate properly with .225" high front sights. Select from .275" or .305" high front sight for SW1911.

NOVAK 1911 AUTO CARRY REAR SIGHT

Low Profile; Fit In Factory Dovetails; Great Sight Picture

Exclusive, wedge-shaped, "Concealed Carry" design puts the sight body and blade close to the slide for a snag-free draw and smooth, comfortable carry. Highly visible rear blade with rebated notch gives fast, glare-free sight pickup for more accurate instinctive shooting. Available in: plain black; with two, white dots; horizontal tritium bar; or two tritium dots. **SPECS:** Machined steel, blue, matte finish.

1911 AUTO - Fits Colt-style, 1911 auto rear dovetail, uses Series 80 factory front. Includes windage lock screw. Tritium models available with Bar or 2 Dot. May require slight fitting. .125" (3.1mm) wide notch. Rear Blade - .630" (16mm) wide, .223" (5.6mm) high.

NOVAK 1911 AUTO SIGHT

No-Snag "Angle" Design; Faster Sight Picture

Competition (Comp) plain, target style, undercut blade with protected notch. Hangs over the rear of the slide and extends sight radius for quicker, more precise sighting. **Lo-Mount (LM)** has an angled top surface with mitered edges that won't snag on holsters or clothes. Rebated blade fights glare. **Wide Notch (WN)** has enlarged, .140" notch to provide more light around the front sight for a clearer sight picture and faster target acquisition. Helps aging eyes see front sight more easily. **SPECS:** Machined steel, matte black finish. .125" (3.1mm) wide notch. Available with two white dots (WD) or plain black (P/B). **Wide Notch (WN)** has .1540" (3.6mm) notch. **1911 LM** requires milling of slide, use 65° x .495" dovetail cutter. **1911 Comp** fits in factory dovetail.

NOVAK FIBER OPTIC SIGHTS

Maximizes Available Light For Fast, Low-Light Sight Acquisition

Advanced light gathering properties of fiber optic rods make maximum use of ambient light to provide a bright glow that stands out against dark backgrounds and puts you on target fast, even in low-light or high-stress situations. Fronts and rears sold separately, so you can create a custom, three-dot, fiber optic system tailored to your shooting needs. Available with red or green inserts. Lo-Mount rear sights have radiused edges that won't snag on holster or clothing. Front sight can also be used with Novak's plain, wide-notch rear. Colt rear sight fits Government model; requires milling, installation instructions included. S&W rear sight drops in; fits both Commander and Government models. Kimber and Taurus front and rear sights are the same height as factory sights and fit factory dovetails; no machining required. **SPECS:** Machined steel, matte black finish with fiber optic rods in red or green. **Colt** - Front: Blade is .64" (1.6cm) long, .127" (3.2mm) wide. Rear: 1" (2.5cm) long, .72" (1.8cm) wide, .46" (1.17cm) high, with .125" (3.2mm) wide notch. Fits Government model; milling required, instructions included. **Kimber** - Front: Red insert. Blade is .650" (16.5mm) long, .125" (3.2mm) wide. Available in .150" (3.8mm) and .175" (4.4mm) heights. Rear: Green inserts. 1.080" (2.7cm) long, .704" (1.8cm) wide, with .125" wide notch. Fits factory dovetails of Kimber 1911 pistols; minor fitting may be required. **S&W** - Front: Blade is .47" (1.19cm) long, .127" (3.2mm) wide. Rear: .94" (2.4cm) long, .69" (1.8cm) wide, .38" (9.7mm) high, with .122" (3.1mm) wide notch. Fits Government and Commander models. **Taurus** - Front: Red insert. Blade is .66" (1.7cm) long, .123" (3.1mm) wide, .150" (3.8mm) high. Rear: Green inserts. .76" (1.9cm) long, .625" (1.6cm) wide, with .135" (3.4mm) wide notch. Fits Taurus 1911 pistols; minor fitting may be required.

NOVAK 1911 AUTO FRONT DOVETAIL SIGHTS

Low Profile Provides Excellent Carry Performance

CNC machined, steel, dovetail front sight won't snag on your holster during presentation. Available with a big, .075" dot for fast sight recognition or with a plain black, serrated face for glare reduction. Requires use of a 65° x .330" dovetail cutter to cut the proper Novak dovetail; roll pin inserts in front to stake sight in place. **SPECS:** Steel, black oxide, matte finish. Fits 1911 Auto or any gun with a 65° x .330" dovetail. Includes roll pin and complete instructions. Gunsmith installation recommended. **Govt.** models have a .070" thick dovetail; **Officers ACP** models have a .060" thick dovetail.

NOVAK 1911 AUTO X-MODEL REAR SIGHTS

Rugged, Fixed Combat Sights With Aggressive Low Profile; Four Styles Available

Fixed rear sight combines the low profile of Novak's popular Lo-Mount sights with a wide notch for fast sight alignment and easy target acquisition. A forward-canting, horizontal ridge on the front of the blade aids in one-handed slide racking and gives your pistol a uniquely aggressive appearance. Non-serrated, recessed rear face with .145" wide notch guides your eye quickly to the front sight. Rugged, precision-machined steel construction handles the rigors of tactical operations and daily carry. Smooth, rounded corners and beveled edges minimize risk of catching or snagging. Fits an existing Novak dovetail without alteration; Colt factory dovetail requires milling for proper fit. Available in four styles, all with non-glare matte black finish. **Plain Black (PB)** for a clean, traditional sight picture; **White Dot (WD)**, with a highly visible dot on each side of the rear notch; and two models with self-illuminating Tritium inserts. **Tritium Dot (TD)** has the same dot pattern as WD, and **Tritium Bar (TB)**, has a .145" long horizontal Tritium bar under the notch. **SPECS:** Steel, matte black finish. Works with front sights .175" to .200" high. Fits standard Novak .495" x .65" dovetail.

NOVAK TAURUS 1911 X-MODEL TRITIUM SIGHTS

Clear, Fast Sight
Picture In All Light
Conditions;
Low-Profile,
No-Snag Shape

Low-profile, fixed sights for Taurus 1911 have Tritium inserts that glow in low light, so you can see the sights clearly under all conditions. Same height as original factory sights, and cut for drop-in fit to factory dovetails—no machining of slide required. Rear sight has two dots, one on each side of the notch; front sight has one dot. Wide notch in rear sight provides more light around the front sight for a clearer sight picture and faster target acquisition. White circles around the inserts further enhance visibility in daylight conditions, while rebated rear blade helps prevent glare in bright light. X-Model design with sloping top surface, rounded corners, and beveled edges that won't snag on clothing or holster—perfect for concealed-carry or tactical use. Purchase together to give your pistol an advanced three-dot night sight system or mix with other Novak sights to create a sight system customized to your shooting needs.

SPECS: Machined steel, matte black finish, with Tritium inserts. Fits Taurus 1911 pistols; minor fitting may be needed. **Front** - .610" (1.5cm) long, .125" (3.2mm) wide, .150" (3.8mm) high. **Rear** - .80" (2cm) long, .625" (1.6cm) wide, with .135" (3.4mm) wide notch.

PSI 1911 AUTO TTF ADJUSTABLE FIBER OPTIC SIGHT SET

Easy-To-See
Sight Picture In All
Light Conditions;
Click Adjust
For Windage
& Elevation;
Drop-In Installation

Drop-in replacements for factory front and rear sights use true fiber optic technology to give the shooter maximum sight illumination for easy target acquisition in full daylight or low-light conditions. Three-dot system, with two green dots on the rear sight and red dot on the front, helps ensure a fast, accurate sight picture in competition or combat shooting. Rear sight click adjusts for windage and elevation using the handy adjustment tool or slotted screwdriver to turn the hardened steel adjustment screws. Bright, white index markings on the top of the sight aid in selecting accurate windage setting. Sleek, practical, low-profile design with chamfered and radiused edges won't snag on clothing or other gear. Precision machined to exact dimensions from solid steel billet for strength and durability. Designed for solid, secure fit in existing factory slide cuts to prevent movement and shifting of zero under recoil.

SPECS: Steel, matte blue finish. Set includes front and rear sights, adjustment tool, Allen wrench, spare fiber optic rods, and instructions. **TTF45CT** fits Colt 1911A1 with narrow-tenon (.051") front sight. **TTF80CT** fits Colt Series 70/80/90 pistols with wide-tenon (.125") front sight.

STI SEMI AUTO 3-DOT TRITIUM SIGHT SET

Fully Adjustable, Easy To See

All steel construction, fully adjustable for windage and elevation, sight set fits Government Model 1911's with a BM-#1 cut. Easy-to-see tritium 3-dot system gives great target acquisition in all shooting environments. Low profile, flat blade rear sight is serrated to cut down on glare. Front sight is contoured on the leading edge to prevent hanging up in the holster and won't snag on clothing.

SPECS: Steel, matte black finish. Rear blade - .447" (11.5mm) high. Notch - .138" (3.5mm) wide. Front blade - .161" (4mm) high x .125" (3.1mm) wide, 65° x .300" dovetail.

STI ADJUSTABLE REAR SIGHTS

Low-Profile, Easy Carry; Precise Sight
Picture With Full Adjustability

Precision-machined steel rear sights give ideal sight picture for target or carry, with low profile and rounded contours that resist snagging. Flush-mounted, positive-click windage and elevation screws won't get knocked from your selected settings. Flat blade with anti-glare serrations and wide notch provide a clear, fast sight picture that is easy to acquire under stress. **Adjustable** sits low on the slide for quick alignment, yet provides a precise sight image. Fits Bo-Mar BMCS slide cut. **Tactical Adjustable** combines the adjustability of a target sight with the compact, snag-free profile of a fixed tactical sight that fits a standard Novak rear sight slide cut. Beveled and rounded edges won't catch on clothes when drawing or holstering.

SPECS: Steel, matte black finish. Installation may require milling, drilling, and tapping of slide. **Adjustable** - Blade: .434" (11mm) high, .762" (19.3mm) wide. Notch: .110" (2.8mm) wide. Fits Bo-Mar BMCS (BM#1) 60° x .359" cut. **Tactical Adjustable** - Blade: .325" (8.3mm) high, .690" (17.5mm) wide. Notch: .110" wide. Fits Novak 65° x .495" slide cut.

STI 1911 AUTO RAMPED DOVETAIL FRONT SIGHT

Easy-To-See, Plain Black,
No-Snag Design

Low-profile, blued-steel front sight is the perfect match for a fixed, combat-style rear sight on a CCW or tactical pistol. Plain black face provides a straightforward, easy-to-acquire sight picture. Radiused front and angle cut on the rear face virtually eliminate chances of snagging on clothing during draw. Installation requires machining of slide.

SPECS: Steel, blued, matte finish. Blade - .470" (11.9mm) long, .110" (2.8mm) wide, .175" (4.4mm) high. For pistols with fixed rear sight and barrel lengths between 5" and 6" Dovetail - Fits 60° x .300" x .074" thick dovetail cut.

TRIJICON® TRITIUM HANDGUN SIGHTS

Low Light Handgun Sights
Without Batteries

Nighttime and low light shooting tests prove sights equipped with these glowing dots are easier to see and more accurate than instinctive shooting with standard black sights. Rugged, heavy duty, Traser®, luminous, 3-Dot tritium lamps provide their own long-lasting energy source. Lamps are mounted in silicone-sealed, metal cylinders to give maximum protection from breakage or leakage. Polished sapphire, crystal windows give a bright, crisp and perfectly round aiming dot in low light. Inlaid white rings around each sapphire make the sights appear as standard white dots in daylight. Very narrow blades do not have the white ring and will look more like a plain black blade in daylight. Most can be installed in factory dovetail or sight base. Tenon, staked, 1911 models require use of special Trijicon installation tools to prevent sight damage.

SPECS: Steel, blued with tritium inserts. Sights listed as **Adj.** are adjustable sights to fit guns originally equipped with factory, adjustable sights. Sights listed as **Fxd.** fit guns originally equipped with factory, fixed sights. **Kimber** fits Polymer Custom, Polymer Stainless, Pro Carry, Pro Carry II, Ultra Carry, Compact, Pro Eclipse II, and Ultra 10. **Para** - Fits Para-Ordnance.

XS SIGHT SYSTEMS EXPRESS SIGHT SET

Low Profile, High Visibility,
Rapid Sight Picture

White line, V-notch rear sight and a white dot front post pull your eye to the front sight in high stress or low light conditions. Presents a very fast, highly visible sight picture to get you on target quickly. Low profile, no-slug design (even the top of the front sight body is rounded) is great for carry and combat competition guns. Matched front and rear sets offer direct replacement of factory sights. **Big Dot** provides improved speed when engaging targets at close range. **Standard Dot** gives better long range accuracy.

SPECS: Machined steel, matte black. Big Dot (BD). .161" (4mm) diameter dot. Standard Dot (STD). .110" (2.8mm) diameter dot. 1911 Govt, Comm, Officers: Rnd fits round top slides. 1911 front requires 65° x .330" x .075" front sight dovetail. All rear sights are secured with two setscrews. All sights are fixed. Gunsmith installation recommended.

BURRIS FASTFIRE™ RED DOT REFLEX SIGHT

Fast, Precise Heads-Up Sighting;
Ultra-Robust Design Handles
Mounting On Slide

Extremely compact and lightweight, yet rugged, red dot sight provides fast, accurate, both-eyes-open sighting. Stainless steel and aluminum housing built to handle magnum shotgun allows slide mounting. Originally developed for military and law enforcement use, FastFire's panoramic field of view and unlimited eye relief simplify shooting with an unobstructed view of the area around the target for fast target acquisition and precise shot placement. Won't interfere with peripheral vision, so the operator can maintain better situational awareness. A high-intensity LED projects a 4 MOA red sighting dot on the heads-up display, while a light sensor and integrated control circuitry adjust the dot's brightness to the light around the target. Coated, dual-layer, optic-quality lens resists scratches and scuffs and is parallax-free to 50 yards. Mild, 1.07x magnification aids in acquiring long-range targets, without compromising close-in effectiveness. Set the point-of-impact with two flush-mounted screws that provide 3° (190" at 100 yards) windage and elevation adjustments using the included scale disc and adjustment tool. Low-profile control switch conveniently positioned on the left side resists accidental activation and has positive clicks for on/off positions. Powered by one 3-volt CR2032 lithium battery, included; up to 5-year battery life when used in Battery Saver mode. Comes with a mount that fits Picatinny and Weaver-style rails. For other installations, sight and mounts are available separately, listed below.

SPECS: Sight - Steel, aluminum, optic-grade glass. 1 3/4" (4.5cm) long, 1" (2.5cm) wide, 1" high. Includes snap-on cover, CR2032 lithium battery, windage/elevation scale disc and adjustment tool, instructions. **Mounts** - Aluminum, matte black. Mounting screws included.

BLACKHAWK INDUSTRIES 1911 AUTO CQC™ & TACTICAL CARBON FIBER HOLSTERS

Lightweight,
Durable & Fast
To Use;
Choose Level 1 Or
Level 2 Retention

Injection molded from advanced carbon fiber nylon composite to provide maximum strength, with minimal weight. CQC models

feature a contoured paddle for waist belt mounting. Tactical models mount directly to the right thigh for unrestricted access. **CQC Standard (STD)** features a close friction fit, tension-adjustable, passive retention system for Level 1 requirements. **CQC SERPA** features adjustable tension with an index finger-actuated, Level 2 retention system that will not release the triggerguard until you press on the lock while you draw. CQC models can

be mounted using the belt loop or separate paddle attachment for added versatility when duty requirements change. Paddle and belt loop are lock-adjustable for forward and rearward cant. **Tactical SERPA** includes the same finger-actuated, Level 2 retention system as the CQC SERPA holster. Advanced thigh holster attaches to the right leg directly below the waist belt to keep your pistol within easy reach and always at the ready. Features adjustable tension with an index finger-actuated, active system that won't release the triggerguard until you press on the lock while you draw. Length adjustable, upper and lower leg straps are built from heavy duty, nylon elastic webbing and provide a firm, secure fit around your thigh. Quick-release buckles allow easy removal and installation. Dual top straps use hook-and-loop fastener for easy installation around the waist belt and include quick-release pull tabs for fast removal. Innovative polymer swivels allow the holster to pivot when sitting-down, without pinching or binding. All models feature a fully covered trigger guard for added safety, with a cutout trailing edge for maximum clearance during presentation. Adjusts to fit belts up to 1½" (4.1cm) wide.

SPECS: Injection molded carbon fiber impregnated nylon, black. Adjusts to fit belts up to 1½" (4.1cm) wide. Fits Govt. 1911 Auto. Right hand only. **CQC** - Paddle attachment. 4 oz (113g) weight. **Tactical** - Thigh pad, polymer buckles, nylon elastic webbing. 20.5 oz (581g) weight.

HOGUE SEMI-AUTO UNIVERSAL POWERSPEED™ HOLSTER

Maximum Retention; Releases Instantly For A Lightning-Fast Draw

Modular holster securely retains your pistol, then releases instantly as you draw. Exclusive design uses three, extremely powerful rare earth magnets to hold almost any semi-auto pistol snugly on the support platform ready to draw. Separate locking mechanism secures the triggerguard in your choice of two levels of retention. Fully-Locked or Semi-Race; releases instantly with just a light push from the thumb as you draw. Disengage the lock for a completely unimpeded draw in full-race situations. Made from lightweight, unbreakable, resin impregnated plastic. Holster is fully adjustable for width at triggerguard, height of draw and left- or right-hand carry. Includes two belt mounts: Competition/Duty is adjustable for cant and angle, fits belts 1 1/2" (3.8cm) to 3" (7.6cm) wide; High Rise fits 1 1/2" wide belts and is designed for concealed carry.

SPECS: Plastic, black 7.2 oz. (202 g) wt. Fits most full-size, semi-auto pistols with steel slides and a minimum barrel length of 3 1/2".

#408-300-000DF Powerspeed Holster, 8K85Z71 \$ 119.99

MICHAEL'S KYDEX DOUBLE MAGAZINE CASE

Injection Molded For Durability

Double magazine pouch features individually molded compartments for proper fit of single-stack, 1911-style magazines. SAFARILAND 1911 AUTO 5188 PADDLE-STYLE CONCEALMENT HOLSTER

Compact & Lightweight
With Low Sides
For Comfort & Ease Of Draw

Low-profile, open-top paddle holster offers minimal bulk and a low-cut front to help improve the speed of your draw. Cut-down sides won't interfere with draw and maximize comfort and concealment. Constructed of nearly indestructible Safari-Laminate™ thermal molded to the exact shape of a full-size 1911 Government model pistol for superior retention and no movement of gun while walking or running. Adjustable tension system lets you set the right amount of retention for your gun and the level of resistance during unholstering, while soft, suede lining protects the gun's finish. Self-locking paddle of injection-molded polymer readily conforms to your body for a comfortable, close to the body fit that positions the gun for smooth, fast presentation. Paddle also accepts a belt up to 1 1/2" wide for extra support. Approved by the International Defensive Pistol Association (IDPA) for competition use.

SPECS: Safari-Laminate with suede leather lining, black. For Govt. Model with 5" barrel. Right hand only. Fits belts up to 1 1/2" (4.5cm) wide.

#797-000-102DF 5188 Paddle Holster, Govt.,

SAFARILAND 6004 TACTICAL HOLSTER

Lightweight, Rugged,
Secure Weapon Retention & Protection

Thermal-molded laminate holster protects pistol from dents and dings, and ensures retention in the most demanding tactical situations. Self Locking System (SLS) releases the weapon when you push down on the thumb lock and rotate hood forward; pulling up on the gun's grip without releasing the lock actually makes weapon more secure. With no cumbersome snaps to release, SLS design allows a smoother draw, protects weapon from attempted seizure, and is less likely to release accidentally. Molded sight track and suede liner protects sights and finish. Attaches to duty belt and secures to leg with a double strap and contoured shroud system for added comfort and stability. Setscrew allows adjustment for optimal retention force. Available in Black, Dark Earth and Foliage Green to match common camo colors.

SAFARILAND 1911 AUTO 6304 TACTICAL HOLSTER

Strong, Lightweight
& Adjustable;
Dual Quick-Release
Retention Systems

Rugged, lightweight, thermal-molded laminate holster securely retains your pistol during the most strenuous tactical maneuvers and prevents seizure by unauthorized personnel. Dual quick-release locking systems ensure that you—and only you—can access your weapon. The Self Locking System (SLS) prohibits access until you push down on the thumb lock and rotate the protective hood forward. Upward force on the gun's grip without releasing the lock actually makes the weapon more secure. Hood also serves as a hammer blocking device on a pistol carried in Condition 1. In addition, the Automatic Locking System (ALS) automatically grips the gun from the inside every time you holster it. After releasing the SLS, your thumb is positioned to pull back on the ALS release lever and complete a straight-up draw that is natural, smooth, and faster than traditional snap-and-strap systems. The hood guard at the front of the holster further blocks unauthorized access by another person but won't interfere with your access to the controls. Nearly indestructible Safari-Laminate™ is thermal molded to encase the gun and protect it from impact, while the molded sight track and soft suede lining protect sights and finish. Setscrews allow adjustment retention force to prevent movement of gun when walking or running. Adjustable vertical strap mounts to any width duty belt, and a hook-and-loop system lets you set the exact holster height you want. A contoured leg shroud with two adjustable straps secures the holster to your leg for maximum stability and comfort.

SPECS: Safari-Laminate™, nylon, ABS plastic, with suede lining, black. Fits full-size 1911 with 5" barrel. Right hand only.

SAFARILAND 1911 AUTO 6005 QUICK-DETACH LEG STRAP

Easy, Fast Attachment & Removal
Of 6000-Series Tactical Holsters

Upgraded, replacement leg strap with quick-release buckle allows easy, fast attachment and removal of Safariland's 6000-series tactical holsters without having to remove duty belt. Secure, positive-locking buckle of tough molded-polymer has extra lock button that must be depressed as you squeeze the side prongs to release the buckle. Virtually eliminates the danger of accidentally opening the buckle and dropping the holster. Strap made of the same super-tough nylon webbing as the original strap that came with your holster.

SPECS: Molded polymer, nylon webbing, black. Approx. 14 1/2" (36.8cm) long. Fits Safariland leg-shroud holsters with T-shaped 3-hole screw pattern, including 6004, 6074, 6274, 6304, and 6305.

SAFARILAND 1911 AUTO 77-53 DOUBLE MAGAZINE POUCH

Secure Magazine Retention & Protection
From The Elements

Rugged pouch made of incredibly tough, abrasion-resistant synthetic material securely holds two spare magazines at the ready for fast tactical reloads. Individual snap-flaps lets you access one mag while leaving the other one secured in its compartment. Designed specifically for use with the

Safariland 6004/6005 Tactical High Holster system, but will fit any 2 1/4" belt. Injection-molded polymer and heat-fused polymer laminate construction provides snug fit, with adjustment screw for extra secure retention. Inside of pouch back and flaps is covered with a thin layer of Safari-Suede™ to protect magazine finish and absorb oils and lubricants. Tough STX Tactical™ exterior finish blends well with other tactical and duty gear, repels water, and resists scuffs and nicks, yet looks good through years of hard use. Will not absorb water or sweat, and cleans up easily with water and mild soap.

SPECS: Molded and heat-laminated polymers, black. Fits magazines for Colt 1911 Government Model, Commander, Officers, and clones including Kimber and AMT Hardballer. Also fits H&K P7/P7M8, Sig P220, and S&W 39/3904/3906/4013/4053/439/639/909/CS9. Fits belts up to 2 1/4" wide.

SPECTER GEAR

TACTICAL THIGH HOLSTER

Multiple Adjustments
For Comfort; Securely Retains
Your Handgun & Magazine

Heavy-duty pistol holster offers almost infinite adjustability for correct fit and increased wearing comfort. Multiple adjustment points safely and securely retain your handgun at the recommended mid-high level for tactical duty applications. Fully adjustable,

double leg straps are made with durable, 2" wide nylon webbing with interwoven rubber stitching to prevent shifting during use. Dual, quick-release side buckles with elastic inter-loops evenly distribute weight for less fatigue and expansion of the leg straps during movement. Triple routing channels for the attachment straps provide a perfect fit for all users. Vertical hanger strap with quick-release buckle is constructed of three layers of 2" wide webbing with a full length hook-and-loop pad for up to 6" of vertical drop adjustment. All stitching and seams are sewn with either #69 or #92 mil-spec nylon thread; high stress points are quadruple stitched for added strength. Adjustable hammer retention strap with additional security release flaps clear with minimum thumb pressure, yet securely retains your pistol even when low crawling or rappelling. Includes single magazine pouch located at the front of the holster. 

SPECS: Ballistic nylon w/ 1000 denier cordura nylon outer shell, black. Approx. 1 lb. (5 kg) weight. Available in right hand (RH) or left hand (LH). Fits 5" 1911 Govt.

SKYLINE TOOLWORKS

UNIVERSAL CLIPDRAW

Attaches In Seconds To Most Handguns;
Easily Removable For Use With Holsters

Spring steel belt clip installs to most pistols and revolvers to provide secure carry with minimum bulk for maximum concealment. Attach the pre-drilled mounting plate to a clean, flat surface on the gun using the provided high-bond, 3M double-back tape, then fasten the clip to the mounting plate with the included Allen screws. Adhesion actually increases over time. For conventional holster carry, simply unscrew and remove the clip; mounting plate will not interfere with most holster configurations. Installation requires a minimum 3"x¼" flat surface area on the firearm. Great for any handgun with varying carry requirements. Stretch release technology makes it

easy to completely remove all traces of mounting tape with no remaining residue or blemishes to your gun's metal finish.

SPECS: Steel, blue (BL) or stainless steel (SS), natural finish. 3" (7.6cm) long, ¼" (6mm) wide, ⅜" (10mm) high. Includes adhesive strips, cleaning pads, screws, and Allen wrench.

BROWNELLS 1911 AUTO
LIGHT RAIL MOUNTAdd Lights & Lasers
To Non-Railed Frames

Add-on light rail makes it cost-effective to convert any 1911 Auto-type pistol without an integral frame rail to accept a wide assortment of popular weapon lights and lasers. Rail attaches

permanently with the supplied screws and Acraglas Gel® to form a seamless mate with the dust cover. Aluminum model keeps aluminum-framed pistols lightweight and maneuverable. Steel version provides extra strength and added weight for improved balance and recoil control, plus can be welded into place and finish-shaped for a "built-in" appearance on steel framed pistols. Installation requires permanent alteration of the frame and must be completed by a competent gunsmith or machinist. 

SPECS: Aluminum or steel, matte black. 1½" (4cm) long, ⅜" (2.1cm) wide, ⅜" (9.5mm) high. Weight: Aluminum - .6 oz. (17g). Steel - 1.2 oz. (34g). Fits 1911 Auto-type pistols. Slot centers located .510" from each end.

NOVAK 1911 AUTO
TACTICAL LIGHT RAILRock Solid Under-Receiver
Mounting Of Tactical Lights
& Lasers

Low-profile accessory mount attaches to underside of receiver in front of triggerguard for ultra-secure mounting of tactical lights and laser aiming devices. Gets light/laser close to the bore axis for accurate aiming, with controls in easy reach of support hand. Four precision machined slots accept any accessory designed to fit a MIL-STD 1913 Picatinny rail. Beveled and dehorned for snag-free operation; extends only ¼" below frame to allow easy fit in any holster designed for use with light/laser-equipped pistols. Available in blued carbon steel, matte gray stainless steel, or extremely lightweight aluminum with matte black anodized finish. Mounts using three super-strong, heat-hardened hex-head screws; drilling and tapping of frame required. 

SPECS: Steel - Carbon steel, blued, or stainless, matte gray finish. 1.3 oz. (36g) weight. Aluminum - Anodized, matte black. .4 oz. (12g). All models 2.18" (5.5cm) long, .835" (2.1cm) wide. Extends approx. ¼" (6.4mm) below frame when installed. Drilling and tapping of frame required. Includes mounting screws, hex wrench, and instructions.

----------------	-------------------------	---------

BUTLER CREEK SEMI-AUTO PISTOL

UPLULA UNIVERSAL
MAGAZINE LOADERLoads Pistol Magazines Fast,
Protects Fingers & Thumbs

Hand-held loader fills standard centerfire pistol magazines quickly and easily, so you spend less range time loading mags and more of it shooting. Smooth, positive operation protects fingers and thumbs while you load hundreds of rounds painlessly—as fast as one round per second. Also lengthens magazine life by reducing wear and tear on feed lips. One size fits all; no inserts, spacers, or adjustments needed to change calibers. Hold the magazine upright with the bottom resting on a solid surface. Place the loader over the top of the mag, press down lightly while squeezing the lever to depress the follower, drop in a round, and work the lever quickly to push it into the mag. Repeat the process until the magazine is full. Constructed from tough, reinforced, black polymer. Locks closed when not in use, so it takes up minimal space in pocket or range bag. Fits single and double stack 9mm, .357, .40, 10mm, and .45 ACP magazines, plus some .380 mags. Will not load Glock 6-round single stack .45 caliber or Smith & Wesson 7-round single stack 9mm, or magazines with less than 8mm between feed lips.

SPECS: Reinforced polymer, black. Approximately 2½" (7.3cm) long, 1¼" (3.2cm) wide, 3¼" (8.3cm) high. Fits single and double stack magazines from 9mm to .45 ACP.

#100-003-052DF	Universal Pistol Magazine Loader, 3E29D79	\$ 32.99

10-8 PERFORMANCE ARMORER TOOL

NEW

Sturdy Non-Marring Tool
Has Dozens Of Uses

Handy tool of extremely tough, non-marring glass-reinforced nylon is perfect for prying and pushing applications where a metal tool can damage the part or gun finish. Rigid chisel point on one end is useful for depressing springs and spring-loaded parts—even use to thread MOLLE straps through webbing—while the semi-flexible flat blade on the other end can get into tight spots or serve as a temporary shim. Great to have around during disassembly of semi-auto pistols like the 1911, Glock, or Smith & Wesson M&P or when working on service rifles like the AR-15/M16. Multiple ridges molded into the grasping area in the middle of the tool help prevent slippage when working with oily or greasy hands. Available in **Black, Flat Dark Earth, and Foliage Green**.

SPECS: Glass reinforced nylon, Black, Flat Dark Earth, or Foliage Green. Approximately 5" (12.7cm) long, 1/4" (6.4mm) diameter.

BAT INDUSTRIES 1911 AUTO ROTO STAND

Pistol not included

Holds Pistol Securely
In Any Position
For Two-Hands-Free
Cleaning & Maintenance

Sturdy, adjustable stand holds your 1911 securely in a wide range of positions for easy cleaning and maintenance. Frees both hands to work and gets the pistol up from the work surface to protect it from scuffs, scratches, and dings that

can happen if it slips as you work on it. Great for competitors and other high-volume shooters who need secure, unobstructed access for cleaning gunked up guns quickly. Also serves as a display stand to show off that prized custom pistol or racegun. Large, circular base is stable enough to support any single stack 1911 Auto configuration and has a lipped edge and soft, no-slip neoprene pad to prevent tools and small parts from rolling away. The insert on the ball-and-socket swivel mechanism fits in the pistol's mag well. Adjust the screw on the spring tensioner with the included hex wrench to ensure the insert grasps the pistol firmly. Unlock the swivel mechanism's release lever and rotate the gun for best access to the area you want to work on, then lock the lever and go to work. Tough, structural polymer composite base and swivel, with chemical resistant neoprene base mat.

SPECS: Injection-molded structural polymer composite with neoprene rubber mat, black. Height fully assembled, approximately 6" (15.2cm). Base diameter, 12 3/4" (32.1cm). Hex wrench and instructions included. Fits all models of single-stack 1911 Auto pistol.

BROWNELLS 1911 AUTO TRIGGER STIRRUP DIE

Trigger not included

Forms Stirrup For Precise Trigger Pull

Makes it easy to smooth out the bends and bumps found in production triggers and match-fit them for precise, no-wobble travel. Slide a trigger over the die and tap lightly around it with a small hammer. Maintains correct shape and angles. Dual

use, lets you save dinged and damaged ones too. Models available for standard **Single-Stack**, as well as double-stack **Para-Ordinance** and **STI** pistols.

SPECS: Hardened Steel. **Single-Stack** - 1 1/16" (23.8mm) long, 5/16" (15.9mm) thick, 1 1/2" (3.8cm) high. **Para-Ordinance** - 1 7/32" (3.9cm) long, 1 3/16" (2.4cm) thick, 2" (5.1cm) high. **STI** - 2" long, 1 3/16" thick, 3" (7.6cm) high.

POWER CUSTOM SLIDE RAIL COMPOUND CLAMP

Semi-Auto Slide Tightening Made Easy

Giant, steel "pliers" has two machined "steps" that can tighten one or both rails with just a "squeeze" of your bench vise. Step one distributes pressure evenly to both rails at the same time. Step two straightens and adjusts one side at a time if the slide is bent or sprung. Stop bolt helps prevent over-tightening and damaged slides.

SPECS: Heat-treated steel, blued finish. Machined from 1 1/2" (3.81cm) square stock, approx. 7 1/2" (19cm) long. Ratio 2:1.

#713-101-000DF Slide Rail Compound Clamp, 3A00ZAY . . . \$ 114.99

⑧ **TOOL BOX** - Heavy-duty, plastic case conveniently holds everything in one place. Perfect for the shop, armory, or as a take along to a match.

SPECS: High-impact plastic. 15" (38.1cm) long, 7" (18cm) wide, 5" (13cm) high.

#696-100-303DF Tool Box 6F11U44 . . . \$ 16.99

1911 ARMORER'S ADD-ON PAK - 15 additional tools essential to assemble, disassemble, improve performance, and to do general maintenance on 1911-style pistols; turns your Field Tool Kit into an Armorer's Kit.

SPECS: Upgrade Kit includes: (1) #81 Magna-Tip® Solid Handle - 1 1/4" (3.2cm) dia., 8" (20.3cm) long overall. (1) 3/32" Allen Bit - Steel, heat treated. Fits Brownells 1911 Auto and Ruger MkI/MkII grip screws. (1) #240-5 Slotted Bit - Steel, heat treated. Fits Brownells 1911 Auto and Ruger MkI/MkII grip screws. (1) T15 Torx Bit - Steel, heat treated. Fits Brownells 1911 Auto and Ruger MkI/MkII grip screws. (1) Magna-Tip .45 Bushing Driver Bit 1 1/16" (3.9cm) overall length, 1/4" (6.35mm) O.D. (1) 1911 Auto Anodized Bushing Wrench - Aluminum, red anodized. 5 1/2" (14cm) long, 1 1/4" wide, 1/4" (6.35mm) thick. (1) 1911 Auto Safety Detent Depressor - Steel shaft, plastic handle, 5" (12.7cm) long. (1) Mainspring Housing Pin Pusher - Approx. 3" (7.6cm). RC50 steel shank, plastic handle. (1) 1" Nylon/Brass Hammer Combo - 1" (2.5cm) dia. faces. 1 1/2" (29.2cm) hickory handle. Weighs approximately 6 oz. (170.1g). (3) Nylon Front Sight Punches - 4" (10.2cm) long. 3/16" (7.9mm) dia. Polyenco Nylon. (1) 1911 Auto Extractor Removal Tool - Steel, blue, matte finish. 6" (15.2cm) long, 3/8" (9.4mm) dia. handle, 150" (3.7mm) dia. lever. (1) #120-3 Bit - Steel. 120" (3.1mm) shank dia., .03" (.76mm) blade thickness. (1) #185-00 Hex-Head Bit - Steel. 1" long, 1/16" (1.6mm) thick. (1) 120" Brass Alignment & Push Punch - Plastic handle, brass shank, 360 alloy shaft. 4 3/4" (12cm) long. Shank - 3/4" (8.2cm) long. 120" (3.05mm) dia. (1) .092" Brass Alignment & Push Punch - Plastic handle, brass shank, 360 alloy shaft. 4 3/4" long. Shank - 3/4" long. .092" (2.3mm) dia.

BROWNELLS WEAPONS FIELD MAINTENANCE PACK

Complete, Dedicated Kit For Field Repair & Maintenance Of Tactical 1911 Autos

This compact field maintenance pack is designed specifically for servicing combat 1911 Autos during Military Ops. And, it provides the soldier with all the required tools to field strip, repair, and maintain this pistol while on the move. This is not a run-of-the-mill cleaning kit, but carefully selected, high-quality field armorer tools dedicated to working on the 1911 pistol, so there is no confusion and no down time spent scrounging through one large field case of loose odds and ends. Individual pouches and compartments inside the water- and abrasion-resistant, denier Cordura case keeps all tools secure and separated to help minimize noise that could jeopardize your mission. Quiet, #9 YKK zippers with oversize pulls make it fast and easy to get tools in and out. Front panel features clear, I.D. card sleeve and loop strip for name tape. Includes two, nylon grab handles for easy carry. Made in the U.S.A. Field Pack Case is also available separately.

SPECS: Includes: #81 MAGNA-TIP® screwdriver handle w/ #120-3, #185-00, #185-1, #240-5, T15 Torx, and bushing driver bits; grip bushing staker; lug iron; bushing wrench; plunger tube crimper kit; safety detent depressor; trigger stirrup die; nylon/brass hammer; pistol bench block; (3) nylon punches; front sight staking tool; extractor removal tool; .092" and .120" dia. brass push punches; mainspring housing pin pusher; 12"x24" bench/field gun mat. 5 lb. 2 oz. (2.32 kg) wt.

POWER CUSTOM 1911 AUTO FRAME SUPPORT SYSTEM

2-Piece Set Prevents Frame Damage During Fitting, Acts As Guide For Stippling

Stops frame "crush" while performing any of the lapping, heavy hammering or heating and bending alterations that require holding and squeezing the frame in a bench vise. Expandable **Magazine Well Support** adjusts to fill magazine opening so it can't collapse. Hardened steel **Side Plates** inline off the grip bushings to take vise jaw pressure and dings, plus provide a convenient, damage-proof, straight edge guide for stippling on the front strap. Fits all types and calibers of 1911 Auto frames.

SPECS: Heat-treated steel, blued finish. **Mag Well Support** - 4" (10cm) long, adjusts to 1 3/8" (3.5cm) wide. **Side Plates** - 3" (7.62cm) wide, 4 1/2" (11.4cm) long, 1/4" (6.3mm) thick. Includes Allen wrenches, adjustment screws and instructions.

#713-100-000DF Frame Support System, 3A00ZAY . . . \$ 75.00

ALPHA PRECISION 1911 AUTO SLIDE TIGHTENING TOOLS

Tighten Slide-To-Frame Tolerances Without Over-Squeezing Or Damage

Tools developed by noted pistolsmith Jim Stroh help you produce an exceptionally tight slide-to-frame fit for better accuracy without loss of clearance for reliable cycling. Eliminate accuracy robbing slide slop and uneven spots to produce a uniform slide/rail gap as small as .0005" on carbon steel guns. All components are precision machined from high-quality steel or aluminum barstock; instructions included. **Slide Tightening Blocks** use the powerful mechanical advantage of your bench-mounted vise to produce controlled, incremental squeezing of the slide to tighten its fit to the frame. Lets you tighten a stainless steel slide to run on a stainless steel frame with as little as .001"-.002" clearance without risk of galling. Should be used with the **Slide Tightening Stop** to prevent overtightening and damage to the slide. Specially heat treated aluminum alloy won't deform under pressure and won't mar the slide; kit includes two vise blocks and steel fulcrum rod. Slide Tightening Stop fits between the slide rails to set correct dimensions and prevent deformation of the slide while applying pressure with the Tightening Blocks. Tighten until the stop cannot be moved in the slide, release pressure, move the stop and blocks down the slide, and apply pressure in the new location. Repeat procedure until the entire slide/frame contact area has been tightened. **Rail Gauge** - Use in conjunction with a caliper's depth-measuring feature or a depth micrometer to measure depth of frame rails for selecting a correct-size spacer bar for peening the rails to eliminate vertical slide movement.

SPECS: **Tightening Blocks** - Aluminum, 1" (2.5 cm) square, 3" (7.6cm) high. **Tightening Stop** - Steel, machined. Adjusts from .701" (17.9mm) to .852" (21.6mm) in width. **Rail Gauge** - Steel. 5 1/8" (14.9cm) long, 3/4" (1.9cm) wide.

BROWNELLS

1911 AUTO RAIL SWAGING PUNCHES

Helps Prevent Frame Rail Damage

Puts downward swaging pressure directly onto the frame rails and not on the frame. Giant steel punches with specially machined steps prevent overpeening and crushed frame rails. Single or Double design allows tightening only the specific rail area required for closer frame-to-slide fit.

SPECS: Machined steel. 5 1/8" (56cm) long, 1" (2.5cm) diameter. Set includes 1 punch of each design.

BROWNELLS/STARRETT 1911 AUTO SLIDE RAIL MICROMETER

Quickly Choose Correct
Slide Fitting Bar
With Micrometer Accuracy

For match level accuracy, slide-to-frame fit on 1911-style autos must be closer than a gnat's whisker. This specially modified Starrett mike precisely measures the thickness of the slide's "rails". Makes choosing the correct slide fitting bar quick and accurate. No guesswork. Take measurement at three points along the slide, average readings together, and select a slide fitting bar (listed elsewhere) .001" to .002" thicker.

SPECS: Stainless steel, 2 1/2" (6.3cm) overall. Carbide measuring faces read .0000 to .4265" (10.8mm). Includes plastic case.

#827-561-730DF Slide Rail Micrometer, 7B00VBX..... \$213.03

MARVEL 1911 AUTO SLIDE LAPPING TOOL

Simplifies hand lapping a 1911 slide and frame. Oversize ball handle on a dummy "bushing" fits into the

slide and makes it possible to apply a smooth back-and-forth lapping action.

SPECS: 5/8" (13cm) long overall. 3 1/2" (8.8cm) long x 5/8" (15.9mm) dia. steel shaft. 2" (5cm) dia. plastic ball handle.

BROWNELLS 1911 AUTO SLIDE FITTING BARS

Remove Slide
"Play"
Accurately &
Professionally

Surface ground and hardened tool steel bars in ten thicknesses - Recommended by agency armorers and top pistolsmiths as the most accurate way to remove vertical slide "play" from the 1911 Auto, its variations and copies. May be slower than the quick-and-dirty methods, but gives an infinitely more accurate and professional job. Basic procedure as follows: Measure gun's slide rail thickness; place closest-sized Slide Fitting Bar in frame "way"; tap frame rail with light hammer to close the "ways" space down to match the slide rail thickness. Complete instructions included.

SPECS: 4" (10.2cm) L x 1" (2.5cm) W. stainless steel, heat treated. + .0000"/- .0005" (.0127mm) tolerances. **Set** includes 10 slide fitting bars, and a hardwood divider tray, all in a tough, polypropylene bench storage box.

BROWNELLS 1911 AUTO GRIP BUSHING STAKER

**8-Segment, 90° Head Gives Maximum Contact To
Frame For Most Secure Bushing Installation Possible**

1911 stock bushings get bunged up or lost in the field or, when a pro is doing a "Master Reblue Job" they get removed to permit the finest possible polishing job. Then they have to be replaced and that can be a real chore. No more. With this special Brownells 1911 Auto Grip Bushing Staker, it's now quick and easy to get them tight on the first try. Made in 8 segments with 90° cuts between for maximum bushing contact to frame. Has "handle" and deep hole in top of Staker to prevent your $\frac{1}{8}$ " punch from slipping off. (The $\frac{1}{8}$ " punch passes thru bushing center on opposite side of frame to give clean access to bushing being replaced or tightened.) **NOTE:** Make an anvil block to support outside of bushing while it is being staked. Works great!

SPECS: Staker head - S5 Tool Steel hardened to Rc 57-60. 4" (10.2cm) handle.

BROWNELLS 1911 AUTO LUG FITTING KIT

Helps You Fit The Standing Lugs On
Oversized Barrels

Three essential tools work together to help you successfully fit oversized barrels. The Barrel Holder locks the barrel in the slide to let you cut the excess material on the

lugs with the included, carbide Barrel Lug Cutters. Plus, the Slide Pusher holds the slide forward to put a consistent pressure on the barrel while cutting. Comes in a convenient case.

SPECS: Barrel Holder - Steel, Approximately 3.5" (9cm) long .44" (1.1cm) O.D. Barrel Lug Cutter - Carbide, .186" cutter and .195" cutter; includes handle. Slide pusher- steel shaft, plastic handle. 6.5" (16.5cm) long.

BROWNELLS 1911 AUTO LUG CUTTER

**Recuts Lug For A Tight Fitting
Barrel That Improves Accuracy**

Hand operated, carbide cutter easily trims excess material from the bottom barrel lug when fitting custom or factory barrels to 1911 Autos. Cuts barrel lugs parallel, and with the correct height and radius, to help produce the best possible lockup. Use .186" cutter first, then progress to the .195" cutter if more material needs to be removed. Follow with careful hand fitting to achieve a firm, non-binding barrel-to-slide fit. Start small and check your work often. It is possible, with some slide/barrel combinations, that the .195" cutter could remove more material than necessary. Fits all 1911 Auto, Commander and Officers ACP, single- and double-stack frames.

SPECS: 1" (2.5cm) diameter knob; 2.07" (5.25cm) long shank. .186" (4.72mm) or .195" (4.95mm) diameter cutters. Complete instructions included.

BROWNELLS 1911 AUTO ANODIZED BUSHING WRENCH

Non-Marring Aluminum Gets The Tightest Bushings Loose

The perfect tool for every 1911 owner's range bag or cleaning kit. Precision machined for a close fit to Government Model and Officers ACP bushings. The extra thick, contoured handle fits comfortably in your hand; has plenty of heft for a good, solid grip. Turns the tightest bushings without slipping.

SPECS: Aluminum, red anodized. 5 $\frac{1}{2}$ " (14cm) long, 1 $\frac{1}{4}$ " (3.2cm) wide, $\frac{1}{4}$ " (6.35mm) thick.

#080-045-200DF Anodized Bushing Wrench, 8K15B69 \$ 19.99

BROWNELLS COLT WRENCH

**1911 Auto Bushing Wrench,
Plus Ratchet/Ejector Rod Wrench**

An obvious "must have" tool belonging on the bench of every gunsmith or armorer who works on (or strips for rebluing) any Colt handgun. The double-ended 1911 Auto bushing wrench feature has been time proven by gunsmiths. Ours handles the traditional Government model with one end and the Colt Officer's ACP with the other. We've all sweated over the mar-free removal and reassembly of the ratchet (ejector/extractor) from the ejector rod of large and small frame Colt revolvers. Brownells Colt Wrench handles the operation properly. The hex opening fits over the ratchet of large frame Colts (including old and new Pythons) to hold the ratchet for unscrewing from the ejector rod. For small frame Colt revolvers, the slot with two small studs fits between ratchet and cylinder face; the two studs fitting into two of the ratchet cartridge extractors. The tool ratchet unscrews from rod with no mar or deformations! A lifesaver!

SPECS: Blued steel. 6 $\frac{1}{8}$ " (15.6mm.) x 1" (2.5cm) x $\frac{1}{8}$ " (3.2mm).

BROWNELLS CAN'T MAR™ 1911 AUTO BUSHING WRENCH

• Can't Damage Finishes • Virtually Unbreakable
• Pocket-Sized • Versatile, Double-Ended Design

Every 1911 owner and gun shop needs a wrench to remove the barrel bushing from the 1911 Autos. Ours fits all the calibers and variations; Colt-made (including factory Officers ACP), plus copies. Made from super tough ABS "T" grade polymers, Brownells **Can't Mar** wrench has more thickness and heft than other synthetic wrenches. It gets out even the most tightly fitted, match-grade bushing WITHOUT scarring or marring the finish of the gun's bushing or slide. Virtually unbreakable, the **Can't Mar** wrench carries easily in pocket or field kit.

SPECS: 5 $\frac{1}{2}$ " (14cm) long. 1 $\frac{1}{4}$ " (3.2cm) wide. .187" (4.75mm) thick. Weighs 1 oz. (28 g).

NOWLIN MFG. 1911 AUTO RAMPED BARREL FRAME BRIDGE CUTTER

Speeds Ramped Barrel Installation; Ends Ruined Frames & Broken Cutters

Precision-ground cutter speeds up the time-consuming job of removing the ramp from a 1911 Auto frame prior to installing a fully ramped barrel. Custom-ground, long-shank end mill helps you get a frame that's cut clean and straight, ready to fit. Fully piloted to eliminate bind, and won't lose zero if you take the frame out of the milling vise. 

SPECS: High-speed steel cutter, carbon steel shank, aluminum bushing. 5½" (14.3cm) OAL, 7/16" (1.11cm) diameter cutter, ½" (1.3cm) diameter shank. Works for all ramped barrels equipped with bottom feet cut square at the rear, like Nowlin and Wilson.

#654-105-000DF Ramped Barrel Frame Bridge Cutter,

4E00PUA. \$ 99.95

1911 AUTO BARREL INSTALLATION ACCESSORIES

BARREL HOLDER - Locks the barrel to the slide, simplifying lug-to-pin fitting using either the Wilson Lug Cutter or a ⅜" diameter, parallel round file. Mounts through the bushing below the barrel, and clamps it in the full lock position with a set screw. 

SPECS: 5¼" (14.6cm) long. ⅝" (15.9mm) diameter. Steel. Fits 9mm, .38 Super and .45 ACP.

#080-711-100DF 1911 Auto Barrel Holder 8K15U56 . . . \$ 20.99

NORTON 6" x 1/2" x 1/2" STONES

Traditional Gunsmithing Favorites Deliver Excellent Surface Finishes

INDIA STONES - Fast cutting aluminum oxide stone. **Medium** is perfect for fast production cleanup of the manufacturing burrs found in almost all new guns. A few quick strokes in the jig results in a much smoother trigger pull. Lubricate with stoning/honing oil. **Fine** is a good combination of speed and smoothness of cut to put a finer finish on parts for slicker, smoother trigger pulls. A favorite of many armorers. Lubricate with stoning/honing oil. Aluminum oxide.

#657-246-146DF MF-46 India Stone 7E00ZAY \$ 14.99

#657-246-246DF FF-46 India Stone 7E14P62 \$ 24.99

HARD ARKANSAS STONES - The standard of the industry. Premium grade, white, hard Arkansas stone gives precise metal removal and is the final step in match trigger jobs. Puts on that final surface polish that brings the pull to its ultimate. Soak well with stoning/honing oil for longest life, most consistent results.

#657-300-650DF Hard Arkansas Stone 7E00TPU . . . \$ 57.89

BROWNELLS 1911 AUTO TRIGGER TRACK STONE

Polish The Channel To Reduce Trigger Pull Of 1911 Autos

Precision ground to fit inside the trigger bow frame ways; polishes out the manufacturing burrs and rough edges that interfere with trigger movement. Made of premium ceramic for fast cutting action that quickly imparts a very smooth surface. Easy cleanup with soap and water. Truly essential to achieving a light, crisp, trigger. 

SPECS: Medium grit, gray ceramic. .230" (5.8mm) square, 5" (12.7mm) long.

#080-721-230DF Trigger Track Stone 8K12V18 \$ 15.99

BROWNELLS 1911 AUTO HAMMER SLOT STONE

The Right-Sized Stone For Semi-Auto Pistol & Revolver Work

Precision-cast, ceramic stone is an exact fit for smoothing the inside surface between the frame tangs on a 1911 Auto. That gives smooth hammer movement and a lighter trigger pull. We had it specially made for that one job, then, as we used it, we found that it works great for many others. It also fits the hammer slots on all Ruger "P" Series Pistols, all Ruger Revolvers plus all S&W K, L, & N frame revolvers. We didn't plan on such a versatile stone, but we're delighted it turned out that way. 

SPECS: Ceramic, brown, .302" (7.6mm) sq., 5" (12cm) long.

#080-625-002DF Hammer Slot Stone 8K09D93 \$ 13.99

BROWNELLS/YAVAPAI 1911 AUTO SEARTOOL

Adjustable For Angle Of Cut; Lets You Examine Actual Hammer & Sear Engagement At 25X!

Precision-machined tool incorporates a roller-type, sear stoning fixture that allows incremental cutting of both primary and secondary sear angles plus, a 25 power magnifier for detailed, up-close examination and precise changes in individual hammer/sear engagement. 

SPECS: Aluminum block, 3" (7.6cm) x 1.5" (3.8cm) x 3/4" (1.9cm). Includes 25X magnifier, steel roller, hammer pin, sear pin and complete instructions.

#080-835-001DF Brownells/Yavapai Sear Tool, 8K89A66 \$ 135.95

ED BROWN 1911 SEAR JIG

Sets Critical Sear Angle For 1911 Trigger Jobs

Contoured design fits comfortably in the palm of your hand, holds sear at the correct angle for precise stoning. Adjustable positioning screw lets you make exact sear angle changes to increase or decrease trigger pull weight. Use with 6"x1/2"x1/2" stones to achieve a mirror smooth finish for a clean, crisp letoff. Includes complete instructions and .020" shim. 

SPECS: Stainless steel. 1" (2.5cm) wide, 4 7/16" (11.1cm) long.

#087-000-011DF Brown Sear Jig 7H31X88 \$ 39.85

MARVEL 1911 AUTO SEAR JIG

Locates Sear Precisely, Guides Stone Accurately

CNC-machined, aluminum sear jig with stainless steel roller is preset to cut the primary and relief angles. Steel post corresponds with sear hole; side clamp holds the sear in place. Change angles by releasing the clamp and pressing down on the sear. Steel thread inserts in the drilled screw holes prevent wear. 

SPECS: Aluminum jig body and sear vise, natural finish. Steel roller. 3 3/8" (8.5cm) L x 1 3/4" (4.4cm) H x 1" (2.5cm) W.

#583-000-001DF 1911 Auto Sear Jig 3H00CHD \$ 48.95

BROWNELLS 1911 AUTO SEAR STONING FIXTURE

Helps You Adjust Primary Sear Angle

Easy-to-use tool retains the sear and positions it so you can stone the contact surfaces at the correct angles to produce a smooth, clean-breaking trigger. Helps you produce precise, mirror-finish surfaces for complete, full-width contact with the hammer to ensure reliable 

MARVEL PRECISION ULTIMATE 1911 SEAR JIG

Roller-Guided Stoning For Precise Sear Engagement Cuts

Aluminum jig uses two rollers to guide your stone evenly over the sear to let you get the exact angle for a crisp, clean trigger pull. Three modes allow you to pre-set, mate, and set up for secondary stoning to ensure that the hammer-sear engagement is precisely set. An adjustable angle mode is also available for experimenting with different angles. Brass rollers prevent over-stoning the sear and an adjustable insert and knob work with the sear block to lock the sear in place to prevent movement.

SPECS: Aluminum block, brass rollers. Includes instructions.

POWER CUSTOM SERIES II STONING FIXTURE

Precise, Controlled Stoning Of 1911 Auto Hammer For Perfect Trigger Pull

Eliminates the guesswork and gives an accurate, repeatable method to achieve a crisp, clean-breaking trigger pull on semi-automatic firearms. Individual, easy-to-change 

Adapter attaches to a precision-ground indexing elevator column and clamps the hammer in the right position for correct stoning with the specially ground **Series II India Stone** or **Series II Hard Arkansas Stone**. Adjustable design lets you change hammer angle to meet the shooters' precise needs. **Series II India Stone** or **Series II Hard Arkansas Stone** required for use. Purchase separately; listed below. Universal Adapter fits 1911 Auto, plus High Standard rimfires, S&W 3rd. Gen., Browning HP, SIG 226 series, Ruger single and double Actions, Ruger 10/22, Beretta, and many others. 

SPECS: Steel, blued, precision ground and hardened. 5" (12.7cm) 4" (10cm) high, 3" (7.6cm) wide. **Fixture** includes **Adapter**, hammer and sear clamp, three Allen wrenches and instructions.

TRIANGLE STONE HOLDER - Lets you use a common 4" x 1/2" triangular India stone in the Series II stoning fixture. Completely supports stone along its entire length to help prevent breakage and extend stone life. When the edge becomes dull, simply loosen the fixture and rotate the stone to present a new edge. Use as a hand-held tool for any stoning application where a flat, sharp edge is required. Rigid housing of 6061 T6 aluminum with a clamp pad and spacer of tough polyethylene securely grasp the stone and prevent slippage. Stainless steel bolts maintain proper tension while ensuring easy disassembly and adjustment. 

SPECS: 6061 T6 aluminum, anodized, matte black, and polyethylene. 4" (10.2cm) long, 1 1/4" (3.2cm) wide, 1" (2.5cm) high. Includes (1) triangular 4" x 1/2" fine grit India stone.

#713-000-082DF Triangle Stone Holder, 3A54T95 \$ 69.95

ignition while preserving proper operation of the thumb safety. Raising or lowering the fixture's setscrew lets you change sear angle. Fixture is machined from solid carbon steel for years of service without loss of alignment. Hardened, .020" thick, stainless steel shim prevents you from removing too much material from the sear, and protects the fixture body from wear. 

SPECS: Steel, black oxide finish. 3 1/4" (8.3cm) long, 3/4" (1.9cm) wide. Includes .020" thick stainless steel shim and instructions.

#080-000-579DF Sear Fixture 8K24B99 \$ 34.99

POWER CUSTOM SERIES I STONING FIXTURE

Ultimate For Hammer & Sear Work; Accurate, Repeatable Setup

Save time and money by providing repeatable setup, accurate and, measurable adjustments for 1911 trigger jobs. To use, mount hammer or trigger/sear on adapter, set and lock at correct index mark as instructed. Set stoning angle by counting "clicks" specified to raise or lower elevator and stoning guide. Lock guide, place stone on both roller and hammer or trigger/sear, and stone as normal. Easily adjustable to allow variations in stoning angle for exact, desired trigger pull weight. Same tool Ron Power uses in his own shop. Complete with one adapter and very detailed instructions written by Ron. You will also need a #10 Machinist's Clamp and 6"x½"x½" stones. 

SPECS: 5⅞" (14.1cm) long x 2⅞" (6.5cm) wide x 3" (7.6cm) high. ¾" (19mm) thick base. 5¼ lb. (2.6 kg) Blued steel. Includes roller guide and one adapter in the price.

BROWNELLS HAMMER/SEAR PIN BLOCK

Allows Visual
Inspection Of Hammer
& Sear Engagement

Machined steel block allows you to mate the hammer and sear (or trigger) outside of the firearm for a clear, unobstructed view of the critical point of engagement. Accepts a wide selection of hammer and sear pins sized for various handguns and rifles. Dovetailed adjustment block rides in slotted channel so pin spacing can be precisely set to match individual frames and receivers. Allen screw locks the pin setting so hammer and sear can be dropped in place relative to their actual position in the firearm. Great for cutting the engagement surfaces on new parts or fine-tuning the factory ones. Pins are individually numbered for proper identification. 

SPECS: Block - Steel, blued. Pins - Stainless steel. 2½" (6.4cm) long, 1⅞" (1.7cm) wide. Block and pins sold separately.

BROWNELLS TRIGGER, HAMMER & SEAR KIT FOR 1911 AUTOS

Indispensable Tools To Help You Produce
A Match Quality Trigger Job

A smooth, clean breaking trigger is one of the most important steps in fine tuning the 1911 Auto. We've brought together a complete selection of professional quality jigs, stones, files and more; plus, we've included clear, easy-to-understand instructions to help you produce that clean-as-glass trigger break and light, smooth-as-silk pull your customers want. This kit will help you modify most triggers, hammers and sears made for the Colt 1911A1, its many models and copies, including both the traditional single-stack and the popular double-stack variations. Complete kit includes each of the items listed below. 

#080-785-000DF 1911 Auto Trigger/Hammer/Sear Kit, 8K230Y22 \$ 306.99

① **BOB MARVEL SEAR & HAMMER JIG** - Three-piece combination jig/vise guides stone over hammer and sear. Makes both primary and secondary sear cuts simple.

BROWNELLS 1911 AUTO FRONT SIGHT STAKER

Makes Sight Staking Easier

Makes front sight staking effortless, faster and far more accurate. Improved, offset punch design efficiently directs the full force of the hammer blow downward against the sight tenon. Hardened, "V"-shaped tip easily displaces both wide and narrow tenons for a great-looking, tight-fitting front sight that won't shoot loose. Large, square shaft is easier to hold, see and hit so there's less chance of a missed hammer blow striking your customer's expensive slide. 

SPECS: Steel, blued. ⅞" (79mm) x ½" (12.7mm) x 4½" (11.4cm) long shaft. Replaceable, hardened steel tip. Fits 1911 Auto. Includes complete instructions.

#080-817-000DF Front Sight Staker 8K35T79 \$ 46.99
#080-870-213DF Replacement Tip 8K10Y17 13.85

BROWNELLS 1911 AUTO NIGHT SIGHT MOUNTING FIXTURE

Helps Prevent Tritium Vial Breakage;
Accepts All 1911 Stake-On Sights

Heavy, solid steel fixture securely holds the slide and the night sight in the proper, damage-free position for fast and easy staking. Simply prepare the slide to accept the night sight, clamp the slide and sight in the fixture, then clamp the fixture in your bench vise. The night sight is now ready to stake using your Brownells 1911 Front Sight Staking Tool. Can be used with both Government and Commander length slides, and all 1911 stake-on sights. 
SPECS: Steel, blue. 5½" (14 cm) long, 1" (2.5cm) wide handle, ¼" (19mm) thick. Includes instructions, clamping plate and screw.
#080-000-454DF Night Sight Mounting Fixture, 9B33A45 \$ 46.85

TRIJICON® 1911 AUTO SIGHT STAKING TOOL

Ensures Sight Is Professionally
Mounted & Securely Staked

Install 1911 Auto, tenon sights so they won't fly off or shoot loose -- without damaging the sight or marking the slide. Solid steel mandrel fits into front of the slide; fixture adjusts to hold sight in place. Tap the hardened steel wedges with a hammer to displace the tenon material for a secure, professional installation that won't shoot loose. Use to install all narrow and wide tenon, skirted front sights, including Trijicon and Millett, plus non-skirted front sights no less than .185" in height. 
SPECS: Tool - Steel blue. Wedges - Tool steel, hardened. Kit includes tool, wide and narrow tenon wedges, cleanup shear and complete instructions. Fits all 1911 Autos except Officers ACP.
#892-101-103DF Sight Staking Tool 2H279A99 \$ 284.99

MGW SEMI-AUTO SIGHT MOVER

Removes, Installs & Adjusts
1911 Auto Pistol Rear Sights
Without Damage

Safely engages the standard, factory, fixed sight (some after-market fixed sights, too) and moves it right or left without deforming slide or sight. Knurled thumbscrew securely locks the sight tool into the slide recesses. 

Hardened steel handle provides plenty of leverage to break rear sights loose from even the tightest dovetail. Bronze oilite bearings and extra-fine threads for smooth, precise adjustment. **SPECS:** Anodized, aluminum body, steel, cross carriage bolt fits factory sights. **Colt** model: approximately 4¾" (12cm) wide, 3" (7.6cm) high, ¾" (19mm) thick.

BROWNELLS SIGHT BASE CUTTERS

CUSTOM MADE DOVETAIL END MILLS IN BOTH PREMIUM CARBIDE AND HIGH SPEED STEEL

LOW MOUNT 1911 AUTO SIGHT BASE CUTTER

65° Shoulder x .495"

These cutters are specially designed by us and made to our specifications for cutting the sight base slot required to mount the **Wichita** and **Novak Lo-Mount** 1911 Auto sights. Use ¼" carbide end mill to remove the bulk of the material (see drawing above) then make final dovetail cut. Final cut to lower rear of slide is done with an end mill and is not a part of the sight base cut. Made slightly undersized to compensate for variations in sight bases and milling tolerances on installation. With the popularity of custom 1911 Auto pistols, this cutter is one that you will use frequently in your custom work. **CAUTION: For use in milling machine only.**

HSS DOVETAIL SIGHT BASE CUTTER - 2" (5cm). .495" diameter cut. ½" (12.7mm) diameter shank. 65° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAKTEETH.**

#080-621-495DF HSS Lo-Mount Sight Base Cutter,
8K38H53 \$ 52.38

CARBIDE DOVETAIL SIGHT BASE CUTTER - Much harder and longer-lasting than HSS cutter. Use on hardened Colt factory slides. Solid carbide, 2" (5cm) long. .495" diameter cut. ½" (12.7mm) diameter shank. 65° shoulder.

XS SIGHT SYSTEMS DOVETAIL MEASURING TOOL

Determines Sight & Dovetail Width

Takes the guesswork out of determining how wide to mill the dovetail cut. Lets you make fast, finished cuts within .0005". Measures sights and dovetails.

SPECS: Aluminum base, matte black finish. Steel pins. Base 2" (5.8cm) x 2" (5.8cm) x 1.1" (2.8cm). Includes charts, instructions.

#006-101-000DF Dovetail Measuring Tool,
6K00PUA \$ 50.00

SEMI-AUTO PISTOL SIGHT BASE CUTTER

60° & 65° Shoulder x .330"

Our special 65° shoulder Sight Base Cutter designed to cut dovetails for both standard Colt factory and mil-spec 1911 Autos, and for replacement sights like Wichita Hi-Mount, older Bo-Mar and others with a 65° shoulder. Some makers use a 60° dovetail on their rear sights and we also have a cutter to match them. For low-mount adjustable sights use the **Standard Sight Base Cutter** shown on this page. Actual cutting diameter is .330" so more than one pass will be required to install most sights. This is done on purpose to allow for factory variations in base width as well as milling tolerances. **CAUTION: For use in milling machine only.**

HSS SEMI-AUTO PISTOL SIGHT BASE CUTTER - High speed steel, 2" (5cm) long, ¾" (9.5mm) diameter shank. 60° or 65° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

CARBIDE SEMI-AUTO PISTOL SIGHT BASE CUTTER - Solid carbide cutter resists wear when cutting pistols made from hardened steel. 2" (5cm) long, ¾" (9.5mm) diameter shank. 60° or 65° shoulder.

#080-621-066DF 60° Carbide Semi-Auto Sight Base Cutter,
7A60C15 \$ 85.99

#080-621-065DF 65° Carbide Semi-Auto Sight Base Cutter,
7A57C93 80.99

FRONT SIGHT INSERT CUTTER

60° Shoulder x .245"

We've had many requests for a small dovetail cutter that would speed up the cutting of dovetails in front sight blades when installing colored inserts. The one we've had made cuts a ¼" wide dovetail, just right for sight inserts, and the finished product is very precise. Since the cutter is small, (it tapers to a diameter of .110"), you must make an initial cut with a ½" end mill (listed below). By using the end mill to remove some metal first, you'll avoid overloading the cutter and breaking it. **CAUTION: For use in milling machine only.**

HSS FRONT SIGHT INSERT CUTTER - High speed steel. 2½" (5.1cm) long. ¼" (6.3cm) diameter shank. Maximum cut depth is .100" (2.5mm) 60° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAK TEETH.**

#080-621-245DF HSS Front Sight Insert Cutter,
8K22C02 \$ 29.95

CARBIDE SIGHT INSERT CUTTER - Solid carbide 2" (5cm) long. ¼" (6.3cm) diameter shank. 60° shoulder.

#080-621-246DF Carbide Sight Insert Cutter,
7A42C07 \$ 59.99

HEINIE REAR SIGHT CUTTER

65° Shoulder x .370"

Cuts the .370 x 65° dovetail required when fitting Heinie rear sights. Solid carbide cuts the hardest slides with minimal wear.

#080-621-371DF Carbide Heinie Rear Sight Cutter,
7A45H83 \$ 60.99

STANDARD SIGHT BASE CUTTER

60° Shoulder x .359"

Universal Sight Base Cutter made for sights with 60° shoulder and a ¾" base. Cuts most standard front and rear rifle sights as well as 1911 Auto low-mount, adjustable sights like E.E.A. Super Sights, Millett and Bo-Mar-style. Cutter is slightly undersized at .359" which requires that you make two cutting passes to compensate for factory variations in sight manufacture and milling tolerances. Designed with proper relief for maximum strength and clean cutting. **CAUTION: For use in milling machine only.**

HIGH SPEED STEEL STANDARD SIGHT BASE CUTTER - 2" (5cm) long. ¾" (9.5mm) diameter shank. 60° shoulder. **DO NOT EXCEED 700 rpm, HIGHER SPEED WILL BREAKTEETH.**

#080-621-359DF HSS Standard Sight Base Cutter,
8K25H23 \$ 34.17

JERRY KUHNHAUSEN THE COLT .45 AUTOMATIC A SHOP MANUAL

200 pages. 6" x 9". Softbound. Covers the popular 1911 including the Series 80. All the step-by-steps, plus a full section on popular accurizing tricks and how to do them. Includes the only really detailed instructions on fitting barrel and link that we've seen in print. With the popularity of the .45 still growing, this book will pay for itself many times over. 

#924-200-045DF .45 Auto Manual, Volume I, 4B00HDZ \$ 27.95

JERRY KUHNHAUSEN THE U.S. M1911/M1911A1 PISTOLS

& Commercial M1911 Type Pistols A SHOP MANUAL

Volume II In The Series; Covers
Repair, Rebuilding & Customizing;
Even More Detailed Than Volume I

207 pages. 6" x 9". Softbound. Filled with incredibly crisp, clear, cutaway drawings, exploded views, how-to pictographs, and photos; complimented by very readable, detailed text, dimensioned close ups of all the components and valuable tricks of the trade. If you want to understand the 1911, how it functions, what causes it to malfunction and how to fix it, you must have this book. Includes what are probably the best set of instructions for fitting a custom barrel available to date. Illustrates how to fit parts to the proper dimensions and install them correctly - a must whether you're building duty guns, casual plinkers, or match winners. Even the index is well laid out and useful. An excellent reference work and practical how-to manual.

STI 1911 AUTO 2011 TACTICAL RAIL FRAME

Integral Mount
For Tactical Light

Double stack frame can be fashioned into your customer's dream pistol. Modular grip frame is made from fiber-filled, nylon composite that's married to a CNC machined, 4140 steel upper, for the very best combination of durability, precision fit and light weight. Features include a tactical rail milled into the extra-long dust cover that accepts all industry standard light mounts, 20 lpi checkering on the front strap and triggerguard; pre-contoured to accept high-ride beavertails and aftermarket grip safeties with .250" radius; integral magazine well; and oversized rails. Ready for gunsmith fitting. Long/wide dust cover is approximately the same width and length as a Govt. length slide for increased weight up front. Accepts Nowlin/Wilson-style ramped barrels. *SPECS: Grip Frame - Fiber-filled polymer composite, black. Upper Frame - 4140 steel, in-the-white, matte finish. Kit includes checkered, nylon mainspring housing and pin; titanium/composite trigger (long) and blued mag catch (complete). Frames accept most 1911 Auto slide/barrel assemblies. FFL required for purchase.*

#791-000-075DF Tactical Rail Frame 1F519P49 . . . \$ 599.95

STI 1911 AUTO SINGLE STACK RECEIVERS

Precise
Dimensions For A
Match-Grade Fit

Single-stack receiver gives the high quality of STI's 2011 competition frames in a traditional, all-metal package. Machined from 4140 carbon steel, then heat-treated to Rc 28-32. Bead blasted to

produce a smooth, non-reflective surface ready for the finish of your choice. Rails are cut slightly oversized, ready for honing to a tight slide-to-frame fit. Holes for all pins and controls are precisely located, with a .250" tang radius to accommodate a beavertail grip safety. **Forged** model is precision machined from a top-quality forging and has a straight, rounded triggerguard, a standard ramp, and plain, unchecked frontstrap. **Master** model is machined from a high-grade investment casting and features a squared, undercut triggerguard, a cut to accept a barrel with Wilson/Nowlin feedramp, and a squared-off dustcover that extends the full length of a 5" slide for extra weight up front.

SPECS: 4140 carbon steel, in-the-white. Hardened to Rc 28-32. FFL required for purchase.

#791-000-079DF Forged Receiver, Plain 1F235P10 \$ 294.99

#791-000-081DF Master Receiver, Check'd 1F225U10 284.99

STI 1911 AUTO 2011 MODULAR ALUMINUM GRIP

Gives That All-Metal "Feel"

Provides a drop-in fit on all STI 2011 modular frames. Precision-machined from a single block of aero-space grade aluminum, then blasted matte, and left un-anodized for custom checkering, painting, or grip tape. Offers a slight weight increase over composite grips for improved recoil control; gives that "feel" of an all-metal gun. **Basic (B)** size offers approximately the same grip circumference as the traditional composite grip; **Slim (S)** size is milled down to provide the slim-mest contour possible. Mainspring housing not included. Both models accept add-on magazine wells for STI/Infinity.

SPECS: High grade aluminum alloy, unfinished in-the-white. Size B - 4.6 oz. (130.4g) wt. Size S - 3.6 oz. (102.1g) wt.

WILSON COMBAT 1911 AUTO CHECKERED RECEIVER

Precision
Machined
From Forgings

The same receiver that Wilson's legendary full-size custom 1911s are built on, with popular performance features that combat and competition shooters want. Precision machined from hardened steel forgings to ensure maximum strength and precise dimensions, including slide rails that allow a slide-to-frame fit as tight as .004" or less. Custom features include deep-cut, 30 lpi checkering on the frontstrap for a superb, non-slip grip and outstanding recoil control; deeply undercut triggerguard for a hand position high up on the receiver that also promotes fast recovery between shots; integral feed ramp; and a beveled mag well for fast magazine changes under stress. Pre-cut to accept a Wilson extended beavertail grip safety, available separately. Requires Wilson Heavy Duty Extended Ejector, also available separately. Available in high-grade carbon steel, ready for the tactical finish of your choice, or naturally corrosion-resistant stainless steel.

SPECS: 4140 carbon steel, in-the-white, or stainless steel, natural finish. **FFL required for purchase.**

EMC 1911 AUTO "200 PIN" SLIDE STOP

Machined To Maximum
Dimensions For Tight Lockup

Hardened stainless steel slide stop features a perfectly round, machined pin with .200" ± .0005 outside diameter to ensure tight barrel-to-slide lockup for improved accuracy. Square-cut checkering on top of the thumb pad provides a unique custom look and helps provide positive contact for "no-slip" disengagement. Underside of pad is finished smooth with and upswept contour to prevent snagging during presentation or re-holstering. Polished surface finish requires little to no work to match the finish of your gun's stainless steel frame.

SPECS: Stainless steel, polished finish. OAL = 1½" (3.3cm). Thumb Pad = ½" (12.7mm) long x ⅜" (3.2mm) wide. Fits single stack and high capacity .45 ACP.

#100-004-487DF "200 Pin" Slide Stop, Stainless, 7A17V50. \$ 21.99

EGW 1911 AUTO HEAVY DUTY EXTRACTOR

Updated Design For Reliable Extraction & Long Service Life

Redesigned, ruggedly built .38 Super/9mm extractor uses the tightest tolerances and improved geometry possible with 21st century materials and manufacturing technology to deliver outstanding reliability, strength, and durability. Proprietary steel alloy is precision machined with the latest CNC equipment, then vacuum heat-treated to Rc 49-51 for superb strength and tension-retaining properties. All inside corners are radiused to eliminate the sharp 90° corners where failures often occur. Claw is wider than factory specification and undercut and positioned closer to the bolt face for a tighter grip on the case rim. Body is longer, so it can be custom fitted to your slide, and nearly three times as thick as factory original for greater strength.

SPECS: Steel, heat-treated, blued. Fits .38 Super/9mm Series 70 1911 Auto pistols.

#296-000-133DF 1911 Auto HD Extractor, .38 Super/9mm, 6B32P00. \$ 39.99

NEW

EGW 1911 AUTO HEAVY DUTY EJECTOR

Extra Metal For Custom Fit, Reliable
Ejection & Long Service Life

Oversized ejector is precision machined from solid carbon steel barstock, with plenty of extra metal for exceptional strength and precise fitting. Extra width and extra-long posts mean this ejector won't budge under the pounding of thousands of rounds in hard competition and tactical operations. Longer at the front and rear, just like EGW's standard extended ejectors, to allow precise, custom-fitting to your gun to achieve the precise ejection angle and eliminate ejection-related failures. Gunsmith fitting required.

SPECS: Steel, heat-treated, blued. Fits .45 ACP 1911 Auto pistols, standard and high-capacity frames.

#296-000-134DF Heavy Duty Ejector, .45 ACP, 6B19P20. \$ 23.99

NEW

EGW 1911 AUTO HEAVY DUTY THUMB SAFETY

Oversized Thumb Pad For Fast,
Positive Contact

Extended thumb safety is precision machined from solid steel barstock using a state-of-the-art, four-axis CNC cutting station to ensure outstanding strength and durability. The deeply grooved, oversized pad is ergonomically shaped to ensure natural, comfortable thumb contact and provide maximum leverage for quick, positive safety engagement and disengagement under stressful conditions. Edges are beveled or rounded to prevent abrading of the finger or snagging on clothing during the draw from concealment.

SPECS: Carbon steel, blued, or stainless steel, natural silver, matte finish. Contact pad 1" (2.5cm) long, ¼" (6.4mm) wide. Gunsmith fitting may be required.

BLUE FORCE GEAR 1911 AUTO VICKERS IGNITION COMPONENTS

Provides
Ultra-Smooth
Trigger Pull &
Crisp Letoff

Delivers an ultra-smooth trigger pull and a crisp, clean letoff without sacrificing reliability. Larry Vickers, noted American Pistolsmiths Guild member and retired 20-year veteran of the U.S. Army Special Forces, designed each component with improved geometry to provide a precise, reliable trigger job with minimal fitting. All parts are wire-EDM cut to exacting tolerances from hardened tool steel, with hand-polished sear engagement hooks, precision-milled pin holes, beveled no-sag edges, and a mirror polished surface for ultra-smooth operation. Available as complete kits with either classic Commander-type ring hammer or slotted style with a large, elongated relief hole, plus Larry's Tactical Sear and Disconnecter. Hammers, sear, and disconnecter also available separately.

SPECS: Hardened tool steel, in-the-white. Some fitting required. Gunsmith installation recommended.

EMC 1911 AUTO HAMMERS

Precision-Machined,
Hardened Steel For
Durability; Gives Pistol A
Distinctive Look

Distinctive-looking, U.S.-made hammers are precision-machined from solid steel to ensure this critical ignition component is as reliable as it is attractive. Available in blued, high-carbon tool steel or stainless, both heat-treated to Rc 46-52 for exceptional strength and wear-resistance. Deep, crisply cut serrations on the thumb pad ensure a secure, non-slip purchase during cocking. Available in stainless or two-tone blued tool steel with sides left in-the-white. **Web** model provides much of the weight-reduction and reduced lock time of a skeletonized hammer, with a checkered, reinforcing web that adds extra rigidity and gives your pistol a unique appearance. **Ring** model is a well-executed copy of the original Colt Commander hammer, machined from high-grade stainless steel. **Wide Spur** model is machined to dimensions close to original National Bureau of Standards specifications and gives your pistol the look of an early production military 1911. Top of spur is checkered for a positive grip and sides are tapered for proper clearance.

SPECS: High-carbon tool steel, blued, or stainless steel, natural finish. Gunsmith installation recommended. **Wide Spur** - Pad: ⅜" (9.5mm) wide x ¾" (19mm) long.

HARRISON DESIGN & CONSULTING 1911 AUTO HARD USE IGNITION SET

Hardened Tool Steel
Components For Durability,
Reliability & Precise Fit

Critical ignition parts are machined from high-grade tool steel for precise fit and reliable, consistent function under the most demanding operating conditions. Each component is wire-EDM cut, CNC machined and honed to final dimensions with +/- .005" tolerances for drop-in fit on many 1911s, then heat-treated to Rc 53-56 to maintain those dimensions through thousands of firing cycles. Hammer hooks are pre-prepped and sear nose polished for precise contact and crisp, clean letoff. Commander-style hammer has elongated spur with deep serrations to provide extra-secure thumb purchase. Beveled edges resist snagging on clothing and protect the thumb from abrasion, and slightly narrower hammer body prevents unwanted slide contact.

SPECS: Hardened tool steel, in-the-white. Hardened to Rc 53-56. Some fitting may be required.

#100-004-374DF Hard Use Ignition Set 9B112X33. \$ 139.99

NEW

EGW 1911 AUTO OVERSIZED FIRING PIN STOP

Helps Prevent Extractor Rotation
For Improved Extraction

Machined stainless steel firing pin stop is wider and thicker than standard, so you can gunsmith it for a tight fit that keeps the extractor face square to the case rim for improved extraction and feeding. Bottom edge is left square, ready for final fitting to help slow slide opening and increase dwell-time with major power factor ammunition. Heat-treated to Rc 48, with radiused corners that resist cracking, for a long service life. **Series 70** is sized specifically to give a no-gap fit on .45 ACP Colt Series 70 pistols and clones. **Series 80** fits 9mm/.38 Super/.40 S&W/.45 ACP Colt Series 80 pistols and clones.

SPECS: Stainless steel, natural finish. .48" (12mm) wide, .65" (16.6mm) high, .133" (3.3mm) thick. Gunsmith fitting required.

NEW

EMC 1911 AUTO MAINSRING HOUSING

Flat Contour With Vertical Grooves
For Ease Of Concealed Carry

Simple and effective mainspring housing design benefits both the competition shooter, as well as those who carry a Government or Commander model for personal protection. Features a flat, low-profile contour to help minimize "printing," while maintaining the extra-secure "feel" you get when the frame sets lower in your grip. Deep, smooth, vertical grooves help reduce lint collection during daily carry, plus won't catch on clothing and slow down your draw. Cleanly machined inner surfaces ensure free movement of the mainspring and plunger (not included). Available in matte blue or natural stainless steel. Gunsmith installation recommended.

SPECS: Steel, blue, matte finish, or natural stainless steel (**SS**), matte finish. Fits Govt./Commander 1911 Auto.

NEW EGW 1911 AUTO HEAVY DUTY MAGAZINE CATCH

Extended Button
& Tweaked
Geometry For
Extra-Secure
Mag Retention

Tactical magazine catch aids in fast mag changes and secure retention to help reduce feed-related failures caused by a loose magazine. The finely checkered, extended button is .040" higher than the original 1911A1 factory button to ensure fast positive magazine release on the first try. Redesigned geometry ensures this catch will fit standard frame holes, while it retains loose-fitting magazines higher in the magwell than the original catch for more reliable feeding, especially with extended-capacity magazines and hollow points. Precision machined on a state-of-the-art, four-axis CNC cutting station from high-grade steel barstock to ensure exact dimensions and superb strength. Available with a satin blued finish or hard-chromed for extra corrosion resistance and lubricity.

SPECS: Carbon steel, blued or hard-chromed finish. Includes Magazine catch only, no lock or spring.

#296-000-127DF HD Mag Catch, Blued 6B26T00 . . . \$ 34.95

NEW WILSON COMBAT 1911 AUTO 10mm/.40 S&W MAGAZINE

Self-Lubricating, Synthetic Follower Improves
Feeding; Protective Polymer Base Pad

Single-stack, 9-round magazine is made from heat-treated 17-7 stainless steel to stand up to the demands of competitive and defensive shooting. Precision-formed body is built to very close tolerances for excellent, universal fit. Exclusive, molded, self-lubricating follower ensures reliable feeding and slide stop operation. Extra-power Wolffspring resists "spring set." Removable base pad, spring, and follower allow fast, easy cleaning.

SPECS: 17-7 SS, bright finish, with black polymer follower and base pad. Fits single-stack 1911 Auto chambered in .40 S&W or 10mm. Capacity: 9-rnds.

NEW HALPERNTITANIUM 1911 AUTO ULTRA-SLIM TITANIUM GRIPS

Machined From The
"Space Age Metal" For Highest
Strength-To-Weight Ratio, Superior
Corrosion Resistance & An Extra
Thin Profile

Ultra-slim grip panels of light-weight Titanium are precision CNC machined for a perfect fit and truly custom appearance on any full-size Colt 1911 or clone. Extra low density Ti trims unnecessary weight while maintaining steel-like strength. Corrosion-resistant – even in salt water – to maintain the original, stunning good looks day-after-day with little to no maintenance. Unique texturing pattern gives an aggressive gripping surface that "sticks" to your hand for positive control under heavy recoil. Smooth, radiused edges produce a clean transition from grip-to-frame for added comfort. Countersunk holes provide a flush-fit for the included hex head grip screws. Available with natural silver, beat-blasted finish or heat-anodized to produce a brilliant multi-color scheme of purple, blue, and copper hues.

SPECS: Titanium, natural silver, bead-blasted finish or multi-color heat-anodized finish. .101" (2.5mm) thick. 2.3 oz. (65g) wt. Fits 1911 Auto Government and Commander.

NEW CRIMSONTRACE 1911 AUTO PRO-CUSTOM BURLWOOD LASER GRIPS

Provides The Tactical Advantages
Of An Integral Laser With
The Look Of Traditional Wood Grips

Now you can get the best of both worlds – an ultra light, built-in, cutting-edge laser, plus the good-looks of traditional wood grips. Pro-Custom grips utilize a small but powerful, Class IIIa laser to output 5 milliwatts at a wavelength of 633 nanometers for superior brightness, even in broad daylight. Tough, molded polymer grip panels feature a classic double diamond checkering pattern for a sure grip in all defensive situations, plus a simulated burlwood finish that gives your pistol a truly elegant appearance without the fragileness of natural wood. Overmolded, front-activated pressure pad is positioned on the front strap just underneath the triggerguard when the grips are installed. A squeeze of your shooting hand instantly projects a bright red aiming dot on your target. The manually activated on/off switch on the left side grip panel helps prevent dead batteries and accidental laser activation. Models available for **Govt./Comm.** and **Off./Compact**. Installation requires shortening of the right side thumb safety lever on guns equipped with ambidextrous safeties.

SPECS: Injection molded polymer & rubber, burlwood finish. Includes (2) #2032 lithium batteries. **Govt./Comm.** – Fits most Government and Commander models with 3 1/16" (78cm) c-to-c grip screw hole spacing. **Off./Compact** – Fits most Officers and Compact models with 2 1/16" (6.8cm) c-to-c grip screw hole spacing. Pistols equipped with ambidextrous safeties require shortening of right side thumb safety lever.

NEW HOGUE 1911 AUTO EXTREME SERIES MAGRIP KIT

Integral Magwell Ensures
Fast, Fumble-Free Reloads
Without Adding Bulk Or
Extra Weight

Three-piece kit, machined from aerospace grade aluminum, installs without fitting to form an integrated magwell with no added bulk and minimal weight increase.

Bottom of each grip panel features an integral 7/32" extension that tapers up and inward at the frame's magazine well opening; a specially cut, custom mainspring housing completes the contours to form an integrated magwell. Sharp, precision-cut checkering on the grips and housing provide a positive gripping surface. Eliminates the bulk and excessive weight of oversized magazine wells used in competition, yet enlarges the surrounding magazine well opening enough to speed magazine changes in high-stress situations. An extremely low profile makes this system especially adaptable to carry guns. Models for Government/Commander and Officers frames, available with **Flat** or **Arched** mainspring housing.

SPECS: High-grade aluminum alloy, black, matte finish. Grips – 1/4" (6.4mm) thick. Weight (Grips & Housing) - 3 oz. (85g). Includes (2) grip panels with mainspring housing. Fits 1911 Auto Government and Commander.

NEW HARRISON DESIGN 1911 AUTO HARD USE TRIGGER

Delivers A Precise,
Comfortable Trigger Pull,
Plus Strength & Reliability

High-performance trigger is built for shooters who run their guns hard, yet want a precise, smooth, consistent trigger pull. Solid aluminum shoe gives a comfortable, natural finger position to help prevent uneven pressure that can compromise accuracy. Smooth, curved face with radiused edges doesn't have serrations or a screw hole to abrade the finger, while a protected, internal screw lets you adjust overtravel when you install the trigger. Choice of long or short shoe lets you set a comfortable length of pull that concentrates the pull force on the centerline of the trigger. Shoe is permanently staked to the non-flex bow of hardened stainless steel for extra strength and rigidity. Mirror-polished bow surface eliminates unwanted friction with the frame. Available in natural silver finish or wear-resistant, black IonBond DLC, an exceptionally hard coating used in a variety of high-stress industrial applications, including race car engines.

SPECS: Stainless steel bow, aluminum shoe, natural silver or black IonBond DLC finish. Shoe is .25" (6.4mm) wide. Length measured from middle of curve in shoe face to back of bow. **Short** – 2.1" (5.3cm) long; **Long** – 2.25" (5.7cm) long; **Springfield EMP** – Silver only, 1.95" (4.9cm) long.

NEW HARRISON DESIGN & CONSULTING 1911 AUTO LPA-CUT HARD USE REAR SIGHT

Provides A Heavy Duty,
Fixed Sight Alternative
For Pistols Equipped With
LPA-Cut Adjustable
Rear Sights

Rugged, fixed rear sight features a precision machined LPA dovetail cut for easy replacement on many duty and carry guns equipped with fragile adjustable sights. Extra-wide, .135" sight notch provides more light around the front blade to open up the sight picture for fast target acquisition. Radiused edges prevent holster snag to ensure a smooth, uninterrupted presentation. Precisely milled, 50 lpi horizontal serrations on the rear face help eliminate glare in bright light conditions. Allen head setscrew locks sight into slide dovetail for a rock-solid sight installation that won't shoot loose. Precision machined from steel bar stock to fit the LPA adjustable sight cut on Springfield Armory, Para-Ordnance and other pistols originally equipped with adjustable sights. Will not fit Springfield TRP Operator. Regulates with most factory installed front sights. Minor fitting may be required. Available in plain black or with horizontal tritium bar for low light use.

SPECS: Steel, black, matte finish. Sight Body - 1.4" (3.5cm) long, .690" (1.7cm) wide, .463" (1.2cm) high. Notch - .135" (3.3mm) wide x .115" (2.9mm) deep. Plain black or with .135" wide x .025" (0.6mm) thick horizontal tritium bar. Fits Springfield Armory, Para-Ordnance and others with 60° x .395" x .100" LPA adjustable sight cut. Does not fit Springfield Armory TRP Operator.

NEW HEINIE SPECIALTY TAURUS 1911 AUTO SLANTPRO® 3-D NIGHT SIGHT SET

No-Snag, Low-Profile With
Tritium Dots For Enhanced Visibility In Low Light

The ultimate marriage of quality and function, fixed combat sights with Trijicon® self-illuminating tritium inserts provide a fast, easy-to-acquire sight picture for your Taurus 1911 in all light conditions. 3-D system employs one tritium dot on the front sight, and two side-by-side dots on the rear sight for a traditional, three-dot horizontal sight picture. The rear dots are slightly smaller to help the shooter quickly identify the front sight dot and get the sights aligned on the target fast. Wedge shaped body has fully rounded edges and sets low in the slide for minimum profile and a smooth, snag-free draw for concealed carry and competition guns. Fine-line serrations on rear of blades eliminate glare for the best possible sight picture. Setscrew locks rear sight in the slide dovetail to prevent shifting under recoil. Some gunsmith fitting may be required.

SPECS: Steel, matte blue finish. Rear sight is .285" high above the slide, with .125" wide notch. Front sight is .180" high. Fits factory dovetails on Taurus 1911 Auto pistols. May require minor fitting.

#394-000-043DF Taurus 1911 Sight Set 4C117Z49 . \$ 145.99

NEW 10-8 PERFORMANCE 1911 AUTO U-NOTCH REAR SIGHTS

Rugged Construction For Daily Carry, Plus A Clear,
Easy-To-See Sight Picture

Fixed rear sights are precision machined from heat-hardened 4140 steel bar stock, so they withstand the wear and tear of daily carry, yet deliver a clear, precise sight picture. Perfect for concealed carry, duty, or combat pistols where a rugged, reliable rear sight is mission critical. Fully "dehorned," with rounded and chamfered edges to prevent snagging on holster, clothing, or other gear that could impede draw. Easy-to-acquire U-shaped notch and plain black blade with 40 lpi serrations on the rear face for a glare-free sight picture under almost any light conditions. A hard, manganese phosphate Parkerized finish that matches many tactical pistol finishes adds strength and surface wear resistance. A hidden setscrew helps anchor the sight in the slide dovetail for extra-secure mounting and resistance to shifting under recoil. Pronounced ledge on the front of rear blade aids in one-hand cocking. **Kimber** fits dovetail on fixed-sight Kimber pistols and comes with a matching .200" high front sight. **NM** – National Match style rear sight combines modern features with "retro" looks. Fits the dovetail of GI-pattern 1911 pistols, including current-production Colts—no milling required. Extra-thick blade is tall enough to work with Colt .175" high front sight or same-height aftermarket alternatives. Wide .140" notch aids in easy, fast acquisition of front sight for precise targeting.

SPECS: Steel, matte black finish. **Kimber** - Rear: .360" high, with .135" wide x .125" high notch. Fits Kimber fixed-sight pistols with forward-slanting factory rear sights. Fits the dovetail on pre-Series II and Warrior series pistols that came with rear-slanting sights, but will shoot high on guns with 5" barrels. Will not fit SIS series. Front: .125" wide x .200" high. **NM** - .325" high, with .140" wide x .125" high notch. Fits dovetail for GI-style rear sight, including recent-production Colt models.

KENSIGHT 1911 AUTO CLASSIC TARGET SIGHT

Wire EDM Produced For Precision Fit & Function; Fits LPA-Cut Dovetails

Provides consistent accuracy through better production methods. Electro-discharge machined from 4140 steel bar-stock, heat-treated to Rc 38-40, then vacuum tempered for added strength. Fits the LPA sight cut found on Springfield Armory, Para-Ordinance, Nowlin, High Standard, Olympic Arms, and Charles Daly 1911 Autos with factory-installed adjustable rear sights. One-piece blade has rounded corners like the old Bo-Mar combat-style adjustable sight, and features two, white, .070" (1.8mm) diameter dots, one on each side of rear notch. Fine-line serrations on the rear face and a rebated square notch for improved, "shadowless" front sight definition and better target recognition. Consistent, click-adjustable detents for windage and elevation give precise repeatability. **SPECS:** 4140 steel, blue, matte finish. Blade - .750" (19mm) wide x .430" (10.9mm) high. Notch is .115" wide x .095" deep.

#100-004-083DF Classic Target Sight, LPA 5A54T49 \$ 69.95

KENSIGHT 1911 AUTO COMBAT CARRY ADJUSTABLE REAR SIGHT

Rounded Blade Edges Won't Snag On Clothing Or Holsters; Oversized Dovetail For Fitting To Loose Slide Cuts

Enjoy the accuracy of a fully adjustable, competition-style rear sight in a package suitable for daily carry. Beveled edges on sight body and radiused corners on blade minimize chances of snagging on clothing or holster. Dovetail fits the Bo-Mar BMCS slide cut and is .010" oversized to allow custom-fitting to slides with loose dovetail cuts. Consistent, click adjustable detents for windage and elevation provide precise, repeatable settings. Fine serrations EDM machined on the rear sight blade surface reduce light reflection to enhance sight pick up in all light conditions. Blade, sight body, and base are EDM-wire machined from high-grade, 4140 billet steel, then heat-treated to Rc 28-32 to retain the extra-tight tolerances. Front hinge pin is hardened to Rc 60 for reliable, long-lasting service without breakage.

SPECS: 4140 steel, blued, matte finish. Fits pistols with the Bo-Mar BMCS rear sight dovetail. Sight dovetail is .010" oversized to allow fitting to loose slide cuts.

#100-004-082DF BM #1 Oversized Rear Sight, 5A54T49 \$ 69.95

TRUGLO 1911 AUTO TFO BRITE-SITE FOR KIMBER

Gathers Light & Illuminates For Maximum Sight Visibility In All Conditions

Tritium/Fiber Optic (TFO) technology combines the self-illuminating properties of Tritium with the light-gathering capabilities of fiber optics to ensure fast sight acquisition in any light conditions from daylight to complete darkness. Precision-machined, steel body provides excellent strength to handle the wear and tear of daily carry or competition. Low-profile design prevents holster snagging. Fits factory dovetails; rear sight includes setscrew for extra-secure installation on slide. Sold in front/rear pairs.

SPECS: Steel, matte black finish. Fiber optic/Tritium rods, green front/green rear (G/G) or green front/yellow rear (G/Y). Fits factory dovetails.

#902-000-117DF TFO Sights For Kimber, G/Y, 2K97A05 \$ 121.99

BROWNELLS 1911 AUTO RIMFIRE CONVERSION CASE

Protects Pistol & Conversion Unit From Nicks & Dings

Protects your favorite 1911 pistol and its .22LR conversion kit from bumps, nicks, and scratches during the trip to and from the range. Generously-proportioned, fully padded rear compartment has plenty of room for the pistol, while the separate front compartment features a padded internal sleeve with a hook-and-loop closure to secure the conversion slide/barrel unit. Four separate sleeves each hold a single-stack .22 or .45 ACP magazine, and there's even room for a few boxes of .22 ammo. This case is built like our Signature Series gun cases with a tough outer shell of water-repelling 1000 denier nylon, heavy-duty YKK nylon zippers with easy-to-grasp metal pulls, a brass D-ring that lets you lock the rear compartment (padlock not included), and a double-stitched ballistic nylon carry strap that fully supports the case by looping all the way around the main compartment. A soft, nylon tricot lining in the rear compartment ensures your pistol comes out looking just like it did when it went in. Leather pocket stitched on the front holds a business card or luggage ID tag. **SPECS:** 1000 denier nylon shell, black or Coyote. 13 1/2" (34.3cm) long, 10" (25.4cm) high, 3" (7.6cm) thick when zipped.

#084-000-337DF Rimfire Conv. Case, Blk 4H29T60 \$ 39.99

#084-000-338DF Rimfire Conv. Case, Coyote 4H29T60 \$ 39.99

EGW 4-CALIBER CARTRIDGE CHECKER

Helps Prevent Jams By Making Sure Each Round Meets Specs Before Shooting

Make sure all your ammo is in spec before you shoot that critical match. One tool lets you check four popular calibers used in practical shooting matches: 9mm, .38 Super, .40 S&W, and .45 ACP. Helps you avoid jams, misfires, feeding problems, and other malfunctions caused by out-of-spec ammo that can cost you precious points—or the whole match. Machined aluminum with check holes precision bored using the same high-quality Clymer reamers EGW chambers its barrels with.

SPECS: 6061 T6 aluminum, anodized, black. 3" (7.6cm) long, 1" (2.5cm) wide, 1 1/4" (3.2cm) high.

#296-000-125DF 4-Cal. Cartridge Checker 6B16A49 \$ 21.95

10-8 PERFORMANCE 1911 AUTO ARMORER'S BLOCK

For Fast, Easy Maintenance, While Protecting Pistol & Hands From Damage

Handy bench block machined from super-tough, glass-reinforced nylon supports 1911 pistol components so you can perform a variety of repair, assembly/disassembly, and accurizing tasks quickly and easily. Securely holds the frame on its side, so you can work on it without risk of damaging the finish. Helps you check hammer/sear engagement, remove hammer strut pin, remove mainspring housing, and holds thumb safety for easy filing of sear stop stud engagement surface. Use to tension the extractor off the slide, so you don't risk scratching the slide, and retain the extractor while filing and honing the claw. Holds the barrel during link pin removal, with blind holes to catch the pins so they don't get lost. You can even place the frame between two blocks and clamp it in a bench vise for slide fitting.

SPECS: Glass-reinforced nylon, black. 4" long (10.2cm) x 4" wide x 1 1/4" (3.2cm) high.

#100-004-369DF Armorer's Block 1B35V96 \$ 44.95

BROWNELLS 1911 AUTO SEAR STONING FIXTURE

Helps You Adjust Primary Sear Angle For A Perfect Trigger Pull

Easy-to-use, hand-held tool retains the sear and positions it so you can stone the contact surfaces at the correct angles to produce a smooth, clean-breaking trigger free from unwanted creep. Helps you produce precise, mirror-finish surfaces for complete, full-width contact with the hammer to ensure reliable ignition while preserving proper operation of the thumb safety. Raising or lowering the fixture's setscrew lets you change sear angle. Fixture body is machined from solid carbon steel for years of service without loss of alignment. Includes a hardened, stainless steel .020" thick shim that prevents you from removing too much material from the sear, and protects the fixture body from wear.

SPECS: Steel, black oxide finish. 3 1/4" (8.3cm) long, 3/4" (1.9cm) wide. Includes .020" thick stainless steel shim and instructions.

#080-000-579DF Sear Fixture, 8K24B99 \$ 34.99

CYLINDER & SLIDE 1911 AUTO BUSHING WRENCH

Integral Shield Helps Prevent Search & Rescue Of Flying Parts

Simple, practical wrench includes an integral shield that blocks the recoil plug from going airborne during bushing removal on Government models and clones. Makes the entire process of field stripping your pistol faster and safer. Heavy gauge steel construction makes rotating even the tightest-fitting bushings smooth and effortless, plus eliminates bending or rounding-off of the bearing surfaces that can lead to slippage. Smooth edges around the entire circumference of the tool make it comfortable in the hand and help prevent marring of the bushing, slide, or plug.

SPECS: Steel, blue, matte finish. 5 1/8" (13cm) long x 1/8" (3.2mm) thick.

#206-000-043DF C&S Bushing Wrench, 6K12P00 \$ 14.99

EGW 1911 AUTO FRAME CUTTER FOR WILSON/NOWLIN RAMPED BARREL

Removes Factory Feed Ramp From Frame; Trues Up Contact Surfaces

End-mill cutter helps you quickly convert a standard 1911 frame for precise fit of a Wilson/Nowlin ramped barrel. Use in a lathe or milling machine to cleanly remove the frame's feed ramp and true up factory flaws found in many frames to allow proper contact with the barrel feet. Helps ensure a cleaner impact surface that prevents excess battering and uneven stresses on the feet for longer barrel life. Manufactured from U.S.-sourced M42 high-speed tool steel blanks for precise cutting surfaces that stay sharp. One-piece design means nothing to work loose halfway through the job. Shank is long enough to clear full-length dust covers.

SPECS: Tool steel, in-the-white. 6" (15.2cm) long, 7/16" (11.1mm) diameter cutter, 1/2" (12.7mm) diameter shank.

#296-000-124DF Wilson/Nowlin Barrel Ramp Cutter, 6B00CHD \$ 60.00

EGW 1911 AUTO PLUNGERTUBE STAKING TOOL

Protects The Tube & Frame From Damage; No Need To Remove Ejector

Two-piece staking tool protects the plunger tube and surrounding frame area with a block of machined Delrin while you spread the pins with the steel staking bar. Eliminates metal-on-metal contact on exterior surfaces to prevent scratches that can mar the pistol's finish. Saves you time, too, because the staking bar has a cutout to clear the extractor, so you can stake the tube without having to remove the extractor. The staking point is a hardened steel screw that lets you adjust the staking depth. When the point wears out, simply install a new screw (spare included) to make the tool good as new. Delrin block has cutouts to support both rounded and square plunger tubes.

SPECS: Steel, black oxide finish, and machined Delrin. #296-000-123DF Plunger Tube Staking Tool, 6B00AYT \$ 25.95

STREAMLIGHT TLR-3 COMPACT WEAPON LIGHT

Ultra-Powerful Illumination With Minimal-Profile

This ultra-low-profile light uses the same system of interchangeable locating keys as the rest of the TLR series to fit a wide variety of pistol receiver rails. Employs Streamlight's C4 LED technology to project a high-intensity, 90-lumen beam that's 2 to 3 times brighter than standard LEDs. Electronic power-control system helps maintain consistent brightness, while the parabolic reflector and Borofloat glass lens produce a focused beam with minimal fade at the edges. One CF2 lithium battery, included, provides 1 1/2 hours of continuous operation and a storage life up to 10 years. Ambidextrous switch offers an instant choice of momentary or steady-on operation. Rail clamp system allows easy, one-handed attachment/removal from the side of the weapon, so hands stay away from the muzzle. Body constructed of reinforced, impact-resistant polymer, with a lens cap of strong, yet lightweight, machined 6000-series aluminum. Waterproof to 1 meter for 30 minutes.

SPECS: Polymer body and anodized aluminum lens assembly, black. 2 3/4" (7cm) long, 1 1/8" (2.9cm) wide, 1 1/2" (3.8cm) high from top of rail clamp to bottom of housing. 2.4 oz. (67g) weight with battery. Fits MIL-STD 1913 Picatinny rail, and includes five rail keys to allow installation on Beretta 90-Two and Vertec, Glock, Kel-Tec PF-9, Kimber TLE/RLII, Sig GSR, Smith & Wesson M&P and TSW, Springfield XD compact and full frame, Springfield 1911, and others.

#100-004-290DF TLR-3 Weapon Light 1K81X00 \$ 135.00

BRIAN ENOS SLIDE-GLIDE FIREARMS LUBRICANT

Protects Against Corrosion & Wear

Extreme pressure greases protect your 1911 from corrosion and wear, and help improve overall operation. Will not attract dust like conventional lubes. **Standard** is a medium viscosity grease for temperatures of 60° F (16° C) or higher. Not recommended for compensated pistols, .22 rimfire, or revolvers. **Lite** is a thin viscosity grease for temperatures 30° F (-1° C) or higher. Works well in non-compensated and compensated pistols, including .22 rimfire. Blended specifically for maximum reliability in all "IPSC Open guns" and service pistols.

SPECS: 1/2 fl. oz (15 mL) tube. #100-004-080DF Slide-Glide Standard 3K06T69 \$ 7.99

**FIND TIPS TO
REPAIR, CUSTOMIZE
& MAINTAIN
YOUR GUNS**

Presented by our expert Gun Techs and product specialists, Brownells online videos are packed with invaluable information for the gunsmith, hobbyist, and shooter. View product demonstrations and installations, plus how-to videos for the latest new products, as well as your old favorites. Stay better informed about how to care for your firearms, their parts, and accessories. Watch our videos today at Brownells.com, and check back regularly to see what we've added.

Visit brownells.com

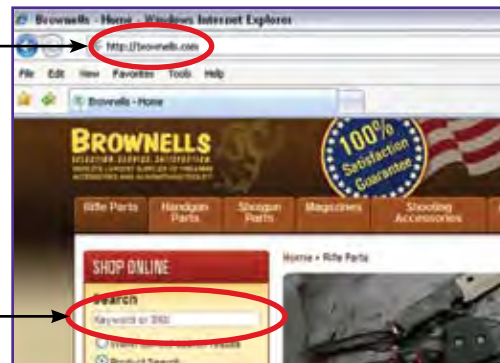

Shop online at brownells.com

It's Simple, 100% Secure, and now
Faster than ever. Here's how:

Ordering an item from the Brownells Online Store is fast and easy. For example, let's say you are looking for J-B® Bore Bright.

- 1 Open your web browser and type **brownells.com** in the address box to access the Brownells website homepage.
- 2 In the **Search** box, type the product name or stock number (from your Brownells catalog) of the item you wish to find. Click the **Search** button. Your search results will appear. Click on the product image to view the product page. If you do not have the stock number or know the name of your item, you can also browse by category using the top tabs or left navigation menu.
- 3 Scroll to the bottom of the product page to view the **Stock Number, Description, Quantity, and Price**. If there are specific restrictions for the product, these will also appear under the **Notice** link. If you wish to purchase the product, click the **Add** button. The merchandise will automatically be added to your Shopping Cart. You can also add them to your Wish List or Favorites for fast re-ordering.
- 4 When you are finished shopping, click the **View Cart** link at the top right-hand corner of the screen to begin the Checkout process.
- 5 The Checkout screen allows you to view all selected merchandise in your Shopping Cart, modify your order, if needed, and confirm your order total. When you are ready to checkout, click the **Checkout** button.

Just \$11.50 to ship your order anywhere in the United States including Hawaii, Alaska, Puerto Rico and U.S. Virgin Islands. Fill your order with as many items as you can (limit 5 lbs.), it's still just \$11.50.

With our **One-Rate**

Shipping Program, our Order Takers can give you your complete total at the end of your call. No guessing at total shipping charges. **It's \$11.50**

• Back Order Shipping Charges are **FREE!** Back Ordered items will be shipped by **Standard** service.

You also have three more great options for delivery:

• **2nd Day Shipping** - For just \$12.00 more (total of \$23.50) you can upgrade to 2nd Day Shipping for faster service at a low, low price.

• **Next Day Air** - If you really need your order in a hurry, it's just \$39.50 total to get your order there the very next day.

• **Special Small Package Rate** - For only \$5.25 you can ship any order that weighs 13 ounces or less.

From our total 30,000+ products, there are some items that are just too heavy to fit into this program. You'll find these products listed in the Yellow Index section of this Catalog.

CUSTOMER PRIVACY & SECURITY POLICY

When you do business with Brownells you don't have to worry that your personal information will become common knowledge because we value your trust above all. Our privacy and security policy is very simple. **We do not sell, distribute or give out customers' names or other private information to anyone at any time.** It has always been our policy to hold all customer information in the strictest confidence.

When you decide to use your credit card to pay for any purchase, your credit card and personal information are completely safe, and private, with us. Credit card security for our Website is handled by VeriSign, Inc., the world's leading provider of digital trust services. We make use of the latest 128-bit security encryption technology any time we ask for your name, address, e-mail address, credit card info or telephone number. Our servers are equipped with the latest dual application firewalls, hack detection and anti-virus technology to make certain your private information stays private and secure.
